Applicant: General Tools Manufacturing Co., Inc.

Trademark: WE LOVE TOOLS

Serial No.: 78/272691

Law Office: 108

Examiner: Jason F. Turner, Esq.

\*\*Please place on Upper Right Corner\*\*  
\*\*of Response to Office Action ONLY.\*\*

Examining Attorney: TURNER, JASON

Serial Number: 78/272691

Commissioner for Trademarks  
P.O. Box 1451  
Alexandria, VA 22313-1451

**REQUEST FOR RECONSIDERATION**

1. This responds to the Office Action dated July 12, 2004.
2. The Examiner has made final the objection to the identification of goods. Applicant requests that Class 9 be deleted from the application and that the identification be amended as follows:

“Power tool accessories, namely, drill bits for use in hand held power drills and drill presses, attachments for power drills and drill presses, namely, countersinks, circle cutters, plug cutters, and hinge bits,” in Class 7;

“Hand tools and accessories therefor, namely, manually operated pipe and tube working tools, namely, tube bending, flaring, swaging, shearing, reaming, deburring, cleaning, scraping and cutting tools; woodworking, machinist, speciality and hobbyist hand tools and accessories, namely, tweezers, screwdrivers, hand held magnetized tools for use in picking up metallic objects; utility knives, wood carving hand tools, namely, knives, chisels, mallets, punches, squares, scribes, scratch awls, grommet tools, doweling jigs, hand held scrapers, drill guides; accessories for non-power operated hand drills, namely, drill bits, drill stops, drill saws, countersinks, extensions and chucks; non-power operated machinists' hand tools, namely deburring tools, clamps, taps, tap wrenches, files, nut splitters, snap ring pliers, hand saws, trammels,” in Class 8.

01-24-2005

In addition, the Examiner has required further amendment of the following goods:

“ . . . manually operated pipe and tube working tools, namely, tube bending, flaring, swaging, shearing, reaming, deburring, cleaning, scraping and cutting tools . . . ”;

“ . . . hand held magnetized tools for use in picking up metallic objects . . . ”; and

“ . . . deburring tools . . . ”.

Applicant submits that each of these terms describes the nature of the goods with sufficient specificity and, therefore, the identification should be accepted as written above.

Under U.S. trademark rules, an identification of goods and services will be considered acceptable if it:

- 1) Is written in English;
- 2) Describes the goods and/or services so that an English speaker could understand what the goods and/or services are, even if the grammar or phrasing is not optimal;
- 3) Meets the *standards* (not necessarily the language) set forth in the *Acceptable Identification of Goods and Services Manual*;
- 4) Is not a class heading; and
- 5) Is in the correct class.

Deference should be given to the language and the classification set forth by the applicant in the original application. TMEP 1402.01(a)

As noted above, the mere fact that a specific description does not appear in the Trademark Office Manual is not conclusive that that wording is indefinite. In this case, the terms listed above clearly and specifically describe the nature, purpose and use of the goods. Any English speaker can readily understand what these goods are.

Moreover, this same wording has been accepted by the Trademark Office in many registrations, examples of which are attached.

Accordingly, Applicant's description of these goods should be accepted and the requirement to amend those portions of the identification of goods should be withdrawn.

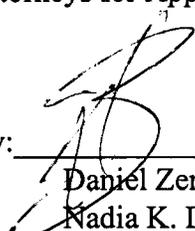

3. In view of the foregoing, a prompt Notice of Publication is respectfully requested. If there are any questions regarding this application, please contact Nadia K. Droumbanis at (212) 708-3410.

Respectfully submitted,

LADAS & PARRY
