

Request for Reconsideration after Final Action

The table below presents the data as entered.

Input Field	Entered
SERIAL NUMBER	79086139
LAW OFFICE ASSIGNED	LAW OFFICE 107
MARK SECTION (no change)	
GOODS AND/OR SERVICES SECTION (current)	
INTERNATIONAL CLASS	009
DESCRIPTION	
<p>Electricity generating apparatus utilizing solar power, namely, solar thermal power plants; Solar collector for electricity generation; Solar battery chargers; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, production and distribution of electricity, namely, electricity distribution nets in the nature of electrical power distribution units; Apparatus and instruments for supervision, remote control, control and measurement of electricity and energy consumption and for operating power stations, namely, software for monitoring and measuring output of power stations, electrical current and voltage sensors, thermal and pressure sensors; Electricity cables, electric connectors and electric transformers for distribution of electricity and energy for operating power plants</p>	
GOODS AND/OR SERVICES SECTION (proposed)	
INTERNATIONAL CLASS	009
TRACKED TEXT DESCRIPTION	
<p>Electricity generating apparatus utilizing solar power, namely, solar thermal power plants; Electricity generating apparatus utilizing solar power, namely stirling engine powered electrical generators, for production of electricity; Electricity generating apparatus utilizing solar power, namely stirling engines for production of electricity; Electricity generating apparatus utilizing solar powered stirling engines for production of electricity; Electricity generating apparatus utilizing solar power for production of electricity; Solar collector for electricity generation; Solar battery chargers; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, production and distribution of electricity, namely, electricity distribution nets in the nature of electrical power distribution units; Apparatus and instruments for supervision, remote control, control and measurement of electricity and energy consumption and for operating power stations, namely, software for monitoring and measuring output of power stations, electrical current and voltage sensors, thermal and pressure sensors; Electricity cables, electric connectors and electric transformers for distribution of electricity and energy for operating power plants</p>	
FINAL DESCRIPTION	

Electricity generating apparatus utilizing solar power, namely stirling engine powered electrical generators, for production of electricity; Electricity generating apparatus utilizing solar power, namely stirling engines for production of electricity; Electricity generating apparatus utilizing solar powered stirling engines for production of electricity; Electricity generating apparatus utilizing solar power for production of electricity; Solar collector for electricity generation; Solar battery chargers; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, production and distribution of electricity, namely, electricity distribution nets in the nature of electrical power distribution units; Apparatus and instruments for supervision, remote control, control and measurement of electricity and energy consumption and for operating power stations, namely, software for monitoring and measuring output of power stations, electrical current and voltage sensors, thermal and pressure sensors; Electricity cables, electric connectors and electric transformers for distribution of electricity and energy for operating power plants

ADDITIONAL STATEMENTS SECTION

<p>MISCELLANEOUS STATEMENT</p>	<p>Favorable reconsideration of this application respectfully is requested. The applicant appreciates the efforts made by and likely the substantial time spent by the Examining Attorney in reviewing and accepting all of the identification of goods listed in this application except for the wording "solar thermal power plants," as is stated in the Office Action dated August 26, 2011, and in the Examining Attorney carefully suggesting revised language for the "solar thermal power plants" language submission. Applicant's attorney has attempted to reach the Examining Attorney by phone today and about one week ago and left voice mail messages for return call to discuss this matter further, but up to this moment a return call has not yet been received. Therefore, applicant herewith submits the revised identification of goods with several clauses identifying the nature of the electricity generating apparatus. It would be greatly appreciated if the Examining Attorney would phone the undersigned attorney if there are any questions and/or to discuss any further modification to the identification of goods so that approval of this application for publication could be expedited.</p>

PTO Form 1930 (Rev 9/2007)
OMB No. 0651-0050 (Exp. 4/30/2009)

Request for Reconsideration after Final Action To the Commissioner for Trademarks:

Application serial no. **79086139** has been amended as follows:

CLASSIFICATION AND LISTING OF GOODS/SERVICES

Applicant proposes to amend the following class of goods/services in the application:

Current: Class 009 for Electricity generating apparatus utilizing solar power, namely, solar thermal power plants; Solar collector for electricity generation; Solar battery chargers; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, production and distribution of electricity, namely, electricity distribution nets in the nature of electrical power distribution units; Apparatus and instruments for supervision, remote control, control and measurement of electricity and energy consumption and for operating power stations, namely, software for monitoring and measuring output of power stations, electrical current and voltage sensors, thermal and pressure sensors; Electricity cables, electric connectors and electric transformers for distribution of electricity and energy for operating power plants

Original Filing Basis:

Filing Basis Section 66(a), Request for Extension of Protection to the United States. Section 66(a) of the Trademark Act, 15 U.S.C. §1141f.

Proposed:

Tracked Text Description: ~~Electricity generating apparatus utilizing solar power, namely, solar thermal power plants;~~ [Electricity generating apparatus utilizing solar power, namely stirling engine powered electrical generators, for production of electricity;](#) [Electricity generating apparatus utilizing solar power, namely stirling engines for production of electricity;](#) [Electricity generating apparatus utilizing solar powered stirling engines for production of electricity;](#) [Electricity generating apparatus utilizing solar power for production of electricity;](#) Solar collector for electricity generation; Solar battery chargers; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, production and distribution of electricity, namely, electricity distribution nets in the nature of electrical power distribution units; Apparatus and instruments for supervision, remote control, control and measurement of electricity and energy consumption and for operating power stations, namely, software for monitoring and measuring output of power stations, electrical current and voltage sensors, thermal and pressure sensors; Electricity cables, electric connectors and electric transformers for distribution of electricity and energy for operating power plants

Class 009 for Electricity generating apparatus utilizing solar power, namely stirling engine powered electrical generators, for production of electricity; Electricity generating apparatus utilizing solar power, namely stirling engines for production of electricity; Electricity generating apparatus utilizing solar powered stirling engines for production of electricity; Electricity generating apparatus utilizing solar power for production of electricity; Solar collector for electricity generation; Solar battery chargers; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, production and distribution of electricity, namely, electricity distribution nets in the nature of electrical power distribution units; Apparatus and instruments for supervision, remote control, control and measurement of electricity and energy consumption and for operating power stations, namely, software for monitoring and measuring output of power stations, electrical current and voltage sensors, thermal and pressure sensors; Electricity cables, electric connectors and electric transformers for distribution of electricity and energy for operating power plants

Filing Basis Section 66(a), Request for Extension of Protection to the United States. Section 66(a) of the Trademark Act, 15 U.S.C. §1141f.

ADDITIONAL STATEMENTS

Miscellaneous Statement

Favorable reconsideration of this application respectfully is requested. The applicant appreciates the efforts made by and likely the substantial time spent by the Examining Attorney in reviewing and accepting all of the identification of goods listed in this application except for the wording "solar thermal power plants," as is stated in the Office Action dated August 26, 2011, and in the Examining Attorney carefully suggesting revised language for the "solar thermal power plants" language submission. Applicant's attorney has attempted to reach the Examining Attorney by phone today and about one week ago and left voice mail messages for return call to discuss this matter further, but up to this moment a return call has not yet been received. Therefore, applicant herewith submits the revised identification of goods with several clauses identifying the nature of the electricity generating apparatus. It would be greatly appreciated if the Examining Attorney would phone the undersigned attorney if there are any questions and/or to discuss any further modification to the identification of goods so that approval of this application for publication could be expedited.

SIGNATURE(S)

Request for Reconsideration Signature

Signature: /Warren A. Sklar/ Date: 02/21/2012

Signatory's Name: Warren A. Sklar

Signatory's Position: Attorney of record, Ohio bar member

Signatory's Phone Number: 2166211113

The signatory has confirmed that he/she is an attorney who is a member in good standing of the bar of the highest court of a U.S. state, which includes the District of Columbia, Puerto Rico, and other federal territories and possessions; and he/she is currently the applicant's attorney or an associate thereof; and to the best of his/her knowledge, if prior to his/her appointment another U.S. attorney or a Canadian attorney/agent not currently associated with his/her company/firm previously represented the applicant in this matter: (1) the applicant has filed or is concurrently filing a signed revocation of or substitute power of attorney with the USPTO; (2) the USPTO has granted the request of the prior representative to withdraw; (3) the applicant has filed a power of attorney appointing him/her in this matter; or (4) the applicant's appointed U.S. attorney or Canadian attorney/agent has filed a power of attorney appointing him/her as an associate attorney in this matter.

The applicant is not filing a Notice of Appeal in conjunction with this Request for Reconsideration.
