vs.

PARAMOUNT PARKS, INC.  
8720 Red Oak Blvd.  
Charlotte, NC 28217

Applicant

Box TTAB/NO FEE

**REQUEST FOR AN EXTENSION OF TIME**

NOW COMES the Opposer, whose representative, LEO STOLLER, on May 29, 2004, was diagnosed with a serious health condition and was put on medication. The Opposer is requesting that the Board extend the discovery dates for an additional thirty (30) days and to re-set the trial dates accordingly. The Opposer needs the additional time because the Opposer's representative is seriously ill.

The representative of the Opposer has contacted Lance Koonce, counsel for the Applicant on June 1, 2004, in an attempt to get the consent of the Applicant. The Applicant's counsel did not agree to the extension. The Applicant will not be prejudiced by the Board granting the extension to the Opposer.

WHEREFORE, the Opposer prays that the Board enter an Order granting the Opposer an additional thirty (30) days from the date of the Board's Order extending the discovery period and re-setting the trial dates accordingly.

PATIENT LEO STOLLER  
MEDICATION ATENOLOL 50MG TABLETS  
QUANTITY 30  
DIRECTIONS TAKE ONE TABLET BY MOUTH DAILY

INGREDIENT NAME:  
ATENOLOL (a-TEN-oh-lole)

Please tell us about any health conditions you have:

**COMMON USES:**  
This medicine is a beta-blocker used to treat high blood pressure and angina pectoris (chest pain). It is also used after a heart attack to improve survival. Controlling high blood pressure helps prevent strokes, heart attacks, and kidney problems. This medicine may also be used to treat other conditions as determined by your doctor.

**HOW TO USE THIS MEDICINE:**  
Follow the directions for using this medicine provided by your doctor. This medicine may be taken on an empty stomach or with food. STORE THIS MEDICINE at room temperature, away from heat and light. Take this medicine regularly to receive the most benefit from it. Taking this medicine at the same time(s) each day will help you to remember. CONTINUE TO TAKE THIS MEDICINE even if you feel well. Do not miss any doses. IF YOU MISS A DOSE OF THIS MEDICINE, take as soon as you remember if it is more than 8 hours before the next dose is due. If it is less than 8 hours until your next dose, skip the missed dose and return to your normal dosing schedule. Do not take 2 doses at once.

**CAUTIONS:**

DO NOT TAKE THIS MEDICINE if you have had an allergic reaction to it or are allergic to any ingredient in this product. DO NOT STOP TAKING THIS MEDICINE without checking with your doctor. Some conditions may become worse when the medicine is suddenly stopped. YOUR DOSE MAY NEED TO BE SLOWLY LOWERED TO AVOID SIDE EFFECTS. KEEP ALL DOCTOR AND LABORATORY APPOINTMENTS while you are taking this medicine. BEFORE YOU HAVE ANY MEDICAL OR DENTAL TREATMENTS, EMERGENCY CARE, OR SURGERY, tell the doctor or dentist that you are using this medicine. THIS MEDICINE MAY CAUSE DROWSINESS OR DIZZINESS. Do not drive, operate machinery, or do anything else that could be dangerous until you know how you react to this medicine. THIS MEDICINE MAY REDUCE the amount of blood that flows to your feet and hands. This may cause them to feel cold and make you more sensitive to the cold. Dress warmly in cold weather. Be careful when out in the cold for long periods of time. Ask your doctor for more information. BEFORE HAVING ANY ALLERGY SHOTS, tell your doctor that you are using this medicine. This medicine may increase your risk for a serious reaction to the allergy shot. BEFORE TAKING ANY NEW MEDICINE, either prescription or over-the-counter, check with your doctor or pharmacist. This includes any medicines used to treat colds or congestion. FOR WOMEN: THIS MEDICINE HAS BEEN SHOWN TO CAUSE HARM TO the human fetus. IF YOU PLAN ON BECOMING PREGNANT, discuss with your doctor the benefits and risks of using this medicine during pregnancy. THIS MEDICINE IS EXCRETED IN BREAST MILK. IF YOU ARE OR WILL BE BREAST-FEEDING while you are using this medicine, check with your doctor or pharmacist to discuss the risks to your baby. FOR PATIENTS WITH DIABETES MELLITUS: this medicine may mask signs of low blood sugar such as a rapid heart rate. Check blood glucose levels regularly.

**POSSIBLE SIDE EFFECTS:**

SIDE EFFECTS, that may go away during treatment, include mild drowsiness, lightheadedness or dizziness, diarrhea, nausea, unusual tiredness, or unusual weakness. If they continue or are bothersome, check with your doctor. CHECK WITH YOUR DOCTOR IMMEDIATELY if you experience trouble breathing, cough, unexplained weight gain, increased thirst, increased urination, fainting, persistent dizziness or lightheadedness, swelling of ankles or feet, sexual problems, or blueness of fingernails or palms of your hands. AN ALLERGIC REACTION to this medicine is unlikely, but seek immediate medical attention if it occurs. Symptoms of an allergic reaction include rash, itching, swelling, dizziness, or trouble breathing. If you notice other effects not listed above, contact your doctor, nurse, or pharmacist.

Re: **Central Mfg. Co. v. Paramount Parks, Inc., Opp. No. 91123765**

Dear Mr. Koonce:

We just received your letter which has two dates on it, April 2, 2004 and May 14, 2004, in reference to our discovery responses. The letter refers to your request to supplement our written interrogatories.

Generally, your client had the opportunity through the four hour deposition that I sat through to engage in further elaboration on any interrogatory responses that you felt were inadequate. Normally, what parties use discovery depositions for is to fully interrogate the party as to the answers that were previously submitted in written discovery requests. Your client's request to further elaborate on our interrogatory responses after you have already conducted a four hour deposition, is disingenuous at best and appears to be an attempt to set up a non-existent discovery dispute. The opposer has fully cooperated with the applicant in providing discovery responses and in the participation of a discovery deposition.

The opposer has presented all relevant information and all documents which are in its possession that are responsive to your written discovery requests. In view of the fact that there is a protective order entered in this proceeding, the opposer does not allege confidentiality grounds as a reason for not responding.

Notwithstanding any of the above, the opposer will review with particularity your correspondence which covers two dates, April 2nd and May 14th, in order to see if the opposer has not fully responded.

As of this date, although we have ordered a copy of the Stoller deposition, we have not received it to be able to compare it with our interrogatory responses. We are looking forward to receiving a copy. If you have a copy and would like to have your secretary email us the file of the Stoller deposition, we could examine it more readily and get back to you. Our email address is [leo@rentamark.com](mailto:leo@rentamark.com). Otherwise, we will have to wait until we receive our copy of the Stoller deposition.

At this time, we would like to suggest that the parties agree to at least a thirty (30) day extension of time of the discovery period. Discovery is rapidly closing in this case and it behooves the parties to enter into such an agreement. Let us know via fax if you would agree to same.

Most Cordially,

A handwritten signature in cursive script that reads "Leo Stoller".

---

Leo Stoller, President
