I am supporting Peter Mott for mayor. I know Pete and his family well, and I think he will make an excellent mayor for Napa. Here is why:

Pete is a family man who cares deeply about his wife and kids. He and his wife Nancy have raised their children to dream big, work hard, and take responsibility for their choices. They have taught their kids by demonstrating those ideals, not simply touting them. That philosophy is what we need in our government officials.

Pete has owned his own business for more than 30 years. In his business, Pete strives to always deliver more than he promises. That is another thing lacking in most political office holders these days. And as a businessman, he understands the need for common-sense solutions and what it takes to create jobs.

Finally, Pete has a passion for our community. He is always striving to make Napa a better place. He is the kind of guy who would rather be doing something for the community than sitting around endlessly talking about what we may do someday.

Pete has the integrity, passion, and common sense to be an excellent mayor for Napa. I hope you will join me in supporting him.

Funny, but Peter is a registered Democrat, which means he believes in BIGGER government, MORE regulations and HIGHER taxes.

Just saying...

Funny, Jill the current mayor is a registered Republican who endorses Mike Thompson for re-election. I'd rather have Mr. Mott whom we know will follow his party's principals rather than the incumbent who seems to be unclear about her party.

And he's also an independent business owner with "practical" financial knowledge, and responsibility. That something you'd expect from Republicans, unfortunately I don't see those qualities in the republicans anymore. So your point kevin? Being a Democrat means he has no knowledge of finances, business, or regulations that work? Get real, Mr Mott is a good business man, good politician, great family man and loves this town and valley. He would be a good choice.

Local offices are supposed to be non-partisan. Can we just stop being sheep to some "party line" and think for ourselves once in awhile?

...the candidate doesn't understand the fiscal mess public employee unions and corrupt Democrats brought upon us they shouldn't even be considered for office. This is not a personal issue, I have no dog in the fight; there are thousands of retired government employee who through no fault of their own will be ruined by their corrupt unions...unions they had no choice in joining. There are millions who have been harmed by Democrat policies to enrich themselves, recently in this state and nation...that's the issue, corrupt liberal Democrats and the trillions in debt they created all by themselves while avoiding hard time. Local governments are not funding retirement funds anywhere near a sustainable level and no amount taxation can fix the problem.
