To Whom it May Concern,

I am writing in regards to Serial No: 79137760. We were granted an extension to oppose the trademark application of Loop'in for the mark VideoStitch. Unfortunately we made an error and thought the extension was granted until September 19, 2015, not the actual date of September 9, 2015.

We believe that the applied for mark by Loop'in will infringe on our our trademark which was registered by the USPTO on February 10, 2015 (Reg. No. 4,685,467).

We are asking for an extension of time to submit the proper forms to oppose the application. We understand that it was wholly our responsibility to make the submissions by the deadline and simply hope the Appeal Board will allow us a small window to make amends for our error.

Thank you for your consideration
