★★★★★ **Dramatically increased energy and stamina**
By Bernard Buchheit on February 16, 2015

As a guy who works in construction, I find that it can be very physically demanding and mentally taxing. I would sometimes be feeling weak and unfocused and this can be very dangerous because a simple slip-up can turn into an accident that I cannot afford. Also, getting home tired makes me feel like a lesser father to my family and husband to my wife.

I needed an energy boost and this extract with the funny name came to the rescue. I got tired of downing energy drinks and coffee didn't do much for me anymore, either. I did some research on natural supplements and after getting in touch with Natures Design and asking a few questions, I decided to give this a try. I found it to be very effective and it really helped a lot in giving me energy whenever I needed it. Think of it like a very strong multi-vitamin, providing me with higher energy levels without the crash.

Of course, as implied by the name, one of the biggest "side effects" of this would be enhanced libido and sex drive. Definitely no complaints here. My wife doesn't seem to mind it as well.

★★★★★ **THE ONE**

By James Wagner on February 19, 2015

For the longest time, I have been looking for a product that will give me a boost at work, etc. I guess I'm not getting any younger. I would always get stressed at work and come home to my family very tired and uninterested. I felt like I'm not able to play my role properly as a father and a husband. I have tried many vitamins and supplements alike. I even tried shakes and healthy smoothies but nothing worked. A coworker recommended this to me and when I saw how his everyday mood has improved over the past few months, I didn't think twice to grab the chance. I thought this might be the solution I've been looking for for so long and yes, after taking it for 3 weeks, I therefore conclude that IT DEFINITELY IS!

★★★★★ **More than just a horny supplement**

By vincent collins on February 19, 2015

This product exceeded my expectations. I was only trying to enhance my libido and thought that's all there is with this horny supplement but it also increased my stamina, strength and gave me a good mood on a daily basis. I can now finish my tasks at work faster and my outputs are more efficient. It also helped with my mild hypertension and I can see my blood pressure stabilize more and more each day.

1 of 1 people found the following review helpful

★★★★★ **Not disappointed**

By Robert Bove on February 17, 2015

I have tried many other products that gave me nothing but jitters. This on does' t and instead improves my stamina, strength and energy levels. It also in a way improves my physique because it allows me to do more intense routines now so my progress is considerably faster. It definitely does what it claims to do. It's the only product that didn't disappoint me a bit.
