The most advanced mobile experience. Now even more so.

What's new in iOS 9.

iOS 9 brings you refinements at every level — from the apps you see on your Home screen down to the foundation of the system. Siri is smarter than ever, proactive suggestions keep you on track, and multitasking on iPad hits an all-new high with Slide Over, Split View, and Picture in Picture. All these enhancements enable your devices — and you — to do so much more every day.

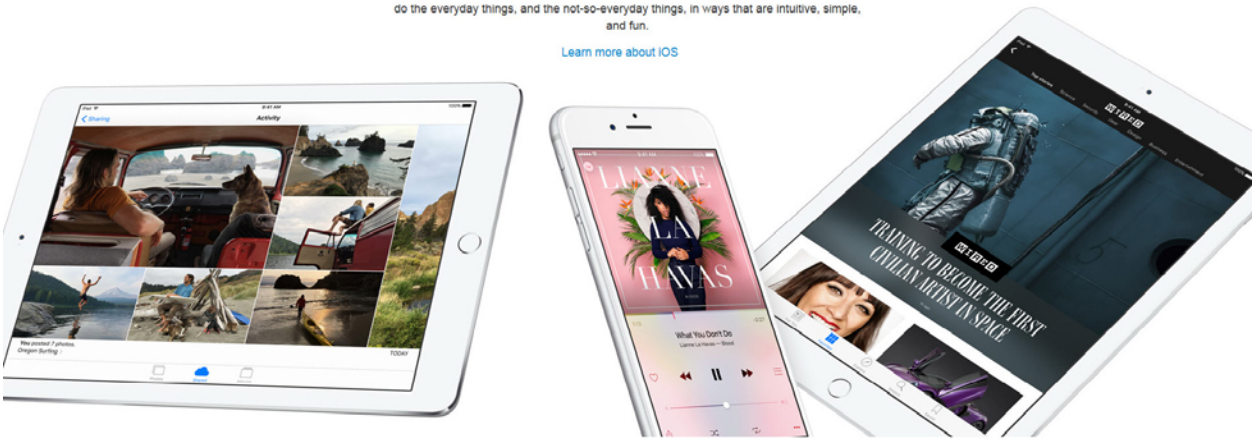
and you — to do so much more every day.

See what's new in iOS 9

What is iOS?

iOS is the world's most advanced mobile operating system, and it's the foundation of iPhone, iPad, and iPod touch. It comes with a collection of apps and features that let you do the everyday things, and the not-so-everyday things, in ways that are intuitive, simple, and fun.

Learn more about iOS



Easy to update.

iOS updates are free. And they're available to download wirelessly on your iPhone, iPad, or iPod touch the moment they're released. Your device even alerts you when it's time to get the latest version. So you won't miss out on all the amazing features and security enhancements in new updates.

HomeKit

With HomeKit, you can connect and

Health

The Health app brings data from

CarPlay

CarPlay is the smarter, safer way to

control things in your home like lights, appliances, and locks — so they all work together in smart and convenient ways. And you can even use Siri to control them with your voice.

Learn more

health monitoring devices and your other health and fitness apps together — in one easy-to-read dashboard. And behind the scenes, HealthKit enables all those apps to work together. There are over 1500 health-related apps available for download at the App Store, and more are added every day.

Learn more

use your iPhone in the car with your car's built-in display and controls. Get directions, make calls, send and receive messages, and more.
