Type of Search: **DILU FULL SRCH-T&T**
Mark: **GRIZZLY**
Goods/Services: **ALL OCCURRENCES OF THE WORD IN THE FEDERAL, STATE, COMMON LAW, AND BUSINESS NAME DATABASE**

Data Information

Please see COMMON LAW SOURCE LIST for complete listing of our print and computerized common law sources.

In-Use Information

In-Use Information shows whether and how potentially conflicting trademarks are being used on the Web. We provide information, when available, on the citation, its owner and its use in commerce for up to 25 Group One citations per data source (USPTO, State, Common Law Database, Business Names and Gale Group Database). The search results included in this section are a selection of the information available at the time of the preparation of this search report, and are not a comprehensive representation of the Web. Any of the Web links included in your search report may become unavailable at any time following the preparations of this report.

Owner Matching

The Owner Matching feature is an index within the trademark record showing citations within the report with the same owner. Owner Matching is an alphabetical, word for word match. Inconsistencies in the data coming from providers (i.e., USPTO, State, etc.) may impact results.

ANALYST REVIEW - INTERNET DOMAIN NAME REPORT

Search Information

Type of Search: **DILU FULL SRCH-T&T**
Mark: **GRIZZLY**
Goods/Services: **ALL OCCURRENCES OF THE WORD IN THE FEDERAL, STATE, COMMON LAW, AND BUSINESS NAME DATABASE**

Important Notices

Due to the constantly changing nature of the Internet, and the reasons detailed below, it is possible that the status of domain names may change between the time this report is generated and the time you receive this report. Therefore, we strongly recommend that you conduct additional domain name searching before attempting to register a domain name or forming a final opinion on the availability of a trademark or domain name.

* The dynamic nature of the Web allows for the registration of new domain names virtually continuously, 24 hours a day.
* All steps are taken to ensure the completeness and accuracy of our database. However, due to registrar/registry administrative procedures during domain name registration, some domain names may not be present in our database.
* Domain name registrars do not report domain names which are not currently registered, nor do they report domain names which may be "on hold" with the registrar.
* All domain names cited in this report should be considered to be REGISTERED as of the time this report was generated.

Due to the nature of the Web, and because we do not filter Web content, it is possible that the Web Page Lookups included in this report may contain objectionable material. If you wish to avoid the possibility of receiving such material, please contact us to "opt out" of Web Page Lookups.

Data Information

This report is the result of a computerized search of our database of top-level domain names. Our database is updated daily with domain name data from all ICANN-accredited registrars and covers the following suffixes:

.com - commercial (unrestricted use)
.org - non-profit organization (unrestricted use)
.net - network (unrestricted use)
.edu - educational institution
.gov - U.S. Government agency
.info - information (unrestricted use)
.biz - business

This report covers domain names updated to our database as of the following date: **SEP 27, 2005**

Please Note: Our last update to .ca (Canadian country code) domain name file was on December 11, 2000, when authority for .ca domains was transferred from the University of British Columbia to the Canadian Internet Registration Authority (CIRA) and file updates became unavailable. Further updates are not expected to become available unless CIRA develops a policy to allow the distribution of domain name information.

REPORTED OWNER INDEX

The following is an alphabetical listing of names reported in the OWNER field of records cited in this search report, with all marks owned by a single entity carried under that entity. (Due to inconsistent spellings, corporate designations, and other discrepancies in data collected by T&T from diverse sources, multiple listings of what are in fact the same owner may occur.) The Business Name, Domain Name and Gale Database sections of the report are not included in this index.

This tool is designed to facilitate your review of the search report and to help you identify trends in data. There has been no analysis made to determine if the company name listed is the actual owner of the trademark. In the case of USPTO listings, only officially reported owners are included; assignees are not considered owners for the purpose of this index.

GRIZZLY INDUSTRIAL TRIAL EX. NO. 59

Registrant, Grizzly Industrial, Inc., hereby requests pursuant to Section 7(h) of the Lanham Act that a mistake in Registration No. 2,321,226 be corrected. The certificate of registration contains an error which occurred in good faith and through the fault of the registrant. TBMP 514.

In support of this Request, attached hereto is the original Certificate of Registration, No. 2,321,226, a Power of Attorney and Declaration signed by the Registrant, and a check in the amount of $100 to cover the fee required by 37 CFR 2.6(a)(9).

This registration is currently the subject of a pending cancellation action, No. 32,025, Pucel Enterprises, Inc. v. Grizzly Industrial, Inc., which has been consolidated with three other proceedings involving the marks GRIZZLY and GRIZZLY.COM. The cancellation proceedings do not relate to the subject matter of this proposed amendment. A copy of the petition to cancel Registration No. 2,321,226 is attached as Exhibit A.

The registration for the mark GRIZZLY INDUSTRIAL lists the date of first use as December 31, 1983. To the best of registrant's knowledge, 1983 was inadvertently selected as the date of first use because the term GRIZZLY was first used in 1983, and a distinction was not made between the date of first use for the term GRIZZLY and the date of first use for the mark GRIZZLY INDUSTRIAL. The mark GRIZZLY (Registration No. 2,166,833), the subject of cancellation action No. 31,984, was previously registered for the same goods June 23, 1998, and correctly asserts a first use date of at least as early as September, 1983. (Exhibit B). Registrant recently discovered this mistake in the course of responding to discovery requests in the consolidated proceeding. The date of first use and first use in commerce for the mark GRIZZLY INDUSTRIAL is August 1997.

Registrant submits that no interested party would be prejudiced by this amendment because the mark was published for opposition on January 22, 1999 as an intent-to-use application with a filing date of June 4, 1997. Thus, no potential opposer could have relied on the alleged incorrect date of first use of 1983 in deciding whether or not to oppose the application since the 1983 date was not of record until after the publication when a Statement of Use was filed in response to a Notice of Allowance. Moreover, the actual first use date post dates the ITU filing date, the priority date on which potential opposers would have relied. Thus, republication is not necessary.

Petitioner, Pucel Enterprises, Inc., declined to consent to this request. Because this request is made well prior to trial, Pucel has received fair notice thereof. TBMP 514.03. Moreover, since the cancellation proceeding discovery period is still open, Pucel has an opportunity to take discovery on this matter and, therefore, is not prejudiced by this Amendment. Accordingly, because this correction will not affect the issues involved in the cancellation proceeding, the Board may determine this request prior to trial. Id.

The original Certificate of Registration is attached hereto for endorsement of the correction.

Respectfully submitted,

Joseph F. Schmidt

GRIZZLY INDUSTRIAL TRIAL EX. NO. 62

Registrant/Applicant, Grizzly Industrial, Inc. ("Grizzly"), hereby moves pursuant to Section 7(h) of the Lanham Act that Registration No. 2,413,625 (GRIZZLY) and Application Ser. No. 76/088,346 (GRIZZLY.COM) be amended in accordance with the attached Exhibits 1 and 2, respectively. 37 CFR 2.133(a). The registration and application are currently the subject of the above-captioned consolidated proceeding.

The Amendments (Exhibits 1 and 2) delete certain goods and services and limit the channels of trade. To assist the Board or Trademark Examiner in identifying the proposed changes, the format is as follows: the bolded, underlined text represents proposed additions, and the text that is struck represents proposed deletions.

Specifically, in Appl. Ser. No. 76/088,346 (GRIZZLY.COM), Grizzly seeks to narrow the description of the services so that the beginning of the description of the claimed services reads:

> Retail store services, online retail store services, and mail order services featuring **products for woodworking and metal working, namely services featuring:**...

(Emphasis to show the changes). Grizzly also seeks to delete from this application "services featuring dollies, hand trucks, storage bins, tool tables, sliding tables, and material handling equipment, namely, carts, casters and wheels, mobile bases, outfeed tables and stands, roller stands, rollers, tables, and work stands."

Similarly, in Reg. No. 2,413,625 (GRIZZLY), Grizzly seeks to narrow the description of services offered in IC 035 to refer to "mail order services **for products for woodworking and metal working, namely, services** featuring ..." The description of goods in IC 008 has similarly been limited to "**woodworking and metal working** hand tools, namely ..." The description of goods in IC 009 is now limited to "**Woodworking and metal working** measuring

equipment, namely, dial indicators, dial calibrators, digital calipers and instruments, and measuring tapes; software, namely, software for disseminating information related to wood and metal working and wood and metal working equipment through a global information network; magnetic switches."

Thus, the amendments narrow, and do not broaden, the identification of goods and services. No re-publication or re-searching will be necessary. In view of this, Grizzly submits that the proposed amendment complies with all applicable rules and statutory provisions. TBMP § 514.01.

The amendments proposed by Grizzly narrow the channels of trade to more accurately reflect Grizzly's woodworking and metal working consumers and, as a result, eliminates any perceived overlap with the goods identified by Pucel Enterprises, Inc. (the petitioner/requester in the consolidated proceeding) in its asserted registrations. Despite this, Pucel refused to consent to this amendment in a teleconference with Grizzly's counsel on March 13, 2003.

Petitioner, Pucel Enterprises, Inc., has not consented to this request. Because this request is made well prior to trial, Pucel has received fair notice thereof. TBMP 514.03. Moreover, since the discovery period is still open, Pucel has an opportunity to take discovery on this matter and, therefore, is not prejudiced by this Amendment.

For the foregoing reasons, Grizzly requests that its motion be allowed.

Respectfully submitted,

Joseph F. Schmidt

Re: Pucel Enterprises, Inc. Trademark Infringement

Dear Sirs:

This firm represents Pucel Enterprises, Inc. ("Pucel") in intellectual property matters. Pucel is a well known and well-respected business that has developed a reputation based upon high-quality material handling and industrial equipment. We are writing to address our client's concerns over Grizzly Industrial, Inc.'s ("Grizzly Industrial") use of the trademark GRIZZLY.

Pucel's goods are sold under its valuable trademark GRIZZLY. Since at least as early as 1951, Pucel has used the trademark GRIZZLY in connection with its material handling and industrial equipment products. On September 20, 1960 Pucel received federal trademark registration Nos. 704,589 and 704,529 from the U.S. Patent and Trademark Office for the trademark GRIZZLY, granting it exclusive right, title and interest in the use of that trademark. As a result of continued use, promotion and advertising, consumers and the general public have come to associate closely the trademark GRIZZLY with Pucel and its goods and services.

It has recently come to the attention of our client that Grizzly Industrial is marketing and selling material handling and industrial products under the mark GRIZZLY. This use of the GRIZZLY mark in connection with material handling and industrial products is confusingly similar to our client's registered trademark GRIZZLY and constitutes unfair competition, false designation of origin, and directly infringes upon our client's rights in its registered trademark.

Re: Grizzly Industrial, Inc./Pucel Enterprises

Dear Mr. Al-Salem:

Thank you for your letter of May 3, 2000. Your letter indicates that our client has long been aware of Grizzly Industrial. This is correct to the extent that our client was aware of a company doing business under the name of Grizzly Imports which dealt solely in wood-working equipment.

While we do not have a problem with your client's use of Grizzly in conjunction with wood-working equipment, we are extremely concerned with and object to your client's crossing into our client's product line. In this regard, we must reiterate our demand and request that Grizzly Industrial, Inc. discontinue all use of Grizzly in conjunction with materials handling products such as storage cabinets, file cabinets, mobile door cabinets, portable workbenches, machine cabinet stands, heavy duty tool stands, assembly stools, welding benches, workbenches, workbench cabinet units, workstations, utility tables and carts, mobile tables and carts, hydraulic lift top tables, portable writing tables and carts, box carts, shop tray trucks, hopper tables, stock carts, shop trucks, ladder stock carts, shelf trucks, hand dumptrucks, rollover dumptrucks, rollover box trucks, box truck, shelf trucks, garment trucks, dolly platform trucks, portable bins and shelf carts, all-purpose hand trucks, drum and can handling equipment, shelving, racks and the like.

In your correspondence you indicated that Grizzly Industrial is a leading distributor of industrial tools and has been using the mark GRIZZLY since at least 1983. In this regard, please provide me with a list of goods upon which the mark has been used since 1983.
