Veronica P. White, Paralegal Specialist:

The Board has received the notice of opposition filed June 10, 2013 on behalf of Delson Group, Inc.

However, the request had not been associated with the electronic file of this case until after it was too late to prevent the subject application from maturing into a registration. The Board regrets this situation, but it is without authority to prevent the issuance of said registration.

Therefore, upon registration, the electronic record will be forwarded to the Commissioner for Trademarks for consideration of the cancellation of the inadvertently issued registration, following which further appropriate action will be taken with respect to notice of opposition.

This USPTO'S mistake should be corrected in 2013, but why still here in 2014?
