**By the Trademark Trial and Appeal Board:**

The subject applications are all scheduled for oral argument on February 10, 2016 at 10:00 a.m. Because three of the applications have each been examined by different Examining Attorneys, and two other applications have been examined by a fourth Examining Attorney, some slight modification of the normal oral argument procedure is warranted. Priscilla Milton, who is the Examining Attorney for two of the applications, Serial Nos. 77921983 and 77921988, will act as the lead attorney presenting the argument. Each of the three other Examining Attorneys will have an opportunity to argue the points that are particular to their own cases. The time normally accorded to an oral argument will be extended, with Applicant allowed 35 minutes and the Office allowed 25 minutes, to accommodate the logistics of having four different Examining Attorneys arguing.

It should be noted that, as in all oral hearings, the Board has discretion to extend the allocated time.
