It has come to the Board's attention that on December 29, 2014, the Trademark Examining Attorney inadvertently amended the above captioned application and approved it for registration on the Supplemental Register, which in turn terminated the ex parte appeal. On December 30, 2014, the Examining Attorney withdrew her action and restored the application to the Principal Register.

In view thereof, and since the refusal to register is maintained, the appeal is reinstated and the Examining Attorney is allowed until January 19, 2015 in which to file her brief.
