

PTO Form 1960 (Rev 9/2007)

OMB No. xxx-xxxx (Exp. x/xxxx)

Request for Reconsideration after Final Action

The table below presents the data as entered.

Input Field	Entered
SERIAL NUMBER	78960317
LAW OFFICE ASSIGNED	LAW OFFICE 101
MARK SECTION (no change)	
GOODS AND/OR SERVICES SECTION (current)	
INTERNATIONAL CLASS	009
DESCRIPTION	
Electronic drilling rig and oilfield instrumentation and apparatus and control systems, namely, electronic instrumentation for monitoring well drilling operations and well drilling parameters, instrument control panels, instrument control consoles, instrument control circuits, indicators, gauges, meters, data processors, data acquisition apparatus in the nature of recorders and instruments for monitoring and display of data obtained from oilrigs and subterranean wells, pipe hoisting and racking equipment, computer controlled drilling equipment augmented to log key operational data and communicate electronically, rig activity recorders, pressure gauges; electronic instrumentation for the compilation and dissemination of data useful in the drilling, completion or work over of a subterranean well; computer hardware and software for providing information and data about the functions, processes, and operations of drilling rig equipment and for enabling rig personnel to manage, monitor, and control the functions, processes, and operations of drilling rig equipment; weighing equipment, namely, scales.	
FILING BASIS	Section 1(b)
GOODS AND/OR SERVICES SECTION (proposed)	
INTERNATIONAL CLASS	009
DESCRIPTION	
Electronic drilling oilfield instrumentation and control apparatus for use in oil and natural gas drilling, exploration, and production, namely, electronic instrumentation for monitoring well drilling parameters, electronic instrumentation control panels, electronic instrument control consoles, electronic instrumentation control circuits, indicators, namely, weight indicators used to help control the proper weight on drill bits during drilling, gauges, namely, gauges used to measure depth and vertical of borehole during drilling, meters, namely, electronic meters to measure volume of weight on drill bits during drilling, data processors, data acquisition apparatus in the nature of recorders and instruments for monitoring and display of well drilling parameter data obtained from oilrigs and subterranean wells, electronic event recorders for monitoring rig activity, pressure gauges; electronic	

instruments for use in the compilation and dissemination of data used to drill a straighter borehole and maximize drilling efficiency for use in oil and natural gas drilling; computer hardware and software for providing information and data about the functions, processes, and operations of oil and natural gas drilling rig equipment and for enabling rig personnel to manage, monitor, and control, the functions, processes, and operations of oil and natural gas drilling rig equipment; weighing equipment, namely, scales

PTO Form 1960 (Rev 9/2007)

OMB No. xxxx-xxxx (Exp. x/xxxx)

Request for Reconsideration after Final Action

To the Commissioner for Trademarks:

Application serial no. **78960317** has been amended as follows:

CLASSIFICATION AND LISTING OF GOODS/SERVICES

Applicant proposes to amend the following class of goods/services in the application:

Current: Class 009 for Electronic drilling rig and oilfield instrumentation and apparatus and control systems, namely, electronic instrumentation for monitoring well drilling operations and well drilling

parameters, instrument control panels, instrument control consoles, instrument control circuits, indicators, gauges, meters, data processors, data acquisition apparatus in the nature of recorders and instruments for monitoring and display of data obtained from oilrigs and subterranean wells, pipe hoisting and racking equipment, computer controlled drilling equipment augmented to log key operational data and communicate electronically, rig activity recorders, pressure gauges; electronic instrumentation for the compilation and dissemination of data useful in the drilling, completion or work over of a subterranean well; computer hardware and software for providing information and data about the functions, processes, and operations of drilling rig equipment and for enabling rig personnel to manage, monitor, and control the functions, processes, and operations of drilling rig equipment; weighing equipment, namely, scales.

Original Filing Basis:

Filing Basis: Section 1(b), Intent to Use: The applicant has a bona fide intention to use or use through the applicant's related company or licensee the mark in commerce on or in connection with the identified goods and/or services as of the filing date of the application. (15 U.S.C. Section 1051(b)).

Proposed: Class 009 for Electronic drilling oilfield instrumentation and control apparatus for use in oil and natural gas drilling, exploration, and production, namely, electronic instrumentation for monitoring well drilling parameters, electronic instrumentation control panels, electronic instrument control consoles, electronic instrumentation control circuits, indicators, namely, weight indicators used to help control the proper weight on drill bits during drilling, gauges, namely, gauges used to measure depth and vertical of borehole during drilling, meters, namely, electronic meters to measure volume of weight on drill bits during drilling, data processors, data acquisition apparatus in the nature of recorders and instruments for monitoring and display of well drilling parameter data obtained from oilrigs and subterranean wells, electronic event recorders for monitoring rig activity, pressure gauges; electronic instruments for use in the compilation and dissemination of data used to drill a straighter borehole and maximize drilling efficiency for use in oil and natural gas drilling; computer hardware and software for providing information and data about the functions, processes, and operations of oil and natural gas drilling rig equipment and for enabling rig personnel to manage, monitor, and control, the functions, processes, and operations of oil and natural gas drilling rig equipment; weighing equipment, namely, scales

Filing Basis: Section 1(b), Intent to Use: The applicant has a bona fide intention to use or use through the applicant's related company or licensee the mark in commerce on or in connection with the identified goods and/or services as of the filing date of the application. (15 U.S.C. Section 1051(b)).

SIGNATURE(S)

Declaration Signature

I hereby elect to bypass the submission of a signed declaration, because I believe a declaration is not required by the rules of practice. I understand that the examining attorney could still, upon later review, require a signed declaration.

Request for Reconsideration Signature

Signature: /Christianna Lewis Barnhart/ Date: 04/21/2008

Signatory's Name: Christianna Lewis Barnhart

Signatory's Position: Attorney for Applicant

The signatory has confirmed that he/she is an attorney who is a member in good standing of the bar of the highest court of a U.S. state, which includes the District of Columbia, Puerto Rico, and other federal territories and possessions; and he/she is currently the applicant's attorney or an associate thereof; and to the best of his/her knowledge, if prior to his/her appointment another U.S. attorney or a Canadian attorney/agent not currently associated with his/her company/firm previously represented the applicant in this matter: (1) the applicant has filed or is concurrently filing a signed revocation of or substitute power of attorney with the USPTO; (2) the USPTO has granted the request of the prior representative to

withdraw; (3) the applicant has filed a power of attorney appointing him/her in this matter; or (4) the applicant's appointed U.S. attorney or Canadian attorney/agent has filed a power of attorney appointing him/her as an associate attorney in this matter.

The applicant is not filing a Notice of Appeal in conjunction with this Request for Reconsideration.
