APPLICANT'S REPLY BRIEF

Commissioner for Trademarks:

Applicant wishes to respond to specific issues raised by the Examining Attorney's Appeal Brief ("Examiner's Brief") of July 13, 2001.

A. The "NORTHWEST" Portion of Applicant's Mark Is Not Merely Directional

The Examining Attorney asserted that the "NORTHWEST" portion of applicant's mark is "merely directional." Examiner's Brief at 3. However, applicant's claim of

vm

distinctiveness under Section 2(f) of the term "NORTHWEST" was accepted. Examiner's Brief at 2. This indicates that applicant's mark, in its entirety, designates a source of goods, rather than a geographical region from which the goods emanate. As such, consumers will not be led to believe that the NORTHWEST portion of applicant's mark identifies applicant as a regional division of the owner of the cited mark.

B. Applicant Requests That the Board Take Judicial Notice of the GLACIER Registrations

The Examining Attorney requests that the Board not consider the trademark search report submitted by the applicant with its Request for Reconsideration filed December 12, 2000, showing at least 119 registered marks on the Principal Register comprising or consisting of "GLACIER." Applicant's Request for Reconsideration explicitly asserted that the cited "GLACIER" mark was "diluted," and cited 119 registered "GLACIER" marks and the search report in support of that assertion. Request for Reconsideration at 6. Nonetheless, the Examining Attorney did not object to this evidence in the Office Action of February 7, 2001. The Examining Attorney raises the issue of admissibility of evidence for the first time on appeal, stating that the applicant's search results "are not excerpts from the electronic record of the U.S. Patent and Trademark Office." Examiner's Brief at 4.

Applicant respectfully requests that the Board take judicial notice of registered "GLACIER" marks listed in the search report submitted to the Examining Attorney with applicant's Request for Reconsideration. The search report not only lists the "GLACIER" marks but also provides the Patent and Trademark Office ("PTO") registration numbers of at least 119 registered marks comprising "GLACIER." In the alternative, applicant submits with this Reply "excerpts from the electronic record of the U.S. Patent and Trademark Office" and asks that the Board accept this evidence as supplemental evidence in place of the search report. These electronic excerpts are not prejudicial to the Examining Attorney because they only reiterate the evidence already previously submitted. The PTO excerpts indicate the same information as the

previously submitted search reports, that is, that there are about 120 marks comprising "GLACIER" registered on the Principal Register. The extensive number of "GLACIER" registrations shows that that cited mark is indeed diluted and weak.

C. Sophistication of Consumers

The Examining Attorney asserts that "while the applicant's goods may 'typically include industrial chemicals' and are 'typically sold to professionals in construction,' it is not necessarily so." Examiner's Brief at 6. However, it is very reasonable to assume that the professional builders or concrete contractors that use applicant's concrete additives are the primary purchasers of applicant's goods. Primary purchasers are the relevant measuring public for determining likelihood of confusion. See *Quartz Radiation Corp. v. Comm/Scope Co.* 1 U.S.P.Q.2d 1668 (TTAB 1986). (The Board determined that there was no confusion between two marks based on factors related to the primary purchasers). The primary purchasers of applicant's goods, professionals, are sophisticated consumers and not likely to be confused between applicant's goods and those of the cited registration. Applicant is willing to amend its application to include that its goods are "...sold to construction professionals" to the extent this issue is of concern to the Board.

D. Distinction Between the Goods

The Examining Attorney does not address the strong distinction between applicant's concrete additives and the manufactured stone of the cited registration, as set forth in applicant's appeal brief. The typical consumer will not expect applicant's goods and the cited registrant's goods to emanate from the same source.

CONCLUSION

For all of the foregoing reasons and those set forth in applicant's opening brief, applicant's mark should not have been refused registration on the Principal Register under

Serial No. 75/672,578

Trademark Act Section 2(d), 15 U.S.C. 1052(d). Applicant respectfully requests that the Board reverse the refusal of the Examining Attorney and allow the application.

Respectfully submitted,  
Glacier Northwest, Inc.
