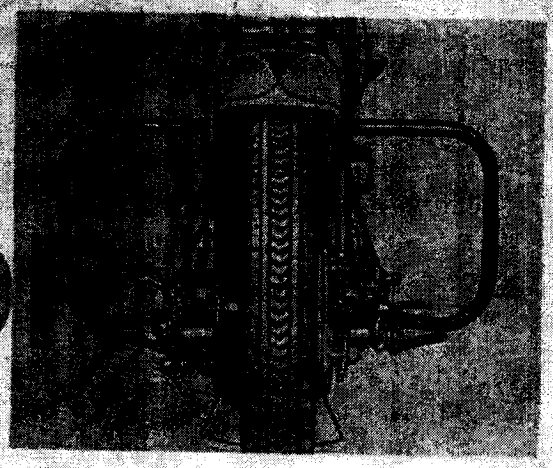
BETTER THAN INSURANCE

THE SAFETY GUARD



Without question the Safety Guard is the most outstanding accessory ever designed for the motorcyclist. Unbelievably strong, it prevents injury to either rider or motorcycle in nearly any kind of spill or accident. It pays for itself many times over in eliminating repair bills.

The Safety Guard has the unqualified endorsement of every rider who has used it, and the hundreds of letters we recieve about the serious injuries it prevents would convince anyone of its great value to the rider.

Endorsements are on file from the heads of some of the largest police organizations, whose records absolutely prove the great value of the Safety Guard. Fully covered by patents.

			Code

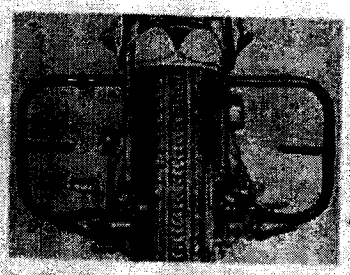
*This is a special safety guard, made so that a sidecar can be attached or detached without disturbing the safety guard.

REAL "RESTS" for YOUR FEET



The rider who takes many long rides will surely appreciate these extra rests for his feet. They clamp around the Safety Guard at the sides, as shown, and enable the rider to change his riding position and still keep full control. They can be placed in any desired position.

These foot rests are very husky and strong. They will last as long as the motorcycle. Can be folded up when not in use.

		Code
11286-34—Pr. Footrests for Safety Guard	$1.75	burzi

FOR THOSE WET STREETS

These Splash Shields are designed to slip over the Safety Guard to shield the driver's feet and legs from water thrown up by the front wheel. They are fine on a cold day, too, as they shut off the cold wind from the feet and lower legs.

The Splash Shields are made from a very strong waterproof fabric that will give long service. They are constructed so they are adjustable to any style and shape of Safety Guard. Can be put on or taken off in a jiffy.

		Code
13050-X—Set Splash Shields	$2.50	borko

FOR RESEARCH PURPOSES ONLY

NEW SILVER WING SWEATER

This brand new Silver Wing Sweater is very reasonably priced, but is one of the best sweaters we have ever had. It has plenty of wool in it to make it warm, and is just the right weight to suit the motorcycle rider. The Baby Shaker knit gives it great strength and wearing quality.

The color is the new Ching Blue, with no trimming, making it a fine looking sweater. The new U V neck style is very popular. Each one has our beautiful silver winged monogram attached. Sizes 32 to 48 inclusive.

Code

11030-X—Ching Blue Sweater.....$4.95 bixko

THE VERY FINEST SWEATER

The many excellent features of this sweater make it one of the best money can buy. It is closely knit from the finest long staple, all wool yarn, in the Baby Shaker style, giving it fine appearance, long wear, great elasticity, and plenty of warmth. Fully guaranteed against ripping or premature wear.

The Zipper collar idea makes this sweater ideal for the motorcycle rider. It can be changed at will from a V neck style to a warm turtle neck, or any point in between. The collar fits nicely whether open or closed.

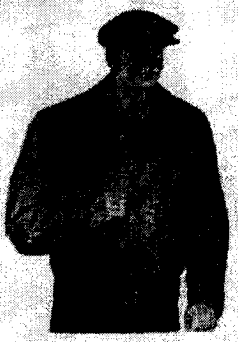
The color is a beautiful maroon, with our silver winged emblem attached. Sizes 32 to 48 inclusive.

Code

11033-34—Zipper collar sweater.....$4.85 byriw

Special colors for clubs can be obtained in either one of these sweaters. Special lettering can also be taken care of at reasonable cost.

WIND PROOF JACKETS BADGER SUEDE



This is a very good jacket at a low price. It is a fine looking jacket, and very practical. It is made from two layers of cloth, with several heavy coats of rubber cement in between. This construction makes it waterproof and windproof.

The outer layer of cloth is a light brown cloth suede, and the inner layer has a finish similar to a sheep skin lining. The jacket is very durable. It can be washed in warm—not hot—water with a mild soap. Sizes from 36 to 48 inclusive.

Code

11085-X—Badger Suede Jacket.....$4.75 bopux

REAL LEATHER SUEDE

This genuine leather suede jacket is the style so popular with every one. The knit collar, cuffs and waist band make it a fine windproof jacket for riding. Has zipper front and two roomy pockets. Lined with sateen.

This is a very high quality jacket, made from high grade leather suede that will give good service. It is a dark brown, cocoa color. Sizes 36 to 48 inclusive.

Code

11086-X—Cocoa Suede Jacket.....$7.95 bopvy

WIND PROOF VEST

This form fitting, leather suede vest will be appreciated by any one. It is very light weight, yet absolutely windproof. Made of high grade, champagne suede leather, with two pockets, and a zipper fastener. Has two take-up straps at the waist.

You can wear this under a dress coat, like a regular vest, or on the outside. It is very snug fitting and comfortable. Sizes 36 to 48 inclusive.

Code

11087-X—Champagne Suede Vest....$4.65 bopxa

FOR RESEARCH PURPOSES ONLY

TAKE YOUR FRIEND ALONG ON THE "BUDDY SEAT"

The Buddy Seat provides the safest, most comfortable, and most practical means of carrying an extra passenger on a solo motorcycle. It has been received most enthusiastically by motorcycle riders everywhere. Thousands are in service.

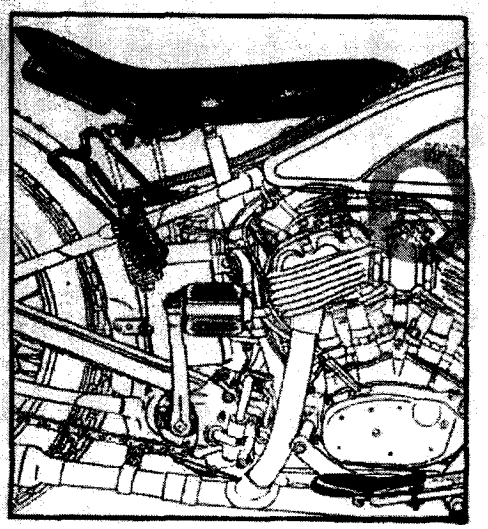
With a Buddy Seat you will find it just as easy to handle your motorcycle with an extra passenger as without. Over good roads or bad, at high speeds or slow, you will find a Buddy Seat the most satisfactory passenger carrying accessory.

This seat is well cushioned with sponge rubber, covered with full grain leather that is well waterproofed. You will find it the softest seat you have ever used, and it is almost impossible to wear it out.

It is made in our own plant and guaranteed by us.

Showing the Buddy Seat in Service

An auxiliary set of springs is provided to compensate for the weight of the extra passenger. Provision is made for engaging or disengaging these extra springs quickly, as desired. All rattles are eliminated.



Details of the New Buddy Seat

So that the passenger does not interfere in any way with the operation of the motorcycle, separate hand holds and footboard extensions are provided. These separate hand holds and separate footrests, and the fact that the passenger rides behind the driver, should make the Buddy Seat legal in your community.

The best news of all is the low price charged for the Buddy Seat.

		Code

FOR RESEARCH PURPOSES ONLY

FINE CLOTH HELMETS

Harley-Davidson cloth helmets are cool, comfortable and easily cleaned. Made of soft, closely woven drill, they fit smoothly and snugly, without gathering at the seams. The nifty 3¼ inch wing emblem, shown in the illustration, is woven on a white background. Sizes small, medium, large.

		Code
11060-TW—White, with wing emblem	**$0.95**	byvew

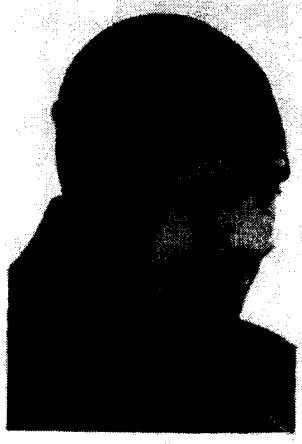
LEATHER HELMETS for Summer

For summer riding, nothing equals a helmet. Harley-Davidson leather helmets are soft and pliable, snug fitting and very smart appearing. They are made in small, medium and large sizes. Adjustable chin strap and handy goggle straps. Available in the following styles:

		Code
11065-XB—Black glove leather, unlined	**$2.00**	bahag
11065-XW—White glove leather, unlined	**2.25**	bahci

LINED LEATHER HELMETS



Harley-Davidson lined glove leather helmets are made with the neat and close fitting front to rear seam style. The sheep lined helmet, with its soft, thick sheepskin wool lining throughout is the favorite for real cold weather. Many prefer the chamois lined helmets for year round service. Sizes small, medium and large.

		Code
11063-X—Black Sheeplined	**$3.00**	baqyd
11064-X—Black Chamois lined	**2.75**	baqze

MADE FOR MOTOR CYCLING
IN WET OR COLD WEATHER

HARLEY-DAVIDSON EVERDRY RAINSUIT

This is the only rain suit that we know of that will keep ALL the rain out under any condition. The tough cloth is two layers, well cemented together, all seams are taped and cemented, and the seat and knees are double. The water cannot get thru the diagonal front opening, because it won't run up hill, and the collar can be pulled up tight enough to keep out every drop.

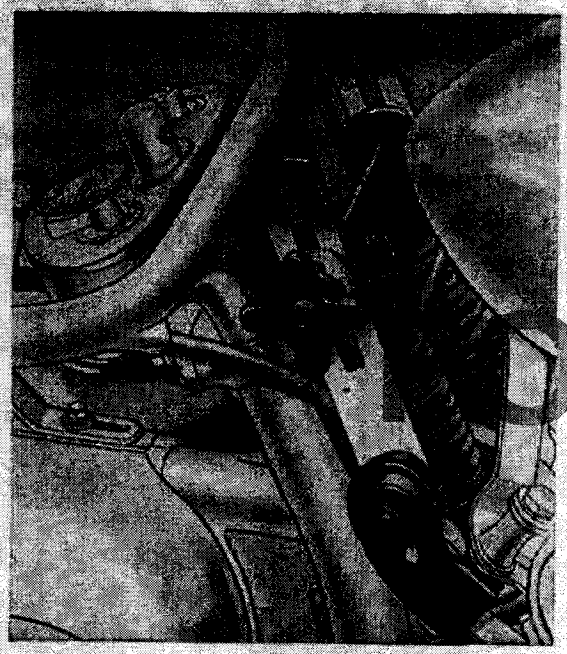
This suit was designed as a result of long experimentation in ways to keep dry—while driving—in bad weather. Besides the protection from rain, it is ideal for keeping out the cold—the wind can't get thru it. You will find one of these suits a very good investment.

1—Ventilators under each arm. 2—Shoulder flap snaps down tight over front opening. 3—Military style collar makes fine appearance. 4—Adjustable strap on collar so you can pull it up snug. 5—Diagonal front opening keeps out ALL the water. 6—Pockets roomy and waterproof, entrance to inside clothes through side pocket. 7—Double seat and knees. 8—Elastics under instep. 9—Extension over shoe laces. 10—Straps at wrists and ankles keep suit tight at these points.

Size	Chest Measure	Height to
Small	36 to 38 inches	5 ft. 6 in.
Medium	40 to 42 inches	5 ft. 8 in.
Large	44 to 46 inches	5 ft. 10 in.
Extra large	48 to 50 inches	6 ft. 4 in.

		Code
11095-X—Khaki rain suit	**$11.50**	baiho

FOR RESEARCH PURPOSES ONLY



SAFETY AT HIGH SPEEDS

This Ride Control controls absolutely the action of the front fork springs. The adjusting range enables you—while riding along—to set the Ride Control at any point from a completely free and easy working spring action to a locked and rigid fork.

Just turning the hand wheel adjusts the spring action to the road you are traveling. All the bounce is taken out of the front wheel, and you can travel safely at high speeds on roads that are otherwise too rough for fast riding. Fits all 1931 to 1934 twins and C singles, and all 1930 models equipped with a single headlight.

		Code
11250-30—Ride Control	$4.75	biwxa

THE HANDIEST ACCESSORY

The Jiffy Stand supplied for 1930 to 1934 models has a very desirable safety feature. If the rider forgets to kick up the stand when starting, this new Jiffy Stand is designed so that it will immediately fold back into place when striking the ground or any obstruction. Thus the Jiffy Stand will not upset the rider even though he forgets to kick it back into place when starting off.

		Code
11331-X —Fits 1929 and earlier big twins with 27" or 28" tires	$3.00	bekdr

MORE POSITIVE STEERING

This simple, lever operated steering damper, designed and built by Harley-Davidson engineers for Harley-Davidson motorcycles exclusively, will take all the whip out of steering at any speed. It is particularly desirable for extremely high speed riding, and for sidecar use.

The cross section view at left shows how this well made, neat appearing steering damper is attached. When the lever is moved to the right the tension is increased, and when moved to the left the tension is decreased. It is so designed that the lever will remain fixed at any adjustment desired.

Easy to operate, absolutely safe, cannot lock.

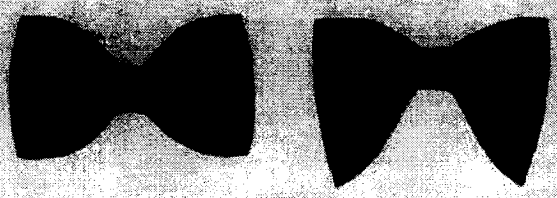
RESEARCH PURPOSES ONLY

REAL LEATHER TIES



Leather ties are very practical for the outdoor man. Their appearance is not affected by dust or rain, as they stay in shape and look well under all conditions. When dirty they can easily be cleaned with a dry rag.

The genuine leather bow ties we offer are very high grade ties, of much better quality than the average. The material in them is of the best, they are very carefully finished, and are fitted with high grade elastics. They make a fine appearance.

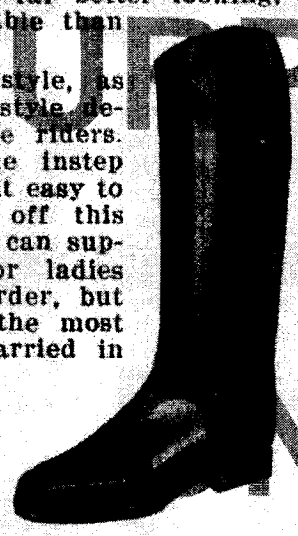
The styles we have to offer are the Standard, either in the plain black, or in colors with the dots, and the Pointex in plain black.

Code

11029-34—Bow tie (specify choice) $0.[illegible] belao

BOOTS MOST PRACTICAL

Riding boots not only make a fine appearance, they are very practical for the motorcycle rider. The high grade boots we list are actually lower priced than a pair of good shoes plus a pair of puttees. They are far better looking, and more comfortable than puttees.



The field boot style, as illustrated, is the style desired by motorcycle riders. The lacings at the instep and the calf make it easy to put on and take off this style of boot. We can supply dress boots or ladies boots on special order, but the field boot is the most practical and is carried in stock.

Harley-Davidson boots are made from high grade calfskin that will give long service. They are fully lined and have excellent soles. Can be supplied in sizes 6 to 12, and all standard widths. Get your proper measurement from your shoe dealer. Stocked in black only.

Code

11090-34—Field boots ..... $12.50 buryh

CLEAR VISION AND SAFETY

Only the clearest, non-shattering lenses obtainable, those free from all defects, are used in Harley-Davidson goggles. Therefore these lenses are not only absolutely SAFE—they also prevent eye strain.

The lenses are held in highly polished aluminum frames which are strongly sewed to a closely woven, durable, light weight tan cloth. The high grade elastic band is double adjustable, and is fastened with grain leather tabs.

These Goggles Are Fully Guaranteed.

Wideview

This new model has the popular drop eye design which gives excellent range of vision. It is fitted with a leather hinge and represents a wonderful value at the price.

Code

11059-X —Wideview goggles, Chenille binding, pair ..... $2.25 baelo

11045-X —RB Wideview, with plain rubber binding, pair ..... 2.50 bivor

11059-XA—Extra lenses, pair ..... 1.25 badwy

Safespeed

This model has specially shaped lenses which afford even wider range of vision than the Wideview model. This high grade goggle has a new metal hinge and built-in ventilators in the ends of the frame. Will fold double.

Code

11058-X —Safespeed, pair ..... $3.50 baekn

11058-XA—Extra lenses, pair ..... 1.75 badsu

R. M. Safespeed

As shown in the picture, this goggle is the same general shape as the Safespeed. Instead of the heavy chenille binding used on the Safespeed this style is fitted with a molded rubber mask.

The rubber mask type is preferred by many because the protection from dust or wind is 100%, there is absolutely no chance of either getting through or around this goggle. The mask is soft, form-fitting and comfortable. Ventilation is provided.

This type can be worn over an ordinary pair of glasses. Formerly sold for as much as $7.00.

Code

11043-X—R. M. Safespeed, pair ..... $4.50 bivmo

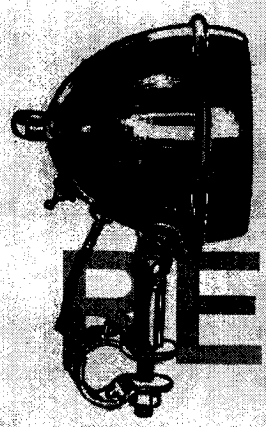
FOR RESEARCH PURPOSES ONLY

BUY "KAY-BEE" SPOTLIGHTS

A good spotlight, or a pair of them, is mighty nice for night driving, especially on a strange road or a poor one. Besides illuminating the road for a long way ahead, they are handy for picking up road signs, etc. They are also very convenient in town for finding house numbers or street signs.

Kay-Bee spotlights are known to nearly every motorcyclist as the finest small spotlights. They stand up extremely well in service and give more illumination for their size than any lamp we know of. They are very good looking, too.

FOR RESEARCH PURPOSES ONLY



"Little Beauty"

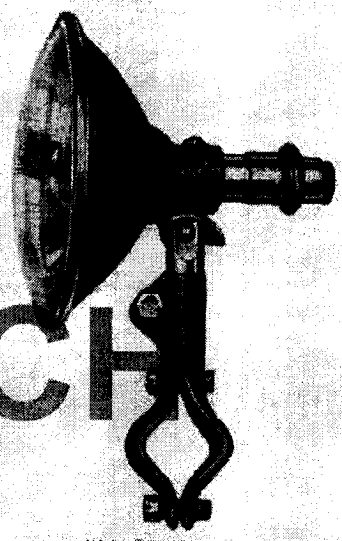
This Little Beauty is a bullet type spotlight that you are bound to like. It is built very substantially, has an exceptionally strong bracket, and will give you excellent service. Has a good switch in the body and a handle for turning in any direction.

		Code
11366-30	$6.00	benof

"Competitor"

The Competitor model shown is the same as the Little King described at the right except for the extremely low brackets. This style bracket is preferred by some riders.

		Code
11367-X	$4.50	benno



"Little King"

The Little King has always been very popular. It is well constructed mechanically, swings in any direction, and will stand up in hard service. Has a good switch in the handle. Fits any place on the handle-bar or crossbar.

		Code
11366-X	$4.50	benja

SPECIAL PRICES IN SETS

The best way to buy spotlights is in pairs with a crossbar and toggle switch. As a special offer we are quoting the prices listed below on a combination consisting of two spotlights, a handlebar crossbar, and a toggle switch with wiring. This makes a fine looking and very useful combination.

The crossbar we supply is the very fine fluted crossbar, with the chrome plated flutes and colored lacquer inserts. The switch is described below. The combinations we supply are as follows:

		Code
11368-30W—Little Beauty Combination	$13.50	bojli
11368-XW—Little King Combination	11.75	bojhe

The regular prices of these combinations, if the different items are bought separately, would be $16.50 for the first and $13.50 for the second. You make a nice saving on either.

This toggle switch is made up like our handlebar light switch, except that it fastens on anywhere without drilling screw holes. With wiring complete —Chrome plated.

		Code
11370-29	$1.00	bensi

REALLY COLD PROOF

Sheeplined! For cold weather riding comfort nothing can equal these warm, comfortable sheepskin lined gauntlet mitts. They are specially designed for motorcycle riders and will keep the hands warm in the coldest weather. The soft, thick sheep's wool lining extends way out into the wrists of the cuffs.

Full Mitt Style

These mitts have tough black horsehide hands and strap leather cuffs. Made in the full mitt style, as shown, and in the one finger style. Sizes small, medium and large.

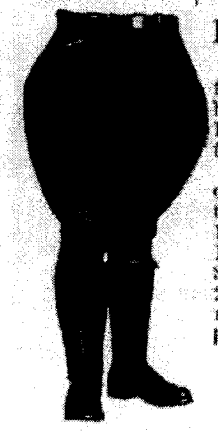
		Code
11078-X—Full mitts (as shown)	$3.85	bolgn
11077-X—One finger mitts	4.15	baiel

WARM IN ANY WEATHER

These warm and roomy handlebar muffs are lined thruout with thick sheep's wool. The metal clamp on the front holds them securely to the bars. Light and horn switches as well as front brake lever are operated from inside the muffs. The leather surface keeps out the cold and they are long enough to keep out the cold without wearing gauntlets.

		Code
11083-30—Per pair	$4.20	bairy

HORSEHIDE BREECHES



These breeches are made from the best black horsehide, and are fully lined. It is just about impossible to wear them out.

They are as finely tailored as a cloth breech, have the full peg top, and are laced below the knees. Made with five pockets. Supplied in waist measures 28 to 42 inclusive, in even numbers only.

		Code
11068-X — Black horsehide breeches	$12.50	bahio

THEY DON'T WEAR OUT

Slip on gloves, as shown above, are ideal riding gloves, except in extremely cold weather. They are very comfortable, slip on or off quickly, and can be carried in your pocket easily.

Made from the finest black horsehide, in soft glove leather, it is almost impossible to wear them out. They are not to be compared to ordinary gloves, as they will out wear many pairs in hard service.

The unlined gloves are great for warm weather, as they are very cool and comfortable. The lined ones have a good fleece lining that feels fine on a cool morning or evening. Even the lined ones are not bulky. Sizes 7 to 11.

		Code
11080-X—Unlined slip-on gloves, pair	$1.95	balip
11080-34—Lined slip-on gloves, pair	2.35	bosyd

These are also supplied in high grade buckskin, not lined.

11082-X—Buckskin gloves	$2.60	biwyb

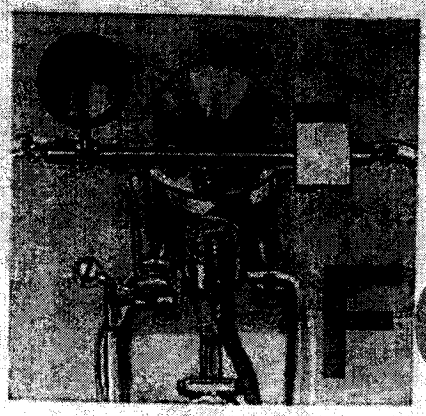
For those who prefer gauntlet gloves, we have what we believe are the best that you can buy. The hands are made from the same soft, but tough, high grade horsehide as used in the slip on gloves. The cuffs are real leather, with a pebble grain finish. As shown in the picture, these will fold right up for carrying, without hurting them.

For warm weather, these are supplied without lining. They are also supplied with a good fleece lining for cooler weather. Both have take-up straps at the wrists. Sizes 7 to 11.

		Code
11081-X—Unlined gauntlet gloves	$2.85	baiks
11081-34—Lined gauntlet gloves	3.35	baipy

FOR RESPECT PURPOSES ONLY

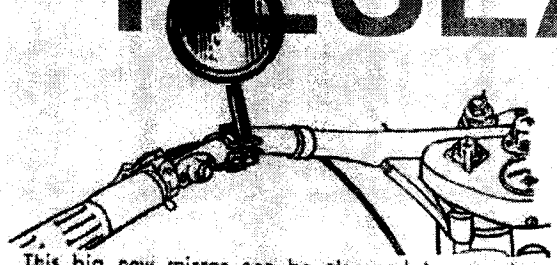
FOR THAT EXTRA LAMP, Etc.



One of these handlebar crossbars provides the ideal mounting for that spotlight and other items. It is made from steel tubing with four rounded grooves formed in the steel. Each groove is lacquered in a bright color and the rest of the crossbar is a highly polished chromium plate. This combination makes a beautiful job that is light but very strong.

		Code
11359-XB—Handlebar Crossbar	**$3.50**	bendu

DON'T LOOK BACK

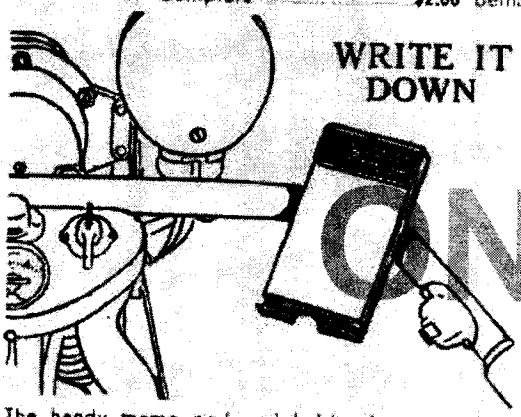


This big new mirror can be clamped to your handlebars in just the right position to give you a clear, uninterrupted view of the road behind you. No need to take a chance on turning your head to see oncoming traffic.

Very substantially made with black enameled steel frame and bracket, and 3x—mirror glass. A ball and socket joint gives adjustment to any desired angle.

		Code
11350-X—Mirror Complete	**$2.00**	bemap

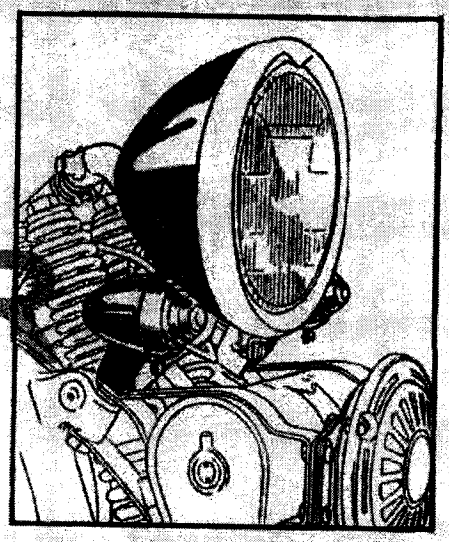
WRITE IT DOWN



The handy memo pad and holder is a very handy accessory for the commercial driver to use for his list of calls, for the Mounted Officer to list stolen car numbers, etc., or for route lists on an endurance run or a long trip. Mounts nearly anywhere on the handlebar so it can be seen easily when you drive along.

		Code
11795-X—Memo Pad Complete	**$0.50**	boay
11795-XA—Paper Refill	**.05**	blafo

MADE FOR YOU



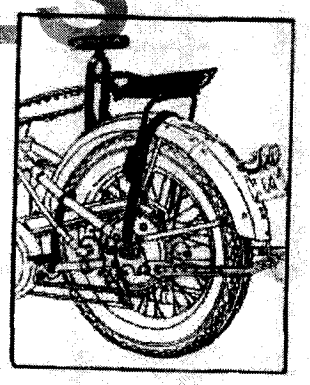
These sturdy parking lights match up well with the headlight and make a fine looking combination. They are fitted with beehive lenses so they can be seen from the side as well as the front.

Parking lamps are obtainable in different finishes to suit the individual taste. They fit 1931 and later models.

		Code
11400-X—Pr. Black and Chrome with white lenses	**$2.75**	bervo
11402-X—Pr. All Chrome with white lenses	**3.75**	bipyv

(Either of the above can be supplied with red or green lenses at $0.50 extra.)

VERY EASILY HANDLED



The simple Harley-Davidson tandem was designed particularly to give easier riding comfort for the passenger and easier handling for the driver. The seat centers over the rear axle and is adjustable up or down to suit the load.

		Code

11075-XB—Pocket belt, with binding	3.50	bahov

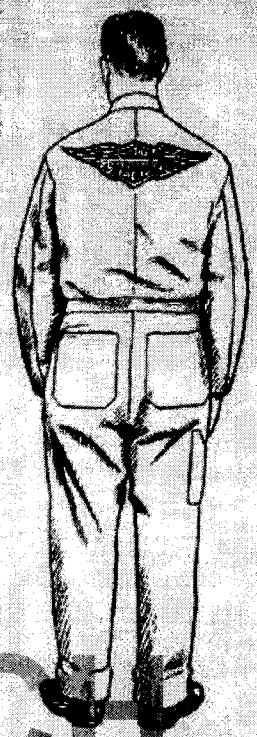
FINE POLICE MODEL PUTTEES

These fine full grain cowhide puttees are the favorites with motorcycle riders everywhere. They take a high polish, keep their shape, and will look well for a long time.

They are fitted with the double prong spring front, and come in even sizes from 14 to 17, calf measurement. They will give you fine service.

11091-X—Puttees ..... $5.25 Code bajem

STRONG Well Made COVERALLS



Harley - Davidson coveralls are fully guaranteed to be first class and will give an excellent account of themselves. The materials used are the best of their kind and the workmanship cannot be beat. While you may be able to buy coveralls at lower prices, you will not get better ones. Sizes are 34 to 50.

The pre-shrunk white herringbone cloth used in the white coveralls is tough and durable, and will stand a lot of rough wear. The Harley - Davidson winged emblem on the back makes this a very good looking suit. Snap buttons are fitted for convenience.

The hickory stripe material used in the darker suit has always been popular. It does not show dirt, and is very strong and long wearing. As in the white suit, snap buttons are used, and the winged emblem appears on the back.

		Code
11760-X—Hickory Stripe Coveralls	$3.50	bluwa
11762-X—White Coveralls	3.80	blyem

IT'S DIFFERENT!

The Harley-Davidson Handlebar Grip Lighter

(One-half actual size)

Here's the cigarette lighter that everybody wants. It is shaped exactly like a real Harley-Davidson handlebar grip. Pocket size, 2⅞ inches long, with brightly chrome plated cap. Not a toy, but a real lighter that always works. Has an extra long, removable flint. You will agree that this is the best lighter you have ever had.

At Reduced Price

		Code
11789-X—Cigarette Lighter	$0.50	bloed

YOU WILL LIKE THIS

This flipper fits any standard pack of twenty cigarettes. The sides of the flipper slide easily into the package and hold the flipper securely in place, at the same time keeping the package in shape so that the cigarettes cannot become broken or crushed.

All you have to do to open the package is squeeze the edges of the pack with a slight pressure. When the cover is again snapped shut, no tobacco can spill out into the pocket.

This Harley-Davidson Cigarette Flipper is new and different. A really practical novelty. Finish is a beautiful dull bronze.

		Code
11788-X—Cigarette flipper	$0.25	blurv

		Code
2818-17—For big twins	$4.75	ajvei
2818-26—For single and 45" twins	4.75	arsai

PROTECTS LEGS AND FEET

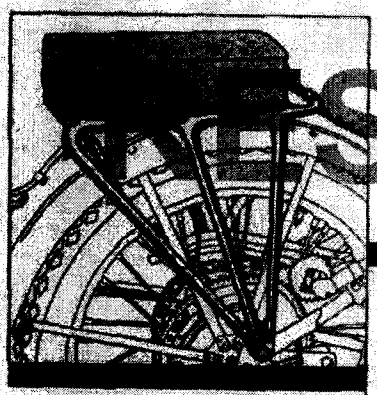
Enjoy motorcycling in any weather with one of these lap covers. Your legs and feet are fully protected from wind and rain as well as from splashing.

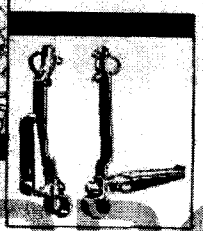
This legshield and lap cover can be snapped on or off in a jiffy. When not in use it can be rolled up compactly and carried in the side-car or saddle bag.

Made of weather-proof fabric with turned and sewed edges. Strong, durable and very practical. Will last as long as the motorcycle. While it affords adequate protection to the lower part of the body, it does not interfere in any way with the controls.

		Code
11320-X—For all models	$5.50	bejam

A SPRING SEAT FOR THAT EXTRA PASSENGER





This spring cushion fits right on the regular luggage carrier and carries your extra passenger comfortably. It is filled with eight double cone springs attached firmly to a hardwood base. The covering is a long wearing waterproof fabric.

These strong, folding footrests are adjustable to fit any model and make a safe, comfortable place for the passenger's feet.

		Code
11285-X —Spring Cushion	$4.00	begen
11286-30—Pair Footrests	2.50	belet

TO FIX YOUR FRONT TIRE

This front stand is very useful when the front wheel must be taken off.

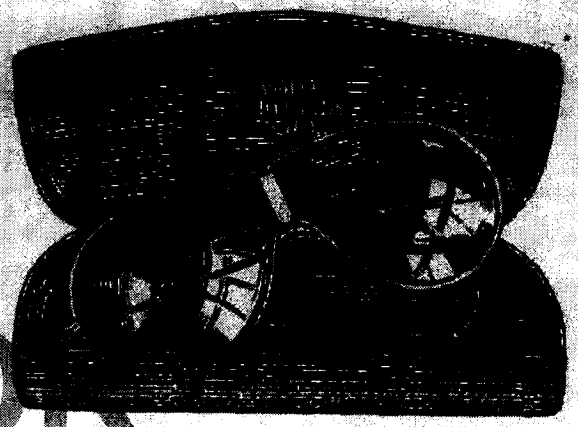
11053-XA—Extra lenses, pair	.60	bajir

SILVER WING MONOGRAM

Beautiful silver wings, on an orange Harley-Davidson emblem, makes this a fine appearing emblem for a sweater or other garment. This is embroidered in silk on a felt pad so it can easily be attached wherever you want it. Nearly eight inches wide.

		Code
11766-XW—Sweater emblem	$0.50	biwil

THE VERY BEST SPORT GLASS



The low prices on these sport glasses will enable you to own a pair of the finest glasses made for motorcycle service.

Sturdily constructed, with strong metal rims, heavily plated in gold, these new glasses are designed to fit lower over the eyes, thus giving better protection against wind, dust and dirt, as well as sun glare.

The lenses are wide and deeply curved. Made of optical glass to prevent eye strain. Available in clear, blue, light amber, light smoke and light fleuzel. The medium and dark shades are also to be had on special order. Price includes case.

		Code
11051-XB—Daylight blue	$1.75	bihla

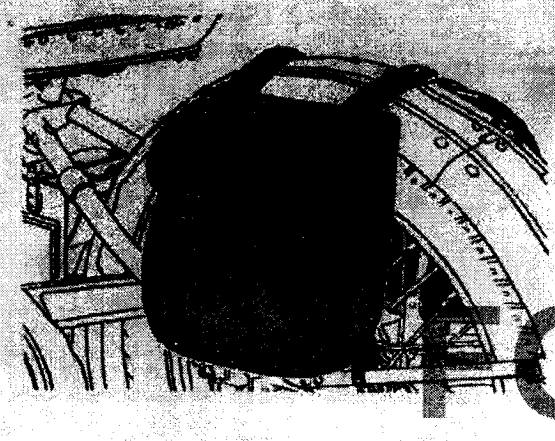
HERE IS WHERE TO CARRY YOUR EXTRA ITEMS



Every rider wants to carry along a rain suit, and other extra items, especially on a trip of any distance. Harley-Davidson saddle bags are ideal for the purpose, as they have capacity, and are made to fit on a motorcycle.

These bags are made from well tanned, soft and pliable, cordovan horsehide—the best wearing leather that we could select for the purpose. Rugged straps are provided to hold the bags at the top, and for anchorage at the bottom. These saddle bags will fit equally well over the rear fender, as shown, or attached to a Harley-Davidson luggage carrier.

		Code
11788-X—Pair of saddle bags complete	$6.15	boama
11789-X—One bag complete	3.20	boaoc

SHEEPSKINS ARE VERY COMFORTABLE

One of these soft, wooly sheepskin saddle covers will add greatly to your riding comfort. All are made from skins selected for the long thick wool, and clipped evenly to make softer cushions. They will fit 1934 or earlier saddles.

The ONE PIECE sheepskin, 11352-X, is available in four good looking colors; white, blue-gray, natural, black or beaverized. Specify the color wanted. Made from one piece and has no seams or ridges.

The PIECED sheepskin, 11352-XP, is carried in two colors, light tan or beaverized.

The BUDDY SEAT sheepskin, 11352-XB, is made from several pieces. It is carried in both light tan and beaverized.

		Code

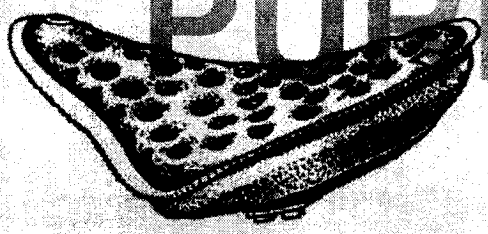
11352-XB—Buddy Seat sheepskin	2.95	bojax

THE SOFTEST RIDE YOU EVER HAD



No other cushion is quite so soft as an air cushion. This cushion is designed so that it will fit well on a 1934 saddle or on an earlier model.

The rubber air cushion has the advantage of being waterproof. It should be inflated with the mouth to prevent over inflation. Can be patched in case of puncture. Tufted design provides necessary air circulation.

		Code
11787-XD—Rubber seat cushion (Black or Red)	$2.50	bosty

WE ADMIT THAT THIS IS THE WORLD'S BEST SEAT

Once you ride one of the new 1934 Harley-Davidson rubber cushioned saddles you will agree that it is the finest motorcycle seat made. Designed by motorcycle engineers who ride, and manufactured in our own plant, it just can't help but be good.

Has a strong pressed steel base, with thick sponge rubber padding, covered with real horsehide leather. Will last for years, without losing its softness. Shaped just right for comfort.

3181-25—Saddle only—to fit all other models since 1925	7.00	auyia

FANCY KEYS ARE VERY POPULAR

Every rider likes to use fancy switch keys, because they are so prominent and show up so well. Those we show here are made from our own standard switch keys, and we know that they are OK in every respect.

The KEY KNOBS are made of an onyx-like composition that does not break and is not inflammable. The knobs are connected by a multi-colored, braided leather strap. They come in six beautiful colors:—clear onyx, tan onyx, blue, yellow, red and green. Specify colors wanted when ordering.

DICE KEYS have always been very popular. They are composition dice, mounted on regular switch keys and connected by a genuine leather, braided strap of several colors. Supplied in red, yellow and white.

LINKED KEYS cost so little more than a pair of standard switch keys, that it hardly pays for any rider to buy keys only. The set consists of two standard switch keys connected by a braided leather strap made of several colors. Polished metal knobs on the ends of the strap to keep it in place.

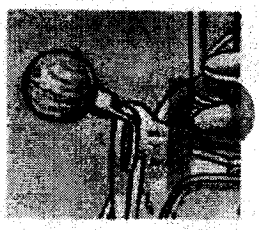
COLORFUL GEAR SHIFTER KNOBS

Dice Shift Knob



Round Shift Knob

These beautiful gear shift balls will fit all 1931 to 1934 style gear levers. For older models it has some matter to fit one of the new levers to which any style ball can be fitted.

The DICE SHIFTER KNOBS are very attractive and will get attention everywhere. They are made from an almost unbreakable, onyx-like material, with the spots pressed in. Offered in three very good looking colors: Red, white and yellow. The spots are black.

The ROUND SHIFTER BALLS are also made from the same tough material. Available in four very good looking colors: Red, white, yellow and blue. They are just the right size.

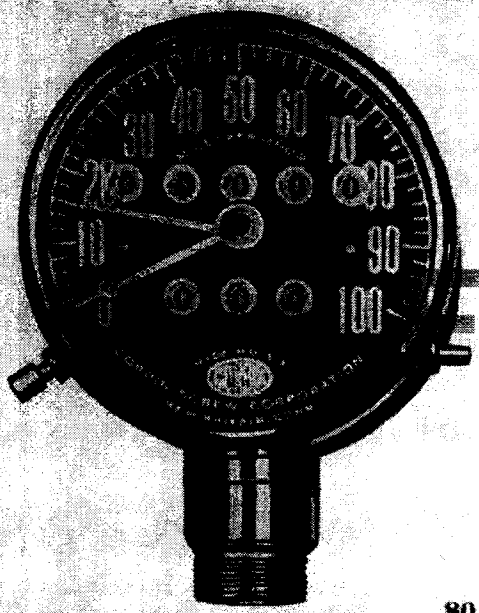
HOW FAST WERE YOU GOING? . . . YOU CAN PROVE IT!



The Corbin, centrifugal principle speedometer is recognized as being the most accurate and dependable speedometer that you can buy for your motorcycle. The 100-mile type is fitted with an auxiliary hand that automatically registers your top speed and remains at that point until tripped.

All models of Corbin Speedometers are equipped with the standard speed indicating hand, a trip odometer that you can set at zero at a moment, and a total mileage register. Every instrument is carefully calibrated to insure accuracy.

The axle drive unit for Big Twins is a wonderful improvement that does away with all exposed gears and the need for adjusting the drive mechanism. Driven direct from rear hub.

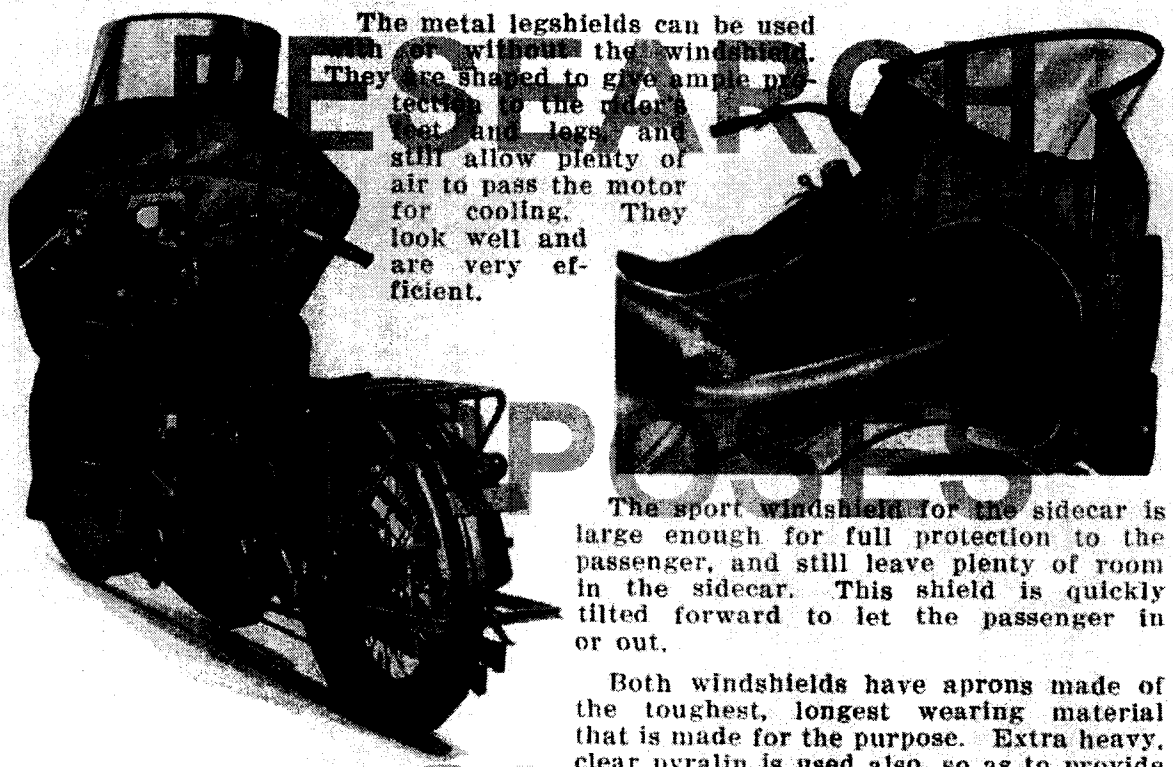
ALL WEATHER PROTECTION WITH THESE SHIELDS

Harley-Davidson windshields have an excellent reputation all over the world because they are so well made and give such excellent protection. They are designed and built in our own factory and will give you good service for a long time.

The handlebar windshield affords ample protection in the coldest of weather; the upper portion is used the year around by many riders. By loosening two thumbscrews, the upper portion of the shield can be moved up or down to suit the height of the rider, or to suit weather conditions.

The metal legshields can be used with or without the windshield. They are shaped to give ample protection to the rider's feet and legs, and still allow plenty of air to pass the motor for cooling. They look well and are very efficient.



The sport windshield for the sidecar is large enough for full protection to the passenger, and still leave plenty of room in the sidecar. This shield is quickly tilted forward to let the passenger in or out.

Both windshields have aprons made of the toughest, longest wearing material that is made for the purpose. Extra heavy, clear pyralin is used also, so as to provide clear vision and long life.

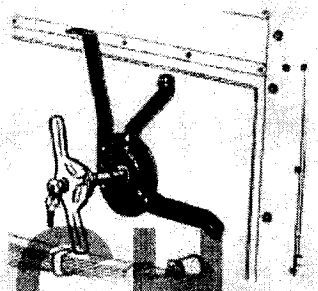
CARRY A SPARE

On all big twins from 1930 to 1934 the wheels are quickly removable, and are interchangeable. Every sidecar or truck owner should take advantage of this by carrying a spare wheel with tire attached ready to use. Then only a few minutes are required to change wheels in case of a puncture or blow-out.

The spare wheel is, of course, a standard wheel, with hub, as used on late models. The spare wheel carriers are shown in the illustrations. They are very simple, and rugged enough to carry the spare easily. Both the LT and the package truck carriers are fitted with locks.



Carrier for Truck Body

			Code

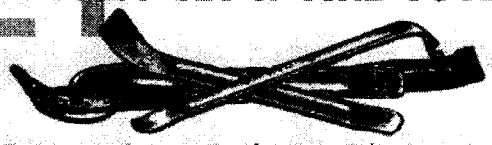
HANDIEST SET of TIRE TOOLS

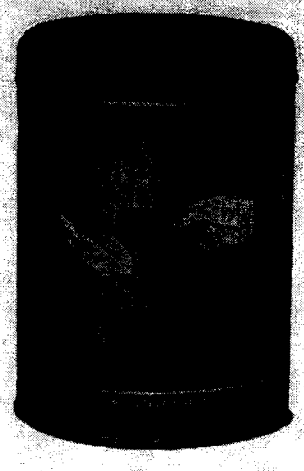


Set consists of three, 7-inch, thoroughly hardened steel tire tools. Specially shaped for motorcycle tires. Packed in a black enameled canvas kit.

		Code
11551-X—Per set	$0.90	bigvi

FOR RESEARCH PURPOSES ONLY

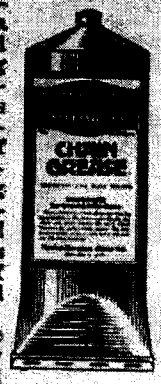
ALEMITE SAVES TIME

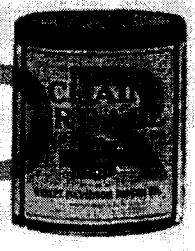


This system, first instituted into the motorcycle field by Harley-Davidson, takes but five minutes to thoroughly lubricate the entire machine and sidecar. Simply hook the cap of the gun over the fitting, turn the handle and the lubricant is shot right where it is needed under 500 lbs. of pressure. A half back turn of the handle releases the pressure and you are ready for the next fitting.

		Code
11661-X—Compressor complete	$2.90	bisyx
11664-X—Hose and fitting	1.25	bivce
11665-X—Washer for Alemite hose	.10	biveg
11658-X—1 lb. can Alemite	.30	bists

THIS GREASE LASTS



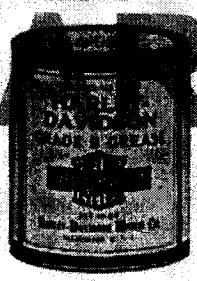


This is an extra fine quality lubricant possessing a very high melting point and an extremely low congealing point. It is especially recommended for oiling drive chains because of its excellent lubricating properties and ease of application. This grease requires no heating or melting and regular application will add many miles to the life of your chains and sprockets.

This grease is especially recommended for use in any ball or roller type bearings that are subjected to high temperatures and severe usage.

		Code
11688-34—Small tube	$0.15	bovwe
11670-X—1 lb. can	.80	bivsu
11671-X—2 lb. can	1.40	bivuw

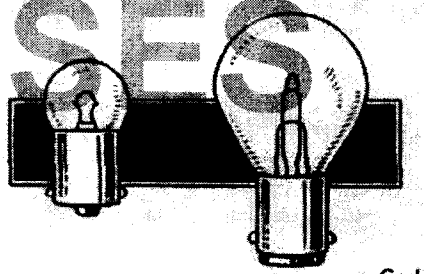
KEEP COIL SPRINGS GREASED



Grade "B" Grease is a high quality cup grease recommended for use where heat and cold resistance are not important factors. Also for bearings where the service is light. Should be used for lubricating upper and lower steering head bearings, fork recoil and cushion springs, sidecar ball joints and seat post springs.

		Code
11673-X—1 lb. can	$0.50	bivys
11674-X—2 lb. can	.70	biwad
11675-X—5 lb. can	1.50	biwed

USE THE CORRECT BULBS



NOTE: 4927-15 and 4925-31 are bulbs specially constructed to withstand a lot of road vibration and should not be confused with the ordinary bulb.

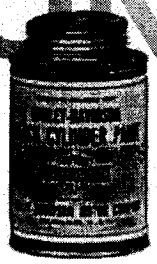
11641-X—Gold, per package	.50	birec
11642-X—Aluminum, per package	.60	birge

DON'T NEGLECT YOUR CYLINDERS



Brighten up the appearance of your motorcycle by giving the cylinders, exhaust pipe and muffler a coat of this Black Cylinder Dressing. Can be used on either the Twin or Single cylinder models. Very easy to put on.

		Code
11649-XA—¼ pint can	$0.35	birro
11649-XB—½ pint can	.60	birsp
11649-XC—1 pint can	1.10	birus

RE-ENAMEL OR TOUCH UP

For touching up scratches, etc., you will want to use the original colors as used by the factory. Then you can match your machine and the damage will not be so noticeable.

For repaint jobs Genuine Harley-Davidson Enamel is best because it is an enamel that has been worked out to give the best possible results on motorcycle parts. Most of the colors listed below are the new quick drying enamel like that used on 1934 models. It is easily applied, dries in just a short time, and has all the wearing qualities of lacquer, and the brightness of enamel.

The colors available in the new quick drying enamel are marked "*" in the following list. The Clear Varnish is also the new quick drying, long wearing kind.

Colors	Numbers	Sizes and Prices
*Olive Green	11595-X	
*Teak Red	11626-34	
*Vermillion	11626-X	
*Seafoam Blue	11601-34

Coach Green	11613-X	
*Orange	11625-X	
*Maroon	11614-X	
Fawn Grey	11615-X	
Cream	11616-X	
Delft Blue	11628-X	
Turquoise	11629-X	

FOR THE FIRST COAT

When re-enameling it is always advisable to remove all the old paint, and start fresh with a good primer enamel. The primer we use and sell is specially recommended, as it seals all the pores of the metal and supplies a good bond coat for the colors to stick to. A good primer adds years to a paint job.

		Code
11617-XA—¼ pint can primer	$0.30	busak
11617-XB—½ pint can primer	.50	buseo
11617-XC—1 pint can primer	.90	busgr

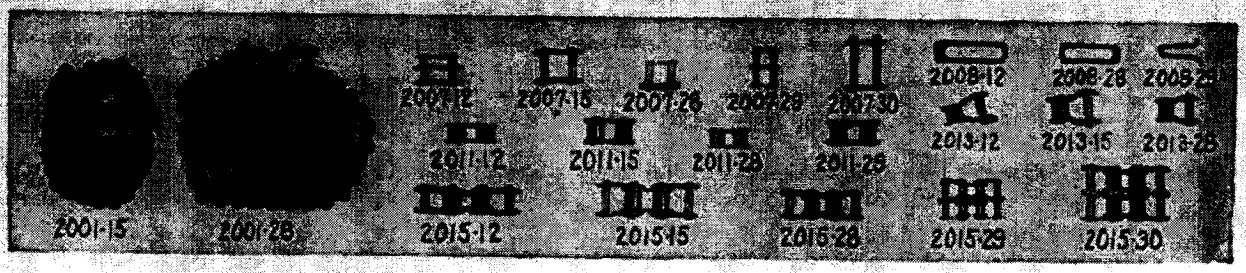
11831-X—Complete	$1.00	boeul

FOR RESEARCH PURPOSES ONLY

BE CAREFUL WHEN YOU BUY DRIVE CHAIN



There is quite a lot of drive chain offered for sale to motorcycle riders that is built primarily for operating machinery of various kinds, or that is surplus chain made up years ago. Most of this chain is absolutely unsuited for present-day high powered motorcycles.

To avoid any difficulty buy cut-to-length chain from Harley-Davidson Dealers in sealed packages bearing our "Inspected & Approved" label.

Cut Length Chain — Duckworth Only

Each length includes a connecting link

				Code

PUBLICATIONS FOR THE MOTORCYCLIST

The motorcycle rider who is interested in the sport nationally will be very much interested in the two publications listed at the top of this page. They make very interesting reading and keep you informed as to competition events, etc. The two more technical publications shown at the bottom are very useful books that the Harley-Davidson owner will appreciate.

THE "MOTORCYCLIST"
Official A. M. A. Magazine

This big magazine is a well written, newsy and interesting book published every month. It is written by motorcycle riders for motorcycle riders. It covers practically all the national and important local motorcycle sporting events and contains many other items that will interest you. The mechanical section is also interesting.

This magazine has been chosen by the American Motorcycle Association as its official publication, and will cover all the news of this big riders organization. Announcements are made of all coming sporting events, and sanctions issued.

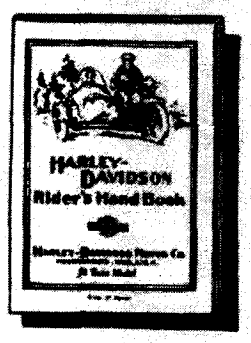
The low cost of $1.00 per year ($1.85 in Canada) brings this magazine within everyone's reach. Just print your name and mailing address plainly, enclose it with a dollar bill and send it to us, saying you want the Motorcyclist. We will see that you get this fine magazine for 12 months.

THE "ENTHUSIAST"
For Harley-Davidson Riders

This little magazine has been published for many years in the interests of Harley-Davidson riders all over the world. It has 24 pages chock full of pictures and news of Harley-Davidson riders. It contains advertisements and articles devoted entirely to the motorcycle and will keep you on all the latest developments as to Harley-Davidson motorcycles and accessories.

You don't have to own a Harley-Davidson to get this interesting magazine. We will be glad to send it to you on receipt of $0.25 for a 6 months subscription, or $0.50 for one year. Published monthly.

MOTORCYCLE CARE



The Rider's Hand Book, published by us to cover Harley-Davidsons, should be in the hands of every owner. It contains all the instructions for the proper operation and care of your motorcycle.

This little book is written entirely from the rider's viewpoint, in non-technical language. It contains many pictures and diagrams that show just how to make necessary adjustments. It tells you what to do each day, each week, and each month to keep your Harley-Davidson in tip top shape.

A copy of the Rider's Hand Book will be sent to you on receipt of $0.25 to cover its cost and handling. Specify your complete motor number, so you will get the correct edition.

PARTS BOOKS AVAILABLE

Instead of restricting the distribution of spare parts catalogs to dealers only, we are now prepared to supply them to any riders or owners that want them. The very complete and well illustrated spare parts lists that we publish are very easy to use to look up parts or to order them.

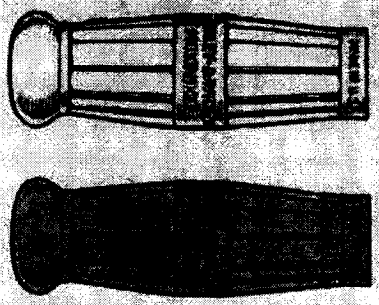
These are supplied at the very nominal charge of $0.20 per copy, post paid. Each book covers several years models and the following issues are at present available. Be sure to order the one you need for the model you ride. No books are available that cover 1922 to 1926 models, but a later book will help you to order parts for these models.

1930 to 1934—All Models 1918 to 1921—Big Twin
1927 to 1931—All Models 1919 to 1923—Sport Models
Less Prices

Spare Parts Are in Stock For All Models Not Over 12 Years Old.

FOR REFERENCE PURPOSES ONLY

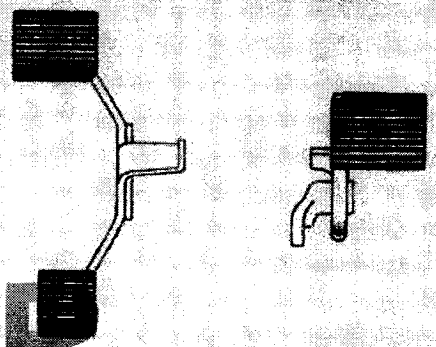
GRIPS IN COLORS



Genuine Harley-Davidson handlebar grips are now sold in red or white, as well as the standard black. The colored rubber used in making up these red and white grips is an even better grade than that used for standard grips. They will give you excellent service and improve in appearance in use.

			Code
3310-09	—Grip, std. black, each	**$0.25**	akyir
3310-09W	—Grip, white, each	**.30**	edyif
3310-09R	—Grip, red, each	**.30**	edykh

YOUR FEET WON'T SLIP

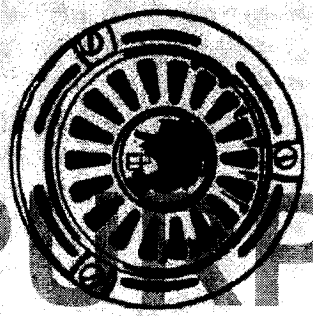


These corrugated rubber pads for clutch and brake pedals are very comfortable. They are molded so they fit tightly over the pedals and usually are just pushed on, and they stay in place. For additional security they can be put on with shellac. They will wear a long time and add to your comfort and pleasure.

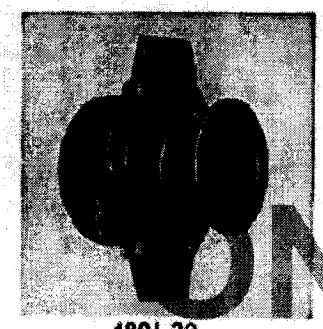
			Code
11791-X	—Set foot pedal rubbers	**$1.00**	bluot

TAKE NO CHANCES ON YOUR HORN

When you need a horn you generally need it badly, so be sure to buy a good horn when you get a new one. These horns are the same dependable horns that were fitted as original equipment, and can be depended on to give good service.



4801-31



4801-29

"BROWN LEADER" IS FINEST JACKET

The "Brown Leader" jacket is made up to our own specifications, and is everything that we think a motorcycle jacket should be. It is designed to take care of all sorts of conditions under which you would wear it, and when you get one you will agree that it is the ideal jacket.

This extra fine jacket is made from rich, brown horsehide leather, that will not scuff or scar in the hardest kind of service. It is lined throughout with a good brown moleskin cloth that has excellent wearing qualities. The collar is leather, and so are the cuffs and waist band. Cuffs can be buttoned tight to keep the wind out, and two take-up straps at the waist band assure a good fit. The two pocket flaps button down. Has a genuine Talon zipper.

This jacket, being full grain horsehide, is shower proof and absolutely windproof. It is soft and flexible and can be doubled up and stowed away in a saddle bag without damage. Fully guaranteed. Sizes 34 to 46 are standard.

FINE LOOKING RIDING BREECHES

Cavalry Style Breeches

This 1934 line of riding breeches is an even better assortment to choose from than we have shown in previous years. Careful purchasing in large quantities has enabled us to maintain prices at very low levels. Every number has been carefully selected as the best available at anywhere near the price.

Good riding breeches are a very good investment, as they are comfortable, very good looking, and wear for a long time. They are particularly well adapted to motorcycle riding.

The sizes available from our stock are as follows:

11093-34 In standard lengths only—28, 30, 32, 34, 36, 38 waist measures.

Other numbers—
Sizes 28, 30, 32, 34, 36, 38, 40 in standard lengths
Sizes 30, 32, 34, 36, 38 in extra longs
Sizes 28, 30, 32 in extra shorts

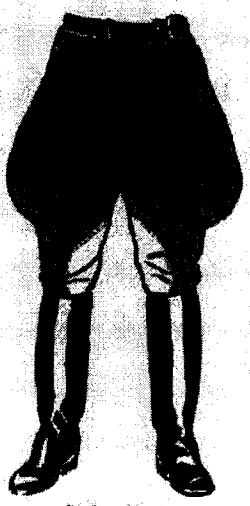
These sizes should fit nearly everyone. Where special sizes are needed, they can be supplied at an extra charge.

English Military Style Breeches

Cavalry Style Tan Breeches

Full peg top as shown, with double knees and seat. A very good looking tan mixture, of great wearing quality. Five roomy, turned and stitched pockets. No special sizes.

		Code
11093-34—Tan whipcord breeches	$2.95	byize



Polo Style Breeches

Polo Style Dark Oxford Breeches

Extra wide peg top, with safety pockets, double knees and seat. Very dressy. Extra good grade of Oxford Whipcord. A really excellent breech for any service—many worn by Police.

		Code
11097-34—Oxford Whipcord Breeches	$3.95	bakah

Polo Style Tan Whipcord Breeches

These are the same style as described above, with button top safety pockets, leather knee facings, double seat, and full peg. The material in these breeches is made from a double twisted yarn that insures extra long wear. Color is a light brown or tan mixture that will not soil easily. Very smart appearing.

		Code
11098-X	$4.75	bakfo

English Military Style Breeches

These are very high grade, part wool breeches, that anyone would be proud to wear. The English Military Style is very attractive, as you can see from the picture. Full grain leather facings are used on the knees. Button top safety pockets are fitted. These breeches will please the most particular.

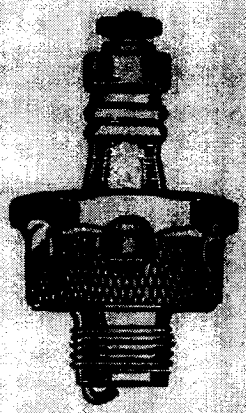
YOU NEED HARLEY-DAVIDSON PLUGS



It takes something special in a spark plug to stand the terrific heat of an air cooled motor operated at high speeds. That is why Harley-Davidson engineers developed and built the Harley-Davidson air cooled plug that has given such excellent service all over the world.

No matter how hard you ride, or how heavy the load, Harley-Davidson plugs will stand up. There is no other plug on the market that has the almost perfect record of this one for standing up under hard punishment. Its design is exclusive, and built in our own plant.

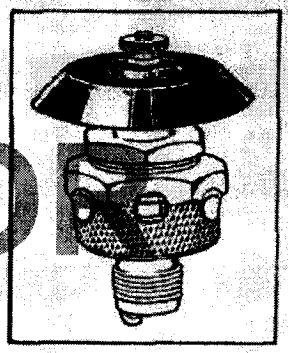
For all standard service purchase these plugs:

		Code
36-11—7/8" for models prior to 1926	$0.75	adcal
37-09—Metric, for 1926 and later models	0.75	adcah

For extreme speeds in high compression motors purchase:

37-30—Metric "Hot Stuff" plug	$1.25	byjek

DON'T STOP for WET WEATHER



Pictured at left is the Harley-Davidson Spark Plug Shield which fits on the top of the plug. It prevents the water from running down over the plug and shorting it in wet weather.

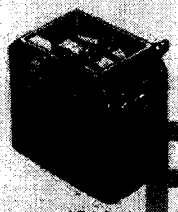
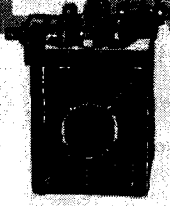
BUY LONGER SERVICE IN THESE BATTERIES



4303-26

When you need a new battery for your motorcycle, buy the kind that will give you trouble free service for a long time. Harley-Davidson batteries are designed by our own engineers, and are constructed specially to suit the conditions encountered in motorcycle service.

All late model Harley-Davidson Batteries are made with moulded in terminals and cell connectors. They are moulded into hard rubber—not just covered with wax. This factor plus the extra strong plate fastenings make these the longest lived batteries on the market.



4303-15

Don't be fooled by imitation batteries of apparently similar construction. Look for the Harley-Davidson trademark moulded into the battery case, and get real value for your money.

GOOD OIL IS MOTOR INSURANCE

It is just as important for you to use good motor oil as it is to have just the right metals in the parts of your motorcycle. Our engineers have been just as careful in selecting the right oil, as in choosing the steels to be used in making such important parts as connecting rods, piston pins, etc.

1 Gallon Can

5 Gallon Drum

Motorcycle motors, being air cooled, are meant to operate at high temperatures. They also turn over at extremely high speeds. For these reasons ordinary lubricating oils should never be used, unless it is impossible to obtain the proper oil, and then only at slow speeds.

Genuine Harley-Davidson Oil has been developed as the result of years of experimenting with oils of all kinds in motorcycle motors. It is the best oil that you can buy for your motor, yet it costs no more than ordinary oil. Buy nothing else and save on repair bills.

FOR RESEARCH PURPOSES ONLY

Harley-Davidson "Brymayk" (bright-or-dull) shirts are the choice of discriminating motorcycle riders. You, or your club and local dealer or club member, will want one for your sports or riding. It is a splendid shirt ideally suited for motorcycling. It is made of closely woven silk finish goods which will give long, satisfactory wear. Has a beautiful home which will not be lost in laundering. Has two roomy bellows pockets and button down collar tabs and trimmed with Harley-Davidson wing emblem over pocket. Properly tailored. This is a high quality shirt and compares favorably with the best dress shirts. Can be worn for any occasion. You will be impressed by the strong beauty of the new 1940 Chief blue or tan, which can be supplied directly from stock. Motorcycle clubs and organizations or individuals who want colors other than the Chief blue or tan may have their shirts in maroon, royal blue, silver gray, kelly green, orange, gold, black, or white. A more complete range of colors to choose from.

These shirts are available only in the following standard sized neck bands and sleeve lengths:

Collar Size	13½	14	14½	15	15½	16	16½	17
Sleeve Length	32	32	32	32	33	33	34	34
		33	33	33	34	34		
				34				

"PIPING" TRIM IS POPULAR FOR CLUBS

We [illegible] style of trim on shirts has proven very popular. Any color of your choice is added to the lower edge of the collar, the cuffs, the pocket flaps, and on the sides of the front panel of the shirt in the form of binding or "piping" of the Brymayk material. This piping is about one-quarter of an inch wide and [illegible] these shirts that snappy two-tone effect [illegible] demand. Truly a shirt that is different and [illegible] question the most outstanding [illegible] the country. Your club, too, will [illegible]

Your [illegible] style is [illegible] shirts [illegible] ered shirts [illegible] colors. Simple embroidered outline designs of club insignia or emblems can be put on at very little extra cost. More complicated designs are charged for at minimum prices. Pure silk yarn of fast colors is used exclusively. All knots are tied, hence no unravelling or [illegible] embroidery.

Prices on these colorful and tailored club shirts are very moderate. Due to the standardizing of sizes (the size range listed above should fit all riders) we have been able to secure lower prices. This system is being followed on a year-

These [illegible] prices should [illegible]

Special sizes and color combinations not listed above, net extra	$1.00

Be sure to specify proper sizes, color, piping and embroidery (if any) with your order.

YOUR CLUB EMBLEM OR INSIGNIA

In Silk Embroidery!

On both sections of this page are illustrated a few of the many emblems that we have supplied to motorcycle clubs and which they are using on their sweaters or shirts to good advantage. This will give you some idea of what other clubs are using and we hope will give you an inspiration to create something novel for your own club.

For sweaters it is recommended that emblems be made up on a felt base and embroidered in silk yarn. For shirts this embroidery is stitched directly onto the back of the shirt making a lightweight and neat appearing emblem which can readily be laundered.

Send us your sketch or idea and we will be pleased to quote most attractive prices.

EXCELLENT FOR NIGHT DRIVING

Motorcycling at night can be made more enjoyable and thrilling if your mount is equipped with a pair of Harley-Davidson Deluxe spotlights. You will have plenty of good light available when and where you want it and need not fear the oncoming headlamps. Why not mount a pair of these shiny spots to your motorcycle and really cut a "swath" out of night riding? Harley-Davidson spotlights are scientifically correct. Your choosing plated streamlined bodies with curved brackets which allow them to be swung into any position. Easily attached to handlebars, safety guards or any place to suit. Lamp is fitted with a highly polished reflector. Switch is same as used on Harley-Davidson motorcycles. Ready, handy switch built into back of body.

11[illegible]-[illegible]—Set of Deluxe spotlights with left [illegible] and handlebar switch ..... $[illegible]
11[illegible]-[illegible]—Spotlight left bracket only ..... [illegible]
11[illegible]-[illegible]—Spotlight right bracket only ..... [illegible]
11[illegible]-[illegible]—Spotlight lamp only ..... .50

SPOTLIGHTS ON BRACKETS

Spotlights are most effective when used in pairs. Mount them on the new left bracket. This places them right out IN FRONT where they do the most good. The new black finish mounting bracket is made of extra heavy gauge steel for rigidity and with sound square stem. Attached directly to the front forks the extra weight of the [illegible] is evenly distributed. These spotlights are the same deluxe model as described above: chrome streamlined body, powerful reflector and lens, built in toggle switch, [illegible] bipolite bead to bead. An extra handlebar switch is also included. This [illegible] to switch on and off [illegible] handlebar—a decided convenience, especially if mounted on [illegible] with handlebar. You will like this combination.

11[illegible]-[illegible]—Set of Deluxe spotlights with left [illegible] and handlebar switch ..... $[illegible]
11[illegible]-[illegible]—Spotlight left bracket only 2.00

SPOTLIGHTS ON CROSSBAR

An ideal way to mount a pair of spotlights is to clamp them onto a special crossbar built in between the existing handlebars. The crossbar we supply is a fine plated bar with attractive curved streamlined tubular [illegible] bars. On this are mounted the two Deluxe spotlights [illegible] as described above together with toggle switch and wiring. This makes a fine appearing and useful combination and will look exceedingly well on your motorcycle.

11[illegible]-[illegible]—Set of two Deluxe spotlights complete with crossbar, [illegible] and handlebar spotlight switch **$12.7Y**

The Harley-Davidson spotlight [illegible] switch, shown above, is an on-and-off switch similar to the regular handlebar switch used on later models. It is usually mounted opposite the left handlebar switch but may be mounted at any convenient point to suit the rider. Supplied complete with wire.

11[illegible]-[illegible]—Spotlight handlebar switch and wire **$1.25**

POPULAR PARKING LIGHTS

EASILY ATTACHED — CLASSY CHROME FINISH

Parking lights are a great convenience as attested to by the thousands of riders who are using them. Mount them as shown and you will be agreeably surprised at the improved appearance of your cycle. May also be mounted anywhere to suit.

Highly polished chrome streamlined bullet type bodies. Sturdy and practical mounting brackets are easily attached. Lamps you will be proud to display. Your choice of either green, red or white frosted lens. Order your pair today.

[illegible] THOROUGHLY [illegible] CLEANED

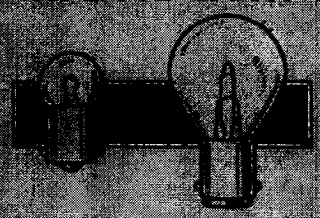
The dirt and grease deposits on your motor, frame and wheels can be easily and quickly cleaned away with GUNK. Just apply GUNK freely with a brush, let it stand a few minutes — then hose it off with water. Presto! You have a clean job. GUNK is a chemical compound, absolutely harmless. Will not injure aluminum or any other metal. Enameled, lacquered or painted surfaces may be safely cleaned with a mixture of one part GUNK to two parts of kerosene. Wash off promptly. GUNK is a grease solvent. When applied to grease or oily parts it combines with them and makes this a mass of liquid soap. This soap is then washed away with a hose and the result is an absolutely clean surface. Simple, safe and efficient. Better, cheaper and safer than gasoline! GUNK is very economical to use. A little will go a long way. Use GUNK on garage floors. Clean up those dangerous, slippery deposits of oil and grease.

11728-XA—1 pint can "GUNK" **25c**

11728-XB—1 gallon can "GUNK" **$1.50**

DO YOUR CLEANING JOBS THE EASY WAY—WITH GUNK

REPLACE LIGHT BULBS FREQUENTLY



AVOID TRAFFIC HAZARDS

Buying a few light bulbs for reserve is good economy, and may [illegible] Check your bulbs frequently. Seal this [illegible] good [illegible] in your glove compartment [illegible] carry spares. Do not take chance of lamp failure when on a trip.

ANIMATED LIGHT BULB
"It 'Winx', It 'Blinx'!"

Use "Winx Blinker Bulbs" in your auxiliary lamps for fascinating and novel lighting effects. These bulbs are fitted with a flasher device, complete in one unit, that causes the lamps to go on and off at frequent intervals, making a pleasing winking effect. Being eye arresting they make effective warning signals.

These "Winx Blinker Bulbs" can be fitted to the extra lamps using 3 or 5 c.p. bulbs. Economical to use as they consume but little current and last a long time.

4927-15W—Winx Blinker Bulb **45c**

STOPLIGHTS

Switch

The new improved stoplight is a winner both in appearance and performance. Flashes a bright red light when brakes are set, plainly visible day or night, thus giving ample warning. Your motorcycle should be stoplight equipped for your own safety and protection. Save on repair bills such as fender and rear wheel replacement. Some states require stoplights by law. You will like this new streamlined model. More compact, and simpler switch. Positive action. Easy to install. Lamp is fitted with a two filament bulb—regular 2 c.p. filament for normal tail light and 21 c.p. for stop light—day or night.

11450-X—Stoplight and switch complete **$4.00**

SOLO SPORT SHIELD

Once you ride behind one of these practical Harley-Davidson solo sport shields you will appreciate the added comfort and pleasure you have overlooked. This ideal solo sport shield is designed to eliminate wind pressure, buffeting and dust from the face and upper body. The wind is deflected upward over the rider's head. It is small and compact, very effective and will enable riders to go without goggles under many conditions. The wind resistance is negligible, thus speed is barely affected. A swell shield for summer riding. This solo shield is of the same rugged construction and long wearing quality material so characteristic of Harley-Davidson products. Thousands are in daily use. Riders everywhere are enthusiastic and tell us that this is the most practical accessory ever designed for solo sport motorcycles.

11292-36—Solo summer sport shield, complete ..... $[illegible].50

For riders who prefer or require a shield with heavy duty transparency or pyralin, we can supply this solo sport shield equipped with plastacele screen which is twice as thick as the standard. This will withstand extremely [illegible]

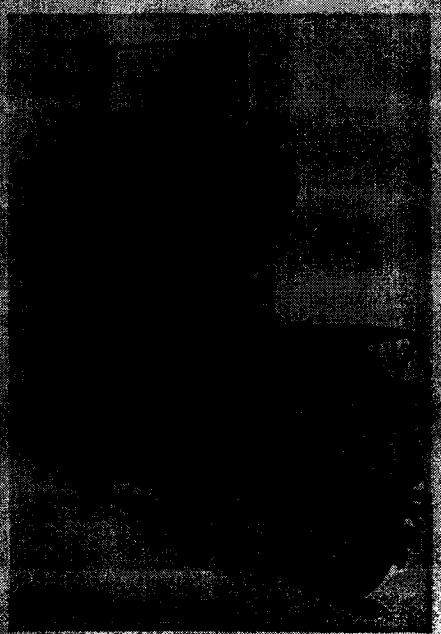
WINTER CYCLING SPORTS

ARE DOUBLY THRILLING AND ALLURING IF YOU'RE BEHIND A HARLEY-DAVIDSON WINTER SHIELD

There is no need to give up the added thrills and adventure of winter motorcycling sports when you can successfully keep warm and comfortable behind a Harley-Davidson "all year windshield." No matter how unfavorable the weather — wind, rain, snow, sleet or cold — you will be well protected. The black fabric apron [illegible] water [illegible] fastened at the lower end with two sprocks that keep it in place at all times. The pyralin is adjustable up or down to suit the individual rider. The metal legshields protect the rider's legs and feet, yet allow plenty of air to circulate freely around the motor. Note the simple, yet sturdy construction of this Harley-Davidson windshield. All the controls are inside the shield, therefore, easily accessible. It gives complete all weather protection.

Showing both sidecar and motorcycle windshields. This is an all-weather combination.

Some riders prefer to use the metal legshields separately, especially when riding solo or during mild weather. In this way the rider has complete protection for his legs and feet without the extra weight of the complete shield. Legshields are available for all models from 1925 to 1940.



Showing the rear view of the handlebar windshield and legshields

REAR-REFLECTOR LENS

A red light [illegible] burned out [illegible] worthless and constitutes a real traffic hazard. Assure yourself of double protection by installing one of these efficient Rear Reflector lenses. Will reflect light from a long distance.

Lens is 2½" in diameter. Strong, black enamel mounting frame is easily attached to license bracket.

Low in price—high in value.

11779-X—Rear Reflector $0.65

USE THIS AIR CLEANER!

[illegible] your motor which cause uneven wear on costly replacement parts. Add miles of service drive over all kinds of roads.

A special metallic packing, which is easily cleaned and lasts indefinitely, is packed inside the cleaner housing which filters out grease, dirt, water from entering and damaging the motor. The air cleaner is so constructed so as to [illegible]

1401-35—Harley-Davidson Air Cleaner $5.00

AN IDEAL GREASE

Harley-Davidson Pressure Grease has been developed under our special formula and is the most satisfactory lubricant for use in your pressure greasing system.

It is also a high quality dip grease and is recommended for use where hot and cold resistance are not important factors. Ideal for lubricating upper and lower steering head bearings, fork recoil and cushion sections, sidecar ball joints, and rear post spring.

11858-X—Pressure Grease in 1-lb. cans $0.25

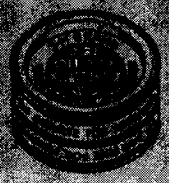
11857-X—Pressure Grease in 5-lb. cans 1.25

THREE-IN-ONE OIL

The leading qualities of Three-in-One Oil are well known. Has thousands of uses. An ideal penetrating oil. Put up in a handy 3-ounce can which is fitted with a special screw top spout. Carry a can in your tool kit.

11690-X—Three-in-One Oil, per can $0.30

MAKES VALVE GRINDING EASY



This ready mixed Harley-Davidson approved grinding compound is a big favorite with mechanics and riders. Both fine and coarse grades are now put up in handy 2-ounce combination can (1 ounce of each grade.)

11720-X—2-oz. combination can $0.25

HOLD-FAST SHELLAC

The old reliable liquid shellac. Ideal for gaskets and numerous other purposes where shellac is used.

11692-X—2-oz. bottle $0.25

11694-X—1-pint can 1.50

ADD A STEERING DAMPER

AND STOP WRESTLING HANDLEBARS!

You can ride with absolute ease if your cycle is equipped with this Harley-Davidson Steering Damper. It will take all the whip out of steering at any speed. It is particularly desirable for extreme, high-speed riding and for sidecar use. The cross-section view, as illustrated, shows how this well made and neat appearing damper is attached. When the lever is moved to the right, the tension is increased; and when moved to the left, the tension is decreased. It is so designed that the lever will remain fixed at any adjustment desired. No longer any need to hang on grimly to the handlebars. Just relax and ride in comfort! A safety feature well worth while.

2776-30—For 1930 to 1936—74" & 80" Twins
2777-30—For 1930 to 1936—45" Twins

2776-37—For 1937 to 1939—45" Twins
2776-40—For 1940—45" Twins

Each **$3.00**

NO BOUNCES OR JOLTS

if "RIDE CONTROLLED"

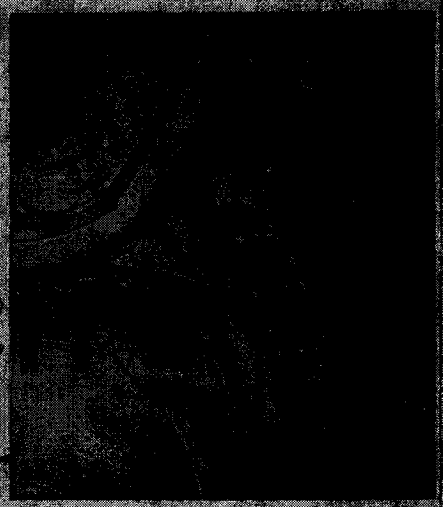
You will appreciate the difference if you have your mount equipped with a Harley-Davidson Ride Control. You will marvel at the ease in handling your motorcycle when riding at top speeds.

This ride control positively controls the action of the front fork springs. The adjusting range enables you — while riding along — to set the ride control at any point from a completely free and easy spring action to a locked and rigid fork. Just turning the hand wheel adjusts the spring action [illegible]. All the [illegible] taken out of the front wheel and you [illegible] safely at high speeds on roads that are otherwise too rough for fast traveling.

Harley-Davidson Ride Controls take the [illegible] of highways.

11250-30—1931 to 1936—45", 74" & 80", 1937 & 1938—45" Twins, 1931 to 1934 C Singles
11250-36—1936—61", 1937 to 1940—61", 74" & 80" Twins
11250-39—1939 & 1940—45" Twins

Each **$5.75**



THIS AUXILIARY CONTROL

Allows More Freedom and Riding Ease

You will like this auxiliary hand control because it leaves both feet free for use in traffic or in other heavy going. A simple lever is mounted on the right handlebar to operate the clutch as effectively as with the usual foot lever. See illustration.

This hand clutch control is available for all models except the Big Twins. On these 61", 74" and 80" motors the clutch springs are so strong that a foot pedal is required to properly operate them.

2555-30A—For 1930 to 1940—45" Twins
2555-30B—For 1930 to 1934 C Singles
2555-32—For 1932 to 1934 B Singles

Each **$4.50**

HANDY LUGGAGE CARRIERS for Vacation Trips, Tours, Etc.

MOTORCYCLE CHAIN IS BEST BY TEST

There is quite a lot of drive chain offered for sale to motorcycle riders that is built primarily for operating machinery of various kinds, or that is surplus chain made up years ago. Most of this chain is absolutely unsuited for present-day high powered motorcycles.

To avoid any difficulty buy cut-to-length chain from Harley-Davidson dealers in sealed packages bearing our "Inspected and Approved" label.

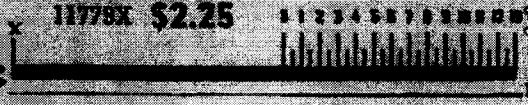
11772X—Small pennants 25c

STERLING RINGS

This genuine sterling silver ring is a "beauty". You will like its smart appearance with the motorcyclist worked in relief on the face and the American Eagle and coat of arms embossed on the sides. Truly a symbol depicting the great American sport of motorcycling. This is high-grade jewelry and must not be confused with the cheap, trashy merchandise on the market. Priced exceedingly low.

To determine your ring size, wrap a piece of paper ⅛" wide tightly around the middle joint of your ring finger. Cut off ends so they meet exactly. Lay one end of paper on point (x). Number at the other end is your ring size.

11778X $2.25



Recently silver wing bar pin. 1¾ inches wide. Made of heavy metal that resembles silver and will not tarnish. Monogram lettering in black enamel. Looks equally attractive on helmet, cap, or coat lapel. The girl friend will like one, too.

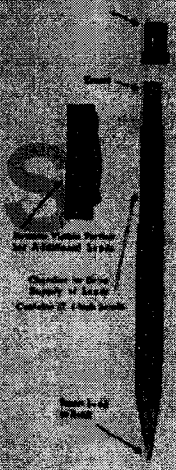
11768X—Wing pin 25c

NEW NAME PLATE PIN

This new Harley-Davidson pin, depicting our new 1940 tank, enables in miniature, is the keenest and most eye-opening pin ever offered to motorcycle riders. Ideal for wear on caps, over shirt pockets, etc. You, too, will want one. Bright chromium finish. Name inscription in scarlet. Priced most reasonably.

11766-30—Name Plate Pin 15c

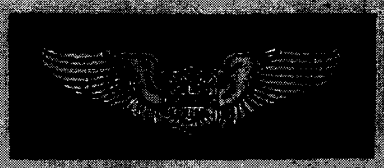
FINE MAGAZINE PENCIL



A high-grade pencil that is very popular. Carries a supply of 12 extra 4" leads ("spares"), in the magazine, an equivalent to a 4-foot pencil. These full-length pencils have sparkling barrels of a semi-transparent material in translucent green, red, black, and pearl. Gold-filled trim. Black bakelite cap over eraser. Sturdy ball clip. "Harley-Davidson Motorcycles" imprinted on barrel.

11739X—Magazine Pencil, each 50c

GOLD PLATED BAR PIN



This new model bar pin is sure to please. Harley-Davidson trademark flanked on both sides by heavy, embossed wings. Heavily gold plated. Will not tarnish. Ideal for wear over shirt or jacket pocket or on front of cap. Priced exceedingly reasonable.

11769-39—Gold plated 3" bar pin 60c

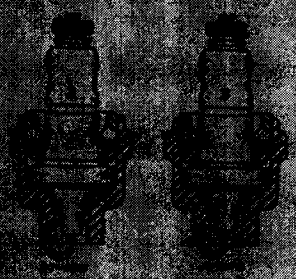
USE HARLEY-DAVIDSON SPARK PLUGS FOR EFFICIENCY!



RESEARCH

A spark plug is the heart of your motor. It is, therefore, essential that you use a spark plug you know you can depend on.

Harley-Davidson engineers have designed an improved [illegible] which more than meets the field specifications for all Harley-Davidson models. A [illegible] suitable for [illegible] — for touring [illegible] — for racing. These new, improved Harley-Davidson spark plugs meet field specifications so there is no reason why any motorcycle owner wants to use any other kind of plug. These plugs are [illegible]. A trial will convince you.

37-[illegible]—Spark Plug (No. 2) .....
37-[illegible]C—Spark Plug (No. 3) .....
37-[illegible]—Spark Plug (No. 4) .....

THE "CAN SPOUT" DISPENSER

The "Can Spout" Oil Dispenser is just the thing for motorcycles. The dispenser punctures the can and provides a funnel besides. Drains the can clean without holding it. A clean dispenser that works without fuss or muss. Made for 1 quart sealed cans.

11[illegible]—"Can Spout" $1.35

HANDY OIL CAN OPENER

The handy, inexpensive can opener punctures the can for draining. Owing to location of switch panel it will be necessary to use a small funnel to completely drain the can. Our "Can Spout" Opener and Dispenser does a quicker neater job.

11[illegible]X—Quart Can Opener 10c

CONTACT POINT FILES

Have extremely fine cuts on both sides. Thin enough to get in between circuit breaker points and clean and [illegible] them without [illegible] the valuable metal.

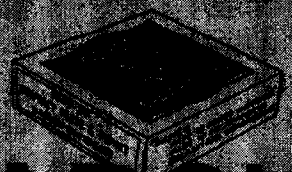
LOOK FOR THESE TRADE MARKS AND LABELS



For the convenience of motorcycle riders, it was many years ago that Harley-Davidson adopted a distinctive trademark so that they can identify genuine Harley-Davidson parts and accessories. Many of the parts and accessories are made by Harley-Davidson and bear the trademark. Many are made for Harley-Davidson and to the dealer who sells them. Many accessories are sold but are so poor in quality of materials and workmanship that you would not knowingly use them.

Drive all the way, and with all desire to give you the best there is, the Harley-Davidson Parts and Accessories you now depend on them for design, fit, quality of materials, excellence in construction, and all-around good service.

The following are some of the parts that are always packed in special Harley-Davidson orange and black sealed packages.

Pistons
Piston Pins
Piston Rings
Piston Assembly
Valves

Flywheel Shaft
Drive Chain
Crankcase
Cylinder Barrel
Timer
Magneto Housing

Because of their size or shape, many parts are not packaged individually but are identified by the Harley-Davidson parts label as shown. These parts are:

Brake Control Wires
Speedometer Control Wires
Control Cable

Spark Plug Cable
All Wires
Wiring Harness

Accessories are nearly all identified with the Harley-Davidson trademark or with the orange and black "Inspected and Approved" label illustrated.

Look for the factory identification on the parts or accessories you buy. The Genuine cost no more and will give you far greater satisfaction and service.

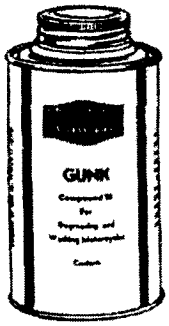
USE GUNK! THE MASTER CLEANER



EXCLUSIVE HARLEY-DAVIDSON COMPOUND "M"

Dirt and grease deposits on motors and frames are easily cleaned away with GUNK Compound "M", sold exclusively by Harley-Davidson. Just apply GUNK Compound "M" freely with a brush, let it stand a few minutes—then hose it off with water. Presto! You have a clean job. GUNK Compound "M" is a chemical compound, absolutely harmless, made exclusively for Harley-Davidson. Enameled, lacquered or painted surfaces may be safely cleaned with a mixture of one part GUNK Compound "M" to two parts of kerosene. Wash off promptly. GUNK Compound "M" is a grease solvent! When applied to greasy or oily parts it combines with the grease and inverts this mass into liquid soap. This soap is then washed away with a hose and the result is an absolutely clean surface. Simple . . . Safe . . . Sure! Buy it by the case for your riders and in drum lots for your own use.

HARLEY-DAVIDSON BATTERIES — "Dependable"

"Dependable" yes that's the reason the Harley-Davidson batteries lead the field. Designed by motorcycle engineers and constructed specially to stand up under the most severe conditions encountered in motorcycle service this Harley-Davidson battery is the most dependable battery obtainable. When you need a new battery for your motorcycle buy the kind that will give you trouble free service for a long time. All our model batteries are made with moulded-in terminals and cell connectors. They are moulded into hard rubber—not just covered with wax. This factor plus the extra plate fastenings make these batteries the most "dependable" batteries on the market.

Buy the Best—Do not be fooled by cheap imitations of apparently similiar construction. Look for the Harley-Davidson trademark moulded into the battery case, it is your guarantee of a "dependable" battery.

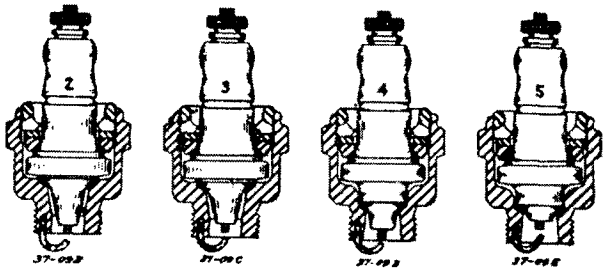
HARLEY-DAVIDSON SPARK PLUGS

AT ANY HEAT — THEY CAN'T BE BEAT



You guarantee your riders top performance when you sell them genuine Harley-Davidson Spark Plugs. Harley-Davidson spark plugs have been developed and perfected by Harley-Davidson engineers. A series of four spark plugs have been developed and there is a plug for every purpose—for low, medium, or high compression motors—for running-in motors—for ordinary use—for heavy duty service—for running at extremely high speeds or racing. These Harley-Davidson Spark Plugs meet every specification required by an air cooled motor. When Spark Plugs must be replaced, be sure you replace them with genuine Harley-Davidson Spark Plugs.

Jackets That Fit!

GENUINE BLACK HORSEHIDE LEATHER JACKETS

FEATURING!

- ADVANCE STYLING
- TAPERED SLEEVES
- ACTION BACK
- EMBOSSED BELT
- FORM FITTING
- ZIPPER CLOSURES

Here's a jacket distinguished for its advanced design, its utility, its matchless value . . . truly a masterpiece of fine leather workmanship. Riders will look and feel their best in its action ease lines . . . form fitting . . . it's tapered to the waist. Action back . . . allowing ease and freedom of movement, yet preventing riding up or binding. Bright nickel decorations at appropriate spots. Diagonal zip, aviator style, front opening gives double protection where most essential and when fully closed provides a snug fit around the neck. Large snap fasteners hold collar tabs in place when jacket is open at the neck. Leather latigoes, decorated with bright nickel spots are attached to each zipper enhancing the beauty of the jacket and adding to the rider's ease in operating the zippers, especially with large gloves or mitts on. Sleeves are tapered from the shoulders to a snug fit around the forearm and wrist forming a perfect seal against the wind . . . this feature is made possible by the zip opening on the underside of the sleeves.

Riders will enjoy the feel of the red plaid wool lining and appreciate the conveniently placed large pockets . . . two snap fastened, flap pockets . . . extra large, zip closed map pocket and a neat inside pocket. An all around good looking, long wearing, genuine black horsehide leather jacket. Sizes: 34 to 48.

			Code
11069-46	Leather Jacket (Specify size)	$29.75	eypoy

Ladies COMPANION JACKET!

Your girl riders will be thrilled when they slip into one of these lovely ladies leather jackets. Fashioned along the same smart lines of the men's jacket but tailored to make the jacket definitely feminine. Form fitting, tapered to the waist . . . it will fit girl riders like a glove, yet allows freedom of movement. Same outstanding features as the men's jacket, this jacket is sure to be one of your most popular accessories. Sizes 34 (14), 36 (16), 38 (18), and 40 (20).

			Code
11069-46L	Ladies Leather Jacket (Specify size)	$24.90	eypra

BEAUTIFUL BLACK JACKET BELT

The good looks of the Men's and Ladies' Jackets can be further accentuated by adding the two inch wide Harley-Davidson Jacket Belt, loops for which are already on the jackets. Beautifully embossed, top grain, black cowhide, this belt not only holds the jacket firmly to the waist but adds greatly to the "individuality" and attractiveness of the jacket. When ordering jacket belts specify jacket size. Be sure to order a jacket belt for every jacket.

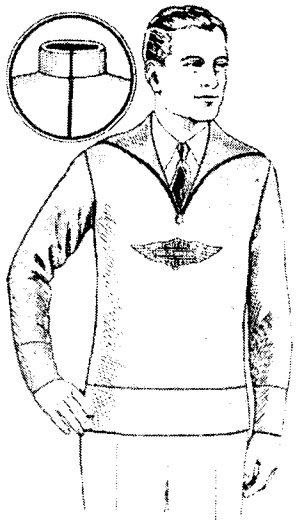
SNAPPY SPORT SWEATERS

GENUINE 100% WOOL SWEATERS

Warmth — Style — Smartness

Harley-Davidson sweaters have been gaining in popularity every year. Their quality has been recognized by motorcyclists everywhere. Made from the best grade of wool yarn they are expertly knit into smart styles and colors that are the envy of all.



Convertible Neck

CONVERTIBLE NECK SWEATER

This smartly styled, heavy weight sport sweater is ideally suited for motorcycle riders and sports lovers in general. This snappy, solid color, zipper type sweater has always been our most popular sweater. Made of a high grade, fine Baby shaker knit, long fibre wool. Form fitting, it keeps its shape and is long wearing. Double knit cuffs and waistband for snug fit and long service. Zip collar when open makes a fine V neck . . . when closed it is a turtle neck. Beautiful Harley-Davidson wing emblem on front adds greatly to its fine appearance. At the present time available in Maroon or Navy Blue only. Sizes 34 to 48.

COMPETITION SWEATER

Competition riders are always proud of their brand of horsepower and here's a sweater that helps them bring it into prominence. This sweater is a great favorite with motorcycle riders interested in racing, hill-climbs, T. T. events and all other competitive cycle sports. The same high quality grade as the above sweaters. An extra two inches is added to the body to allow for "tuck-in". Supplied with White body and collar with Black sleeves and cuffs. Collar when open makes a V neck . . . when closed, a turtle neck. "HARLEY-DAVIDSON" in large Black felt letters on both front and back. Available in sizes: 34 to 48.

			Code
11033-47C	Competition Type Sweater	$11.35	eymci

SAMPLE LIST

Our "SAMPLE LIST" is composed of Harley-Davidson dealers who have given us the authority to send them a sample of each new accessory as soon as it is available. This prevents the possibility of their over-looking notices on new accessories and eliminates all back and forth correspondence, otherwise necessary, to obtain permission to send a sample of a new item.

Dealers have found from experience that receiving a sample of a new item not only gives them a real start on their competitors but also gives them a chance to see, handle, inspect and get their riders' opinion of it, thereby enabling them to correctly gauge the quantity of the new accessory to order. It has also indirectly increased the sales of other items, as the riders now come in more frequently to see "what's new". Every Harley-Davidson dealer should take advantage of this service.

If you're not on our SAMPLE LIST at present, send us a card and we will add your name to this list, thus assuring you of receiving a sample of each new accessory as soon as it is added to our line.

COLORFUL CAPS

THEY'RE REAL CLASS WILL NOT BLOW OFF!

CLUBS WANT THEM

WORN WITH PRIDE . . . yes, here's a cap made from twillardine which every rider and club member may well be proud of. Introduced by Harley-Davidson, it's popularity has established it as a "must" for every well dressed rider . . . Made of a heavy grade of sanforized and mercerized cloth, finely finished . . . strong and well fitting fibre frame keeps cap in shape . . . wet or dry. Hair cloth riser holds the front up in a most attractive angle. Air vent holes, padded sweat bands and silver winged emblem on front are added good features. Sun Tan and Navy Blue can be supplied directly from stock in all standard sizes. Truly a wonderful value.

SPECIAL ATTENTION GIVEN TO MOTORCYCLE CLUB COLORS

As a special service to motorcycle clubs we have in the past furnished the above smartly styled caps in various color combinations, but due to the shortage of textiles the only special color we offer at this time is "Black". The other special color combinations will again be available as soon as the shortage of textiles is ended.

At very little extra cost any of the above caps can be supplied with either a Black or White visor. The White visor is made from a hard-wearing composition that will not discolor and is easily kept clean.

			Code

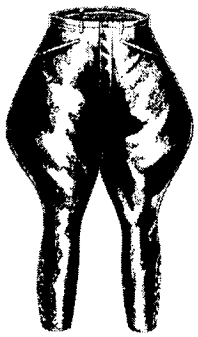
Leather Breeches

IDEAL FOR COMPETITION RIDERS



Here's a "good deal" for your competition riders. Leather riding breeches, mandatory in many competitive events, afford maximum protection against injury in case of a spill. Riders in general, will appreciate a pair of these breeches as they are ideal for use during inclement weather as wind and rain can not penetrate them. A sound value of dependable quality . . . they are made from soft, supple, black front quarter horsehide. Fully lined. Five pockets and belt loops. Supplied in sizes 28 to 42 in standard lengths only.

			Code

EMBLEMS

Be Original . . .

Design Your Own Design.

CLUB EMBLEMS IN SILK EMBROIDERY.

Around this page and the opposite one, are illustrated a few of the many emblems we have supplied to Motorcycle Clubs and which they are using on their shirts, sweaters, and jackets to good advantage. This will give your club some idea of what other clubs are using and we hope it will be a source of inspiration for you to create something novel and distinctive for your own club.

For sweaters and jackets it is recommended that emblems be made on a felt base and embroidered in silk yarn. For shirts this embroidery is stitched directly onto the back of the shirt, making a lightweight and neat appearing emblem that is easily laundered. Our emblems do not unravel . . . all knots are hand tied.

Send us your idea or a sketch of what your Club would like. We will be pleased to quote most attractive prices.

HARLEY-DAVIDSON WING EMBLEMS

11763-36

11766-XW

11773-36

Wing emblems always stand in high favor with motorcycle riders. Too, they work in well with Club lettering. A size for every purpose, take your choice. Can be used on caps, shirts, sweaters, jackets etc . . . ideal as a shoulder insignia. They will add that extra something to a uniform.

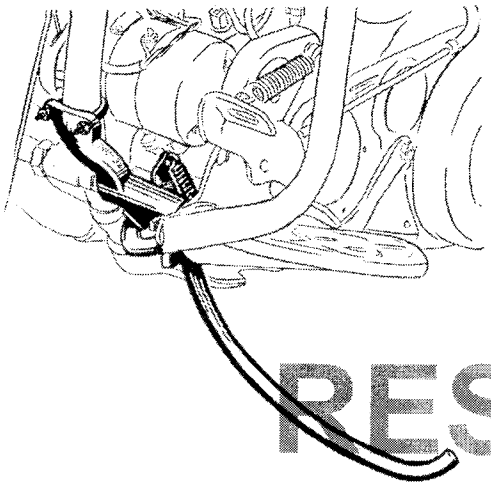
PARK HER IN A JIFFY

HARLEY-DAVIDSON JIFFY STANDS



11331-32A

Motorcycle parking problems become easy if the cycle is "Jiffy Stand" equipped. Park anywhere . . . instantly. Simply run the motorcycle into the desired parking space, dismount, kick the Jiffy Stand into position, and the cycle is firmly and securely parked until you are ready to ride again. Its universal adoption proves its worth. These Jiffy Stands have a very desirable safety feature. If the rider forgets to kick up the stand when starting, this new Jiffy Stand is so designed that it will immediately fold into place when striking the ground or any obstruction. Thus the Jiffy Stand will not upset the rider, even though he forgets to kick it back into place when starting off.

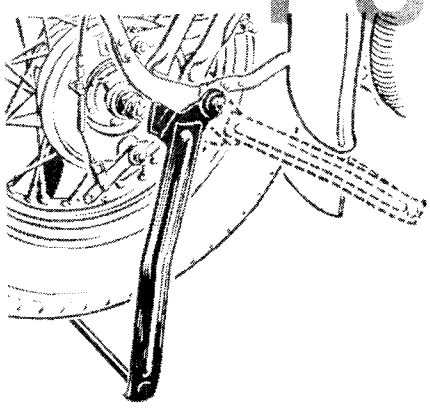
FRONT and REAR STANDS

Handy Helpers



Front Stand

Both front and rear stands for motorcycles are fully appreciated for their really fine qualities. They prove their sterling worth when wheels must be taken off, minor adjustments made to motorcycle, tires changed, inner tubes fixed, and at numerous other times. They are sturdily constructed to strict Harley-Davidson Specifications. They are rigid and will last a lifetime. All stands come complete with the necessary fittings.

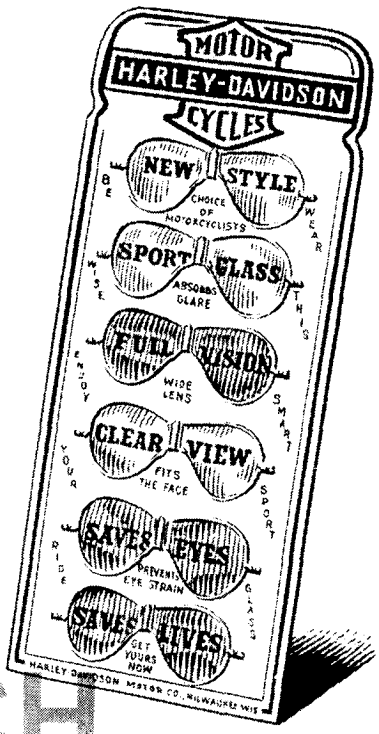
SPORT GLASSES

SUMMER RIDING NECESSITY



The Harley-Davidson Sport Glasses (pictured at the right) have always been the most popular summer riding glass for motorcyclists. Their best selling point being that they give the rider "cool" eye protection on his summer rides. The quality of the lenses is first rate. Fitted with flexible bows and nose piece making them adaptable to any face. The smoked glasses are the well known Crookes type. Absorbs glare and filters out harmful light rays, therefore comfortable and safe to wear.

Neat, attractive, counter display cards supplied, displaying an assortment of six sport glasses. It is recommended that several cards be displayed as these sport glasses sell on sight!

			Code

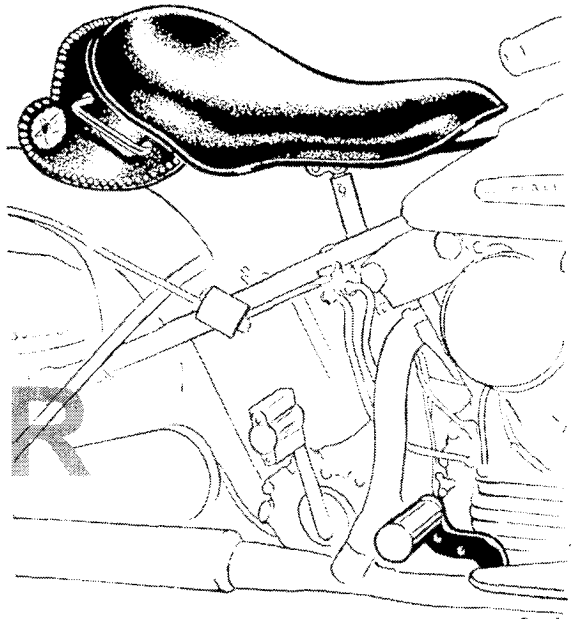
"BUDDY SEAT"

IT HAS NO EQUAL

Comfort — Good Looks — Safety



Following these three specifications the Harley-Davidson engineers have designed a DeLuxe "Buddy Seat" that can't be beat.

Super comfort is assured by the thick whipped latex filling. This is a pure rubber composition with tens of thousands of tiny air cells. It will not pack down and become hard and uncomfortable, but will stay pliant and resilient. This "Buddy Seat" was designed primarily to give riding ease and comfort regardless of long distances covered or time spent in the saddle.

Covered with the top grade of cowhide available, well waterproofed and practically wear proof.

Sensational plastic skirt, that holds its shape and finish, attractively decorated with nickel spots all around the skirt edge topped off with a chrome plated star on a yellow plastic rosette, adds to the good looks and fine lines of this great "Buddy Seat."

			Code

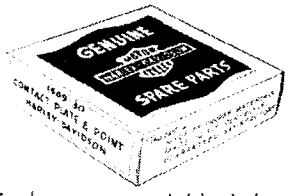
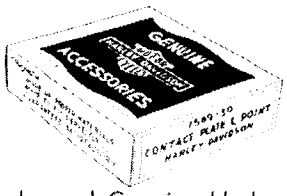
DISPLAY GENUINE PARTS AND ACCESSORIES

IN THE ORANGE AND BLACK BOXES



Genuine Harley-Davidson parts and accessories are easily identified by the orange and black labels and packages, a few of which are illustrated here. When YOU order parts and accessories for your stock YOU KNOW you are getting Genuine Harley-Davidson merchandise. YOUR RIDER too, will know that he is getting genuine parts if you will display and sell these parts in their original orange and black boxes with the Harley-Davidson trade mark. Riders want and demand Genuine Harley-Davidson parts. They know the parts they buy will fit and give satisfactory service.



Accessories must be as well made and as carefully inspected as spare parts in order to give satisfaction. All genuine Harley-Davidson accessories are either packed in our orange and black boxes, or bear the "Inspected and Approved" label, show at the left. Some parts, because of their size and shape, are not packaged individually, but are identified by the Harley-Davidson parts label. The need for displaying prominently the orange and black boxes and labels of the genuine Harley-Davidson parts and accessories is more acute today than ever due to the competition for motorcycle business. Your protection is in the Harley-Davidson trade-mark, advertise it, display it.

SUMMER SOLO SPORT SHIELD

A SUMMER NECESSITY

No other accessory has been so readily accepted by riders as the Harley-Davidson Summer Sport Windshield.

Combining protection from the searing summer wind with pleasing good looks, this windshield has greatly increased the popularity of motorcycles. The large plastic window, made of Plastacele .060" thick is not affected by the rays of the sun, therefore does not get brown, brittle, or crack. The fabric apron is rubber coated on both sides and reinforced around the edges with fabric-covered coiled steel wire similar to control wire.

This Solo Sport Shield is adjustable to suit any rider's individual requirements as to height. No special extensions are required.

Designed primarily to eliminate wind pressure, breeze and dirt from the face and upper body. The wind is deflected upward over the rider's head. The wind resistance is practically the same as that offered by the body, thus speed is barely affected. Your riders will like this sport windshield.

			Code
11292-36	Solo Sport Shield complete	$9.80	elrom

SIDECAR WINDSHIELDS — ADDED COMFORT

PASSENGERS APPRECIATE THESE

More and more riders are thinking of the comfort of their passengers. This modern, streamlined windshield will give the comfort to passengers that they deserve. Designed to be pleasing to the eye yet to offer little wind resistance.

The 1936 to 1947 sidecar windshield includes a sidecar cover which is held in place by snap-on fasteners. This cover is made of a high grade waterproofed material. Windshield and cover together make a neat, streamlined combination—practical and effective.

			Code
11000-43	Windshield for Goulding Sidecar	$19.00	eynel
11000-36	Windshield for L and LE (1936 to 1947)	19.90	ekowr

SIDECAR COVERS

Some riders prefer to just cover their sidecars instead of installing a windshield. The Harley-Davidson Sidecar Covers are just the thing for these riders.

Made in one piece, of durable, waterproof fabric that will not shrink. They fit snug around the sidecar opening and are held in place by means of snap fasteners. These covers will keep the sidecar upholstery in good condition and free from the elements of the weather. They also add greatly to the appearance and neatness of the sidecar.

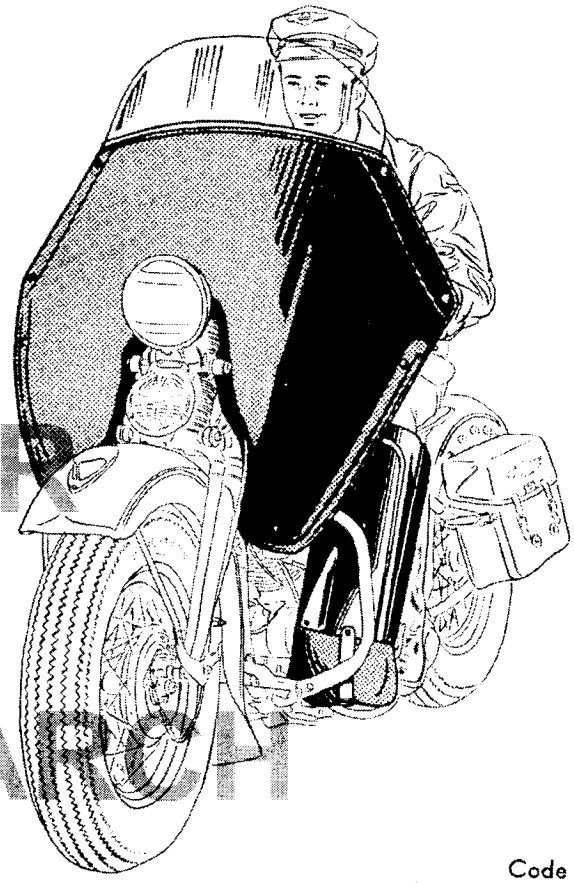
			Code
11019-29	Straight cover for LS single passenger	$7.25	bacyz
11019-36	Straight cover for K & LE single passenger	7.25	elpur

FOR RESEARCH PURPOSES ONLY

YES, RIDE YEAR 'ROUND

WITH

HARLEY-DAVIDSON WINDSHIELDS



Motorcyclists can enjoy all-year riding activities if their cycles are equipped with Harley-Davidson all-year windshields. Riders are comfortable the year around; no matter how unfavorable the weather — wind, rain, snow, or cold — they are well protected.

Riders will appreciate the styling and improvements incorporated in these windshields.

The fabric apron, thoroughly waterproofed, is fastened at the lower end with two springs that keep it in place at all times. The heavy grade window is adjustable up or down to suit the individual rider. The metal legshields protect the rider's legs and feet yet allow plenty of air to circulate freely around the motor.

Note the simple yet sturdy construction of this windshield. All the controls are inside the shield, therefore easily reached. It gives complete all-weather protection.

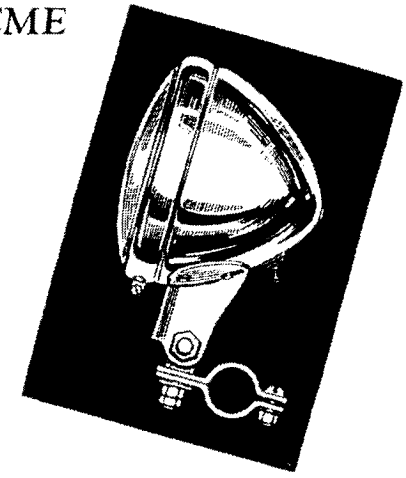
HARLEY-DAVIDSON

LIGHT UP WITH OUR SPOTLIGHT

THE SPOTLIGHT SUPREME



This DeLuxe spotlight, has by far, proven to be the best and most practical spotlight ever designed for motorcycling, and is very popular with riders. Scientifically correct, they have chromium plated streamlined bodies with good substantial brackets which allow them to be swung into any position. Easily attached to handlebars, safety guards, or any place to suit the rider's fancy. Lamp is fitted with a highly polished reflector. Throws a beam of light a long way. Handle toggle switch built into the back of body. These lamps can be supplied with fog lens to riders who prefer this type of lens.

			Code
11366-38	DeLuxe Spotlight	$5.00	eppef

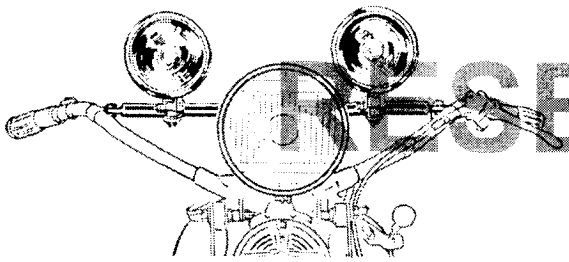
11371-38F	Fog Lens only	.60	escka

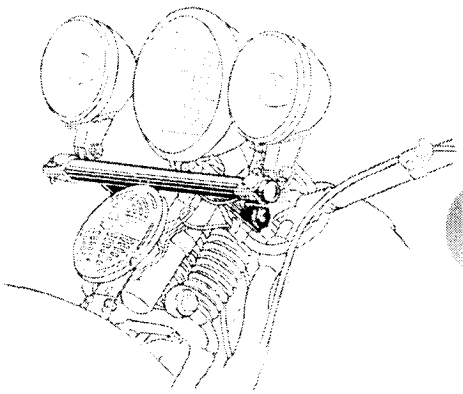
HERE'S A NICE SPOT FOR SPOTLIGHTS



An ideal way to mount a pair of spotlights is to clamp them onto a special crossbar held in between the regular handlebars. The crossbar we supply is a fine chromium plated, fluted bar. On this are mounted two DeLuxe spotlights (same as described above) together with toggle switch and wiring. This makes a fine appearing and useful combination that will look exceedingly well on any motorcycle.

			Code
11368-38	Set of two DeLuxe Spotlights, complete with crossbar, wiring and handlebar switch	$15.50	eppij

CHROME PLATED SPOTLIGHT BAR



Spotlights are most effective when used in pairs, especially when mounted on our 1947 Chrome Plated Spotlight Bar. This places them right out in FRONT where they do the most good. The appearance of the new 1947 Chrome Plated Spotlight Bar is sure to make a big hit with the riders. Designed by Harley-Davidson, this bar has that finished look of quality. Made of seamless steel tubing with end plugs welded in and chrome plated to withstand the 48 hour salt spray test. The spotlights are the same DeLuxe Model as described above. An extra handlebar switch is also included. This permits rider to switch "on" or "off" from the handlebar. A decided convenience, especially if motorcycle is equipped with a windshield.

			Code

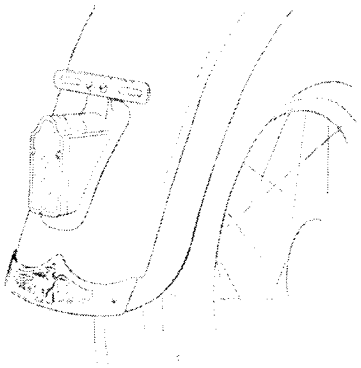
STOPLIGHTS . . .

A NECESSITY



The 1947 new designed tail and stop light complies with all present state laws. The body is made of die cast zinc alloy instead of a steel stamping. The lamp incorporates a Stimsonite reflex reflector and a double filament 21-3 candlepower bulb is used. A decided new feature of this new lamp is that the license bracket is integral with it and the bracket is no longer attached separately to the guard. This permits full illumination on the license plate. The light bulb can be easily and quickly replaced when required by simply taking out three screws in the frame around the reflex reflector. The lamp is self contained. A drain hole is provided to take off any moisture due to condensation. Compact switch, as shown, included.

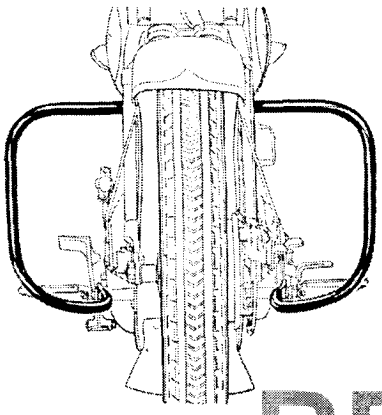
HARLEY-DAVIDSON

HARLEY-DAVIDSON

SAFETY GUARDS

BETTER THAN INSURANCE THE PERFECT PROTECTION

Here is the greatest accessory ever invented for motorcycles. Motorcyclists riding Harley-Davidson motorcycles equipped with both front and rear safety guards ride with the peace of mind that in case of spill or accident they will be well protected. We have received hundreds of letters telling of the serious injuries these guards have prevented. Endorsements are in our possession from all riders, beginners and veterans alike, praising these guards. They must be good . . . they are good.



FRONT SAFETY GUARD

The front Safety-Guard, pictured at the left, is made in the Harley-Davidson factory, from the best grade of extra heavy steel tubing, scientifically heat treated and formed to give the maximum protection to the rider. Securely fastened to the frame and footboard supports . . . a study of the illustration will reveal the wide margin of safety covered by these Harley-Davidson Safety Guards.

			Code

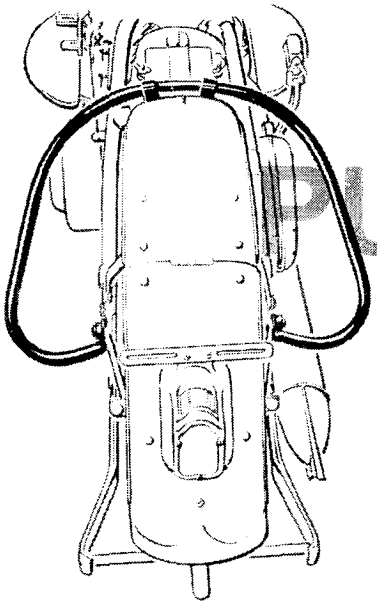
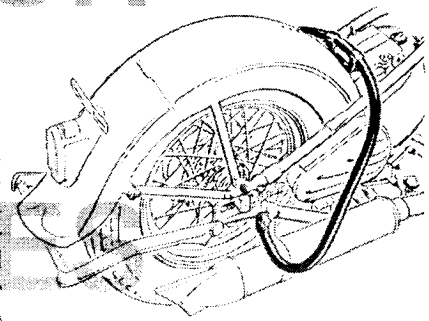
RESEARCH PURPOSES ONLY

REAR SAFETY GUARD





The instantaneous popularity of this rear safety guard has proven its indispensable value to the motorcyclist. Its success is truly a fitting tribute to the engineering genius of the Harley-Davidson engineers. This one-piece rear safety guard is sturdily constructed of a special tubing designed to withstand severe shock. It is rigidly bolted to rear axle clip and clamped to motorcycle frame at the rear mudguard connection point. A glance at the illustration shows the ample safety factor of this guard. It is interesting to note that a motorcycle equipped with both front and rear Harley-Davidson Safety Guards, rests entirely upon these two guards when lying on its side. No danger of being pinned beneath the heavy, hot motor. Riders, therefore, can extricate themselves easily from under in case of a spill. This feature alone is worth many times its low cost. Costly replacement parts are also protected. In fact these guards sell themselves.

			Code

SNAPPY SPLASH SHIELDS

Riders who do considerable riding in rain or on streets that are often wet will appreciate the sterling qualities of these splash shields. Designed to slip over the safety guard and shield the rider's legs and feet from water thrown up by the front wheels. They are fine on a cold day too. Made from a strong waterproof material that will give long and satisfactory service. Can be slipped on or off in a hurry. Fasten securely to frame by two web straps. No inaccessible or hard closing snaps to bother with. Allows plenty of air circulation around the motor yet gives ample protection. Easily stored in saddlebags when not in use.

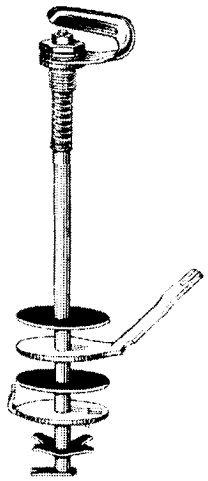
13050-X	Set Splash Shields	$5.50	borko

SAFER—SMOOTHER RIDES

IMPROVE STEERING

WITH A STEERING DAMPER



The reputation of this steering damper is well established with motorcyclists. Simple lever operated, it is designed and built by Harley-Davidson to give more ease and riding comfort to motorcycle riding. It takes all the whip out of steering at any speed. It is especially desirable for extremely high speed riding and sidecar use. The picture, as illustrated, shows how this well made and neat appearing damper is constructed. When the lever is moved to the right, the tension is increased and when moved to the left, the tension is decreased. It is so designed that the lever will remain fixed at any adjustment desired. Easy to operate . . . absolutely safe . . . cannot lock . . . economical for the service performed.

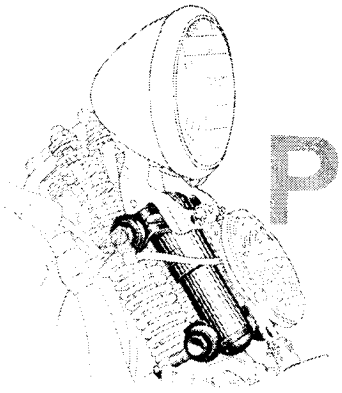
HYDRAULIC SHOCK ABSORBER



For That Cushioned Ride

FULLY AUTOMATIC

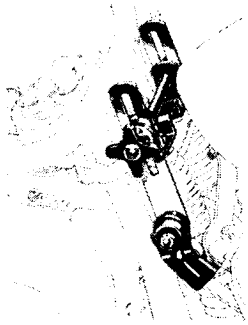
This Hydraulic Shock Absorber eliminates all manual adjustment, is neat and trim in appearance and is highly effective in providing a smooth ride. Acting as a snubber, it controls the action of the fork springs, automatically compensating for all road conditions and all riding speeds. It absorbs and cushions all jars and bumps resulting in an all around more comfortable and safer ride. Your riders will want to bring their motorcycle up to date by installing this hydraulic shock absorber, help them to get that extra smooth riding comfort by suggesting they install one now.

Fits 1936—61" Model, 1940 and later 45" Models and all 1937 and later Big Twin Models.

			Code
14000-45	Hydraulic Shock Absorber	$14.75	exzcu

"RIDE CONTROL"

ADJUSTABLE TO ROAD CONDITIONS



This device controls the action of the front fork springs. The adjusting range enables the rider to set the ride control at any point from a completely free and easy working spring action to a locked and rigid fork. Just turning the hand wheel adjusts the spring action to the road traveled on. All the bounce is taken out of the front wheel and the rider can travel safely at high speeds on roads that are otherwise too rough for fast traveling. Riders can relax and ride in comfort.

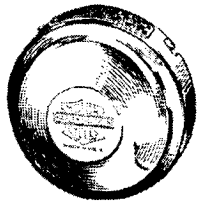
PRACTICAL . . . USEFUL ITEMS

CHROME PLATED AIR CLEANER!



No sir it can't be beat. The genuine Harley-Davidson air cleaner is tops among air cleaners. Not only is it's large rounded shape extremely attractive but the larger, special metallic filter, packed inside the housing is capable of holding oil longer in the mesh pack due to decreased air velocity entering this cleaner. This assures thorough filtering of harmful dust, grit, and dirt from motor, giving better motor performance. Will not materially affect top speeds. Most cleaners choke top speeds. Easy to clean. Fits all models using DeLuxe or Linkert carburetors. Instructions on each air cleaner.

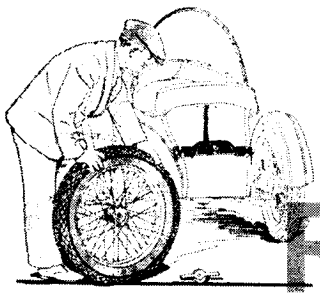
SPARE WHEELS and CARRIERS



Handy for Sidecar or Package Truck

On all Big Twins from 1930 to 1947, the wheels are quickly removable and are interchangeable. Every sidecar and package truck owner should take advantage of this by carrying a spare wheel carrier with wheel and tire attached, ready for use. Only a few minutes are required to change wheels in case of a puncture or blowout. Time thus saved will quickly pay for this investment. The spare wheels listed are standard wheels with hubs, as used on late models.
The spare wheel carriers, as illustrated, are very simple, yet rugged enough to carry the spare tire easily and safely. Both carriers are fitted with a lock for your protection.

OIL CAN SPOUT
11719-35

RIDERS WILL BE GLAD TO GET THESE ITEMS

TIRE TOOLS

This set of tire tools has been designed and developed by Harley-Davidson to meet the rigid specifications of the U. S. Army. The set consists of two 8¼" long, thoroughly hardened steel tire irons, specially shaped for motorcycle tires. They'll help you do the job easier . . . faster . . . safer.

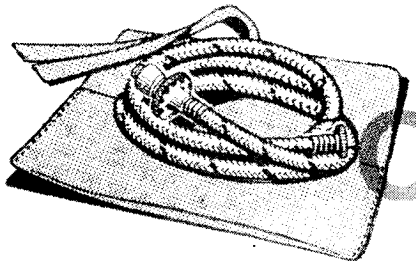
			Code
11551-X	Tire Tools, per set	$0.90	bigui

TUBE REPAIR KIT

This Tire Tube Repair Kit contains three 1¼" square rubber patches suitable for small punctures and one 2"x4" oblong rubber patch from which the user can cut off a piece to fit the exact size of the puncture. Tube of rubber cement and metal buffer all provided. Comes packed in a round, easy to tuck in the saddlebag, container.

			Code
11571-X	Tire Tube Repair Kit	$0.25	bijyo

SPARK PLUG TIRE PUMP



This new modern Spark Plug Tire Pump is a most convenient and efficient product for inflating tires. Your motor does the work. You simply attach the pump unit in place of a Spark Plug, screw the connection on the tire valve and run the motor at idling speed. It pumps only clean, cool air into the tire—no gas or oil laden vapors. It will not harm your motor. It's easy to use and it's fast. Compact, it can be easily carried in the saddlebag.

			Code
11553-46	Motorcycle Spark Plug Tire Pump	$3.75	eyimo

SPARK PLUG WRENCH

This handy spark plug wrench is an ideal tool for removing and replacing spark plugs on deep fin cylinder heads. To be used on 1940 & 1941 WLD and all Big Twins (when equipped with aluminum cylinder heads).

			Code
11805-40	Spark Plug Wrench	$0.35	etige

OIL CAN SPOUT

The "Can Spout" oil dispenser (pictured above) is just the thing for motorcyclists. This dispenser punctures the can and serves as a funnel besides. Drains the can and holds it. A clean dispenser that works without fuss or muss. Made for one quart sealed cans.

			Code
11719-35	Can Spout	$1.75	bypwi

OIL CAN OPENER

This inexpensive can opener punctures the can for draining. Owing to the location of the oil tank it will be necessary to use a small funnel to completely drain the can when filling the oil tank. Being small the rider can carry the can opener with him on all his trips.

			Code
11718-X	Quart Can Opener	$0.10	bweih

HOT PATCH VULCANIZER

Permanently vulcanizes a puncture in just a few minutes. No gasoline or cement to bother with. Anyone can use it anywhere. Outfit includes vulcanizer, two round and one oval patch and heat units.

FOR BUSINESS PURPOSES ONLY

IT PAYS TO PRESERVE

PROTECT – POLISH – PRESERVE

Keep it Clean . . . Shine it Up

CHROME CLEANER — You'll find nothing better than this Harley-Davidson Chrome Cleaner for restoring the shining lustre to chrome plating on motorcycles. This chrome cleaner does a thorough job of removing rust and tarnish. Makes chrome surfaces sparkle like new. Can be used on any base metal or plated surface.

			Code
11689-X	Chrome Cleaner & Polish—12 oz. bottle	$0.40	eyior
11689-XA	Case of 12 bottles of Chrome Cleaner & Polish	4.80	eyips

CHAIN GREASE — *None Better*

GRADE "A" GREASE

Add many miles to the life of chains and sprockets by using Genuine Harley-Davidson Chain Grease . . . a heat-resisting, high efficiency grease, that will penetrate the inner chain bearings, stay on at high speeds and lubricate at all times. Exhaustive tests by our Experimental Department have proven that this grease has no equal.
This grease can also be used in any ball or roller type bearings that are subjected to high temperature and severe usage. Especially suitable for rear, sidecar, and front wheel hub bearings. Put up in convenient tubes and cans.

			Code
11688-34	Chain Grease — 2 oz. tube	$0.20	bovwe
11670-X	1 Pound Can Chain Grease	.80	bivsu
11671-X	2 Pound Can Chain Grease	1.40	bivuw
11672-X	5 Pound Can Chain Grease	3.10	bivwy

POLISH and CLEANER

A really good polish contains the right proportion of cleaner — just enough to remove traffic film and grime — does not contain harmful acids or abrasives. Harley-Davidson Cleaner and Polish meets these exacting requirements. This polish preserves the fine enamel and keeps it in first class condition. It is ideally adapted for use on Du-Lux enamels. Also polishes glass, nickel and chromium plated surfaces. Leaves a hard, glossy surface that does not collect dust easily. Put up in handy ½ pint cans.

			Code
11725-XA	Harley-Davidson Polish	$0.50	buzas

CYLINDER BLACK

When you're doing that overhaul job don't forget that the cylinders, exhaust pipes, and muffler can stand a coat of Harley-Davidson Black Cylinder Paint. Clean black cylinders, exhaust pipes and muffler will give an old model motorcycle that "late-model" look. Applied when parts are warm, it dries in no time.

			Code
11649-XA	Black Cylinder Paint, ¼ Pint	$0.50	birro
11649-XB	Black Cylinder Paint, ½ Pint	.90	birsp

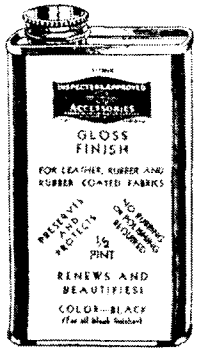
11649-XE	Black Cylinder Paint, 1 Gallon	9.50	bwiyb

GLOSS FINISH

for Leather, Rubber, Etc.



Leather accessories need a certain amount of care to keep their appearance. "Gloss Finish" has been developed with this preservation idea in mind. This ideal leather dressing preserves and protects saddles, saddle bags, belts, boots, leather jackets, windshield aprons, etc. Can be used equally well on rubber and rubber-covered fabrics. Available in ½ pint cans in clear or black.

			Code
11730-XB	Black Gloss Finish—½ Pint	$0.50	esceu
11730-XC	Clear Gloss Finish—½ Pint	.50	escoe

GOOD LEATHER LACQUER

Just the thing for preserving the original finish of leather riding accessories. Just brush on some of this leather lacquer—let it dry and you'll be mighty pleased with the results. A truly fine leather preserver for saddles, buddy seats, saddle bags and other leather goods. Comes in Black or Brown.

			Code

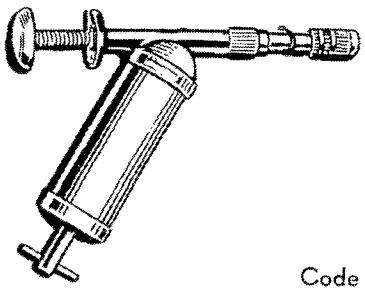
THE RIDER'S GREASE GUN



This handy little grease gun will simplify your riders task of greasing up his motorcycle. Display it prominently and your riders will be sure to purchase one for their home use.

Sturdily constructed, easy to operate and exerts sufficient pressure to thoroughly lubricate the most obstinate bearings. Motorcyclists are assured a first class job if they use this latest type grease gun. Hard to get at fittings easily and quickly reached. No waste of grease. Clean jobs.

			Code
11661-38	Grease Gun, For all Models 1938 to 1947	$2.00	epsfi

SPECIAL! (Zerk Fittings)

For models prior to 1938 we can supply the new type "Zerk" grease fittings. Owners of older models can now get a set of these fittings and bring their lubricating systems up to date. Consists of 20 straight and angle fittings and two extensions.

			Code
11660-38	Set of Zerk Fittings	$2.60	erabn

USE THE BEST!

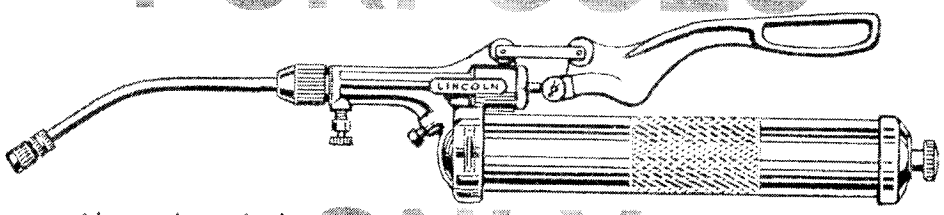
HARLEY-DAVIDSON PRESSURE GREASE

Harley-Davidson pressure grease has been compounded under our special formula and is the most satisfactory lubricant to use in your pressure greasing system.
It is also a high quality cup grease and is recommended for use where hot and cold resistance are not important factors. Ideal for lubricating upper and lower steering head bearings, fork recoil and cushion springs, sidecar ball joints, and seat post springs. Why take a chance? Use only Harley-Davidson Pressure Grease!

			Code
11658-X	Pressure Grease, 1-lb. can	$0.35	bists
11657-X	Pressure Grease, 5-lb. can	1.25	bispo

SHOP SIZE GREASE GUN

For Quick, Efficient Grease Jobs!



You owe it to your riders to have the best, most modern shop equipment available for servicing their motorcycles. This modern, powerful and efficient shop size grease gun should be in every well equipped shop. It has power to spare and will lubricate the most obstinate grease fitting quickly and cleanly. This grease gun is a man's size and will do a man's size job. Improved bent nozzle makes it easier to reach hard-to-get-at fittings. Lever action gives added power and ease of operation.

			Code

11665-38	Grease gun packing	.10	epsos

HAND CLUTCH CONTROL FOR 45's

Many solo riders like the auxiliary hand clutch control because it leaves both their feet free for use in traffic or heavy going. Simple hand lever is mounted on the handlebar and operates the clutch as effectively as with the usual foot pedal. The hand clutch control is available on all models except the Big Twins. On the Big Twins the clutch springs are so strong that a foot pedal is required to properly operate them.

			Code
2555-38	Hand Clutch Control, 1938 to 1940—45" Model	$7.00	eoxah
2555-41A	Hand Clutch Control, 1941 to 1947—45" Model	7.00	exuna

FOR NEW HARLEY-DAVIDSON WINDOW VALANCE

Never have we been able to offer anything as big and as distinctive as this new window valance. It not only will add class to your store front and dress it up, but it helps identify your establishment as Harley-Davidson headquarters. It will bring more business your way.

The new window valance features the Harley-Davidson colors, orange and black, and in addition there is gold to lend richness and white for contrast. There is a beautiful rope design in gold at the top, and the panels feature graceful, sweeping curves at the bottom. Each window valance set consists of six panels. There is a center trade mark panel, size 30" x 18"; four courtesy panels with wording, size 30" x 10" each; one blank panel, 30" x 10". The wording on the courtesy panels reads: MOTORCYCLES, SERVI-CARS, AUTHORIZED SERVICE, HARLEY-DAVIDSON MOTORCYCLE OIL, GENUINE PARTS & ACCESSORIES. Total length of one window valance set is 180 inches or 15 feet.

Complete instructions for attaching the valance accompany each set. To assure long life, it is well to coat the back side of the panels with clear varnish or lacquer once they are up and are dry. Panels can be put up in any sequence you desire and the blank panel can be cut in sections to fill out any odd spaces that may remain. Separate panels are not available and valances are sold only in complete sets.

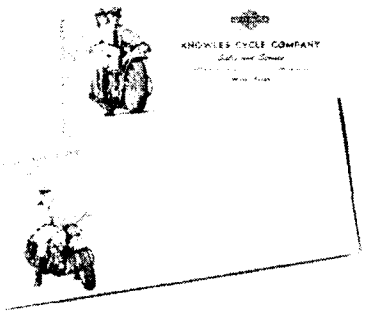
HARLEY-DAVIDSON

1947 LETTERHEADS AND ENVELOPES

Give Your Business Prestige!



Here is a real eye catching letterhead and envelope if there ever was one. These new 1947 letterheads and envelopes will immediately identify you as the progressive Harley-Davidson dealer in your community and advertise your business. The letterhead design is executed in three colors—black, blue and orange showing a carefree couple mounted on a late model Harley-Davidson motorcycle. Envelope design on front and back is in black. Imprinting of dealer name and address is in bronze blue. These attractive letterheads lend themselves admirably to your advertising campaign as they present your product very attractively. They fit in fine for business letters, circular letters to riders and prospects, used motorcycle sales campaigns, or anything else you get out along this line.

The paper in the letterheads is the high-grade. 16 lb. American Trust Bond —50% rag and 50% wood fiber—and provides an exceptionally fine writing surface. The envelopes are also American Trust Bond, but the weight is 20 lb. for better opacity. From both the standpoint of quality and appearance, we believe this to be the best stationery we have ever been able to offer dealers. It works out equally well for pencil, pen, typewriter, mimeograph or multigraph. Erasures show very little.

This paper is supplied to you in sealed packages containing 500 sheets per package. These will have the motorcycle pictures on them and the general design, but will NOT be imprinted with dealer's name and address. You may wish a special design of imprinting not readily available through our imprinting service. Your local printer will be glad to do this imprinting just as you specify and at most reasonable prices.

			Code

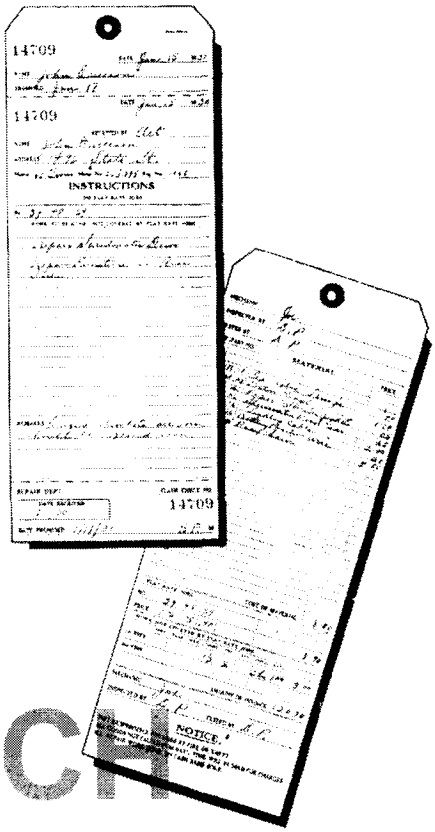
Repair Job Ticket



COMPLETE HISTORY OF EVERY JOB

One of the essentials for profitable repair shop operation is to have a satisfactory record of the work and material put into each job. This Repair Job Ticket is designed with that in mind. Be sure that it is used as intended and there will be no parts and labor used for which there is no record. Many an argument with a customer is saved by use of these job tickets.

This repair job ticket measures 4⅝"x12". It is a three part form consisting of a numbered stub to be attached to the repair job itself, a numbered ticket containing instructions as to the work to be done and on the reverse side the parts and material used, and also a numbered claim check which is given to the customer at the time the repair job is taken in. This is an extremely handy and up-to-date repair job ticket that every dealer can use to advantage. All tickets are numbered on all three parts so that the job can be identified by number as well as by the name of the customer.

SPARE PARTS CATALOGS FOR RESALE

RIDERS LIKE THE EXPLODED VIEWS

The "exploded views" of each assembly on the motorcycle has made the Harley-Davidson Spare Parts catalogs the finest and most popular catalog ever published. Your riders will purchase these catalogs not only for the parts information they contain but as a means of learning just how their motorcycle is put together.

Spare Parts Catalogs are supplied to any user at the regular retail price. Be sure to mention year and model when ordering.

			Code
13850-41	Spare Parts Catalog—All Models 1930 to 1941	$1.50	evluw

ADVERTISING LITERATURE
for The SERVI-CAR User

"JUST A PHONE CALL" — FOLDERS THAT INCREASE BUSINESS

This attractive two-color, four-page folder is just the piece of advertising matter every automotive owner of a Servi-Car will want to mail to customers and prospects announcing that he has adopted this modern method of calling for and delivering cars. The great convenience of Servi-Car Service is emphasized in striking illustrations and is forceful reading matter. Space is provided for the prominent imprint of the dealer's phone number, together with his name and address. Folded size 3⅜" by 6⅛" and fits easily into a small envelope.

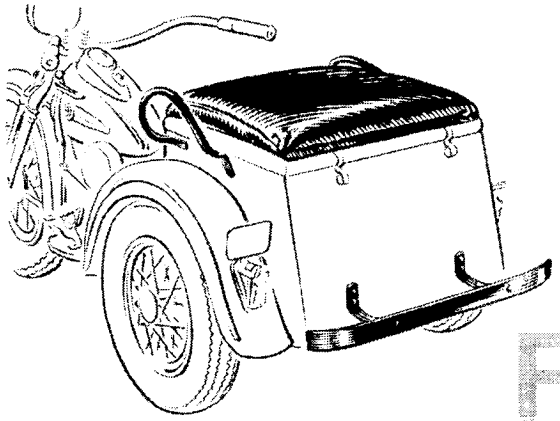
SERVI-CAR ACCESSORIES



HANDRAIL — CUSHION — BUMPER

To get the maximum efficiency out of Servi-Cars they should be equipped with proper accessories. Many garages find that Servi-Cars equipped with cushion and hand rails offer the fastest and most economical method for carrying men to and from outside jobs.

The rear bumper is a safety feature besides providing a convenient way to carry a spare tire. Rear bumper also provides a foot rest for rear passengers. Garages often call and deliver spare tires. The body protectors keep a spare tire from rubbing the body besides providing convenient strap holds.

These tried and proven accessories are giving many Servi-Car users better customer service and profit making satisfaction.

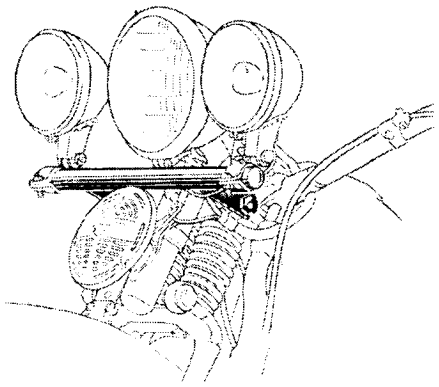
FOR RESEARCH PURPOSES ONLY



POLICE EQUIPMENT

PURSUIT LIGHTS

Police pursuit lights are very essential to the safety of the police officer in the pursuit of speeders and on emergency runs. They consist of two spotlights, one with red lens and one with clear lens, mounted on suitable brackets. They are visible from a great distance and serve to clear the way through traffic for the officer.

These pursuit lights can be practically and conveniently mounted either on the chrome plated spotlight bar or the chrome plated crossbar. A toggle switch, which fastens around the handlebar, is included with each combination, making it possible for the officer to easily flick the pursuit lights on or off. The spotlights themselves have switches embodied in them, so they can be separately turned on or off at will. These latest styled DeLuxe Pursuit Lights are well constructed. They are in snappy chrome finish, small and light, yet provide more light than many larger spotlights. Extremely attractive when mounted on chrome plated crossbar or on chrome plated spotlight bar.

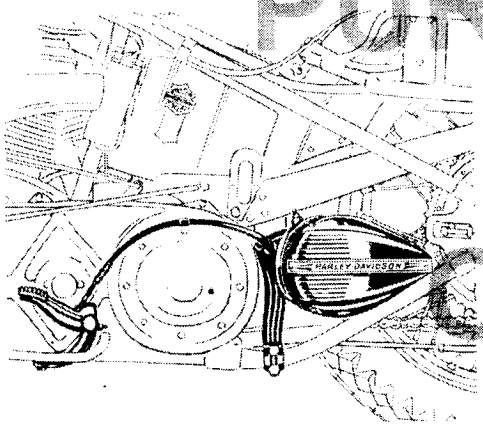
11368-46A	Set of Pursuit Lights with chrome plated spotlight bar	17.75	eylin

"SIRENS"

Loud Piercing Tone



The Harley-Davidson rear wheel siren, positive in action and streamlined for beauty, is ideally suited for police motorcycle service. It is extremely well designed and constructed and we do not hesitate to claim that it will give more satisfactory service than any other siren on the market. It is operated from a simple and convenient heel or foot lever. The tone is loud, and pierces all traffic noises. The drive is by means of a friction pulley that makes contact with the rear tire when the siren is operated. It operates efficiently at either fast or slow speeds.

FRONT WHEEL SIREN

The front wheel siren for Servi-Cars, also handsomely streamlined, is designed for those police departments that prefer a siren operated from the left handlebar with a lever similar to the front wheel brake lever. The drive is by means of a friction pulley that makes contact with the front tire when the siren is operated.

			Code

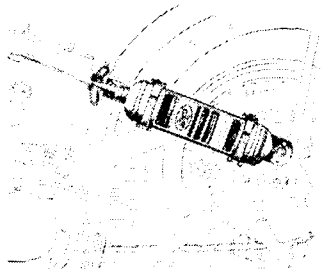
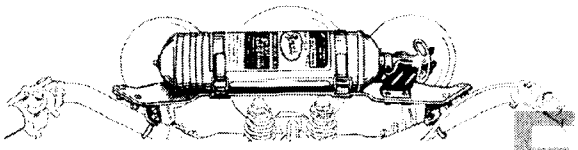
Police Equipment

PYRENE FIRE EXTINGUISHERS



Many highway patrols as well as city, county and state police departments are using their motorcycles equipped with Pyrene motorcycle type fire extinguishers, so that they will be better able to handle automobile fires, brush fires, etc. With this equipment they can put out the fire before it gets too serious. The motorcycle type Pyrene extinguisher we offer is especially constructed for motorcycle service. It is fitted with a special packing at each end that compensates for the jarring the Pyrene gets in service and prevents leakage of the contents. Two special brackets are offered, both made in our own factory—for motorcycle use. The bracket for carrying the Pyrene extinguisher on the handlebars supports it securely. It is a combination bracket that will fit either the 1947 or earlier models.



The bracket for mounting the Pyrene extinguisher at the rear of the motorcycle can be used in several ways. It can be used with or without a luggage carrier and will fit models equipped with saddlebag type radio. Two can be used, one on each side.

			Code

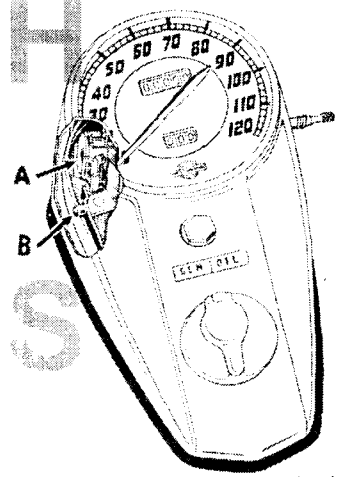
11357-X	Pyrene Extinguisher	13.00	etofi

SPEEDOMETER CONTROL

Electrically Locks Speed Hand

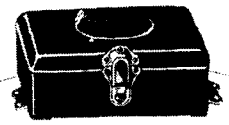


This speedometer control is an ingenious electrical device by which the speedometer speed indicating hand can be instantly controlled from the handlebars at the will of the officer. Pressing a button on the right handlebar, at any instant desired on a run, actuates the electrical magnetic unit "A" which instantly locks the speed hand thus showing the actual speed. Speedometer hand can be released by a mere touch on the plunger "B". This device controls speed hand only and does not interfere with the regular operation of the speedometer. Positive, and instantaneous in action, as it is electrically operated. Safe—the officer need not release his hold on the handlebars while riding at top speed.

An important and necessary accessory for all police motorcycles in the pursuit of speeders. Fits only speedometers with tripodometer register.

			Code
11152-38	Speedometer Hand Lock, complete	$4.00	epciw

FIRST AID KIT—*Make Every Officer An Emergency First Aid Man*



Many police and sheriff departments realize the desirability of providing first aid in case of automobile accidents, etc., especially when outlying districts are patrolled. The first aid equipment we supply has been worked out from the experience of many of these departments, and contain all the essential items for this service. The metal box and roll-up kit of contents, illustrated here, have proven very popular. The metal box when attached to top of rear mudguard or luggage carrier, is easily accessible and contents are speedily available when required. The roll-up kit is made of a well waterproofed flexible material. Pockets are of ample size and are plainly marked, indicating contents.

			Code

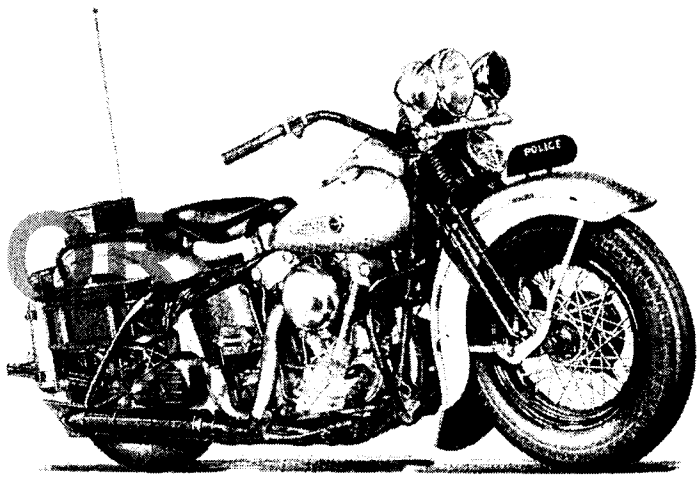
CALLING ALL POLICE CHIEFS!

RADIO EQUIP YOUR POLICE MOTORCYCLES

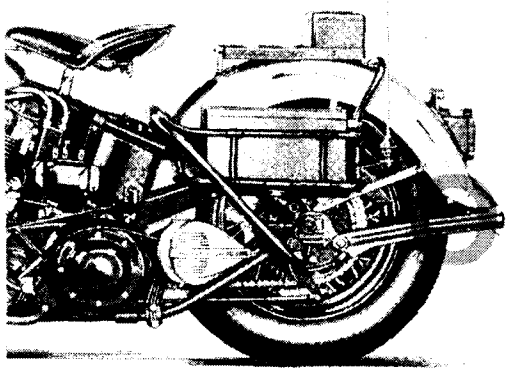


Modern police methods depend mainly on RADIO for the rapid transmitting of orders and information. No other medium offers such instantaneous and direct transmission. However, an excellent transmitting station is handicapped unless outlying stations (motorcycle patrol) are equipped with efficient and trouble-free radio receivers. Through years of consistent effort Harley-Davidson offers the finest motorcycle receiver ever produced. All the latest improvements and refinements have been incorporated in the receivers.

We offer the Harley-Davidson R.C.A. five tube, superheterodyne receiver with synchronous vibrator type B current supply. Can be adjusted to operate on any frequency in the police bands from 1600 to 2500 K.C. The compact cast aluminum speaker mounted on the motorcycle handlebar is the permanent magnet dynamic type and is designed for high quality voice reproduction. The antenna is of the vertical "buggy whip" type and is mounted at the rear of the radio carrier by means of a special bracket. This type of antenna has proven superior both mechanically and electrically to other types previously used on motorcycles.

We are justly proud of the ultra high frequency radio receiver developed through the combined efforts of Harley-Davidson and the General Electric Co. It is designed expressly for police departments requiring an ultra high frequency receiver (30 to 42 megacycles) capable of consistent and dependable performance. All the refinements that have been found desirable through fourteen years of motorcycle radio experience have been incorporated in this new receiver. Police departments are commenting on their excellent performance.

Both of these receivers are housed in the low slung saddlebag type mounting so successfully used for the past several years.



NOTE THESE OUTSTANDING FEATURES:

For Harley-Davidson R.C.A. Police Radio, 1600 to 2500 Kilocycles:

1. R.C.A. built receiver chassis and power unit.
2. Harley-Davidson saddlebag type radio carrier.
3. Exceptionally low current consumption—uses only 2.5 amperes.
4. Permanent magnetic speaker.
5. Vertical antenna—better signal pick-up.
6. Oscillator circuit temperature compensated.
7. Permeability tuning throughout—including oscillator.
8. Volume control conveniently mounted on tank.
9. Long life synchronous vibrator.
10. Housed in waterproof boxes.

For Harley-Davidson—General Electric Ultra High Frequency Receiver 30 to 42 Megacycles:

1. General Electric built receiver chassis.
2. New long life synchronous vibrator.
3. Low current drain—only 2.7 amperes.
4. Adjustable noise suppression circuit.
5. Four metal tubes, clamped to chassis.
6. Discriminator against ignition interference.
7. Automatic volume control.
8. Ceramic insulation.
9. Harley-Davidson saddlebag type radio carrier.
10. Easy accessibility of all parts.

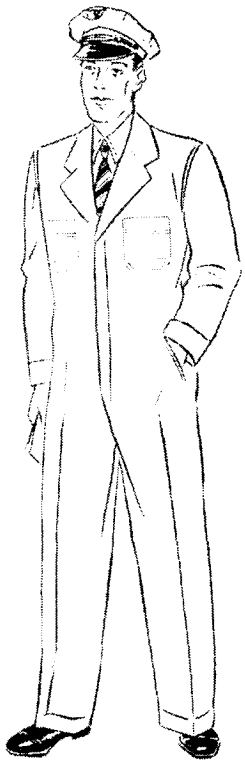
SHOP UNIFORMS INSPIRE

"CUSTOMER CONFIDENCE"

Make A Good Impression On Your Riders

Harley-Davidson Shop Uniforms have always proven a huge success. Dealers, all over the country, are sold on the value of their use, due to increased business and the prestige they bring. Uniformed servicemen just naturally inspire confidence. Neatly uniformed mechanics indicate "Specially Trained Experts." Your shop will be known as headquarters for first class Harley-Davidson service. This will reflect in increased motorcycle, Servi-Car, spare parts, accessories and oil sales.



WHITE HERRINGBONE COVERALLS

Ideal For Shop Mechanics

Harley-Davidson coveralls are made from the best grade of White Herringbone, fully Sanforized, so they will not shrink in washing. All main seams are triple stitched and thread riveted at points of strain. Pockets are made of heavy sail cloth. These coveralls are cut full size and are roomy enough to be comfortable in any position. All buttons are covered so they will not catch on the work. These coveralls have the name "HARLEY-DAVIDSON" embroidered on the back in bright scarlet silk embroidery. Your firm name can be added at a nominal low cost of $0.75 net each.

			Code

OFFICIAL HARLEY-DAVIDSON SHOP UNIFORMS

The new Harley-Davidson service uniform makes a very striking and pleasing appearance. It is practical and distinctive. Does not show dirt easily. Cool enough for hot weather. Well tailored. Very strong and long wearing. These uniforms cost less than ordinary work clothes, yet will stand more hard service. Can be washed or dry-cleaned or sent to overall laundries. Styled for comfort and utility. Plenty of useful pockets. Reinforced seams at all strain points.

The shirt is made of Blue twill, sanforized (pre-shrunk) material. Very strong, yet not too heavy for warm weather. "HARLEY-DAVIDSON" is neatly embroidered in scarlet letters across the back. Supplied in regular collar sizes and short (32), medium (33), and long (34), sleeve lengths.

The Harley-Davidson Service Pants are made of dark Blue herringbone material, a long wearing, strong material. Pockets are made of heavy sail cloth. Triple stitched main seams. Five pockets. Belt loops, easily laundered. Specify waist measure and inseam (crotch to heel) length.

SPECIAL SHOP TOOLS

For Quicker, Better Customer Service

Now is the time to modernize and streamline your service department. In these days of high wages and high everything, service facilities and methods must be at their best, otherwise you provide service to your customers at a loss to yourself or drive them away with extremely high repair bills. Clean up your shop and re-outfit it as needed to give it a full complement of modern, labor-saving power and hand tools. Bring its efficiency to a point where maximum work is accomplished for every minute of shop time turned in.

In the following section we list the many special shop tools which are needed in the shop to efficiently repair motorcycles. Inventory your present tools and also observe whether some of them are obsolete or worn to the point where they should be discarded or replaced with new.

At the end of the tool section you will find the new shop equipment, like the generator test stand, valve spring tester, drill press, grinder, armature growler, circuit tester, parts washer, etc., that we now offer to you at a great saving. This equipment is made by nationally known manufacturers and is the best in its field. It will give you many years of profitable service. Look over this tool and equipment section very carefully and order the tools and equipment that will help you to be the up-to-date dealer your riders expect you to be.

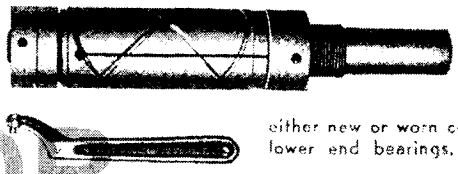
CYLINDER BASE NUT WRENCH

This is a specially designed wrench, shaped and formed so that it can be used on all of the cylinder base nuts on all 1930 to 1947 models. Can also be used on several other standard size nuts on these models.

			Code
12050-30	1930 to 1947—61", 74" & 80" Big Twins	$3.10	brauj
12650-29	All 45" twins cylinder base nuts and 1936 to 1947 O.H.V. cylinder head bolts	2.25	buzew

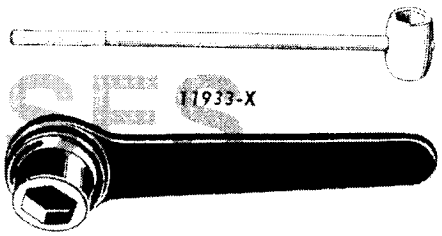
CONNECTING ROD LAPPING ARBOR



Used to make a perfect fit when standard or oversize rollers are fitted to either new or worn connecting rods, lower end bearings.

			Code
11944-X	1½" lapping arbor complete for 1929 to 1947—45" twins, for 1930 to 1936—74" & 80" side valve twins	$10.00	bopos
11944-36	1⅝" lapping arbor complete for 1937 to 1947—74" & 80" side valve twins, for 1936 to 1947—61" & 74" O.H.V. twins	10.00	eogyo
11949-X	Lap only for 11944-X	4.80	bopyb
11949-36	Lap only for 11944-36	4.80	elugh
11950-X	Wrench for lapping arbor	1.25	borei

CRANK PIN & FLYWHEEL SHAFT NUT WRENCH



11933-X

These special wrenches are necessary because there is very little clearance and these nuts cannot be tightened properly with an ordinary wrench.

			Code
11933-X	Crank Pin Nut Wrench for all Big Twins	$2.90	boomo
12645-26	Crank Pin Nut Wrench for 45", and Engine Sprocket Nut Wrench, all models	2.00	buyuk
12645-29	Flywheel Shaft Nut Wrench for 45" models	2.00	bowfo

CYLINDER HEAD BOLT WRENCH

12047-30A

12047-30H

These strong cylinder head bolt wrenches are made for shop use. They have long heavy handles and will pull up tightly the cylinder head bolts or nuts.

			Code
12047-30A	Cyl. Head Bolt Wrench, all Side Valves	$1.50	breke
12047-30H	Cyl. Head Bolt Wrench, all Side Valves & O.H.V.	2.50	eyoem

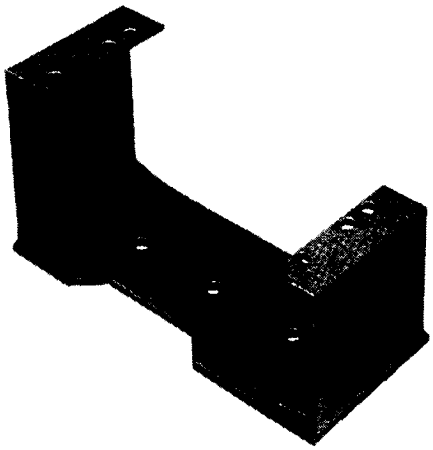
NEW ENGINE REPAIR STAND

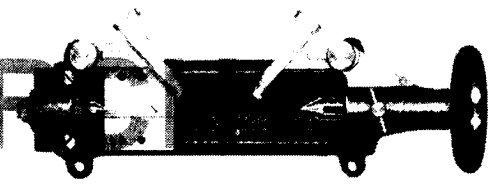


Simplifies Shop Work

Here's a newly designed engine repair stand that simplifies and speeds up the job of tearing down or rebuilding, engines from the crankcase up. Any engine, 1930 and up, can be securely bolted in this stand, making it easier to work on. This stand will more than pay for itself in the time and effort saved by your mechanic in engine repair work. Every shop needs one, order yours now.

			Code
12125-46	Engine Repair Stand	$9.00	eyofn

FLYWHEEL TRUING DEVICE



You cannot get along very well without this special tool in your shop. Flywheels must be assembled so that the shafts are in perfect alignment. Power, speed, and a smooth, quiet running engine depend to a large degree on perfectly balanced and aligned flywheels.

The only way you can check flywheel shafts for alignment is to use this special Harley-Davidson flywheel truing device. By no other method can you determine when the shafts are in perfect alignment.

Extra large hardened and ground steel centers are used to support the wheels while they are being drifted with a copper hammer to obtain perfect alignment.

Precision calibrated indicators are furnished with each truing device. These indicators show at a glance how many thousandths of an inch the flywheel shafts run out of true. Each graduation on the indicators is equivalent to .002".

This truing device will accommodate all models of Harley-Davidson flywheels.

			Code
11962-X	Flywheel Truing Device, complete	$60.00	bosin
11963-X	Stationary center	3.70	eveoj
11964-X	Movable center	7.30	evesm
11969-X	Set of Gauges or Indicators	4.80	eveuo

FOR RESEARCH PURPOSES ONLY

FLYWHEEL TRUING DEVICE ADAPTER

A necessary adapter to be used with regular flywheel truing device for 1936 to 1938 O.H.V. Models.

			Code
12640-36	Flywheel Truing Device Adapter	$2.50	eogar

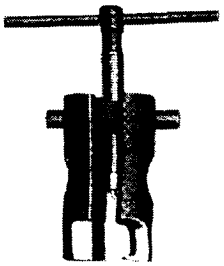
FLYWHEEL END PLAY GUAGE

11967-38

This flywheel end play gauge enables you to properly gauge end play of flywheels while in crankcase. Tool screws on sprocket shaft and indicator can easily be set to properly gauge and align flywheels. You will want one for your shop equipment. Works on all models.

			Code
11967-38	Flywheel End Play Gauge	$1.00	eptae

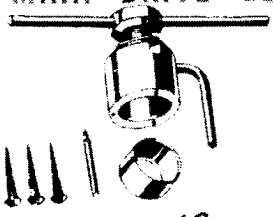
GEAR PULLER



Gear pullers are the handiest tools you can have in your shop. This puller is designed to remove pinion shaft gears on all models 1930 to 1947. Can also be used for pulling generator drive gears.

			Code
11849-X	Gear Puller	$5.20	bogga

MAIN DRIVE GEAR OIL SEAL TOOL



It is very simple to remove and install the main drive gear oil seal with this tool. It works just as well if transmission is in the frame or on the work bench.

12734-42

			Code
12734-42	Main Drive Gear Oil Seal Tool	$7.50	eyogo

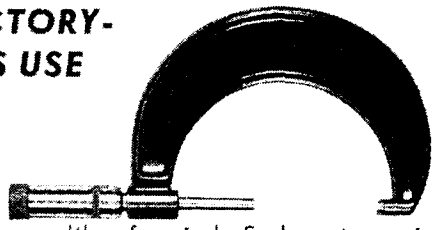
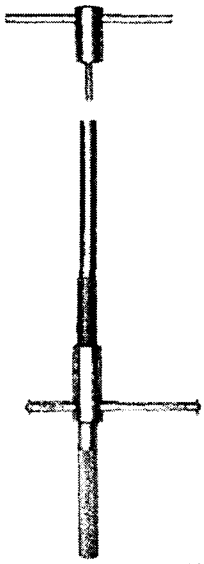
EXPERIENCED and FACTORY-TRAINED MECHANICS USE MICROMETERS



All parts of the Harley-Davidson are made to such close standards that they are inspected and checked for accuracy with instruments reading in thousandths of an inch. Such parts as pistons, piston pins, cylinder, flywheel shafts, crank pins and thrust washers, must be accurately measured for proper clearances when making repairs to the engine.

			Code
12062-X	Micrometer 0 to 1 inch outside	$19.30	breau
12063-X	Micrometer 2 to 3 inch outside	21.60	breey
12064-X	Micrometer 3 to 4 inch outside	27.40	brega
12065-X	Micrometer 2 to 8 inch inside	23.10	breic

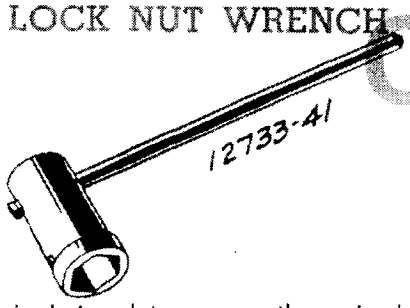


GAS SHUT-OFF VALVE TOOL

Tool is designed for use on all 1940 and later models with gas shut-off valve on top of left gas tank. Tool is designed for correcting alignment of bottom and top holes for easy turning of valve rod and for correct spacing between top and bottom fittings of tank, to match length of valve rod. This tool is especially needed for gas tanks that must be repaired due to accidents.

			Code
12775-42	Gas Shut-off Valve Tool	$6.00	eyoir

MAINSHAFT BALL BEARING LOCK NUT WRENCH



This tool is designed to remove the main shaft ball bearing lock nut from big twin transmissions. The small end, (1-$\frac{1}{16}$") fits 1936—61", 1937 to 1939 big twins. The large end (1$\frac{1}{16}$") fits all big twins for 1940 to 1947.

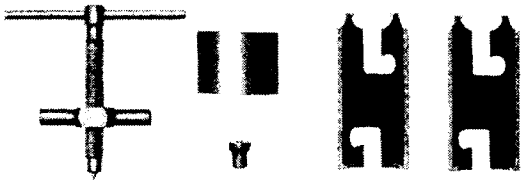
			Code
12733-41	Mainshaft Ball Bearing Lock Nut Wrench	$3.75	euygu

MANIFOLD & SIDECAR WRENCHES

A single end drop forged wrench made to fit carburetor manifold nipples and nuts on all twin motors. Also fits all sidecar ball joint nuts.

			Code
12002-X	Sidecar wrench (will fit 1¾" hex nut)	$2.40	bovyg
12003-X	Manifold wrench fits 1932 to 1947—45" twins with iron heads. Will not fit sidecar ball joint nuts (will fit 1⅞" hex nuts)	3.20	bowaj
12002-30	Manifold wrench, 1939 to 1947 — 45" with aluminum heads, all side valves and 61" O.H.V. to 1939 (will fit 2" hex nut)	3.20	boduk
12002-40	Manifold wrench for 1940 to 1947 O.H.V. models (will fit 2⅛" hex nuts)	3.20	evdga

MAINSHAFT STARTER CLUTCH and BEARING PULLER



For 1936—61", 1937 to 1947 Big Twins. It is a combination tool, one end is used for removing the mainshaft starter clutch and the other end for pulling worn mainshaft ball bearing. It is not necessary to remove the transmission from the frame.

			Code
12737-43	Mainshaft Starter Clutch & Bearing Puller	$9.90	eyoox

SPECIAL SHOP TOOLS

For Quicker, Better Customer Service

PISTON LOCK RING TOOL

12052-32

This simple tool makes it a very simple matter to install the 1932 and later type of piston pin lock rings in the late motors with aluminum pistons. Without this tool the late type lock rings can not be installed properly.

			Code
12052-32	Piston Lock Ring Tool	$1.50	brica

PISTON PIN BUSHING TOOL

12057-X

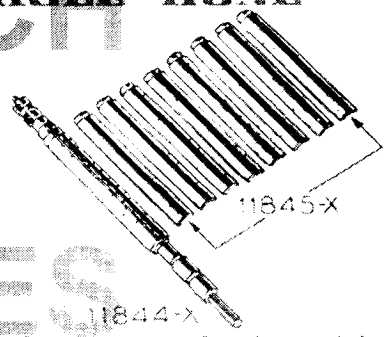
With this handy tool it is possible to remove and replace piston pin bushings without removing the rods from the crankcase. Used on all models.

			Code
12057-X	Piston Pin Bushing Tool	$4.70	bropu
12057-38A	Knurled nut (for thin bushings)	.35	eriuo

TO FIT PISTON PINS ACCURATELY . . .

Use a HALL PISTON PIN HOLE HONE

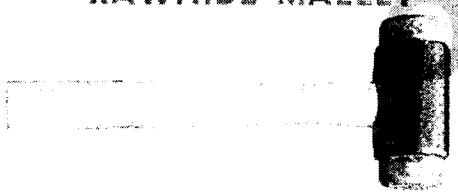
Trying to fit piston pins to the exacting requirements of today's motors by the use of dulled or nicked reamers is both unsatisfactory and unprofitable. The Hall piston pin hole hone enables the mechanic in the shop to fit piston pins to the exact size required. Where considerable metal is to be removed, a reamer can be used and the hole finished with the pin hone to exactly the fit desired. All gauges, chatter or blade marks will be removed and the hole will have a polished, run-in finish.



The expansion of the Hall piston pin hole hone is entirely controlled by the one adjusting screw graduated in thousands of an inch. This micrometer adjustment locks securely until operator desires to collapse or further expand the tool. This piston pin hole hone can be used wet or dry and will enable any mechanic to secure a rotating, push or press fit as desired. Can be used for enlarging smoothing or polishing small holes in any metal. Any electric drill of 300 to 500 r.p.m. or drill press may be used.

			Code
11844-X	Hall Piston Pin Hone complete with fine abrasives	$13.50	evkij
11845-X	Box of fine abrasives (4 sets)	2.00	evkkl

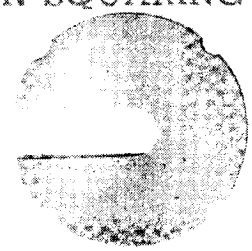
RAWHIDE MALLET



The rawhide mallet can be used safely on enameled parts or for work where a heavy blow is necessary without damaging results.

			Code
12034-X	Rawhide mallet	$5.30	boyxi
12035-X	Rawhide ends, per pair	1.70	bozam

PISTON SQUARING PLATE



This plate is used to determine whether a connecting rod is out of true by placing the plate on the crankcase and turning the engine until the skirt of the piston bears lightly on it.

			Code
11919-X	Piston squaring plate, for all 61", 74" and 80" Models	$1.80	bonkl
12655-26	Piston squaring plate, all 45" Models	1.30	buzri

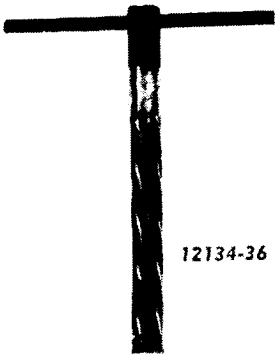
REAMERS

12660-26D

Special reamer for 2nd gear and low speed gear bushing on 45" to 1940. Also used for big twin brake side cover bushing to 1930.

			Code
12660-26D	Reamer	$7.00	bwaoj

CAM GEAR SHAFT BUSHING REAMER

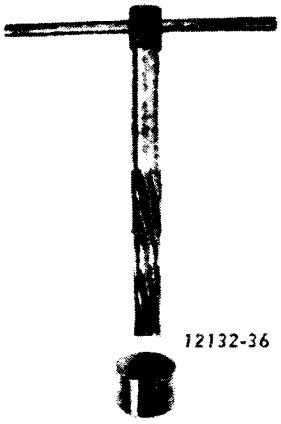


12134-36

A handy and serviceable shop reamer for fitting cam gear shaft bushings on 1936 to 1947 O.H.V. models. A precision reamer that will give excellent service.

			Code
12134-36	Cam Gear Shaft Bushing Reamer	$17.80	eskki

OILER and PINION SHAFT BUSHING REAMER



12132-36

This versatile reamer serves a two-fold purpose. The lower end is for reaming pinion shaft bushings on 1936—61" and 1937 to 1947 Big Twins. The upper reamer is for use on oiler shaft bushings on 1937 and later 45", 74" & 80" twins.

			Code
12132-36	Reamer complete as illustrated	$13.50	eskge

VALVE GUIDE REAMER

11894-47

Used for cleaning up valve guides on 1936 to 1947 O.H.V. models.

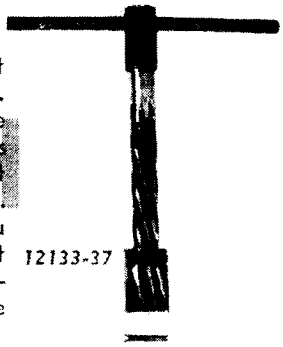
			Code
11894-47	Valve Guide Reamer	$7.50	eyopy

12660-26B

Special reamer for clutch gear bushing to 1940—45" models.

			Code
12660-26B	Reamer	$5.80	bwaid

CAM SHAFT and TIMER SHAFT BUSHING REAMER

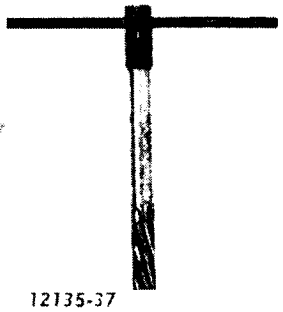


12133-37

Here is illustrated another double duty reamer that every shop will appreciate. The lower end (removable and held in place by pin) is for reaming timer drive shaft bushings in gear case cover. Detach this section and you have a reamer for cam shaft bushing for 1937 to 1947—45" and Big Twin side valve models.

			Code
12133-37	Cam Shaft & Timer Shaft Bushing	$17.80	eskig

PINION SHAFT BUSHING REAMER



12135-37

An excellent reamer for fitting pinion shaft bushings on 45" engines from 1937 to 1947. This reamer is made of high grade tool steel and will give long, satisfactory service.

			Code
12135-37	Pinion Shaft Bushing Reamer	$12.50	esknl

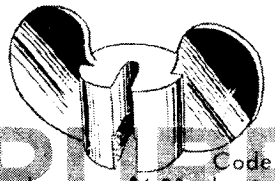
SPOKE NIPPLE WRENCH



Especially designed to fit spoke nipples on front wheels on all 45" models except if equipped with 16" rims. Does not fit 1941 to 1947 Servi-Car.

			Code
12032-X	Spoke Nipple Wrench	$1.20	boyte

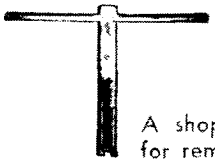
SPOKE NIPPLE WRENCH

This sturdily constructed spoke nipple wrench is shop size. Will last indefinitely. Fits the following models.

- All 1930 to 1947 Big Twins and sidecars.
- All 1935 to 1947—45" Twins rear wheels.
- All 1935 to 1947—45" front wheels with 16" rim.
- All 1935 to 1947 Servi-Car rear wheels.
- All 1941 — Servi-Cars (all wheels)

			Code
12033-39	Spoke Nipple Wrench	$2.50	eskec

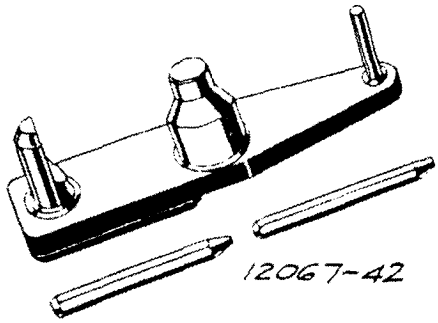
STARTER CLUTCH TRIPPER BOLT NUT WRENCH



A shop wrench of rugged construction for removing or tightening 45" transmission starter clutch tripper bolt nuts and early model crankcase bolt nuts.

			Code
11932-X	Starter Clutch Tripper Bolt Nut Wrench	$0.80	bookm

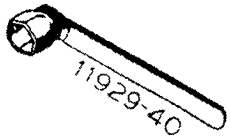
SPROCKET RIVETING JIG



A very convenient shop fixture for riveting 45" rear wheel sprockets to brake drum. Spring tension holds rivet head firmly in anvil socket to insure a good tight riveting job on each rivet.

			Code
12067-42	Sprocket Riveting Jig	$15.00	eyoyg

SPARK PLUG WRENCH



A new designed spark plug wrench for shop use that makes removing and installing spark plugs a simple task.

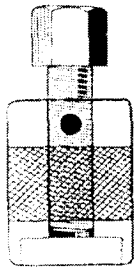
			Code
11929-40	Spark Plug Wrench	$1.25	etjig

SQUARE SHANK SCREW DRIVER

An extra heavy screw driver with a square shank so that a wrench may be used on large and stubborn screws. Specially adapted for removing transmission countershaft.

			Code
12018-X	Square Shank Screw Driver	$1.70	boxju

SERVI-CAR WHEEL PULLER



A strong handy tool for removing Servi-Car wheels. Screw on hub shell, tighten puller screw, then strike screw with copper hammer—repeat until wheel loosens from axle.

			Code
12072-37	Servi-Car Wheel Puller, 1937 to 1947 models	$8.00	eofiy

TAIL LAMP ASSEMBLY TOOL

New lenses and gaskets are quickly and easily assembled into the body, 1939 & 1940 tail and stop lights with the aid of this handy tool. Springs and clips are easily snapped into place. A shop necessity.

			Code

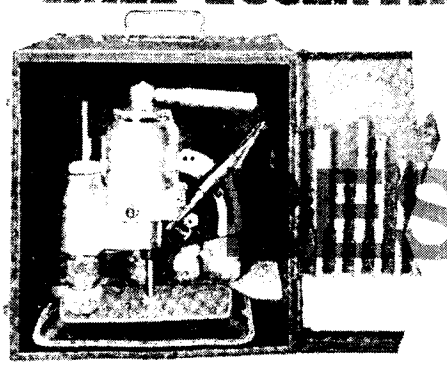
HALL ECCENTRIC VALVE SEAT GRINDER



This eccentric valve seat grinder was developed especially to give first class service in facing and finishing Harley-Davidson valve seats. It is identical in principle and performance with production grinders used in leading factories. This model grinder is practical and economical for use in your shop for these reasons: (1) It gives precision results every time, making it unnecessary to grind seats over and over; (2) It insures a job that will give the owner satisfactory performance; (3) Grinding wheel breakage is practically unknown; (4) 5 to 10 times longer grinding wheel life and a minimum of wheel dressing required; (5) improved long life pilots.

The grinder we supply is equipped with a 110 volt Universal Current motor, has accurately cut long life gears, micrometer adjustment feed and high speed drive-shaft operating on ball bearings. Grinder comes with diamond dresser. This dresser is fully adjustable for dressing wheels to desired angle. Dresser stand serves to hold grinder when not in use. Pilots and grinding wheels are extra and are available in complete sets. Grinder and diamond dresser come in metal case as illustrated. Every shop doing valve seat servicing needs the Dial Gauge. Registers by thousands, is extremely accurate and stays that way. Operates on grinder pilot in valve guide. The Hall Eccentric Valve Seat Grinder Set includes:

1—Hall eccentric grinder with dresser and carrying case.
1—11 32" pilot.
1—Harley-Davidson special pilot (No. 9363).
1—45 grinding wheel for alloy steel seats (No. 1845).
1—45 grinding wheel for cast iron seats (No. 5045).
1—Dial gauge for checking valve seats.

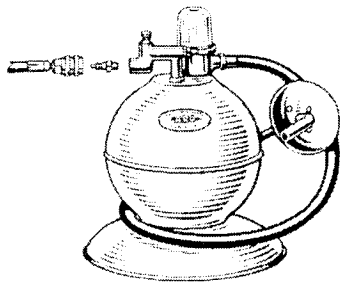
GAS AND OIL TANK DRAINER AND FLUSHER



Every modern, up to the minute, Harley-Davidson service shop should have one of these handy Jiffy Oil Tank Drainer and Flushers. They simplify, shorten the time and do away with the messiness connected with draining and flushing oil tank of motors with circulating oiling system. Your riders will purchase more oil from you if you are in a position to give this modern type of service. With oil supply warm or hot after a run, it takes only a minute or two to siphon the old oil and thoroughly flush and clean out tank with flushing oil or kerosene—ready for the new oil supply. This is done without removing the drain plug. Compressed air with a pressure of 85 lbs. or higher together with required hose and fittings, it is all you need to use this siphon. Any standard air hose with ¼" male pipe thread connection can be attached directly to the flusher. Special fittings for quick air line coupling and uncoupling are available.

This tank drainer is simple and easy to operate. Simply insert in oil tank and press button, in a jiffy the old oil is drawn out into the glass bowl siphon chamber and can be discharged in refuse oil container by placing tip of finger over end of siphon venturi. The drainer and flusher is operated entirely by venturi vacuum and air pressure. Light in weight yet is sturdily constructed for a lifetime of satisfactory service. Ideal for draining gas from gas tanks. Consists of pressed steel welded container (10 pint capacity) with forged brass Venturi Control valve, securely mounted glass bowl for visual observation of progress and thoroughness of flushing. Three feet of ½ inch heavy duty grease hose assembly, with nozzle of soft copper tubing and sliding baffle plate. Air hose is required extra.

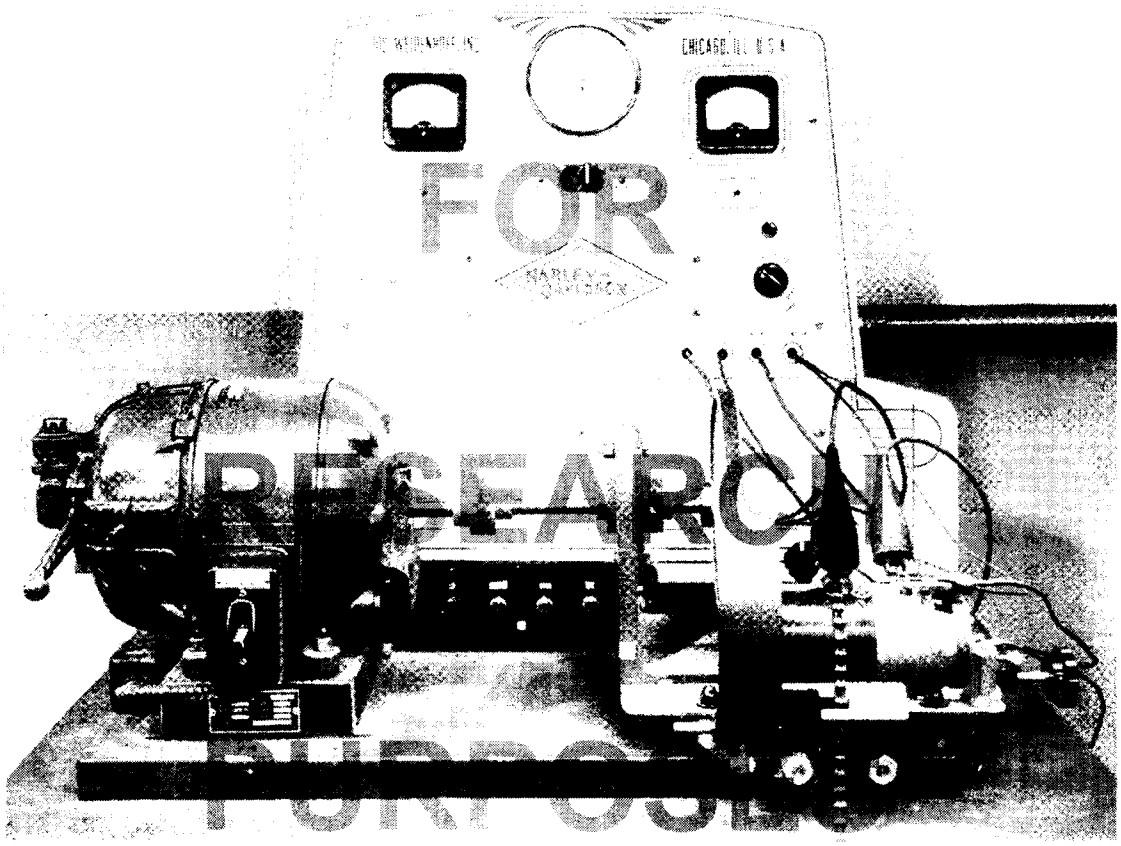
12059-X	Jiffy Oil Tank Drainer and Flusher	$16.75	evlik

HARLEY-DAVIDSON

HARLEY-DAVIDSON'S

GENERATOR TEST BENCH

(FOR BENCH MOUNTING)



Surveys made show that electrical service work is near the top. Indications also are that more and more will be demanded of the electrical system from more electrically-operated accessories. This means that generators and regulators must keep pace with new demands and to that end be serviced frequently and correctly. The time element, too, is important. Units must be serviced quickly—often while the rider waits. The new Harley-Davidson Generator Test Bench was designed with precisely these things in mind.

Nothing has been left undone to make this generator test bench the most useful, easy-to-operate, compact, thoroughly accurate unit on the market. The mechanic can quickly mount a generator for test, connect the leads (plainly marked on panel) and check the standard or radio generators, relay, or current regulator. All connections are included in instrument panel and are made by an easily understood system of switches and controls, plainly marked.

The simplified method of connecting to generator, relay or regulator, eliminates repeated reference to operating manual and saves much time by eliminating complicated "hook-ups."

Generators can be tested under actual loads or at maximum output and checked against factory specifications. Radio generators can be tested without regulators by connecting field control rheostat, which takes the place of the regulator. By manually controlling output this generator can be brought up to high R.P.M. to check commutation or faults in armature which sometime only show up at high R.P.M.

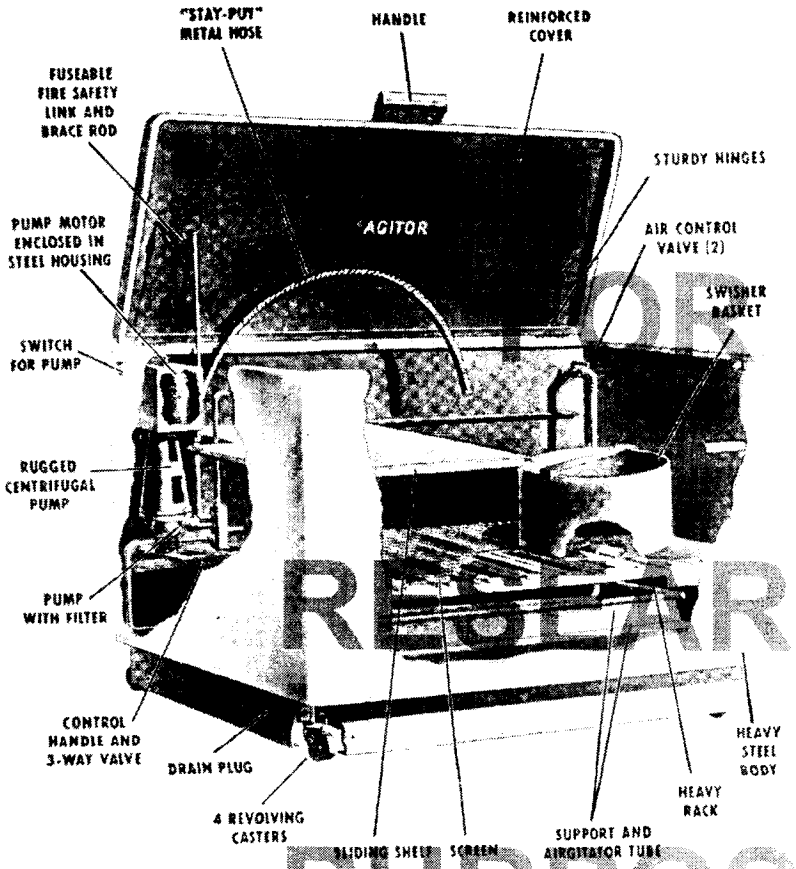
A special pulley is furnished with the test bench. It is designed to fit over all later model Harley-Davidson generator gears without removing gear from armature shaft. Also a special load box that is mounted on back of instrument panel enables mechanic to duplicate any combination of loads used on standard or radio equipped motorcycles for the purpose of checking charge to battery with simulated load. Also, heavy loads can be put in circuit for the purpose of checking current voltage regulators. All circuits are plainly marked on the load box panel and the desired load can be easily selected by means of switches.

Special ¾-1½ Ohm resistor also furnished for use in setting voltage regulator either on the test bench or on the motorcycle.

			Code
11833-47	Generator Test Bench	$483.00	eysal

Agitor COLD Parts Cleaning System

AN AGITOR MEANS — LESS CLEANING TIME MORE PROFIT TIME



Here is a modern streamlined parts cleaning system, using Agitene Solvents which require no heating. It is a general utility unit for parts such as gears, crankcases, bearings, connecting rods, generators, etc. Just plug the Agitor into your electric outlet, and it's ready for action at all times—no heating problems! The Agitor systematizes parts cleaning, and gives you full control over this important operation. It eliminates the time-consuming, sloppy "bucket-and-brush" . . . turns cleaning time into profit-time, and enables you to make the most of the mechanic's skill. Over all size is 38" long x 21" wide x 34½" high. The tank is 26" deep. The finish is light grey enamel; red cover—red panel bottom.

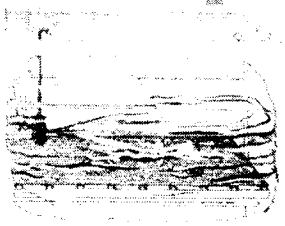
Cleaning parts the Agitor way is GOOD SERVICE which your customers, too, will appreciate. It permits closer inspection, frequently revealing worn parts needing repair.

It has an improved safety device incorporating a fusible link which melts at 165° F., causing the cover to drop.

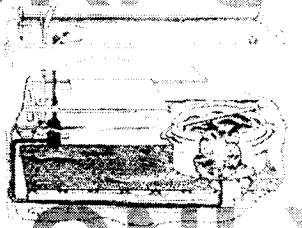
Agitor, with swisher basket, bottom rack and screen; Pump with filter and 110 V., 60 Cy. 1 Ph. Motor, Air Agitator, 2 Control Valves and Shelf.

			Code
11836-47	Complete	$159.60	eytco

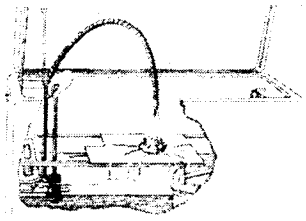
4-WAY ACTION AT THE TWIST OF THE WRIST



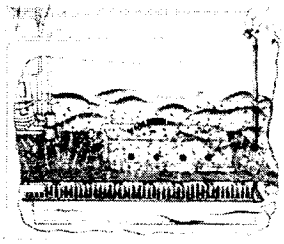
1 Pump Agitation: Pump discharges below solvent level for circular agitation. Entire tank used.



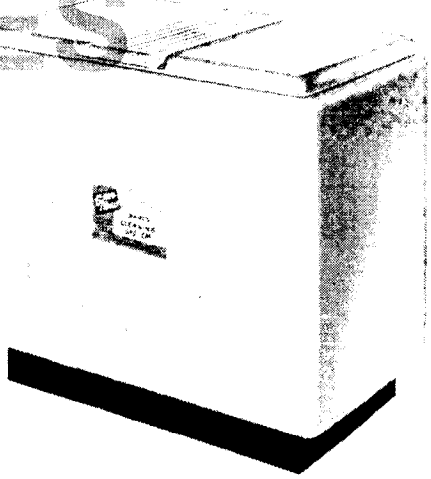
2 Fountain-Surge for "Basket" Cleaning: Pump discharges under basket, causing "fountain-surge".



3 Hi-Volume Hose Cleaning: Approx. 10 g. p. m. pumped through flexible metal hose for flushing parts.

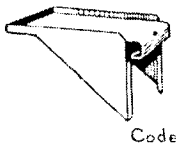


4 Air-Agitation: In addition to pump action, Agitor is also made for air agitation.



Maximum Solvent capacity 55 gallons; minimum 38 gallons. Large capacity does away with storing solvent drums, life of solvent is increased, there is less frequent draining. A large, easily accessible sludge drain is provided.

DRAIN SHELF



Hooks over the side of Agitor. No bolts needed. Solvent drains back into tank. (Design permits cover to close). 14½x 13¾ inches.

			Code
11839-47	Drain Shelf	$7.40	eyter

FOR RESEARCH PURPOSES ONLY

ARMATURE GROWLER

Dealers will find this single wound Armature Growler especially well adapted for checking the Harley-Davidson generator armatures. While it is often possible to detect some faults in an armature by visual inspection, many defects can only be ascertained by using a growler. No service shop can service a generator without one. This Harley-Davidson growler is a decided timesaver and the meter instantly shows up a defective winding, nature of defect and its exact location in the armature, shorts, ground, opens, etc.

Plugging into a 110 volt A.C. current line makes the 110 volt test prods available for use for making many other quick tests regardless of line switch position. Test lamp mounted in base of growler to prevent breakage, visible through ventilating holes. Comes complete with book of instructions.

		Code
11834-47 Generator Armature Growler	$33.60	eysiu

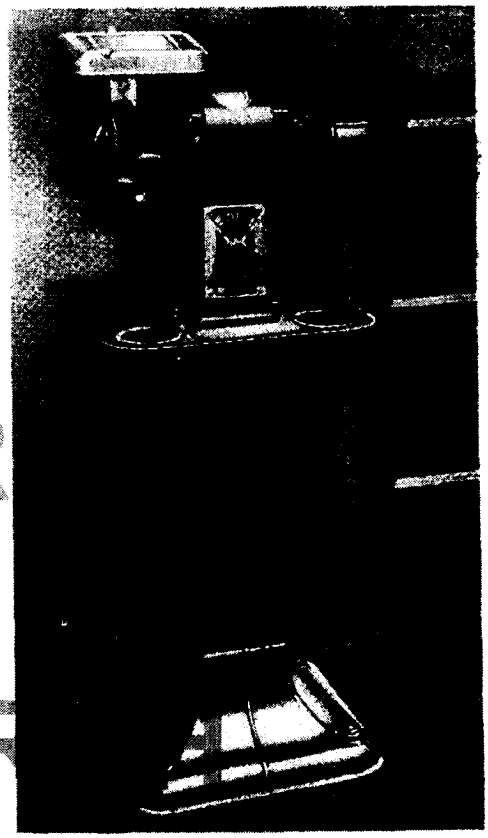
CIRCUIT TESTER

The new Harley-Davidson circuit tester (Ammeter, Voltmeter, Rheostat) consists of a portable unit combining a precision ammeter calibrated 5-0-30 and 10-0-60 amperes in one and two ampere divisions respectively, a precision voltmeter calibrated 0-10 and 0-20 volts in .1 and .2 volt divisions respectively, and a heavy-duty vitreous-enameled 1/4 ohm rheostat.

Makes possible quick tests on radio generators without current voltage regulator in circuit within the voltage and current limits of the meters. Exact generator output also is measured. Current draw of any unit-headlights, radio or ignition coil—is easily checked as well as voltage drop across any switch or wire on the motorcycle. Dimenisons of circuit tester: 9 1/8"x8 7/8"x2 1/2".

		Code
11828-47 Circuit Tester	$47.50	eysep

GRINDER *with* WIRE WHEEL



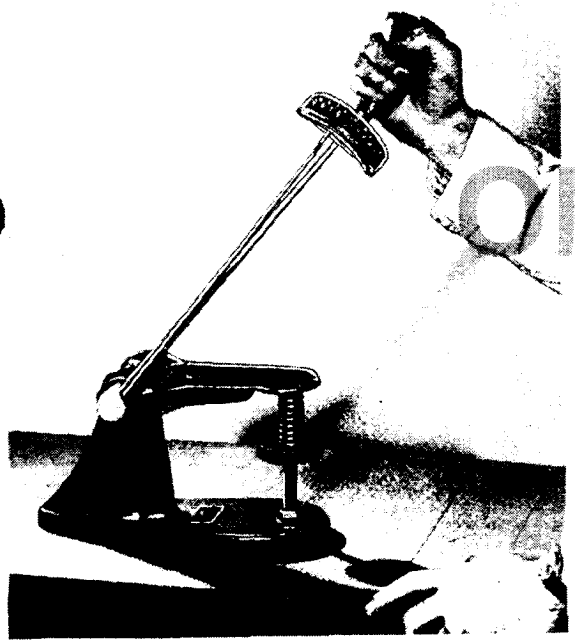
This grinder is the most accurate, finest and safest grinder made—regardless of price. From the lubricated for-life ball bearings to the Twin-Lite safety shield this grinder offers the most in efficiency, convenience and safety and sets new standards because it contains additional features not found in competitive makes.

This grinder was made up special with a special wire wheel adaption to broaden the use of this tool in your Harley-Davidson shop. This wire wheel will come in handy many times over. Especially good for removing carbon easily and quickly from various parts. Tool rest on grinder is adjustable vertically and horizontally—designed so that full advantage can be taken of both sides of wheel. Easily detached.

Wheel guard constructed so that only actual grinding section of wheel is exposed. Chute discharges dust to rear. Spark guard adjustable to wear of wheel. Patented twin-lite shield with double thick shatterproof glass, includes two lamps which flood both sides and face of wheel independent of shop lighting. Precision double-seal New Departure ball bearings. No oiling required for entire life of bearing. No trouble due to entrance of abrasive dust. Comes complete with 1/2 H.P., 110 volt, single-phase motor and toggle switch.

			Code
11837-47	Special Grinder	$114.00	eysoa

VALVE SPRING TESTER



Present day high speed engines must have valve springs of proper tension for efficient engine operation and to prevent premature valve mechanism failure. To accomplish this end much study has been given to the spring poundage necessary to have the valve follow the cam.

Therefore, it is important that each time an engine is serviced, the poundage of the valve spring is checked to determine whether or not it comes within Harley-Davidson specifications.

This new Harley-Davidson inexpensive precision Valve Spring Tester consisting of a torque wrench and a special designed fixture with an adjustable platform enables mechanic to test various length springs. The tone device in the fixture makes it easy to read the torque wrench used, as mechanic can concentrate his vision on the dial of the wrench and depend upon the tone device to indicate when to read the scale.

Built for lifetime service, guaranteed permanently accurate, there is a need in every dealer's shop for this tester. Complete with instructions.

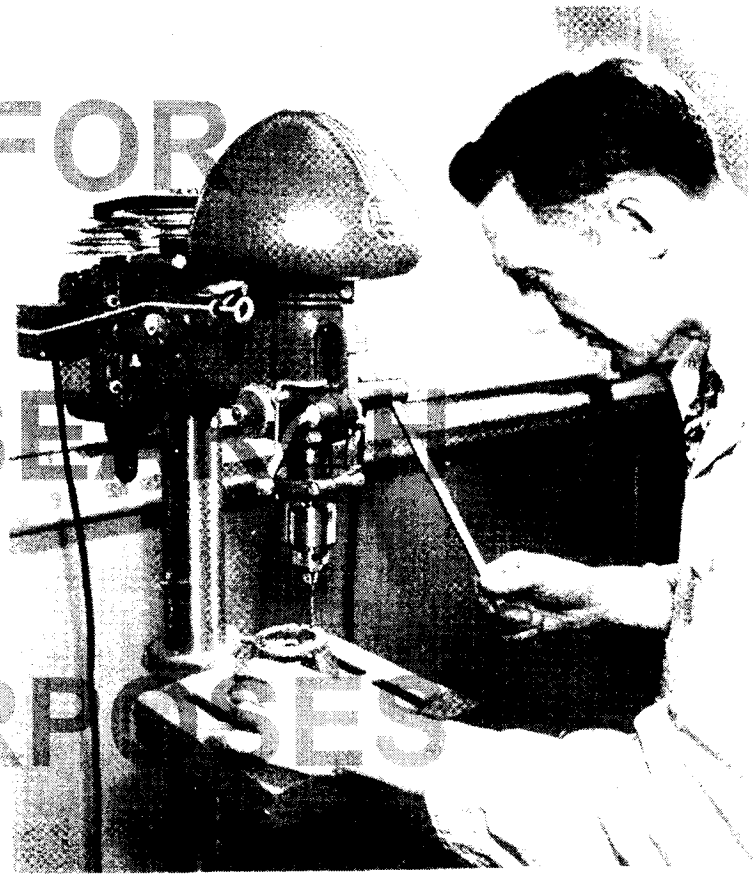
HARLEY-DAVIDSON

FLOOR TYPE SINGLE SPINDLE DRILL PRESS

This inexpensive, sturdy, floor model drill press with multi-speed attachment is a tool that every Harley-Davidson service shop can put to countless number of time and labor saving uses.



This model has become extremely popular in shops where low cost, low maintenance and portability are of importance. Having a capacity of 3/8" in cast iron, there are dozens of places where this drill press will quickly pay for itself. Not only does it combine all the best features of drill presses of this kind but it has additional advantages which make it the favorite wherever used. Its self-aligning drive and free-floating spindle, its sturdy quill design and construction, its ease of operation, its lubricated-for-life ball bearings — these are but a few of the "plus" values you receive in these fine accurate drill presses. Machines include: Built in depth gage, depth scale on quill, pulley guard and 1/3 H.P., 110-volt, single-phase motor.

A special feature of this drill press is the addition of the multi-speed attachment. This new attachment provides a wide range of speeds. It consists of a heavy casting, which mounts on the drill press column together with a cone pulley and two belts. Belt slack is taken up by turning casting so proper tension is always assured. This attachment provides twelve speeds from 185 RPM to 4825 RPM.

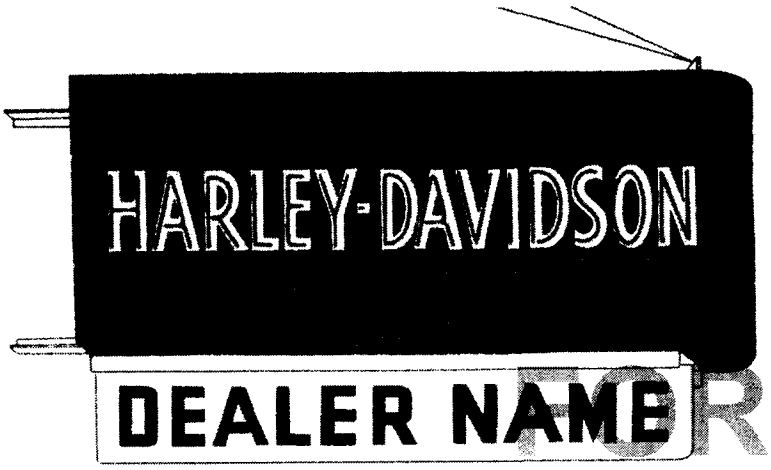
NEON ADVERTISING PAYS!



DOUBLE FACE OUTDOOR NEON SIGN

Here it is! A Super DeLuxe Neon Sign to let everyone know you sell Harley-Davidson motorcycles.

This sign is 6 feet long and 28½ inches high. (The 28½" dimension does not cover the dealer name or slogan panel which comes with every sign). The sign faces are in porcelain enamel with black, orange and white colors. The name Harley-Davidson is in 8 inch porcelain letters centerlined with red neon tubing. The dealer name panel is finished in a synthetic enamel with black lettering on a white background and is indirectly illuminated by a neon grid. The sign incorporates a complete angle steel frame for absolute rigidity when erected. Transformer of proper capacity is built into the sign to correctly operate the neon tubes.

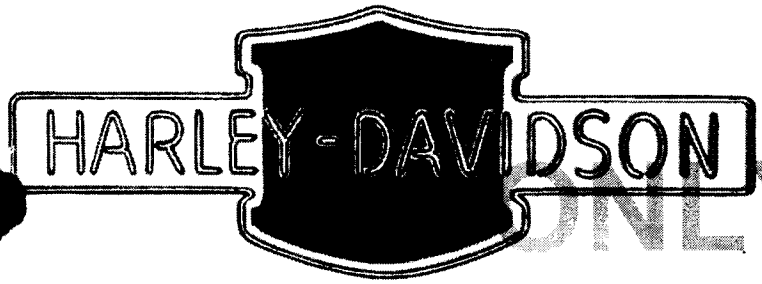
			Code
13825-47	Double Face Outdoor Neon Sign	$237.70	eyuyl

FLUORESCENT ILLUMINATED CANOPY SIGN

An outdoor sign of high quality and workmanship. Large enough for any sized authorized dealer outlet. This sign is 5 feet long and has an over all height including the canopy of 37½ inches. It is all rustproof die-formed steel construction with the Harley-Davidson trademark finished in three color porcelain — orange, white and black. This sign is illuminated by one five foot fluorescent lamp. In localities where local codes prohibit this type of illumination the sign will be equipped with incandescent lamps.

			Code
13827-47	Canopy Outdoor Sign	$113.30	eyuzm

RESEARCH PURPOSES ONLY



NEON WINDOW SIGN

Light up the Harley-Davidson Trademark! This neon sign is 28 inches long with an over all height of 10 inches. The name HARLEY-DAVIDSON is in 2½ inch red neon tube letters. The word Motorcycles is screen processed on a metal backplate. The entire skeleton sign is mounted on a spot welded steel frame and this steel frame is equipped with rubber bumpers for protection in the event it swings against the window. The entire sign has a red neon silhouette border. This sign is equipped with a hanging type transformer.

NEON CLOCK

Not only does this clock attract attention to the Harley-Davidson Trademark but it makes an ideal night light. Illumination of the clock is derived by means of a neon white circular tube directly behind some especially designed processed lines on the back of the glass front. The clock is complete including self starting clock movement and is equipped with cord and plug. A specially built-in transformer operates the neon tubing.

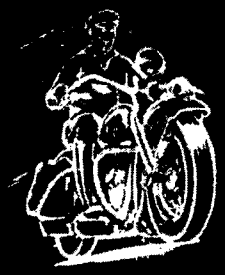
Use Genuine...

HARLEY-DAVIDSON OIL

IN SEALED CONTAINERS FOR YOUR PROTECTION



BE SMART — DON'T START . . . unless you have Genuine Harley-Davidson Oil in your tank.

Genuine Harley-Davidson Oil does far more than provide lubrication to vital motor parts. It stands up better and longer under the toughest and severest friction, pressure, load and riding conditions. It assures safer, longer-life motor performance. It means added protection . . . freedom from motor failure due to damaged pistons, rings, cylinders and bearings . . . freedom from excessive wear on vital motor parts.

There is a proper grade of Genuine Harley-Davidson Oil for all Models and weather conditions.

REGULAR HEAVY . . . Use in ALL SIDE VALVE MODELS
MEDIUM HEAVY-SUMMER GRADE . . . Use in ALL OVERHEAD VALVE MODELS

Use the above oils, except during periods when predominating temperature is below freezing (32 degrees above zero, fahrenheit). Flow point of these oils is 20 degrees above zero, fahrenheit.

MEDIUM HEAVY-WINTER GRADE. Use in ALL OHV AND SIDE VALVE MODELS

Use when predominating temperature is below freezing (32 degrees above zero, fahrenheit). Flow point of this oil is zero degrees, fahrenheit.

SPECIAL LIGHT . . . Use in ALL OVERHEAD AND SIDE VALVE MODELS

Use when predominating temperature is near zero or below zero degrees fahrenheit

The above grades of Genuine Harley-Davidson Oil are refinery sealed in quart containers for your convenience and protection. Your Harley-Davidson dealer can supply you. Ride over and see him today.

"King Size" Saddlebags

Quality is the first thing you think of when you see this beautifully made Harley-Davidson "King-Size" saddlebag.

Made of finest high quality cow hide leather with a strong metal reinforcement running down the back and under the bag to prevent sagging. Rain proof cover is also metal reinforced. Made to carry a heavy load. It is roomy meaning jackets, sweaters, rainsuit, oil cans or other large items can be packed in and there will still be room to spare.

Matching this saddlebag's quality is its outstanding eye appeal. Beautifully decorated with bright nickel spots, firmly anchored chrome buckles and colorful red or white plastic welt trim. Will fit on Big Twins even when a rear safety guard is used. Easily attached to rear mudguards. Strong anchoring straps at front and back. Without a doubt the finest all-around saddlebag on the market today.

The "King" of MOTORCYCLE JACKETS

Here is the handsomest first quality, genuine, black, front quarter horsehide, leather jacket ever offered to motorcycle riders. Completely comfortable, good looking and long wearing. This jacket is V-tapered to give that small-waisted, broad-shouldered appearance, and features the popular action back, which allows freedom of movement of the arms and shoulders. It has the aviator type zipper from center of waist to right shoulder, collar and lapels that can be snapped down and ample pocket space. Zipper cuffs with extra gusset that won't flap if worn open. Maroon rayon quilted wool lining that assures warmth on those cold, windy rides. Jacket has strong belt loops to accommodate an attractive matching black leather belt. Jacket dips down in back giving added strength where needed most.

Snaps on each jacket collar for attaching detachable Mouton Fur Collar.

This jacket is also available, at no extra cost, in "LONG LENGTH" (1½ inches longer all around) sizes 38 to 48. When ordering specify "LONG" if desired.

Harley-Davidson Chain Saver is most important in prolonging the life of motorcycle chain. It has been tested and approved by leading chain manufacturers. Its penetrating feature guarantees lubrication to all vital bearing surfaces which is so essential for good chain lubrication. The permanency of Chain Saver is unbelievable. Part of it never leaves the chain and therefore builds up after each application. As this builds up it keeps penetrating the pins and bushings, the inner and outer plates, traveling below the dirt or moisture that may accumulate on the chain.

No mess involved in lubricating the chain with Chain Saver, and Chain Saver stays on. One minute after it's exposed to the air it congeals and will not fly off while riding. Be sure of top performance by using Harley-Davidson Chain Saver.

THE FINEST RAINSUIT

You Can Buy

Year after year sales of the Harley-Davidson rainsuit prove it to be the rainsuit motorcycle riders prefer. And there is a reason. It gives you the best protection you can get against rain, snow, sleet, as well as against the cold. Commercial riders who must ride in all sorts of weather are its biggest boosters.

This rainsuit is made from soft, flexible laminated khaki cloth waterproofed by a new process. Seams are taped and cemented throughout insuring tightness. Illustration shows the many features [illegible] Quit suit an outstand[illegible]alue. Fully guaranteed fo[illegible]one year. Supplied in a convenient waterproofed bag, same material as rainsuit. Can be easily carried in Harley-Davidson saddle bags.

Sizes: Small, Medium, Large, Extra Large.

Note these outstanding features:

- Shoulder flap and collar one piece. Cannot leak.
- New Style stand-up collar. Fits snugly and is water tight.
- Collar fitted with take-up strap and snap fastener.
- Diagonal front opening guaranteed not to leak.
- Breast pocket roomy and water-tight.
- Good substantial elastic under instep.
- Leg bottoms extend well out over shoes.
- Convenient khaki bag for storage.
- Adjustable take-up straps at wrist and ankles.

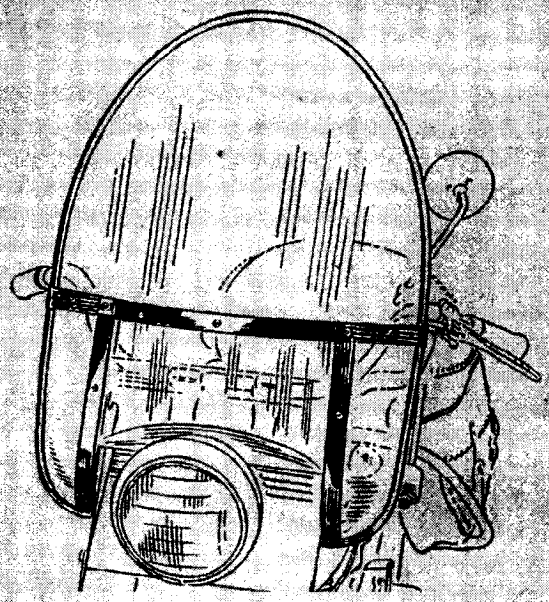
HYDRA-GLIDE SHIELD



Harley-Davidson offers the perfect shield for the Hydra-Glide motorcycle. Excellent construction, top quality and handsome design are all incorporated into this shield to give every Hydra-Glide motorcycle owner complete satisfaction.

Windows are made of Vinylite plastic, which will not discolor or crack and are not affected by weather conditions. All metal parts of the windshield are finished in a lustrous chrome plate and have passed the most rigid chrome plating tests.

Another fine feature of this windshield is the safety-edge beading which not only adds to the all-around strength of the shield but also to its appearance. The Hydra-Glide windshield is so designed that a cloth apron is not necessary to prevent up-draft. Shield is adjustable to suit your height.

When you see this smart shield, you won't be satisfied until you own one.

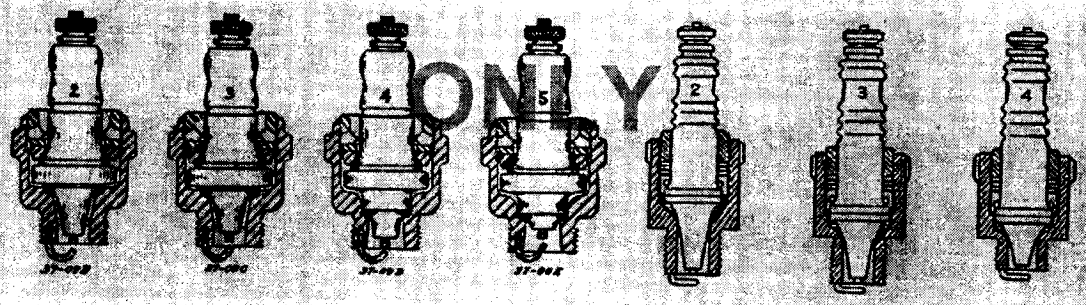
Genuine HARLEY-DAVIDSON SPARK PLUGS

ONLY



Every size engine has peculiarities that make it necessary to use the proper Spark Plug for good performance. Use of the correct Spark Plugs does make a difference. An inferior one, or one of the wrong design, can do much to keep your engine from operating properly.

The use of genuine Harley-Davidson Spark Plugs in Harley-Davidson engines, guarantees dependable, efficient service and thousands of trouble-free miles. The genuine Harley-Davidson Spark Plugs are the results of years of tests and experiments. There is no liner spark plug for a Harley-Davidson.

Another proof that it is essential to use the right spark plug is the fact that we have a series of spark plugs in the 18 millimeter and 14 millimeter size available for low, medium or high compression engines, for ordinary use, for heavy duty service, and for running at high speed.

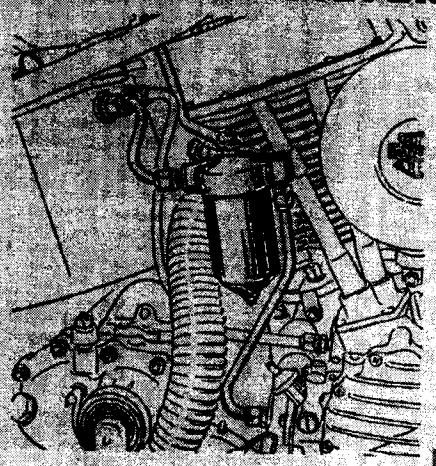
Chrome Plated OIL FILTER

Replaceable Filter Element

For All Big Twins



Install one of the new, redesigned Oil Filters and notice the difference it makes. New mounting method consists of strong bar bracket on top fastening to motorcycle frame and rubber oil line connections, insuring a permanent installation.

This small, chrome plated, oil filter filters all harmful grit, dust, sludge and abrasive particles from the motor oil and restores it to its original purity and brightness. It keeps oil at top lubricating efficiency for longer periods . . . adds to engine power and reduces repair bills. A ball check valve by-passes the oil in the event of filter obstruction or excessive pressure. Filter element refills cost so little that element can be changed when oil filter comes complete with no additional parts needed for its installation.

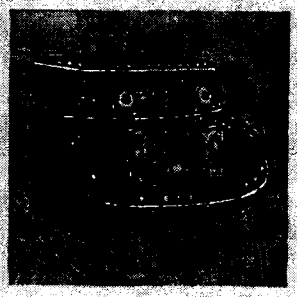
"125" SADDLEBAGS



Why strap things onto a motorcycle or put them in pockets when it is so much easier to put them into streamlined Harley-Davidson 125 Saddlebags. Made of beautifully embossed high grade leather and decorated with colorful, orange, plastic wells and bright nickel spots. The capacity of these bags is truly amazing. Roomy enough to carry a rainsuit, sweater, oil can, gloves, etc. They are just what you are looking for. Very easy to attach. They can be mounted on the luggage carrier, or the new saddlebag hangers. This is the best Saddlebag buy to be had.

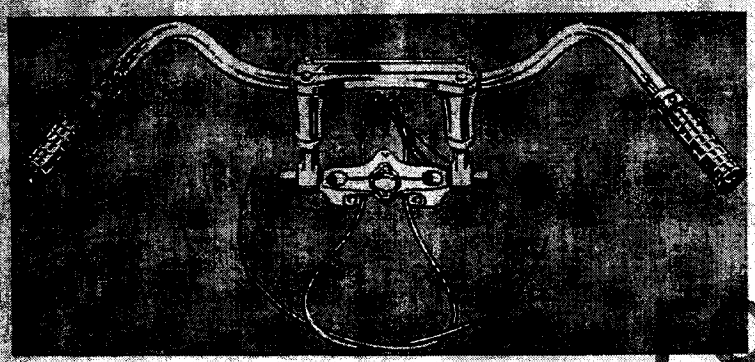
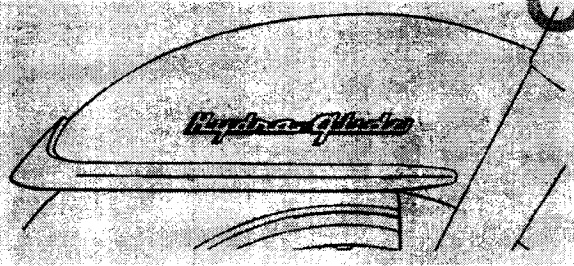
HARLEY-DAVIDSON Rubber Mounted HANDLEBARS



Boy! What a difference in riding ease and comfort the new chrome plated Harley-Davidson rubber mounted handlebars make. Rubber of special design, bonded to the inner and outer steel tubes of the rubber mounted bushing inside the riser, absorbs all vibration and most shock. Two rubber bumpers at bottom of riser prevent undue movement of handlebars. Handlebars can be turned up or down to get the wrist angle you prefer. Handlebars come completely assembled with grips, switches, wiring and controls. Rubber mounting, consisting of risers and triple clamp forging, is also assembled. All that must be done to install them is remove the old bars, [illegible] cut the controls to the required length and the job is finished. No sawing, no soldering, no ordering of extra parts. You can do the job in a hurry!

"Hydra-Glide" Name Plate



Here is a way to capitalize on the world-famous name "Hydra-Glide." Beautifully chrome plated and designed it looks as modern as a jet plane. An ideal spot to attach this name plate is on the front fender as shown in the illustration. You will be even prouder of your Harley-Davidson motorcycle when you have this name plate on your motorcycle. Attaches with three studs.

HEAT RESISTING FINISHES

Silver and Black

For years there has been a big demand for a paint which will retain its finish when applied to exhaust pipes, cylinders and mufflers. It is now possible to obtain a paint which has these qualities. This Silver, Heat Resisting Finish, is ideal for cylinders and exhaust pipes and will retain its color even under the high temperature that these parts run into. The Black, Heat Resisting Finish, is specifically compounded for application to mufflers and will withstand the heat and weather conditions and still retain its finish. These are the same finishes that are applied here at the factory on the 1951 models. These finishes are air dry and can be brushed on. Available in one quarter and one pint cans.

94918-49	Silver—¼ pints	$0.70
94919-49	Silver—1 pint cans	2.30
94922-49	Black—¼ pint cans	.70

Emblems Made Up Per Your Sketch

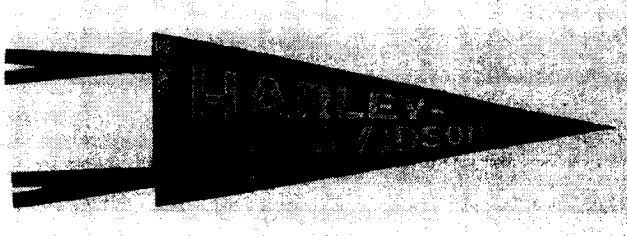
ONLY

On this page are illustrated a few of the many emblems supplied to Motorcycle Clubs and which they are using on their shirts, sweaters, and jackets to good advantage. This will give your club some idea of what other clubs are using and we hope it will be a source of inspiration for you to create something novel and distinctive for your own club.

For sweaters and jackets it is recommended that emblems be made on a felt base and embroidered in silk yarn. For shirts this embroidery is stitched directly onto the back of the shirt, making a lightweight and neat appearing emblem that is easily laundered.

Send us your idea or sketch of what your Club would like. We will be pleased to quote prices.

HARLEY-DAVIDSON BANNER



Riders! Tie this pennant on to YOUR motorcycle for that Gypsy Tour or Rally. Gaily colored in orange and black, high quality felt. Ideal for Club use.

GENUINE HARLEY-DAVIDSON ACCESSORIES

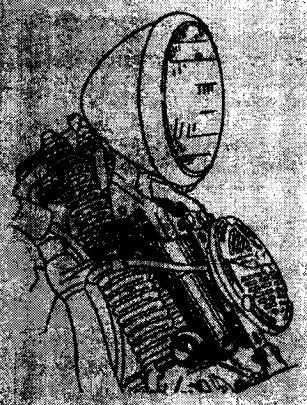
HAND CLUTCH CONTROL

FOR 45's

Many [illegible] riders like the auxiliary hand clutch control because it leaves [illegible] foot free for use in traffic or heavy going. Simple hand lever [illegible] on the handlebar and operates the clutch as effectively as [illegible] the usual foot pedal. The hand clutch control is available on all models except the Big Twins.

			Code
[illegible]	[illegible]-41A	Hand Clutch Control, 1941 to 1948—45" Models $10.50	exuna
[illegible]	2555-49	Hand Clutch Control, 1949-1950 Model 11.50	foipe

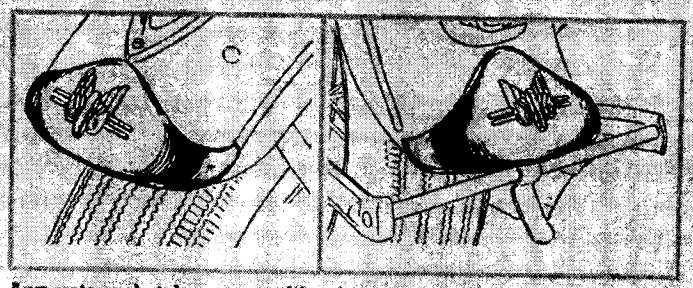
Hydraulic SHOCK ABSORBER



For the rider with a 1948 or older motorcycle the hydraulic shock absorber is the answer for a smooth, cushioned ride. Acting as a snubber, it controls the action of the fork springs, automatically compensating for all road conditions and all [illegible] speeds. It absorbs and cushions [illegible] and bumps resulting in an all around more comfortable and safer ride. Fits 1936—61 Model, 1940 and later 45" Models and all 1937 to 1950 Big Twin Models except Hydra-Glide Models.

			Code
54200-45	14000-45	Hydraulic Shock Abso[illegible] ..... [illegible]	[illegible]

Chrome Plated FENDER TIPS



Any motorcycle takes on new life when a set of these lightweight chrome plated Fender Tips are added. Stamped and formed from heavy sheet brass, they will retain their shape and brilliance indefinitely. These fender tips fill the bill for the rider who likes to keep his machine modern from stem to stern.

			Code
59[illegible]-48	3724-48	Set of Chrome Fender Tips $6.00	fivay
[illegible]-48	3724-48B	Rear Chrome Fender Tip 3.50	fived

TIRE GAUGE

Tire pressure plays an important part in the safety of riding motorcycles. Check your pressure often by using this new pencil type Schrader tire gauge. Calibrated 4 to 50 pounds. Accurate readings make tires last longer, and rides safer.

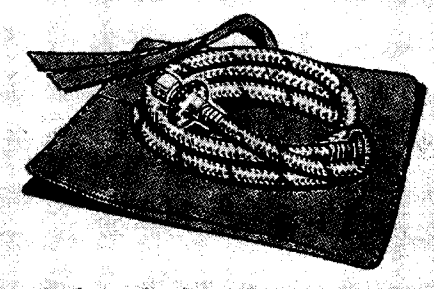
			Code
96789-35	11562-X	Tire Gauge—Pencil Type	$2.75	bihym

TUBE REPAIR KIT

This kit contains three 1¼" square rubber patches suitable for small punctures and one 2" x 4" oblong rubber patch from which you can cut off a piece to fit the exact size of other punctures. Tube of rubber cement and metal buffer all provided. Comes packed in a round, easy to tuck in the saddle bag, container.

			Code
99605-26	11571-X	Tire Tube Repair Kit	$0.35	bilyo

Spark Plug TIRE PUMP



Let the motor do the work when it is necessary to pump up tires. Simply attach the spark plug tire pump in place of a spark plug, screw the connection on the tire valve and run the motor at idling speed. It pumps only clean, cool air into the tire—no gas or oil laden vapors. It will not harm your motor. Compact, it can be easily carried in the saddlebag.

			Code
95736-46	11553-46	Spark Plug Tire Pump	$3.50	eylmo

TIRE TOOLS

This set of tire tools was designed and developed to meet the rigid specifications of the U. S. Army. Consists of two 8¼" long thoroughly hardened steel tire irons, specially shaped for motorcycle tires. They'll help do the job easier, safer, faster.

			Code
96803-42	11551-X	Tire Tools, per set	$1.40	bigui

JACKET FUR COLLAR

THE "TOWNSWOMAN" . . . By popular request we now offer "The Townswoman," a coat styled along the lines of the Townsman with the addition of a few alterations that make it definitely feminine. Girls, here's a coat that will keep you warm and comfy on the buddy seat or solo saddle in the coldest riding weather. Made from glistening, black, steerhide leather it also features quilted rayon lining, two zipper closure pockets, two large flap closure pockets, action back, knit wristlets and attached belt with sliding buckle. You're in style as well as comfort when you wear a "Townswoman" coat. Sizes 32" to 42".

98103-54 Townswoman Leather Coat **$29.75**

BLACK STEERHIDE JACKET . . . Here's steerhide leather used at its best. Fashioned into a leather jacket with the same desirable features as our mainliner the "Cycle Champ." Attractive quilted rayon lining; large, roomy, easy-to-use pockets, leather binding around inside bottom of jacket, inside loop to secure jacket to pants, non-jamming zippers and attractive epaulets. This jacket will give long, faithful service under all conditions. Sizes 34 to 48.

98102-54 Mens Black Steerhide Jacket 23" Long . . **$31.75**

CYCLE QUEEN JACKET . . . With girls style and comfort are all-important that's why girl motorcycle riders choose the "Cycle Queen" Jacket everytime. Comfort is assured by its warm, quilted rayon lining, its definite feminine fit, its action back, its wind-tight cuffs, its weather proof steerhide leather. Style is assured by its smart line, its brilliant, black finish, its attractive appearance. Handy pockets, snap down lapels and attached belt with sliding buckle round out the many fine features of the "Cycle Queen" jacket. Be the coat of attraction and admiration of all . . . wear the best, a "Cycle Queen."
Sizes 34" to 42" bust measurement.

98105-46 Cycle Queen Jacket **$27.95**

JACKET FUR COLLAR . . . This deep, thick, warm, fur collar will give you added comfort on those extra cold days. Made of dark, mouton fur and genuine horsehide. This collar slips over the jacket collar and is fastened to collar by snaps. All Cycle Champ and Cycle Queen jackets have the necessary snaps on for use of this collar.
Sizes: S (32-36) Med. (38-42) Large (44-50).

98111-49 Jacket Fur Collar **$3.75**

THE TOWNSMAN . . . Motorcycling, other sports, dress or work the "Townsman" coat will fill the bill. Its straight, masculine lines make it outstanding in appearance and comfort. 29" in length it gives one greater weather protection yet does not hinder one's movement in any way. It features two large zipper closure pockets, two roomy, flap closure pockets, action back, attached belt with sliding buckle, quilted rayon lining, knit wristlets and genuine, front quarter, smooth, soft, pliable, black steerhide leather. Slip into one and prove to yourself that here's the coat for you.

98101-53 Mens Townsman Coat **$32.10**

1 CYCLETTE CAPS . . . Two in One—Cap and Scarf—Here's the most practical head piece a gal can wear riding a motorcycle. Made of finely woven, cotton backed, glistening black rayon material. Scarf style; it covers the hair and back of the neck, tying under the chin. Available with white or black, washable visor; white cord and attractive orange and black Harley-Davidson Emblem. One size fits everybody because of the elastic head band which keeps it snug on your head at all times.

Cyclette Caps

98040-50	Black Top, White Visor	$3.20
98045-50	Black Top, Black Visor	3.20
98046-50	Silver Top, White Visor	3.20
98047-51	Scarlet Top, White Visor	3.20
98048-51	Royal Blue Top, White Visor	3.20

2 FUR TOPPERS . . . More and more riders are finding out how warm and comfortable "Fur Toppers" are on cool, cold rides. They are gaining fast in popularity because they do the job and in addition are smart and attractive in appearance. In extra cold weather flaps are worn down—in mild weather, up. Front fur visor can be worn up or down. Elastic, snap-on strap holds flaps down and topper snug on head—no strings to tie. Toppers are made of black rayon with four ounce wool interlining. On the mens "Fur Toppers" the fur goes around the cap, on the ladies the back is plain for better fit. Each topper has the attractive orange and black Harley-Davidson wing emblem sewn on front. We urge you to give the "Toppers" a try—you'll like them. Size 6 to 7¾.

98036-52	Ladies Fur Topper	$5.25
98035-52	Mens Fur Topper	5.95

3 HELMETS—Leather and Cotton Twill . . . For the best fitting helmets look to Harley-Davidson. They fit snugly on your head, coming well down the forehead and also the back of the neck, leaving no gaps around the face. Leather helmets are made of the finest, most pliable, smooth, black [illegible] available. The lined leather helmet has a [illegible] lining that feels great. The cool, lightweight, cotton twill helmet comes in white or tan and has the attractive orange & black Harley-Davidson emblem sewn on front. All helmets have loops for use of goggles. Sizes 6, 7, 7¼.

98060-41	Black Leather Helmet—Unlined	$3.75
98065-41	Black Leather Helmet—Lined	4.60
98060-37	White Cloth Helmet	1.40
98065-37	Tan Cloth Helmet	1.40

4 GOLD AND CHROME CAP BANDS . . . Give your motorcycle cap that [illegible] looking appearance by installing either of these two expanding metal cap bands. ¼" wide by 11" long in Gold or Chrome finish brightly polished. Easily installed—they look sharp.

98016-54	Chrome Cap Band	$1.35
98017-54	Gold Cap Band	1.35

5 MOTORCYCLE CAPS . . . So famous has the Harley-Davidson motorcycle cap become that it needs no introduction. Its smart appearance, plus its utility for motorcycle riding has made it almost a "must" for all motorcycle riders. Available in three different materials . . . cool, cotton twill, shiny black rayon and soft pliable leather. Caps feature comfortable, durable sweatband, quality lining; stiff front riser that keeps cap at jaunty angle; high gloss, hard finish, washable visor; white cord and attractive orange and black H-D wing emblem (except on leather cap). Rayon top caps are water repellent. Leather caps are especially nice for winter weather riding. You can't go wrong with a Harley-Davidson cap, its tops from every angle, appearance, comfort, utility and wear. Sizes 6 to 7¾.

Twill Caps

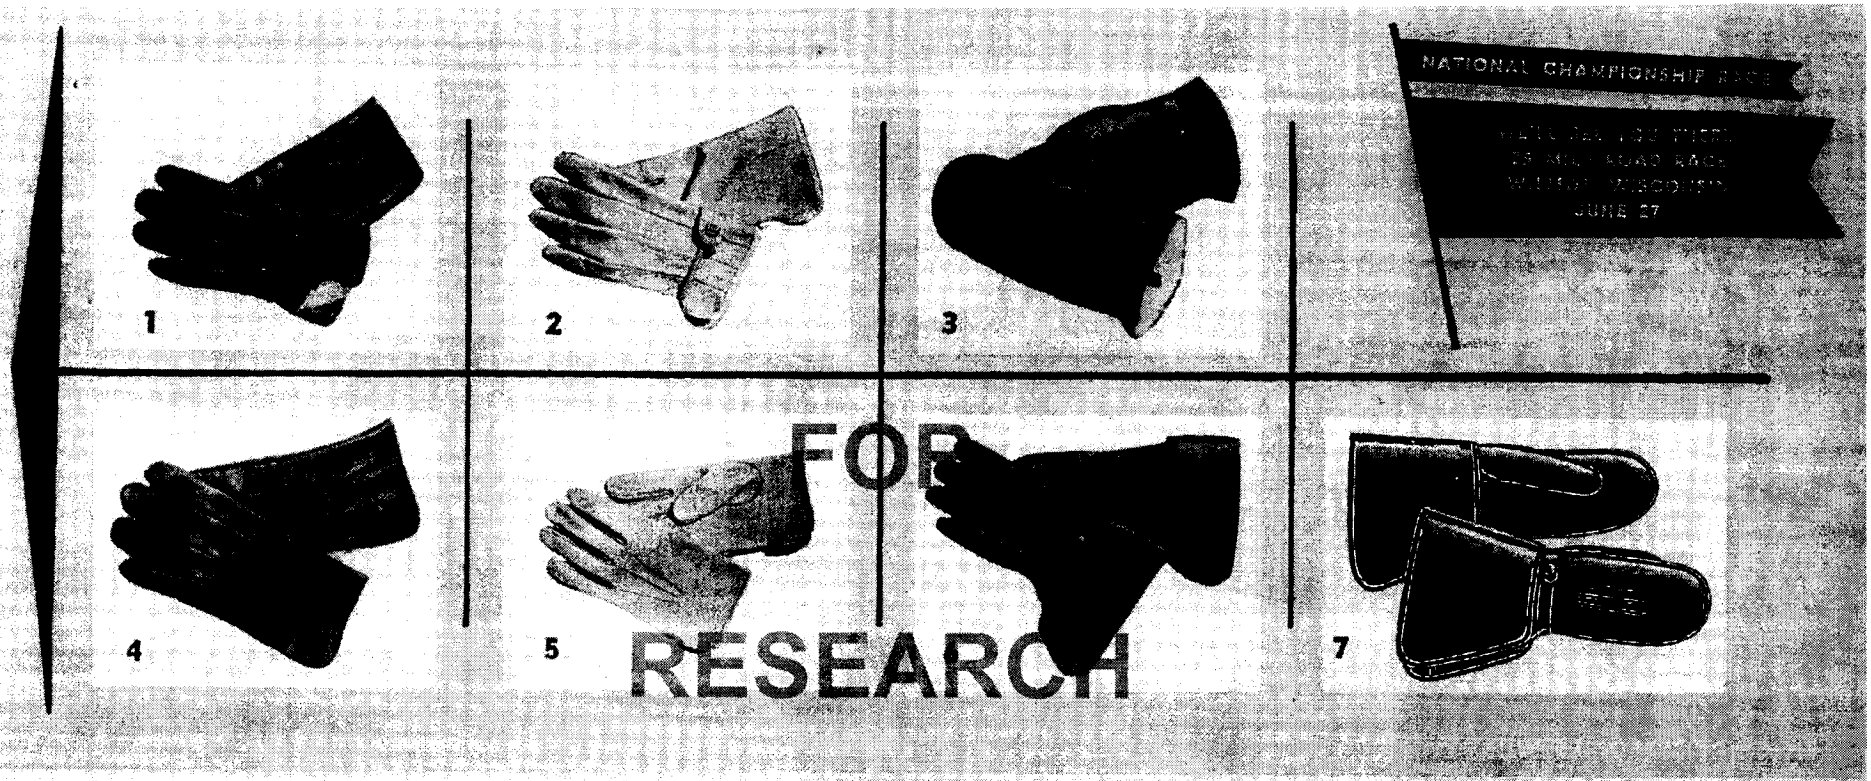
98000-36	Black Top—Black Visor—White Cord	[illegible]
98001-36	Navy Blue Top—Black Visor—Orange Cord	2.[illegible]
98005-36	Black Top—White Visor and Cord	[illegible]
98002-36	Sun Tan Top—Black Visor and Cord	[illegible]

Rayon Caps

98015-50	White Visor and Cord	[illegible]
98010-50	Black Visor—White Cord	[illegible]

Black Leather Caps

98030-37	Black Visor—White Cord	[illegible]



FOR RESEARCH PURPOSES ONLY

1 FUR LINED GLOVES . . . Slip on a pair of these fur lined gloves and thrill to the touch of the smooth, soft, fur lining . . . real luxury. These full finger, fur lined gloves are made of genuine black horsehide, cut in a new style which eliminates all seams from the palm of the hand. Truly a warm, comfortable, good looking glove that wont wear out.
Full and Half Sizes 7 to 11.

98154-53 Fur Lined Gloves **$5.95**

2 TOUGH-NUT GLOVE . . . Here's the ideal pair of gloves for you if you're a rider who likes a glove that can really stand abuse. Made of extra weight, cream tone horsehide. Gloves are wrist length with no seams in palm and have easy-to-use wrist take-up cord. Economically priced, these gloves are a real bargain from every angle.
Sizes—Full and Half from 7 to 11.

98152-53 Tough-Nut Gloves **$2.95**

3 SHORTY MITT . . . On or off the motorcycle these shorty mitts will keep your hands warm and comfortable. Made with deep, thick, fluffy, sheep wool lining encased in soft, pliable, long wearing, black horsehide. Adjustable, snap closure strap at the wrist. Sizes S. M. L.

98161-53 Shorty Mitt—Sheepwool Lined **$7.75**

4 SLIP-ON GLOVES . . . Here's the most popular motorcycle glove ever made, called "Slip-On" because of the ease which one can put them on and take them off. Wrist length; with no seams in the palm; these gloves are made of first quality, long wearing, black horsehide leather. Cut and sewn to give you the best in fit, style and comfort. Available unlined for summer and warm fleece lined for cooler weather.
Full and Half Sizes 7 to 11.

98150-53 Unlined Slip-On Gloves **$3.90**
98151-53 Lined Slip-On Gloves **4.25**

5 BUCKSKIN GLOVES . . . You have to try these gloves on to really appreciate them. Words cannot describe how well they fit, how good they feel. Made of smooth, soft, flexible, natural color buckskin they can be used for dress or play.
Available in Full or Half Sizes 7 to 11.

98153-53 Buckskin Gloves **$5.10**

6 GAUNTLET GLOVES . . . Here's a snappy looking pair of gloves. Made of soft, pliable, long wearing, black horsehide in full finger style with warm fleece lining. No seams in palm. Take-up strap at wrist. Features 3½" wide leather gauntlet that prevents wind blowing up sleeves and which gives the gloves a look of dash and speed that everyone likes. Full and Half Sizes 7 to 11.

98156-53 Gauntlet Gloves **$5.25**

7 HORSEHIDE FULL MITT . . . Here's real winter comfort. Its a known fact that a mitt is the warmest covering for hands you can get and these deep thick sheepswool mitts prove it again. Genuine black horsehide expertly finished. Reinforced thumb, adjustable wrist strap and large leather gauntlet. Liners are removable. Quality materials and workmanship.
Sizes: Sm.—Med.—Large.

98160-52 Full Mitt with Liners **$9.25**
98161-30 Liners Full Mitt . . . . . Pr. **3.70**

WE'RE AT YOUR SERVICE

Let us help you with all your motorcycle problems. We're always happy to answer your questions. Many times our suggestion or minor adjustment will mean a more enjoyable ride for you.

FOR RESEARCH PURPOSES ONLY

THESE ACCESSORIES WILL ADD TO YOUR RIDING FUN

1 MOTORCYCLING PANTS — MENS — LADIES . . . Here are the best looking, most comfortable, motorcycle riding pants you can buy. They are made of all-season weight, mercerized and sanforized, black cotton gabardine. They are cut to give you the most in freedom of movement. Zippers, handy pockets, double knees and seat, fine tailoring make these pants the choice of riders.

98335-50	Men's—Waist Sizes 28" to 42"	$10.95
98340-49	Ladies'—Waist Sizes 24" to 36"	9.50

2 "BEAUTY BAG" . . . Hand or Shoulder Strap Bag . . . Here's an attractive hand or shoulder bag that has the spirit of motorcycling written all over it. Designed in the style of a miniature popular Harley-Davidson saddlebag. Large; it will hold the many things you like to take along. Made of fine finished leather; decorated with bright, nickel spots and white plastic beading. Features new quick opening and closing spring catch and handy, inside zipper pocket. Available in Black, Pepper Red, Rio Blue and Tropical Green.

BEAUTY BAGS

98175-51	Black	$6.95
98172-43	Pepper Red	6.95
98173-52	Rio Blue	6.95
98174-52	Tropical Green	6.95

3 SPORTSMAN AND SHORTY BOOTS . . . You deserve the best and here is the best in motorcycle riding boots. Both the 16" high "Sportsman" and the 11" high "Shorty" boot are the leaders in their class from every angle—quality, utility and style. Long wearing leather soles, steel arch supports, rubber heels, polished, retan leather tops make them outstanding. "Storm Welt" feature makes them practically waterproof. Adjustable strap at the instep and at boot top makes it possible to have a snug or loose fit. Easy to pull on or off. Perfect all-weather wear.

In full and half sizes 6 to 12 in C (narrow) and D (wide) widths.

98400-50	Sportsman Boots, 16" High	Pair $16.95
98405-50	Shorty Boots, 11" High	Pair 15.75

4 RACING LEATHERS! . . . Choice of Champions . . . Harley-Davidson Leather Racing Breeches. Tailored for greater racing comfort and safety. Made of soft, pliable, genuine, front quarter horsehide lined with smooth cool twill. Reinforced knees, zipper closures, large pockets, zippers and lacings for adjusting calf size. In standard length only. Even waist sizes 28" to 42".

98320-48	Racing Leather Breeches	$31.00

5 RAINSUIT—THREE PIECE . . . See the new, improved 1954 three-piece rainsuit. It's better than ever. Now made of black, double weight, rubber coated, pliable sheeting. All seams cemented and vulcanized. Guaranteed 100% waterproof. Ride in the heaviest downpour and stay dry.

The hood fits over a motorcycle cap and is adjustable, insuring snug fit around the face and neck. It laps over jacket collar thus no water can run down the back of your neck.

The jacket is a pull-over type with zipper closed gusset at the neck; breast pocket, comfortable corduroy lined collar, elastic cuff and draw string waist.

The rainsuit pants are full cut for freedom of movement. They have draw string top and take-up strap at ankle.

Sizes S, M, L, XL

98350-51	Rainsuit Complete	$19.50

98514-47 Topspeed Goggle $3.95

MOTORCYCLING IS SAFE!

An intelligently handled motorcycle is one of the safest forms of travel. The 1953 A.M.A. Safety Program showed the accident rate to be only .257 per 100,000 miles. The motorcycle has basic characteristics that make it safe: unlimited visibility, great maneuverability, ease of control and its size. However, to ride safely you must do your part.

Obey all the rules of the road. Don't be a weaver. Don't pass on hills, curves or where there is congested traffic. Don't ride unnecessarily close behind another motorcycle or car. Ride alert, be ready to stop. Pay attention to the surface of the road. Travel at a reasonable speed. Keep your motorcycle in good condition. Doing this MOTORCYCLING IS SAFE.

5 PLASTIC LENS RUBBER MASK GOGGLES . . . None finer—for eye comfort and protection. This is the most popular goggle with motorcycle riders today. Frame is molded from non-irritating, neoprene rubber. Ventilated to prevent fogging. Impact-resistant acetate lens. Supplied in clear lens. Adjustable rubber headband. Green lens which absorbs practically all ultra-violet radiations and reduces excessive glare also available. Lens easily changed.

98500-52 Plastic Lens Goggles—Clear $4.90
98503-52 Clear Lens Only 1.25
98504-52 Green Lens Only 1.25

6 SURVIEW GOGGLE . . . Here's a goggle that gives you eye safety because of its shatterproof lens. Practically unrestricted vision. Ventilated frames prevent clouding. One inch wide, adjustable headband together with full, soft, rubber mask make this a very comfortable goggle to wear.

98515-47 Surview Goggle $4.00
98516-47 Extra Lens, per pair 1.30

68600-46	Set of DeLuxe Spotlights, Chrome Bar, Switch	$22.75
68615-46	Chrome plated Spotlight Bar only	7.50

HYDRA-GLIDE SPOTLIGHT SET . . . Complete as pictured, you do this when you install a set of Harley-Davidson DeLuxe chrome plated spotlights. But, not only do you improve appearance but you add a very useful accessory. Night riding is more fun when you have spotlights. The 32 candlepower spotlights mount on strong, sturdy brackets which attach directly to the fork sides. Illustration shows how neat they look, centered with the headlight. Handlebar switch is included with every set. Can be used with or without windshield.

68600-49	Set of Spotlights, Brackets & Switch	$22.75

1 DELUXE CHROME PLATED SPOTLIGHT . . . This large 5" dia. chrome plated spotlight has no equal. It is quality through and through. Its 32 candlepower, prefocused bulb combined with a flawless reflector throws a strong, sharp beam of light a long, long way down the road. Handy on or off switch is built right into the body of the spotlight, convenient for us.
Each spotlight comes with brackets for mounting on handlebars or safety guards.
Spotlights are available with clear or fog lens.

68650-38	DeLuxe Spotlight Clear Lens	$8.95
68652-38	DeLuxe Spotlight Fog Lens	8.95
68661-38	Fog Lens Only	1.00
68660-38	Clear Lens Only	.70

2 DIRECTION SIGNALS . . . You owe it to yourself to equip your motorcycle with direction signals, one of the best safety devices available for motorcycles. Just flip the finger tip switch on your handlebar and lamp in front and back of your motorcycle flashes, indicating the direction you intend to turn. This kit consists of four chrome plated lamps with special bulb and lens, one chrome plated panel with red socket light which indicates when signals are on, handlebar switch and all necessary wiring. For increased safety install a set today.

68550-50	Set of Direction Signals	$16.75

3 SPOTLIGHT BRACKETS HYDRA-GLIDE . . . Here's a neat, heavy gauge steel bracket which fastens directly to the Hydra-Glide fork and makes the ideal mount for spotlights.

68603-49	Spotlight Bracket—Left	$2.50
68604-49	Spotlight Bracket—Right	2.50
58102-49	Spacer (two used)	.20
4010	Hexagon Head bolts (two used)	.15
3956	Hexagon Head Bolts (two used)	.10

4 SPOTLIGHT HANDLEBAR SWITCH . . . This is the switch that is supplied with each set of spotlights. It is an on or off type that is usually mounted on the right side of the handlebar but if desired can be mounted elsewhere. Supplied with wire of sufficient length.

70060-29	Spotlight Handlebar Switch & Wiring	$5.00

Rated 100% in Design, Utility and Quality

1 THE STREAMLINER SADDLEBAG . . . Here's another handsome Harley-Davidson saddlebag, slightly smaller in size yet large carrying capacity due to its out-seam construction. Made of thick, luggage grain, cowhide leather, with white beading and speed slanted straps and buckles plus decorative nickel trim. Hanger plate is made of sheet brass, chrome plated. Will fit on old 45's even with rear safety guard on. A swell looking saddlebag for a price you'll like. For OHV, W & WL.

P1003-49 "Streamliner Saddlebag"—Pair $28.50

2 FRINGE SADDLEBAGS . . . Looking for saddlebags with that little "something extra"? Well, here they are. These fringed saddlebags have eye-appeal plus. Same quality and outstanding features as King size bags plus attractive 1½ inch white fringe around the cover edge and outside of bags. It's easy to like these.

P1003-50A "King" fringed Saddlebags for OHV, W & WL—Pair . . $39.95

3 OHV PLASTIC SADDLEBAGS AND CARRIER—Quickly Detachable . . . You can indeed be proud when you equip your motorcycle with a pair of these ultra-modern design, Royalite plastic saddlebags. These saddlebags hold their shape, are waterproof, flexible enough to bend under pressure, will not peel, crack, resist scratches, retain their finish and have large carrying capacity. Covers are held in place by strong latches which can be locked with key provided. Covers are quickly and easily removable for loading and unloading. Saddlebags mount on individual carriers and can be quickly removed from motorcycle by just pulling out four special cotter pins.

P0851-84 OHV Plastic Saddlebags & Carrier—Pair $41.50

1 SADDLEBAG EXPANDERS . . . You can be sure your saddlebags keep their original shape when you use a set of these Saddlebag Expanders. Made of 3/16" diameter, strong, springy, wire they make an ideal framework for "King" and other late style, leather, Harley-Davidson saddlebags.

90825-52 Saddlebag Expanders—Per Pair **$2.20**

2 "KING" SADDLEBAGS . . . Harley-Davidson the originator of motorcycle saddlebags has consistently produced the best saddlebags on the market. The latest addition to the line of fine leather saddlebags is the "King" saddlebag. Here's a saddlebag that really catches the spirit of motorcycling. It's speed-slant buckles, winged comet ornaments, white beading and other attractive nickel trim give it the appearance riders dream of. In addition, these bags are large and roomy. It is surprising how much they will hold.

They are made of top grain cow-hide, except for the back which is made of thick, flexible, waterproof plastic. Special treated, strong, linen thread is used throughout. Steel reinforcing plate runs down the back and under the bag, giving it added support. The hanger plate is made of brass with a chrome plate finish. Saddlebag attaches to fender by four studs thus can be quickly removed. You'll like these saddlebags.

90994-53 King Saddlebags for OHV, W & WL Pair **$37.75**

3 MODEL KH AND K PLASTIC SADDLEBAGS . . . Again Harley-Davidson is first in the design and production of a new motorcycle accessory—MOLDED PLASTIC SADDLEBAGS. These saddlebags are made of a new plastic material that is rigid enough to hold its shape indefinitely, yet flexible enough to bend under pressure or impact and spring back into shape. It is tough, resists wear and abrasion. Extra large carrying capacity due to its construction.

New designed covers with over-lap rubber gasket seal are dust and water-tight. Covers are held in place by strong latches which can be locked with key supplied. Covers are quickly and easily removable for loading and unloading. These saddlebags mount on an attractive chrome plated, formed, sturdy steel bar carrier.

QUICK DETACHABLE. Can be removed instantly, and carried in when you stop overnight.

Not only are these new saddlebags easy to use but they are easy to look at with their speed lines, chrome trim and fine black finish.

90850-52 Model KH and K Saddlebags and Carrier **$42.50**

4 MODEL 165 AND 125 SADDLEBAGS . . . These saddlebags were designed especially to conform to the attractive lines of the 165 and 125 models. Their new nickel trim, speed-slanted straps and buckles plus red and white plastic trim makes them very pleasing to the eye. They are large and roomy and will easily carry your necessities. They attach to your luggage carrier or to available saddlebag hangers.

91000-49A 165-125 Model Saddlebags—Pair . . . **$18.75**

5 165 AND 125 SADDLEBAG HANGERS . . . This flat steel, chrome plated Saddlebag Hanger bolts to the fender and frame. Saddlebags are then bolted to it. Only the top, chrome plated straps show after saddlebags are mounted. Its easy to install, neat looking and eliminates the need of a luggage carrier.

90985-49A 165 and 125 Saddlebag Hanger **$3.00**

KH-K ENDURO SAFETY GUARD

PLAY IT SAFE!

INSTALL SAFETY GUARDS

SAFETY GUARDS . . . Harley-Davidson is the original inventor and manufacturer of motorcycle Safety Guards. Safety Guards through the years have earned the reputation of being the greatest safety accessory available for motorcycles. These safety guards are made of exceptionally strong, steel tubing, scientifically heat treated to withstand severe shocks and protect both rider and motorcycle at all times. Safety Guards are designed with that modern look and blend right in with the smart lines of your motorcycle. The best investment in safety that you can make.

REAR SAFETY GUARD . . . A rear Safety Guard when used in combination with a front safety guard on a motorcycle doubles your protection. This combination forms a virtual pocket of protection for your legs. Rear safety guards do not interfere with installation of saddlebags. A good investment in safety.

49000-47	Model 165-125	8.00

1 **SAFETY GUARD FOOTRESTS** . . . Changing the riding position of your feet, especially on long trips, rests your legs and adds to your comfort in general. These sturdy footrests clamp securely around the safety guard sides as illustrated and can be folded up when not in use. Made of heavy gauge steel—cadmium plated.

49100-34 Safety Guard Footrests—Pair $5.00

2 **FOOTBOARD EXTENSIONS** . . . Many buddy seat passengers with long legs prefer these footboard extensions because they are lower than regular footrests. Made of heavy gauge steel, angled to the natural position of the legs. Parkerised finish.

52650-33 Footboard Extensions (Pair) $2.75

3-4 **FOOTRESTS** . . . In addition to the need of footrests for buddy seat passengers they also give the solo rider a chance to change foot positions which is appreciated very much on long trips. The 45 and 165-125 footrests can be folded up, out of the way, when not in use.

5 BUMPER KING . . . This is it!—when you speak of motorcycle bumpers. It has everything you want; appearance, utility, class and value. It's new, modern design with all parts having a high bright chrome plated finish really does things for your motorcycle. Built so motorcycle frame absorbs the impacts, protects stop, tail light and fender end from damage.

To make the Bumper King a super deluxe bumper just add the four piece Chrome Plated Grill shown in illustration.

This Grill gives added protection to the tail light lens as well as improving appearance. Two accessories you will be proud of. For OHV, W & WL.

91007-52	Bumper King only	$9.75
91023-52	Grill	6.90

6 CHROME PLATED FRONT BUMPER . . . A glance at the illustration of this front bumper will show you its smart lines and its new modern appearance. Not only good looking but it does a job for you in protecting your front fender from dents and scratches. Front end is a sheet steel stamping and side bars are made of steel tubing, all chrome plated with a high polish. Fastens to fender with four eyebolts. Fittings included for installation on OHV, W or WL.

91075-49	Chrome Front Bumper	$8.80

7 REAR BUMPER . . . This bumper is attractive in its simplicity, its clean lines. The large curved chrome bars, the chrome tube bumper bar make this bumper pleasing in appearance. Designed so motorcycle frame absorbs all heavy impacts. Fittings included to make installation on OHV, W or WL.

91007-48	Chrome Plated Rear Bumper	$9.75

PICK OUT THE ONE YOU WANT

1 LUGGAGE CARRIER . . . Here is a small, neat, little luggage carrier made of black enameled flat steel. Very sturdy—it will carry heavy as well as light loads. Attaches directly to the fender. Fits W, WL and Big Twins.

53406-36 Fender Type Luggage Carrier **$6.00**

2 165 AND 125 LUGGAGE CARRIER . . . There are many uses for this heavy gauge, steel, black enameled luggage carrier. Strap on luggage, camping equipment or anything you wish to take along. It will also improve the appearance of your 165 or 125. Slots in side for insertion of hold-down straps and holes for mounting saddlebags.

53400-47 165 and 125 Luggage Carrier **$5.50**

3 CHROME PLATED HUB CAP—MODEL 165 AND 125 . . . Improve the appearance of your 165 or 125 with this large, 6¼" diameter chrome plated steel hub cap. Fits front and rear wheel. Illustration shows how hub cap dips in center adding to its smartness.

43315-49 Chrome Plated Hub Cap .....Each **$1.50**

4 LARGE LUGGAGE CARRIER . . . Here is a super sturdy luggage carrier designed to carry extra heavy, bulky loads. Useful many times—camping, long trips, vacations, etc. Made of heavy gauge sheet steel with brilliant black enamel finish.

53404-26 Luggage Carrier—W & WL Models..**$10.00**

53403-17 Luggage Carrier—Big Twin **10.00**

5 CHROME LUGGAGE CARRIER . . . Here's the most popular, chrome plated luggage carrier made today. Its modern design, sturdy construction, utility, ease of installation and removal plus slick chrome plated finish make it outstanding. Mounts on saddlebag studs; thus no extra holes need be drilled in fender. Large carrying capacity, approximately one foot long by eight and one half inches wide. For W, WL & OHV models.

53403-52 Chrome Luggage Carrier Complete ..**$8.95**

6 BIG TWIN CHROME PLATED HUB CAP . . . Any way you look at it, this hub cap is an improvement in your motorcycle's appearance. Eight inches in diameter with high gloss, chrome plate finish, these hub caps look like a million. Easy to install and simple to keep clean.

43303-49 Chrome Plated Hub Cap—For Hydra-Glide **$5.90**

87526-48 Chrome Plated Hub Cap—For sidecar **2.50**

7 OIL LEVEL GAUGE TELLS YOUR OIL LEVEL AT A GLANCE! . . . The actual level of the oil in your oil tank shows on this easy-to-read, always-in-view oil level gauge. It saves you time and trouble and prevents running out of oil. Two holes in oil tank line up with hole running through plastic gauge, therefore the oil goes up or down in gauge when oil is added or when oil is used up. Easy to install. Instructions included.

91830-54 Oil Level Gauge **$4.50**

TUNE UP?

A few minor adjustments by our qualified mechanics will make a world of difference in the performance of your motorcycle. Bring it in and let us give it a quick tune-up; points, chains, clutch, brakes, generator and battery. We'll only go as far as you like and the cost will be small.

68450-49	Front Fender Lamp—Clear Lens	$3.95
68454-51	Amber Lens only	.60
68454-51	Green Lens only	.60

A Thin Skin of Phosphate PROTECTS Your Harley-Davidson

Every Harley-Davidson motorcycle is given a protective coating of phosphate. This chemical resists the damaging effect of rust. If you should scratch or mar the surface of your Harley-Davidson motorcycle down to the metal, the phosphate coating under the paint prevents any rust formation from spreading beyond the actual scratch. This is one of the reasons your Harley-Davidson looks better, lasts longer and retains its value.

91775-51 Spark Plug Holder—14 MM .....**[illegible]**

Electronics Make Your Harley-Davidson Stronger, Longer Lasting

The Harley-Davidson Motor Company is constantly on the lookout for ways to make your motorcycle stronger, safer and longer lasting. One of these ways is the use of ELECTRONICS in the construction of handlebars, forks, sprockets, gears, shafts and roller bearings. Electronics or induction heating is used in the silver brazing and heat treating departments. This is one reason why your Harley-Davidson is safer and lasts longer than other motorcycles.

1954 AMA DEFINITION OF RUNS

Road Run—A run conducted over numbered highways, hard top roads and dirt roads commonly traveled by an automobile.

Reliability Trial or Run: A run conducted over highways, hard top roads, backwood dirt roads and other types of terrain capable of being traversed by an automobile.

Endurance Run: A run conducted over little used roads, trails, fire paths and other types of terrain as long as it is possible to be negotiated by the power of the motorcycle or the physical energy of the rider or riders.

HANDLEBAR HAND AND CONTROL GUARD . . . This new accessory protects your hands and control cables from the slapping of bushes, small saplings, and branches when riding through heavily wooded sections.

93000-53 Handlebar Hand & Control Guard . . . **$9.75**

ENDURO REAR CHAIN GUARD . . . This Enduro Rear Chain Guard is partially enclosed in that wherever practical and necessary chain is enclosed on three sides. The rear chain is protected through four fifths of its travel by an actual trough of steel. In addition a flat sheet of steel seals off the chain entirely from the rear wheel which otherwise throws sand, dirt, dust and everything else on it. Protects your chain and lengthens its life.

60300-53 Enduro Rear Chain Guard **$8.50**

SPEEDOMETER, DRIVE and BRACKETS . . . This special speedometer set-up features an accurate trip-odometer which is so essential in endurance run competition. The speedometer is the same large, easy-to-read one as used on the Hydra-Glide. Mounts up in front on brackets supplied, making a sturdy, steady, set-up facilitating the reading of the speedometer.

67002-53 Speedometer, Drive & Brackets **$35.00**
67195-54 Set of Speedometer Drive Gears 52-15 for 28" outside diameter tire **6.00**
67196-54 Set of Speedometer Drive Gears 50-15 for 27" outside diameter tire **6.00**

ENDURO AIR CLEANER AND COIL MOUNTING ASSEMBLY . . . This is an oil bath air cleaner which gives your engine 100% protection from the intake of sand, dust and dirt. Also with this set-up the air intake opening is higher than normal permitting you to ride through deep water. With this set-up tool box is removed and not used and coil is remounted on special bracket supplied.

29001-54 Enduro Air Cleaner & Coil Mounting . **$29.50**

FORK BOOT KIT . . . These accordion-pleated rubber fork boots keep sand, dust and dirt from entering the fork slider tubes thus eliminating the possibility of wear.

45999-54 Set of Fork Boots **$4.00**

ENDURO SKID PLATE AND BRAKE CROSS OVER SHAFT GUARD . . . This black enameled 3/32" thick, hot rolled, sheet steel Skid Plate and Brake Cross Over Shaft Guard fits under the KH and K protecting the crankcase from damage by boulders, ruts, stumps and other obstacles.

92000-53 Enduro Skid Plate and Brake Cross Over Shaft Guard **$16.00**

ENDURANCE RUN SAFETY GUARD FOR MODEL KH AND K . . . This is a miniature edition of the K or KH front safety guard. It's made especially for use in runs and off-the-road riding competition. It is approximately 9"x 20". This guard protects the foot shift lever, brake lever and footrests in rough going. Shown on page 15.

49035-53 Front Safety Guard—Black Enameled . . **$9.00**

ENDURO TANK TO CARBURETOR GAS LINE . . . This easy to install Tank to Carburetor, Flexible, Synthetic Rubber, Gas Line eliminates any chance of gas line breakage due to excessive twist from extreme rough riding.

62357-52A Enduro Tank to Carburetor Gas Line . . **$2.50**

ENDURO CRANKCASE BREATHER PIPE . . . This Enduro Crankcase Breather Pipe raises the outlet of the breather pipe from under the KH or K to a height approximately level with the top of the cylinder head. Thus you can ride through water two feet deep.

24912-54 Enduro Crankcase Breather Pipe **$5.00**

ENDURO CHAIN CASE BREATHER PIPE — ENDURO TRANSMISSION FILLER CAP . . . On the KH and K a tiny hole in the transmission filler cap maintains atmospheric pressure inside the front chain case. However, this hole is too low to allow for deep water crossings encountered in endurance runs. Therefore these two new accessories are offered to raise the height of this breather hole. The Enduro Transmission Filler Cap has no hole in it and is used in place of the standard cap. The Enduro Chain Case Breather Pipe is installed in the hole left when tool box mounting stud is removed from top of chain case. This set-up raises this breather outlet approximately [illegible]

HARLEY-DAVIDSON SPARK PLUGS . . . Spark Plugs are one of the most important parts of your motorcycle. On them depends whether or not you get the top all-around performance your engine is capable of producing. On them depends easy starting, fast acceleration, perfect combustion, smooth even power and economical engine operation. On them actually depends the life of your engine. That is why we say "Use only Harley-Davidson Spark Plugs." They are the results of years of research, experiments and tests in Harley-Davidson engines. They meet the exacting requirements of your engine. They guarantee you the maximum engine performance only correct spark plugs can give.

Three types available from hot to cold. Let us install the proper Harley-Davidson spark plugs and see for yourself the improvement in performance you'll get.

Spark Plugs ..... Each $1.25

GUNK MOTORCYCLE CLEANER . . . Just Brush It On! . . . Hose It Off! . . . Presto! It's Clean! . . . You have to try to believe it. It's almost miraculous. Take an engine covered with oil, grease, dirt and dust—brush on a little Gunk, hose it off, and there before your eyes you'll see oil, grease, dirt and dust disappear leaving the engine sparkling clean. It's really amazing the wonderful cleaning job Gunk does.

Gunk Motorcycle Cleaner sold only by Harley-Davidson is a 100% aromatic solvent with emulsifiers. Cleaning out and out motorcycle cleaner with courtesy, synergistic action which brings about [illegible] crankcases. It is a grease and oil solvent. When applied to greasy or oily parts it combines with the grease and oil and this mass into liquid soap. This soap is then washed away with a hose and the result is an absolutely clean surface.

Get a pint today, try it on your engine, and you too will be a Gunk booster.

Gunk—Pint..... $0.35 Gallon..... $2.25

SPARK PLUG COVERS . . . This little rubber Spark Plug Cover slips over the top of the spark plug and the spark cable keeping them free from dirt and moisture thus preventing shorts which otherwise might occur during wet weather.

32200-48 Spark Plug Rubber Cover $0.30

HARLEY-DAVIDSON BATTERIES . . . 90 Day Guarantee —18 month Service Adjustment . . . You always save money when you buy "Quality" and you buy "Quality" when you purchase Harley-Davidson batteries. These batteries are the results of experience gained thru many years of actual service of all kinds by the Harley-Davidson Motor Co. Harley-Davidson batteries are specially designed and constructed to withstand every use and abuse possible on a motorcycle. The terminals and vital cell connectors are molded right in rubber for greater strength and the battery plates have double support thus the battery is unaffected by jars, bumps and vibration.

Be sure you buy the best, ask for Harley-Davidson batteries.

Big Twin Model $14.50

165 and K Model 10.50

BATTERY HYDROMETER . . . Check your battery regularly with this special motorcycle Battery hydrometer and be sure of its condition.

#6910-35 Battery Hydrometer $1.60

DO IT YOURSELF

POLISH—CLEAN—PROTECT

1 GREASE-ALL GREASE . . . This all purpose grease can be used for any bearing on a motorcycle. It is affected only slightly by extreme low and high temperatures so it can be used in any climate or season.

99860-51	Grease-All Grease—1 lb. can	$0.55
99865-51	Grease-All Grease—5 lb. can	2.75

2 HYDRA-GLIDE FORK OIL . . . This is the same special oil used at the Harley-Davidson factory in the assembly of Hydra-Glide forks. Long research and test have proven this oil to be the best for Hydra-Glide fork performance. Can contains sufficient amount for refill of both fork sides.

99880-49	Hydra-Glide Fork Oil	$0.75

3 PLASTIC SPRAY . . . This pressurized can of plastic spray will put new life into saddlebags, boots, windshield aprons, buddy seat tops and the motorcycle itself. It adds a film of plastic that not only looks nice but protects part from the weather. Easy to apply, just press button and out shoots a fine spray that covers quickly.

98680-51	Plastic Spray Coating	$1.49

4 CHROME CLEANER . . . Here is the best cleaner and polish you can buy for restoring the original lustre to motorcycle chrome plating. It does a thorough job of removing rust and tarnish from chrome. It makes chrome shining bright.

99700-44	Chrome Cleaner and Polish 12 oz. bottle	$0.50

5 LEATHER LACQUER . . . Restore the original fine finish of your leather riding accessories and protect them from the weather. Just brush on a little of this leather lacquer. It does wonders.

98670-41	Brown Leather Lacquer—¼ Pint	$0.50
98671-41	Brown Leather Lacquer—1 Pint	1.80
98675-35	Black Leather Lacquer—¼ Pint	.50
98676-35	Black Leather Lacquer—1 Pint	1.80

6 CYLINDER PAINT . . . For a quick, easy way to give your exhaust pipe and muffler that "New Look" use Harley-Davidson Black Cylinder Paint. Applied when pipes are hot it bonds itself to the metal giving you a lasting finish.

98650-27	Black Cylinder Paint—¼ Pint	$0.60
98651-27	Black Cylinder Paint—½ Pint	1.10
98652-27	Black Cylinder Paint—1 Pint	2.10
98653-27	Black Cylinder Paint—1 Gal.	11.50

7 HARLEY-DAVIDSON ENAMELS . . . Harley-Davidson air dry enamel assures perfect matching of original color making it easy to touch-up that scratch or mar or even re-enamel the whole motorcycle. Specially compounded to give hard, high gloss finish which will withstand all weather conditions.

¼ Pint	$0.50	½ Pint	$0.95
1 Pint	1.80	1 Quart	3.30

8 POLISH AND CLEANER . . . Harley-Davidson Polish and Cleaner cleans as it polishes. It puts a high gloss wax-like finish on enamel, chrome, glass and nickel surfaces. It's high shine result makes it the 1st choice of riders.

99701-35	Polish and Cleaner—½ Pint Cans	$0.50

9 HEAT RESISTING FINISHES . . . Restore the original good looking finish of your cylinder and exhaust pipes by using this Silver Heat Resisting Finish. It retains its color even under high temperatures. The Black Heat Resisting Finish is specially compounded for application to muffler. It makes them shine like new. It holds its finish in spite of heat and weather.

98660-49	Silver—¼ Pint	$0.70
98661-49	Silver—1 Pint	2.10
98665-49	Black—¼ Pint	.70
98666-49	Black—1 Pint	2.00

RESEARCH

Harley-Davidson Gas and Oil Additive consists of selected chemical additives in a light petroleum distillate. The additives include polar compounds which impart high film strength and oiliness not found in ordinary lubricating oils. Also included are solvents for the purpose of removing varnishlike deposits, and carbonaceous deposits. Also is a very effective corrosion inhibitor.

PURPOSES

One ounce of this additive added to every three gallons of gasoline will give you a perfection of lubrication your engine has never known.

Pistons, rings, valves are all coated with a thin film of this additive resulting in improved compression, free acting rings, reduced wear and freedom from scuffing.

Twelve ounces added to each gallon of oil minimizes the formation of lacquers, gum, sludge and other types of deposits. It imparts oiliness and extreme pressure properties beneficial in the lubrication of rod bearings, pistons, pins, and cam mechanism resulting in more speed less wear and ability to stand high shock loads.

Corrosion of the upper cylinder zone due to moisture and other combustion by-products is materially retarded by this additive in your gasoline. Corrosive acids normally accumulating in crankcase oil are neutralized by the use of this additive in the oil.

For all motorcycles.

HARLEY-DAVIDSON MILEAGE CLUB

You qualify for membership if you rode your Harley-Davidson 25000 miles or more since January 1, 1950. Easy, isn't it! Every member receives a handsome pin and membership card, something one can be proud of. Here's how it works: Suppose you have rolled up 25000 miles on one or more Harley-Davidsons since January 1, 1950, come in and let me know about it. I will have you fill out a blank and endorse it. This blank is then sent to the Harley-Davidson Motor Co. and they in turn will send you your 25000 Mile Bronze Club Pin and Membership Card signed by President William H. Davidson of the Harley-Davidson Motor Co. If you rode 50000 miles you will receive a Rose-Gold 50000 Mile Pin and Membership Card.

When you have covered 100,000 miles you are eligible for membership in the exclusive 100,000 Mile Class and will receive a Bright-Gold 100,000 Mile Pin and Membership Card.

Thats the whole story, a new way to give you recognition for all the fun and miles you have on your Harley-Davidson.

If you don't qualify now get out that bike and ride it and it won't be long and you too will be a proud member of the Harley-Davidson Mileage Club.

Do You Get the ENTHUSIAST?

IT'S FREE TO HARLEY-DAVIDSON OWNERS

Yes, if you own a Harley-Davidson you are entitled to receive **FREE** a copy of the **ENTHUSIAST** every month. Every page is crammed full of motorcycle action—adventure—thrills. It has many dramatic action pictures, adventurous travel stories, photos of out-of-the-way places and colorful accounts of all motorcycling activities. Once you have read a copy, you won't want to miss one.

The **ENTHUSIAST** is edited and published free for Harley-Davidson owners, but if you're not presently riding a Harley-Davidson, you can get this **ENTHUSIAST** merely for the handling cost of 50c a year, which is less than 5c a month.

the 'TRAVELER'

THE SILVER GRAY HORSEHIDE JACKET

The Traveler has been quick to catch on and is now prominently seen wherever cyclists gather. Riders like its appearance, its clean cut styling, its simplicity, the absence of gaudy trim and the new wind-tight sleeves. Made of quality, front quarter, horsehide. Lined with quilted 5-oz. wool-backed, 100% nylon. Three pockets, two inside and one outside. Snap on collar prevents windslap. Action back and elastic side take-up give freedom of movement with form fitting appearance. An all-purpose jacket, motorcycle riding, work and play. It does the job better than any other. Also available in black horsehide.

Wear the NEW PLASTIC "SPORTSTER"

LIGHTWEIGHT, LINED JACKET
SILVER-GRAY . . . BLACK

Here is a jacket that can really take it. Material is tougher than any other. Will not peel, scuff or tear. It's the new plastic "Elastic U. S. Naugalite." Waterproof, windproof, color-fast. It stays soft and pliable and retains its finish longer than any other material. Tailored into a sharp looking lightweight garment, it is lined with plaid rayon-wool. Features knit waist and cuffs and four pockets. A very comfortable jacket for cool weather riding. Truly a jacket easy to look at, easy to wear and easy on the pocket book.

98115-54 Sportster Jacket—Black, XS-S-M-L-XL **$13.95**
98117-57 Sportster Jacket—Silver Gray, XS-S-M-L-XL **13.95**

THREE QUARTER LENGTH LEATHER COATS
QUILTED NYLON LINING

If it is weather comfort you are interested in —here it is. This coat, because of its added length keeps you warmer, yet does not hamper your movement. Ideal for all around use. It features two larger zipper closure pockets, two roomy flap closure pockets on action back, attached belt with sliding buckle, quilted 100% nylon lining, knit wristlets and smooth, soft, pliable, black steerhide leather.

"U. S. ENSOLITE" INSULATING LINING
KEEPS YOU WARM IN ZERO WEATHER

Whatever the temperature 40°, 30°, 20°, 10°, or zero, you can ride in summer comfort in this new Harley-Davidson "Arctic" riding suit. Designed and tailored to specifically keep cold out, heat in. Made with "U.S. Ensolite," the new rubber-like insulating material. This insulation has millions of non-interconnecting air cells, which create a natural barrier against the cold. Lining is encased in silver gray 100% Nylon, which guarantees long satisfactory service.

The coat has knit cuffs and special zipper front that zips right to the top of collar, making a snug fit at the neck. The pants have an elastic waist band and knit cuffs at the bottom. Legs have zipper-opening at side, making it easy to pull pants on or off. Hood is amply large to cover motorcycle cap or fur Topper. Closes tight around the face by means of a draw string. Hood is provided with snaps to attach to coat.

The elastic inserted under coat lining below belt level keeps coat tight to body, preventing any possibility of updraft.

The motorcycle arctic suit will do the trick. It's lightweight, windproof and will keep you comfortable and warm in cold, windy or wet weather.

98110-56 Arctic Coat—S-M-L-XL **$23.50**
98111-56 Arctic Hood—All one size **2.95**
98112-56 Arctic Pants—S-M-L-XL **19.50**

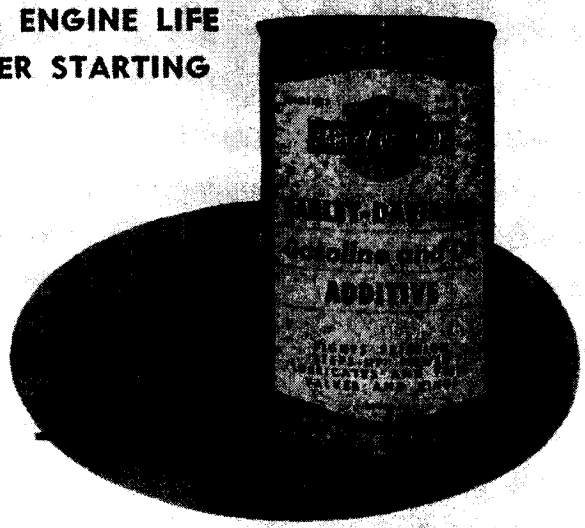
Use HARLEY-DAVIDSON GAS AND OIL ADDITIVE

- FREES VALVES
- CLEANS ENGINE
- INCREASES ENGINE LIFE

MORE POWER—EASIER STARTING



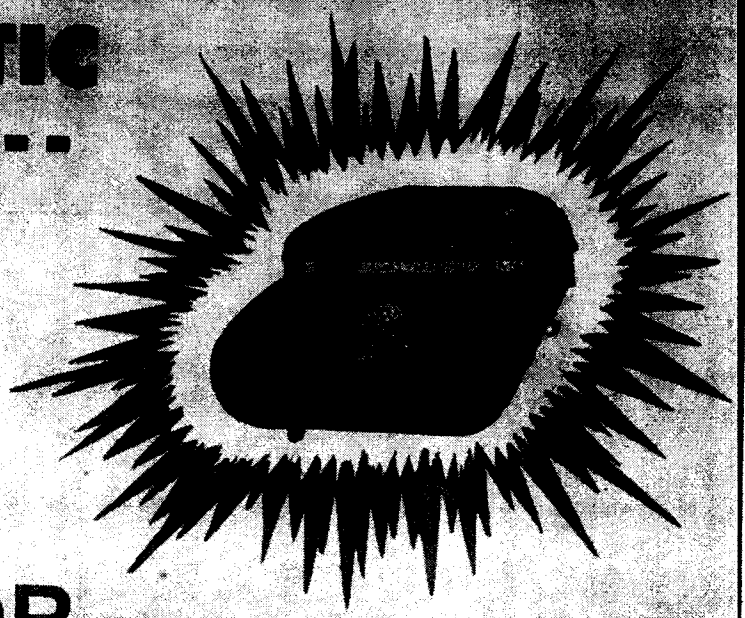
A little of the fire red additive in your gas or oil will perk up your engine and give it more life than it ever had before. It's that "something extra" that makes the difference.

One ounce added to three gallons of gasoline gives you a new lubrication perfection. Rings and valves are all coated with a thin film of this additive resulting in improved compression, free acting rings, reduced wear and freedom from scuffing. Twelve ounces added to a gallon of oil minimizes the formation of lacquers, gum, sludge and other types of deposits. It imparts oiliness and extreme pressure properties beneficial in the lubrication of rod bearings, pistons, pins and cam mechanisms resulting in more speed, less wear and greater ability to stand high shock loads. Try a four-ounce bottle or a twelve-ounce can and give it your own test, it will amaze you with the results. For all motorcycles.

99825-53	Four-Ounce Bottles	$0.35
99826-53	Twelve-Ounce Can	.75

MOLDED PLASTIC SADDLEBAGS - - -

MODERN LUGGAGE STYLE
DUSTPROOF—WATERPROOF
LARGE CAPACITY
LOCK-TITE COVER
QUICKLY DEMOUNTABLE
ALWAYS ATTRACTIVE
EASILY CLEANED



Introduced five years ago by Harley-Davidson, molded plastic saddlebags have proven themselves to thousands of riders superior to other saddlebags in every way. Their popularity can be attributed to their appearance and the fact that they retain that appearance. Plastic saddle bags are molded from a special plastic compound resulting in a semi-rigid, waterproof saddlebag.

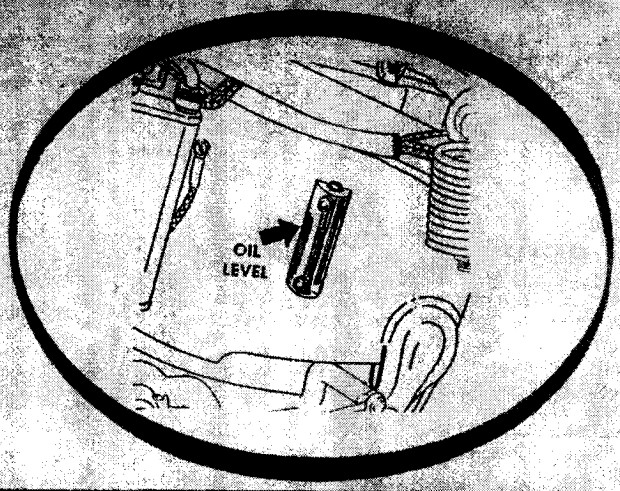
NEW! IMPROVED!

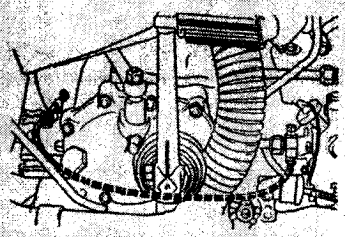


OIL LEVEL GAUGE . . .

This popular motorcycle accessory with its new design features will give you more service than ever before. Now easier to install, read and clean. Need never be removed from oil tank. Here's how it works. The actual level of the oil in the oil tank shows in the plastic gauge. Two holes in oil tank line up with column running through plastic gauge. The oil goes up or down in gauge when oil is added to tank or used in running. Use of this oil gauge will save you time and trouble and prevents possibility of running out of oil. (Can be used on all oil tanks.)

91830-54 Oil Level Gauge **$5.50**

FOR RESEARCH PURPOSES



REAR CHAIN OILER—Big Twin . . . Lengthen the life of your rear chain and the miles between chain adjustments by installing this rear chain oiler. Simple screw adjustment regulates oil flow. For late 1950 and up OHV's.

KEEP DRY IN A HARLEY-DAVIDSON RAINSUIT • • •

RAINSUIT—THREE PIECE—HOOD-JACKET-PANTS . . . Your riding comfort depends so much on being dry that you owe it to yourself to get the very best in rainsuits and here it is. Tailored just for motorcyclists and the conditions only they encounter. This suit will keep you dry and comfortable no matter how hard it rains.

100% Waterproof — Wind Resistant

Made of black, double weight, rubber coated, pliable sheeting. All seams cemented and vulcanized.

The hood fits over a motorcycle cap and is adjustable, insuring snug fit around the face and neck. It laps over jacket collar, thus no water can run down the back of neck.

The jacket is a pull-over type with zipper closing, gusset at the neck; breast pocket, comfortable corduroy lined collar, elastic cuffs and draw string waist.

The rainsuit pants are full cut for freedom of movement. They have draw string top and take-up strap at ankles.

Sizes S, M, L, XL.

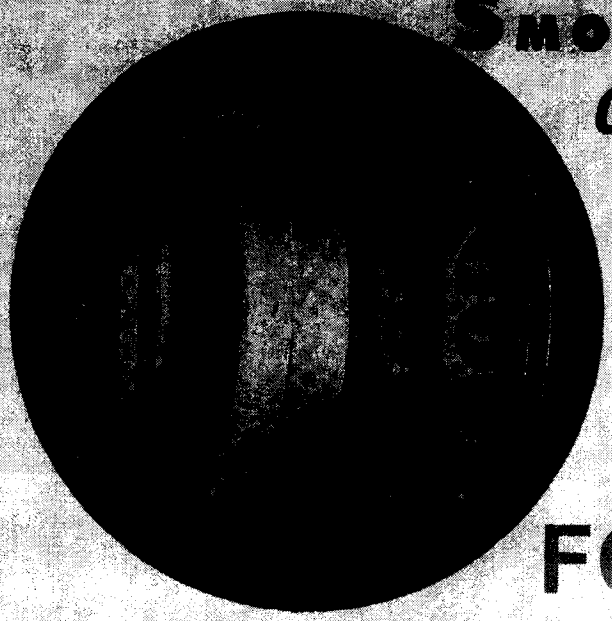
TURN SIGNALS — *SAFE AND SURE!*

With today's heavy traffic it is only wise to take every safety precaution possible. These turn signals installed on your motorcycle will give you that extra amount of safety. Just flip the finger tip switch on the handlebar and lamp in front and back of motorcycle flashes on and off, indicating the direction of turn. Kit consists of four lamps, dash panel with pilot light, switch and wiring.

68550-50 Set of Turn Signals **$17.90**

SMOOTH! SILENT!

COMPENSATING SPROCKETS



To put it plainly this compensating sprocket takes the jerk out of motorcycle riding The struggle between horsepower, acceleration and de-acceleration is often too much for the chains to transmit smoothly. That's where the compensating sprocket takes over.

It smooths all sudden jolts of horsepower and absorbs all engine torque variation. It improves traction, smooths out rough spots, eliminates "slipping the clutch" and prolongs the life of chains, tires, clutch and engine. Harley-Davidson sprockets are engineeringly sound—built to give long and faithful service. Spring and clamp type. Large helical spring together with special cam design quickly and easily smooths out the horsepower transmitted through it. The best there is! For Big Twins 1938 up.

Chrome LUGGAGE CARRIER

Here's the most popular, chrome plated luggage carrier made. Its modern design, utility, sturdy construction, ease of installation and removal plus slick, chrome plated finish make it outstanding. Mounts on saddlebag studs; thus no extra holes need be drilled in fender. Large carrying capacity, approximately one foot long by eight and one-half inches wide. For W, WL & OHV models.

53403-52 Chrome Luggage Carrier $10.50

A—FENDER STYLE

Here is a small, neat, little luggage carrier made of black enameled flat steel. Very sturdy—it will carry heavy as well as light loads. Attaches directly to the fender. Fits W, WL and Big Twins.

53406-36 Fender Type Luggage Carrier $7.90

B—165-125-HUMMER

Here's the handiest accessory you can get for your single. Carries luggage, camping equipment or anything you want to take along. Sturdy construction, stamped steel, black enameled. Slots in side for hold-down straps and holes for mounting saddlebags.

53400-47 Luggage Carrier, 165-125-Hummer ... $6.80

C—SUPER SIZE CARRIER

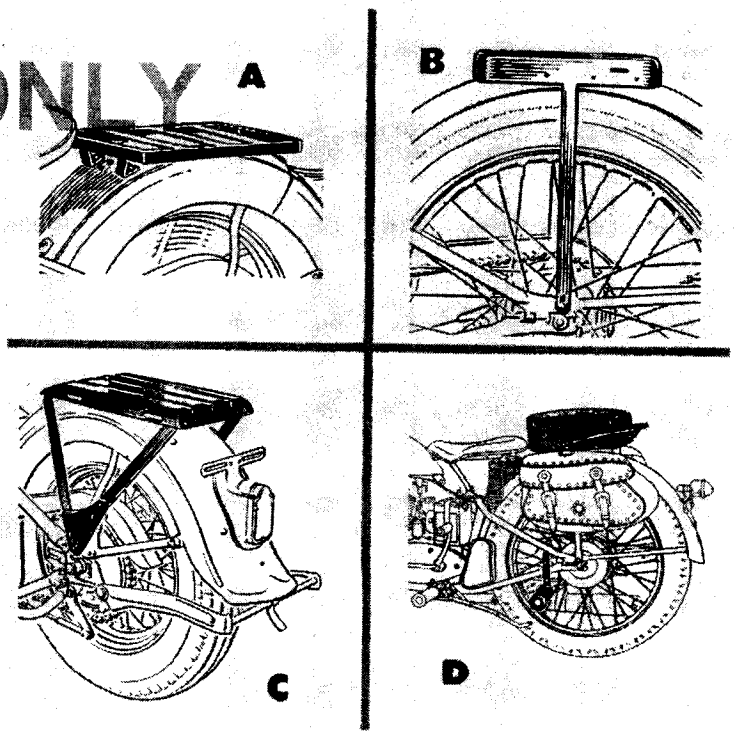
Here is a super utility luggage carrier designed to carry extra heavy, bulky loads. Useful many times; camping, long trips, vacations, etc. Made of heavy gauge sheet steel with brilliant black enamel finish.

53404-26 Luggage Carrier—W & WL Models .. $11.90
53403-17 Luggage Carrier—Big Twin 11.90

D—165-125-HUMMER AUXILIARY SEAT

Give your passenger a soft, luxurious ride. Consists of a deep, thick, soft, sponge rubber filled cushion type seat which attaches to luggage carrier. Strong, sturdy steel handrail circles rear of seat. Rubber covered footrests complete this fine two passenger set-up.

91526-49 Auxiliary Seat and Handrail $11.75
91535-49 Set of Footrests 7.50



SAFETY GUARDS . .

DOUBLE PROTECTION . . . MAN AND MACHINE!

SAFETY GUARDS . . . This accessory does just what its name implies, it guards you and your motorcycle—safe from harm. The front safety guard protects legs, tanks and engine and the rear safety guard protects legs, saddlebags and rear end. All Harley-Davidson safety guards are made of strong steel tubing scientifically heat treated to stand up under the most severe impact. As for appearance, they blend into the line lines of your motorcycle adding to its attractiveness. You make a wise move in safety for yourself and motorcycle when you install safety guards. Play it safe, install a pair today. There's one for every model.

FRONT SAFETY GUARDS . . . A front safety guard is available for every Harley-Davidson. They attach firmly to the motorcycle and protect legs, engine and tanks from damage.

The Original!

ACCEPT NO SUBSTITUTES GUNK

THE SUPER MAGIC EFFORTLESS CLEANER

BRUSH IT ON! HOSE IT OFF! IT'S CLEAN!

Yes, it's as easy as that! Brush a little on an engine covered with oil, grease or grime—hose it off with water—and you'll see oil, grease and grime disappear as quickly as the water hits it, leaving sparkling clean surfaces.

Gunk Motorcycle Cleaner, sold only by Harley-Davidson dealers is a solvent possessing high scouring, synergistic action. It is a grease and oil solvent. When applied to oily or greasy parts it combines with the grease or oil converting it into liquid soap. This soap is then washed away with water leaving absolutely clean surfaces.

Especially effective on aluminum, cleaning it thoroughly, producing a silver white finish.

Get a pint, quart or gallon today, try it out and you too will be a Gunk booster and user.

58760-36 Lap Apron for Big Twins **$10.50**

B SPLASH SHIELDS AND APRON—165-125-Hummer . . . This attractive combination will give you full weather protection in bad weather riding. Splash shields slip over safety guards and have rubber flaps attached to bottom. Apron fastens around steering head and snaps on top of splash shields. Both made of plastic impregnated wind and waterproof material.

49119-51 Splash Shields & Flaps **$9.75**
58770-51 Apron **5.25**

C WINTER WINDSHIELDS . . . Protection from all that winter has to offer is yours when you ride behind one of these large winter shields. Apron is made of a special, plastic impregnated material that is both wind and waterproof. Framework is made of quality, sturdy steel. Window is made of clear, plastic Vinylite. Shields are adjustable to suit height. Metal legshields protect legs and feet yet allow air to circulate freely around the engine.

Windshield & Legshields Complete **$35.75**
Windshield only **28.75**
Legshields only **11.00**

D SIDECAR WINDSHIELD AND APRON . . . This sidecar windshield is designed for the protection of passenger from wind, dust, bugs and the like. The shield gives unobstructed vision and blends in with the smooth lines of the sidecar. Apron protects sidecar upholstery from weather. Elastic in apron edge holds apron firmly in place and makes it easy to open or close. Apron is made of wind and waterproof material that will give long service. Shield swings up for easy sidecar entrance and exit.

88850-36 Windshield and Apron for Harley-Davidson Sidecar **$37.00**

SIDECAR COVERS ONLY

88528-36 Sidecar Cover for Harley-Davidson Sidecar **$9.75**

E SPLASH SHIELDS—Big Twins . . . Keep feet and legs dry and clean in wet weather riding. Easily installed or removed—they slip over safety guards and snap in place. Made of black, wind and waterproof fabric that gives long satisfactory service.

58750-48 Set of Splash Shields **$5.95**

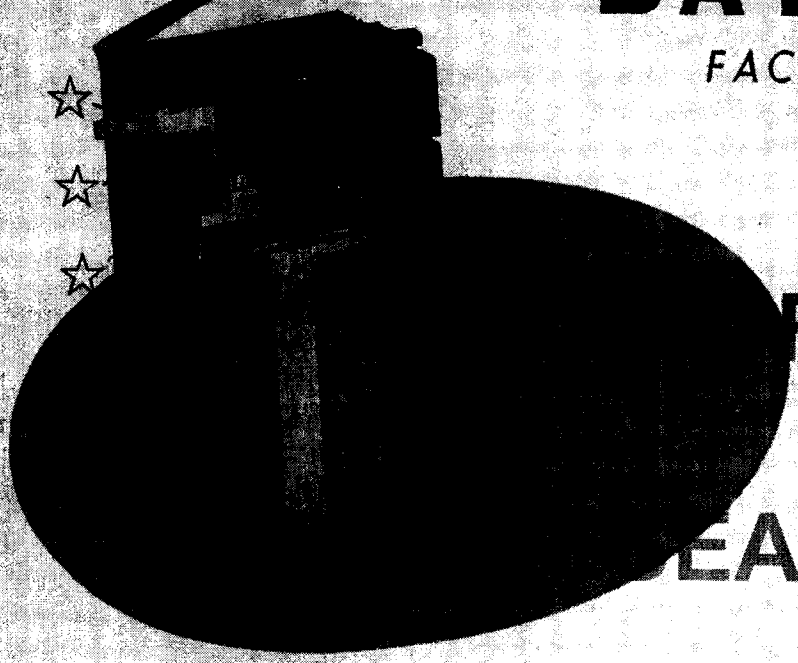
Now! DRY CHARGED HARLEY-DAVIDSON BATTERIES

FACTORY FRESH . . . FROM SHELF TO YOU!



"DRY CHARGE" . . . Your assurance of a factory fresh Harley-Davidson battery every time. Another modern manufacturing method applied to Harley-Davidson batteries to give you the best in motorcycle batteries. Harley-Davidson batteries are designed and constructed specifically for motorcycle use. The plates are more substantially supported than those of any other battery. The top is molded in one piece, rests on a solid shoulder and is sealed in place. This plus hard rubber tie rod supports for both positive and negative plates and large plate group terminal posts make this battery the most rugged and dependable battery made. Added to all these quality features is the liberal 90 day warranty and 12 month guarantee making Harley-Davidson batteries your best buy from every angle.

- ★ HEAVY MOLDED-IN TERMINALS
- ★ SOLID SEALED COVER
- ★ POSTS MOLDED IN RUBBER
- ★ DOUBLE ANCHORED PLATES

GENUINE HARLEY-DAVIDSON OIL . . .

Under the most grueling test through which an oil can be put, "racing," Harley-Davidson Oil comes through "the winner." Grand National Champion Joe Leonard of San Jose and Brad Andres of San Diego, California testify to its Championship qualities.

You, too, win every time you use Harley-Davidson Oil. Made expressly for high speed, air cooled, motorcycle engines. Its uniform high quality and correct viscosity lubricates perfectly, increases engine life, pops up performance, keeps engine "clean," rings free, minimizes carbon and sludge and retards oxidation and corrosion. It gives you championship performance under all conditions.

And best of all, although special refined oil, it costs no more than other oil. Be smart, make your motor happy by using only Genuine Harley-Davidson Oil. Ask for it.

REGULAR HEAVY . . . . Use for normal service in all motors at temperatures over 75° and for extreme service at any temperature.

MEDIUM HEAVY . . . . Use for normal service in all motors at temperatures between 32° and 75°.

SPECIAL LIGHT . . . . Use in all motors at temperatures below 32° (freezing).

TWO-CYCLE OIL . . . . Use in all two-cycle engines year 'round.

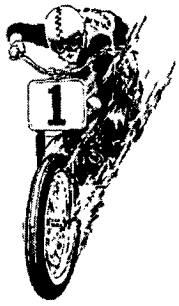
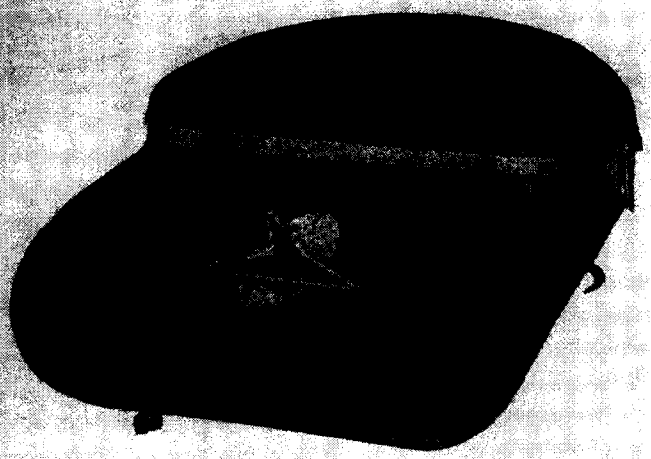
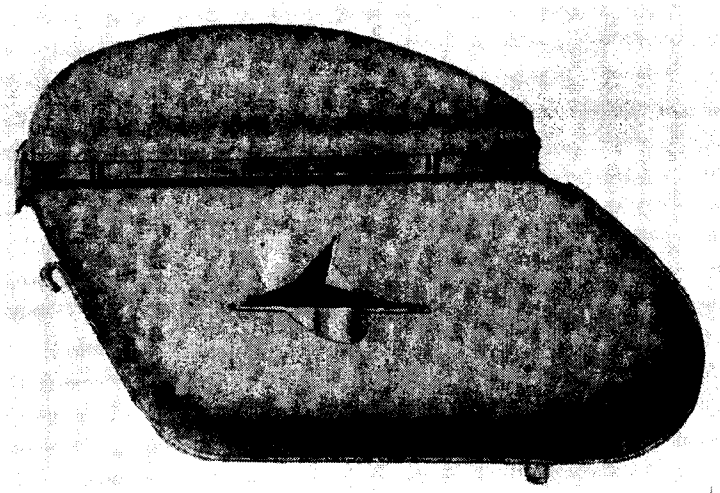
1958-1959 GRAND NATIONAL CHAMPION — CARROLL RESWEBER

Meet Carroll Resweber — Grand National Champion for the second straight year. Resweber, 5 feet 8½ inches tall and 132 pounds, will again be seen with the coveted No. 1 plate . . . the Championship plate worn by Harley-Davidson riders since 1954. Resweber won the 1959 crown with a total of 52 points, 15 more than his second place competitor. The champion brought home first place victories in the 50-Miler at Springfield, Ill., 25-Miler at Sacramento, Calif. and the 5-Miler at St. Paul, Minn. Second place wins came at Heidelberg, Pa. and Columbus, Ohio with other victories at Los Angeles, Calif. and Peoria, Ill. The lightning swift champion is a cinch to be one of the fastest racers during 1960.





A



ROOMY . . . STURDY SADDLEBAGS

Streamline Style Plastic Bags in Black and New White

A There's *room galore* in these modern, luggage style saddlebags. They're molded from a special plastic compound for durable use. Bags are waterproof, dustproof and easy to clean. Handy to use with theft-proof snap latch; can be quickly removed and used as luggage. Jet ornament adds to racy looks.

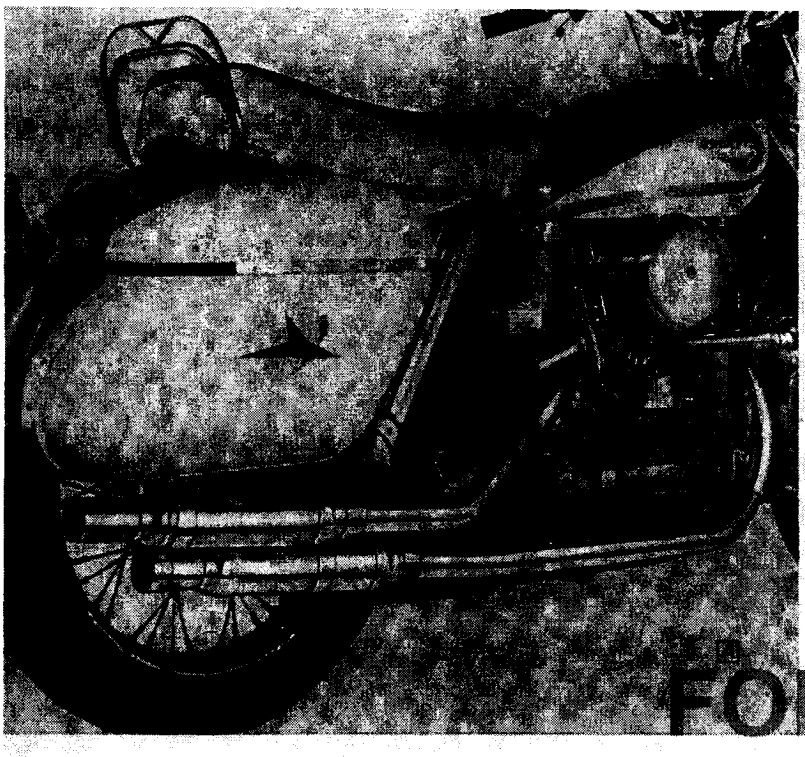
Brad Andres — GRAND NATIONAL CHAMP — 1955

Brad Andres is one of America's leading motorcycle racers. He won the Grand National Championship Crown in 1955 at the age of 20 and finished third in the National standings last year. Andres showed his championship form throughout the season scoring his second win at Daytona Beach and his fourth win in five years at Laconia. Here, he set a sizzling new record of 1:42:59.27. He placed in races at Heidelberg, Ascot and Peoria for a total of 29 points — only eight points out of second place in the point standings. Andres and his Harley-Davidson will be one of the toughest combinations to beat in 1960.



SMOOTH . . . MUFFLERS . . .

A SPORTSTER SWEEP-STYLE DUALS

Two pipes . . . two mufflers—double the beauty of the spectacular Sportster. 1954-56-57 GRAND NATIONAL CHAMPION *Joe Leonard*

Three-time "Grand National Champion" Joe Leonard won the coveted crown in 1954, 1956 and 1957. Last year, he entered his Harley-Davidson in seven National races and rode wheel-to-wheel duels with the *best*. He also won the title of "1959 California State T.T. Champion." Because of his experience, versatility and track knowledge, Leonard has won every type of major motorcycle competition, winning several of the top races many times, adding more prestige to his fine record. To many fans, Joe Leonard is considered one of the best two-wheeled speedsters in the history of motorcycling.

. . CYCLE-LUBRICATIONS

MOTOR HARLEY-DAVIDSON CYCLES

FOR RESEARCH PURPOSES ONLY

A CHAIN SAVER

A well lubricated chain is *easy* on the sprockets and guarantees longer chain life. Harley-Davidson Chain Saver penetrates deeper . . . faster, stays on longer. It's easy to apply with handy, spout can. Best of all, Chain Saver works its way into chain parts and *won't flick off!*

99875-50 ½-Pint Can (12 in a carton) **$0.65**

B CHAIN SPRAY

Spray your chain the easy way. There's nothing to it! Just hold the can five inches from chain, press the valve and spray the chain thoroughly. Penetrates quickly—lubricates bushings and pins. Adds *miles* to chain life. Keep a can in your saddlebag for *handy use.*

99870-58 (12 in a carton) **$0.65**

C CHAIN GREASE

Specially compounded to stay on at high speeds and gives full penetration at all temperatures. For longer life, grease your chain at least every 500 miles.

99850-51 (12 in a carton) **$0.30**

GASOLINE AND OIL ADDITIVE

Frees Valves . . . Cleans Engine . . . Increases Engine Life . . . Gives More Power . . . Easier Starting

Does old age seem to be creeping-up on your engine? Hear unfamiliar noises? Leave a 'smoke-screen' when you dig-out? Give your *power plant* new life . . . more vim . . . more vigor—add a little Harley-Davidson Gas and Oil Additive. One ounce added to three gallons of gasoline gets rid of sludge, gum, lacquers and other *harmful* deposits. Frees rings and valves. Add twelve ounces to a gallon of oil and it goes to work *immediately.* Say good-bye to starting troubles . . . get more power . . . try this amazing additive *today!*

D 99825-53 Four-ounce Bottle (24 in a carton) **$0.35**

E 99826-53 Twelve-ounce Can (12 in a carton) . . . . . **.75**

F HYDRA-GLIDE FORK OIL

When it's time to add or change oil in your forks use Hydra-Glide fork oil. It's made specifically for Hydra-Glide and Sportster-K forks. This hydraulic oil is the same, special high-quality oil that is used at the Harley-Davidson Factory.

99880-49 Pint Can (24 in a carton) **$0.75**

G GREASE-ALL

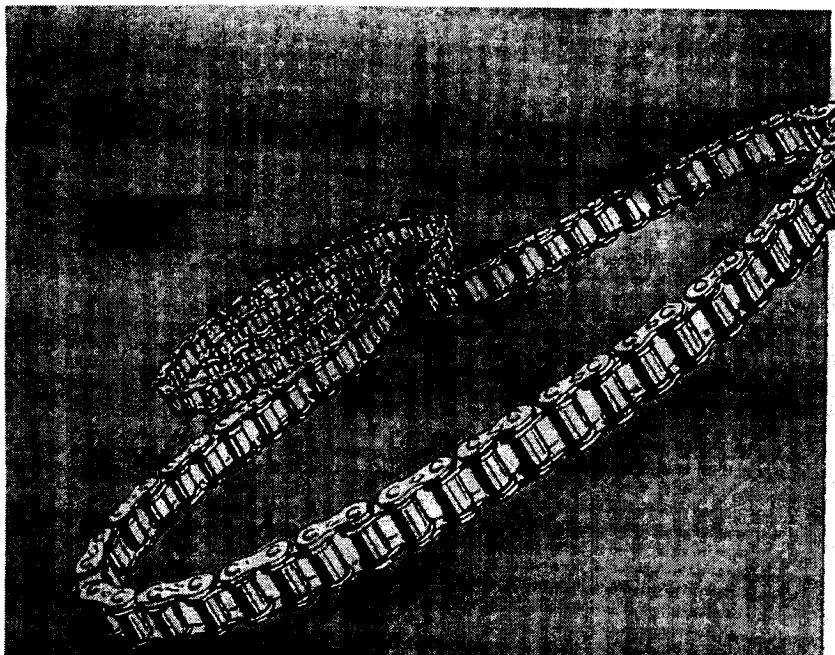
Here's an *all-purpose* grease for all motorcycle repairs. Can be used for minor repairs or a major overhaul. Grease-All comes in a handy one pound can. Ideal for packing bearings or general grease gun use.

99860-51 Pound Can (12 in a carton). **$0.60**

H LOC-TITE

A new chemical liquid that locks metal to metal. Loc-Tite wicks into threads between nuts and bolts, hardening automatically. When it solidifies, it resists oil, water, solvents, cold and heat. Use a drop on *every* nut and bolt.

99619-60 Tube Loc-Tite **$0.75**



MOTOR HARLEY-DAVIDSON CYCLES

Drive-Chains—

Front and Rear

Harley-Davidson super-strength drive chains are made to take it. Go for miles and miles with fewer adjustments . . . less chain wear . . . less sprocket wear. We have a complete stock of front and rear chains.

Duo-Glide
"Midway" Service Stand

[A] The new, Duo-Glide Service Stand is handy, convenient, easy-to-use. It lifts the rear wheel approximately one and a half inch off the ground. To use, simply hold stand down with the right or left foot and pull back with a lifting motion. The Service Stand makes rear wheel removal *easy*. Stand is a permanent installation.

49400-59 ..... **$14.75**

[B] **DUO-GLIDE SERVICE STAND**
Here is a portable unit that you can take with you in your saddlebag for emergencies. To use, slide stand into frame-well and turn up with a wrench provided in the tool box. Just the thing for front or rear wheel removal.

95825-58 ..... **$4.90**

MAINTENANCE AIDS FOR RESEARCH PURPOSES ONLY and TOOLS

[C] **BATTERY HYDROMETER**
Battery seem low, check it to see if it is up to par with a Harley-Davidson Battery Hydrometer. Easy to use and read. Ideal for riders who have their own chargers.

96910-35 ..... **$1.90**

[D] **GREASE GUNS**
Keep your motorcycle running smoother . . . longer, by keeping it well greased. Swell to have in your garage or home work shop. There is one model (small) to carry in the saddlebag.

95791-38 Large Gun **$1.99**
95790-47 Small Gun **1.75**

[E] **OIL CAN SPOUTS**
Take the 'work' and mess out of filling your oil tank. Just puncture the can with the spout and it serves as a funnel. Lets the can drain *completely empty*. Keeps oil from spilling all over your cycle.

99620-47 Small Saddlebag Model **$0.80**
99620-48 Large Spout **1.85**

[F] **TIRE PUMP**
Fill a flat 'on the road' with this handy gadget. After repairing the puncture screw one end of the hose in the spark plug hole, the other onto valve stem. Then, start the engine and your tire is inflated.

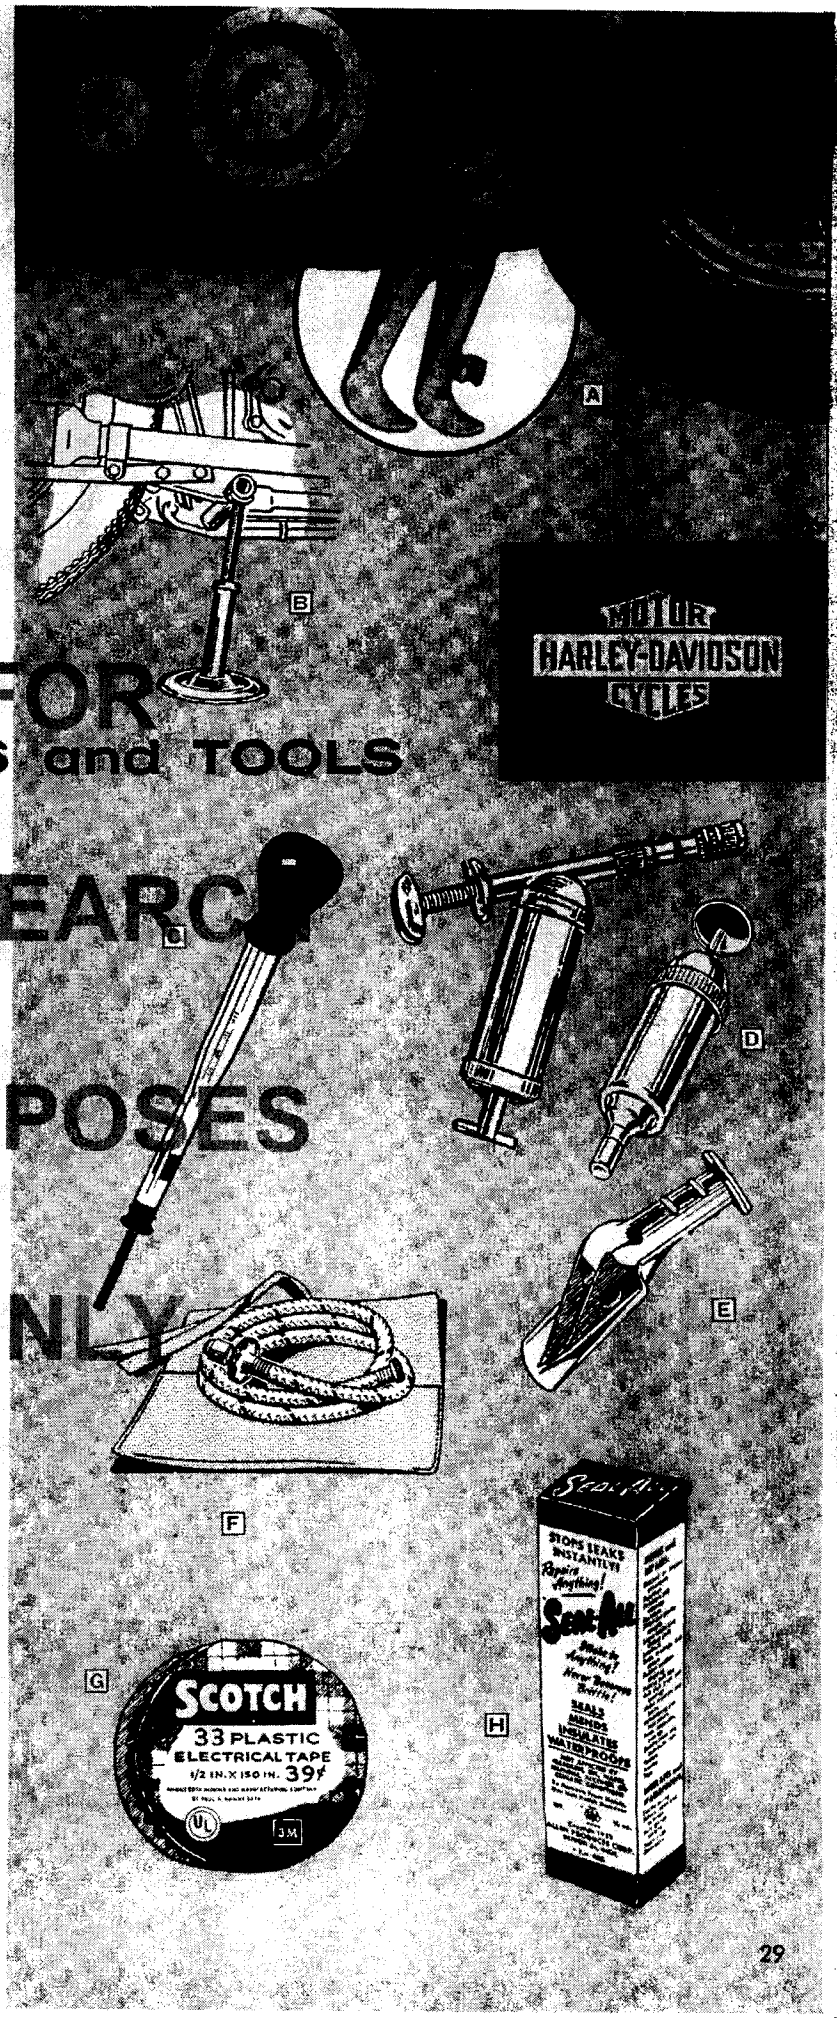
95736-46 ..... **$5.50**

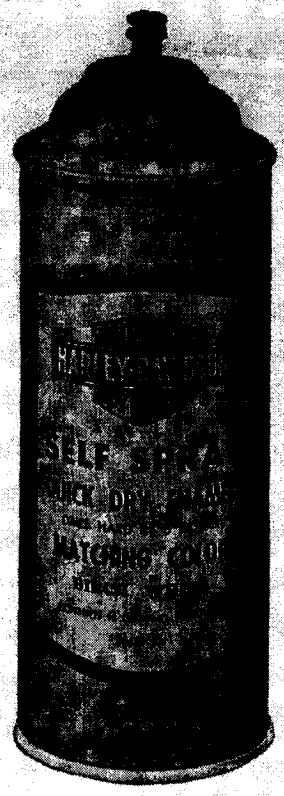
[G] **ELECTRICAL TAPE**
When you are doing wiring repairs use this Scotch Electrical Tape. It's *modern* . . . it's *plastic*. Resists oils, water, acids and weather conditions. Has the insulating properties of friction and rubber tape combined.

99604-53 Size ½" x 150" **$0.39**
99605-53 Size ¾" x 66' **1.65**

[H] **SEAL-ALL**
You'll find Seal-All has over 100 uses. Use it to seal, mend, insulate, waterproof. Swell for cementing grips to handlebar spiral. It's the wonder adhesive.

99617-54 ¾ ounce Tube **$0.50**





A

Easy-to-Use Self-Spray Enamels

Do it yourself . . . *refinish* your motorcycle with this easy-to-use enamel. Just press the valve and out flows a smooth spray of paint for a professional, velvet-finish paint job. Painting with Harley-Davidson Self-Spray doesn't steal away your precious riding time — it dries *hard* in 6 hours.

6 Oz. Can — **$1.50**		16 Oz. Spray Can — **$1.95**

HARLEY-DAVIDSON

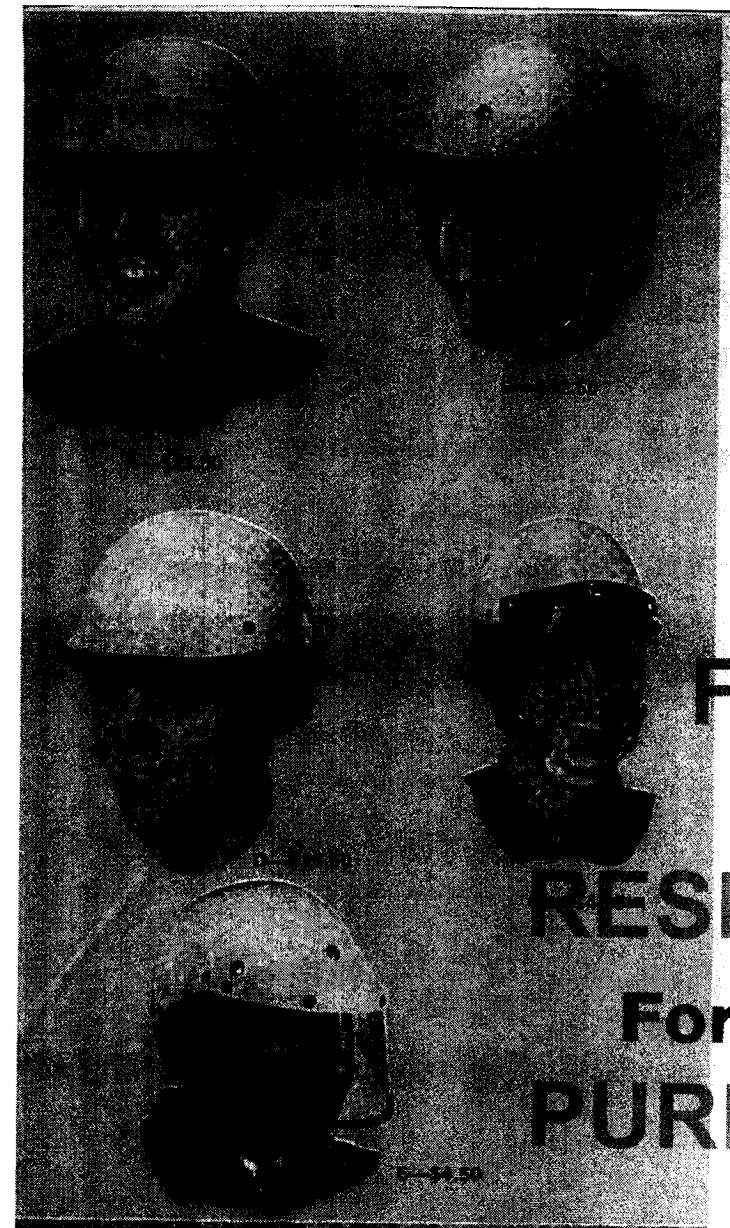
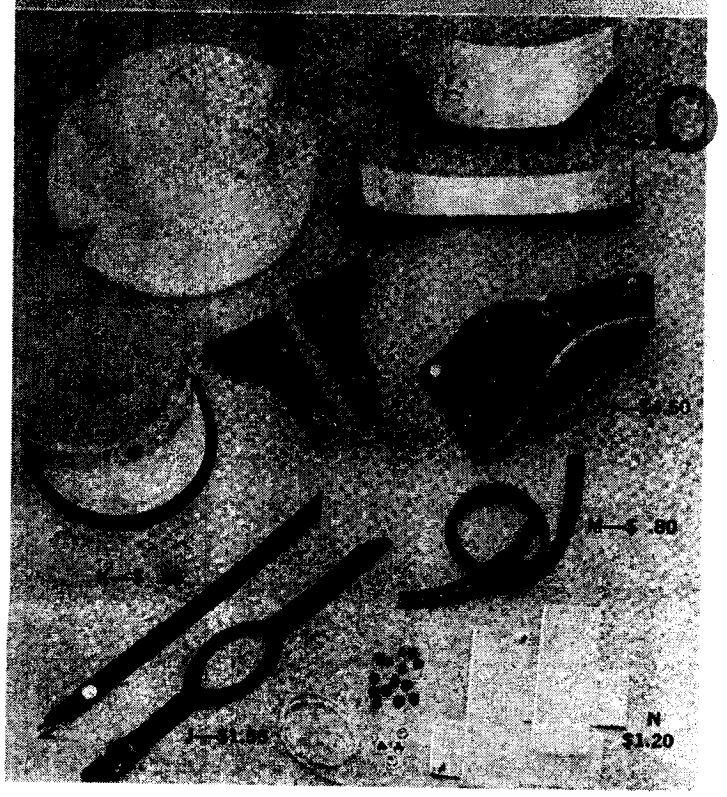
for all
two-wheel
enthusiasts





"Use-proved" Harley-Davidson helmets give you "top" protection for all types of riding. Shells are of laminated woven fiberglass impregnated with an Isothalic Resin for high impact absorption. Tensile strength for *each* of the multiple laminations is 600 pounds per square inch.

A ROAD RIDER SAFETY HELMET

Built Super-safe, yet light in weight, the comfort-styled Road Rider has made a hit with both men and women riders. Comes with detachable leather ear covers and a snap-on visor.

98090-58 Sizes 6½ to 7¾ $23.50

B COMPETITION SAFETY HELMET

The helmet of champions. Gives maximum protection for track or road racing, endurance runs, scrambles, drags — *any* kind of riding or driving. Has snap-on visor. A.M.A. approved for "C" competition.

98092-58 Sizes 6¾ to 7¾ $32.50

HELMET CEMENT

For re-lining helmets with new sizing pads and liners. Easy to use.

98089-58 1 Quart $3.50

C CRUISER SAFETY HELMET

Solid safety at an economy price. Two adjustments assure comfortable fit. Comes with detachable green plastic sun visor and full plastic ear covers.

98075-61 Sizes: Small (6⅝-7), Medium (7⅛-7⅜), Large (7½-7¾) $14.95

98076-62 Cruiser Visor and Shield 4.50

D CLUBSTER AND POLICE SAFETY HELMET

Lightweight Clubster is shaped to completely protect the base of the skull. It has a molded visor and detachable leather ear covers for all-weather comfort. Sizes 6½ to 7¾.

98095-58 Clubster $25.50

98091-58 Police Special (Includes Badge Clip) 26.00

98089-58A Badge Clip 1.00

For comfort and safety . .

E FACE SHIELD

Snap-on protection from bugs and weather. For Road Rider helmet only.

98097-58 Visor and 2 Shields $4.50

98098-58 Extra Face Shield 1.20

98093-58 Visor Only 2.25

RESEARCH PURPOSES ONLY

Get *mileage* with your engine *mileage!* Riding hard or far — you prevent *power-robbing* deposits from forming when you use PRE-LUXE! It actually cleans as it lubricates . . . gives you *more* engine mileage. PRE-LUXE is also available in the handy 4-PACK or new 1-gallon can. Give *new power* to your engine — always use Harley-Davidson PRE-LUXE!

"58" SPECIAL LIGHT — PRE-LUXE

Use in all twin engines at temperatures below 32° F.

"75" MEDIUM HEAVY — PRE-LUXE

Use for normal service in twin engines and SPRINT at temperatures between 32° and 75° F.

"105" REGULAR HEAVY — PRE-LUXE

Use for normal service in twin engines at temperatures over 75° F. and for extreme service at any temperature.

HARLEY-DAVIDSON "TWO-CYCLE" MOTOR OIL

If you own a Lightweight two-cycle motorcycle or motor scooter, here's the oil for you! Harley-Davidson TWO-CYCLE insures "best" performance because it's refined especially for two-cycle engines.

CASE OF 24 CANS

99800-TS	Two-Cycle Oil — Model 165-125 — Hummer — Super-10 — Topper — Pacer — Ranger — Scat — 12 Oz. Can	$6.95

GET HARLEY-DAVIDSON "PRE-LUXE" AND "TWO-CYCLE" OIL IN HANDY 4-PACK CARTONS

C CHAIN GREASE

Specially compounded to stay on at high speeds and give full penetration at all temperatures. For longer life, grease your chain at least every 500 miles.

99850-51 (12 in a Carton) . . . $ .30

GASOLINE AND OIL ADDITIVE

- Frees Valves
- Cleans Engine
- Increases Engine Life
- Gives More Power
- Easier Starting

Does old age seem to be creeping-up on your engine? Hear unfamiliar noises? Leave a 'smoke-screen' when you dig out? Give your *power plant* new life . . . more vim . . . more vigor — add a little Harley-Davidson Gas and Oil Additive! One ounce added to three gallons of gasoline gets rid of sludge, gum, lacquers and other *harmful* deposits. Frees rings and valves. Add twelve ounces to a gallon of oil and it goes to work *immediately*. Say good-bye to starting troubles . . . get more power . . . try this amazing additive *today!*

99825-53	Four-ounce Bottle (24 in a Carton)	$ .35
99826-53	Twelve-ounce Can (12 in a Carton)	.75

E F HYDRA-GLIDE FORK OIL

When it's time to add or change oil in your forks use Hydra-Glide fork oil. It's made specifically for Hydra-Glide and Sportster-K forks. This hydraulic oil is the same special high-quality oil that is used at the Harley-Davidson Factory.

99881-52	Gallon Can	$4.50
99880-49	Pint Can (24 in a Carton)	.75
99885-61	Sprint Fork Fluid (12 in carton)	.65

Genuine HARLEY-DAVIDSON cycle

A CHAIN SAVER

A well lubricated chain is *easy* on the sprockets and guarantees longer chain life. Harley-Davidson Chain Saver penetrates deeper . . . faster, stays on longer. It's easy to apply with handy, spout can. Best of all, Chain Saver works its way into chain parts and *won't flick off!*

99875-50 ½-Pint Can (12 in a Carton) . . . $ .65

B CHAIN SPRAY

Spray your chain the easy way. There's nothing to it! Just hold the can five inches from chain, press the valve and spray the chain thoroughly. Penetrates quickly — lubricates bushings and pins. Adds *miles* to chain life. Keep a can in your saddlebag for *handy use.*

99870-58 (12 in a Carton) . . . $ .85

G GREASE-ALL

Here's an *all-purpose* grease for all motorcycle repairs. Can be used for minor repairs or a major overhaul. Grease-All comes in a handy one pound can. Ideal for packing bearings or general grease gun use.

99860-51	Pound Can (12 in a Carton)	$ .60
99865-51	5 Pound Can	2.90

H LOC-TITE

A new chemical liquid that locks metal to metal. Loc-Tite wicks into threads between nuts and bolts, hardening automatically. When it solidifies, it resists oil, water, solvents, cold and heat. Use a drop on *every* nut and bolt.

99619-60 Tube Loc-Tite . . . $ .95

SEE HOW THEY'RE MADE

visit the home of Harley-Davidson

Plan to visit the Harley-Davidson factory in Milwaukee. See the modern facilities, tools and machinery that make this the brand known around the world. Guided tours are conducted twice daily, Monday thru Friday. Include Milwaukee in your vacation plans this year.
