**By the Board:**

It has come to the Board's attention that, in its appeal brief, Applicant makes the statement that it amends the list of the goods sought to be covered by the application, and that it seeks registration for a list of goods in Classes 19 and 20. Applicant is advised that if it wishes to amend its application, it must file a request for remand so that the application can be remanded to the Examining Attorney for consideration of the amendment. Applicant is allowed **ten (10) days** in which to file a request for remand, accompanied by the proposed amendment. The Board notes that it is unclear whether Applicant seeks only to amend the identifications of goods in Classes 19 and 20, and to retain the services in Class 35 as they are currently listed, or whether Applicant also wishes to delete Class 35 from the application. In order to clarify exactly what Applicant wishes to amend in the identification,

Applicant should list the present identification of goods and services, with any amendment to the goods and services in a red-lined version, and also list a “clean” copy of the proposed amended identification of goods and services.

If Applicant fails to file a request for remand within **ten (10) days** from the mailing of this order, the appeal will go forward with the goods and services as presently shown in the identification, that is, without the amendment proposed in Applicant’s appeal brief.
