**Quenton Gittens , Headache is the trade name**  
(Name of Individual as Opposer, and Business trade name, if any)

The Following opposition is being filed against BMC Players Inc., because they are trying to trade mark my nick name Headache, which I came to the company with in 1999. I signed an endorsement deal with And 1, for the use of my athletic skills, my name and reputation that I built up throughout the years before meeting BMC Players Inc. (And 1)

Three years later they decided to trademark my name without my permission. I have articles dating back to 1997, which shows I have had possession of the name prior to signing a deal with BMC players Inc. If the registration goes through for BMC, it gives them the power to make money off the name that I created and developed throughout the years.
