Opposition No. 91121571

STI LICENSING CORPORATION

v.

SCOTT PLASTICS LTD.

Cindy B. Greenbaum, Attorney:

On January 14, 2005, applicant filed a proposed amendment to its application Serial No. 75390601. In opposer's subsequently filed motion to suspend, opposer states that it does not object to the amendment.

By the proposed amendment applicant seeks to change the identification of goods by adding the following restrictive language to the end of each of the classes of goods: "not including respiratory equipment, communication devices, protective clothing for emergency use, and gas detection equipment."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(b), and because opposer does not object thereto, it is approved and entered. See Trademark Rule 2.133(a).

If this resolves the dispute herein, opposer is allowed until thirty days from the mailing date of this order to file a withdrawal of the opposition, failing which the opposition

will go forward on the application as amended. See Trademark Rule 2.106(c).
