IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

Application Serial No.	79117554
Applicant	Siemens Aktiengesellschaft

Notice of Appeal

Notice is hereby given that Siemens Aktiengesellschaft appeals to the Trademark Trial and Appeal Board the refusal to register the mark depicted in Application Serial No. 79117554.

Applicant has filed a request for reconsideration of the refusal to register, and requests suspension of the appeal pending consideration of the request by the Examining Attorney.

The refusal to register has been appealed as to the following classes of goods/services:

- Class 009.
All goods and services in the class are appealed, namely: Computer software, for use in planning construction, equipping and operating industrial, energy-generation and process engineering installations; switches and switching installations for power plants
- Class 037.
All goods and services in the class are appealed, namely: Building, construction and repair of industrial installations and process engineering installations, namely construction and maintenance services all relating to civil engineering, installation, assembling, maintenance and repair of industrial installations and process engineering installations, and electrotechnical, electronic and mechanical engineering products and devices
- Class 042.
All goods and services in the class are appealed, namely: Testing of materials in the field of energy generation; planning and development of installations and devices in the field of energy generation and process engineering and monitoring thereof; engineering services and architectural services, technical consultancy relating to design, development, and research in the field of energy generation based on turbines and generators; technical consultation, namely, providing of expertise in the field of science and technology, development and rental of computer programs for data processing and process technology, in particular building, equipping and operating industrial, energy-generation and process engineering installations; materials testing services ; technical monitoring of industrial installations and process engineering installations, and of electrotechnical, electronic and mechanical engineering products used in energy production

Respectfully submitted,
/mam/
