IN THE UNITED STATES PATENT AND TRADEMARK OFFICE  
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

Application Serial No.	79131797
Applicant	Hyundai Motor Company

## Notice of Appeal

Notice is hereby given that Hyundai Motor Company appeals to the Trademark Trial and Appeal Board the refusal to register the mark depicted in Application Serial No. 79131797.

The refusal to register has been appealed as to the following class of goods/services:

- Class 007. First Use: 0 First Use In Commerce: 0

All goods and services in the class are appealed, namely: Petrol pumps for service stations; self-regulating fuel pumps for service stations; gasoline pumps for gas stations; gas pumps for service stations; fuel dispensing pumps for service stations; lubricating pumps; blowing machines for the compression/exhaustion and transport of gases; air compressors; compressed air pumps as garage installations; pneumatic pumps; feed water regulators; compressors for refrigerators; beer pumps, namely, pump machines for the beverage industry; drainage machines; ejectors, namely, sewage pumps; bellows; compressed air machines; compressed air pumps; compressors for machines; water pumps for land vehicles, spas, baths, whirlpools, swimming pools, water filtering units; reciprocating compressors for machines; reciprocating vacuum pumps; reciprocating pumps as parts of machines; centrifugal blowers for machines; centrifugal compressors for machines; centrifugal pumps; power operated blowers; vacuum pumps; power operated axial flow blowers; axial flow compressors for machines; axial flow pumps for machines; power operated turbo blowers; turbo compressors for machines; aerators; pumps as parts of machines/engines or motors; pump diaphragms; diffusion pumps; power operated rotary blowers; rotary compressors for machines; rotary vacuum pumps; rotary pumps; power transmission belts for machines/motors and engines used in industrial applications; timing belts for machines/motors and engines used in industrial applications; connecting rods for machines/motors and engines; crankcases for machines/motors and engines; wire reeling machines; belts for machines; machine wheelwork; transmissions for machines; machine flywheels; machine wheels; electric control mechanisms for machines/engines or motors; control cables for machines/engines or motors; power transmissions and gearings other than for land vehicles; reels as parts of machines; belts for motors and engines; fan belts for motors and engines; transmission belts not for land vehicles; crank shafts for pumps; shock absorber plungers being parts of machines; dashpot plungers being parts of machines; brakes for industrial machines; pressure reducers as parts of machines; grease rings being parts of machines; grease boxes being parts of machines; filters for motors, engines and pumps; anti-friction bearings for machines; anti-friction pads for machines; bearing brackets for machines; guides for machines being parts of machines; axles for machines; guards being parts of machines; hoods being parts of machines; pulleys being parts of machines; adhesive bands for pulleys; drum brakes being parts of machines; rams, namely, rammer machines; regulators being parts of machines; roller bearings being parts of machines; drain cocks; valves being parts of machines; bearings being parts of machines; ball rings for bearings being parts of machines; ball-bearings for machines; brushes being parts of machines; shuttles being parts of machines; stuffingboxes being parts of machines; pressure valves being parts of machines; pressure regulators being parts of machines; springs being parts of machines; universal joints, namely, machine parts for connecting sliding strips, plates and guides; lubricating pumps; self-oiling bearings being parts of machines; journals being parts of machines; journal boxes; bearings being machine parts for transmission shafts; loom shafts; shaft couplings being parts of machines; cowlings being parts of machines; crank shafts being parts of machines; clack valves being parts of machines; expansion tanks being parts of machines; housings, namely, enclosures for machine parts; mounting hangers adapted for exhaust systems for internal combustion engines; stators being parts of machines; alternating current servo motors; starters for motors and engines; milling grinding motors; electric starter motors; ignition magnetos for engines; electrostatic generators; direct current motors; electrical carbon brushes being parts of machines; generators for wind turbines; semiconductor processing machines

Respectfully submitted,
