Additional eligibility routes for CLES Applicants only:

5. Associate's degree in medical laboratory technology and three years full-time BMET work experience; OR
6. Bachelor's degree in medical laboratory technology and two years full-time BMET work experience.

***CLES and CLES Applicants for full certification and candidate status:** At least 40% of work experience over the last two years or 25% over the last five years must be in the designated specialty area.

CANDIDATE STATUS:

Applicants desiring Full certification, but who do not yet meet the eligibility requirements (as listed above), have the opportunity to apply through candidate status. Successful candidates are given five years to meet the minimum eligibility requirements and be awarded Full certification.

To test as a candidate for any of the certifications, an applicant must meet ONE of the following minimum eligibility requirements as of the application deadline:

1. Associate's degree in biomedical academic program; OR
2. Completion of a U.S. military biomedical equipment technology program; OR
3. Associate's degree in electronics technology and one year full-time BMET work experience; OR
4. Two years full-time BMET work experience.

Additional eligibility routes for CLES Applicants only:

5. Associate's degree in medical laboratory technology and one year full-time BMET work experience; OR
6. Bachelor's degree in medical laboratory technology.

IMPORTANT: If claiming eligibility based in full or in part on an Associate's or Bachelor's degree, a copy of the diploma **MUST** be included with the Application and fees. A copy of the diploma is required for individuals applying under the completion of a U.S. military biomedical program. Official college transcripts may be requested at the discretion of the application reviewer, but required from international applicants. NOTE: A Bachelor's degree does not replace work experience requirements.
