IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

Proceeding	91168979
Party	Defendant ASTOM Co., Ltd. ASTOM Co., Ltd. 1-2 Yurakucho 1-chome, Chiyoda-ku JPX Tokyo,
Correspondence Address	GEORGE W. LEWIS JACOBSON HOLMAN PLLC 400 SEVENTH STREET, N.W. WASHINGTON, DC 20004-2201 UNITED STATES
Submission	Other Motions/Papers
Filer's Name	George W. Lewis
Filer's e-mail	trademark@jhip.com,glewis@jhip.com
Signature	/george lewis/
Date	06/25/2007
Attachments	20070625164239937.pdf (4 pages)(317681 bytes)

International Class 1

Ion exchange resin membranes; Ion exchange resins; Chemical preparations used for regeneration of ion exchanger

International Class 7

Electrodialysis machines for desalting of acid and/or alkali, concentration of acid and/or alkali, concentration of metal salt, preparation of acid and/or alkali from salts, and/or preparation of organic acid from salts of organic acid; Electrodialysis machines for electrical removal of heavy metals present in soil; Electrodialysis machines for preparation of salt by concentration of seawater, control of acidity of fruit juice, preparation of salt-reduced soy sauce, desalting and purification of aqueous solution of amino acids, treatment of dairy products, and/or desalting of whey; Diffusion dialysis machines for recovery of acid or alkali; Electrodialysis machines and/or diffusion dialysis machines for extracting, filtering, separating, grinding, mixing, agitating and/or making chemicals for industrial and commercial use for use in the chemical industries; Electrodialysis machines and/or diffusion dialysis machines for filtering, separating, drying and mixing of ingredients in food and beverages for use in food or beverage processing, used for the purposes of demineralization of cheese whey, organic acids, amino acids, natural extract, poly-saccharide or betaine, desalination of soy sauce, stabilization of wine, demineralization and deacidification of fruit juice, and/or demineralization and purification of pharmaceutical intermediate and/or molasses; Electrodialysis machines and/or diffusion dialysis machines for use in food or

demineralization and purification of pharmaceutical intermediate and/or molasses; Electrolysis machines and/or diffusion dialysis machines for use in food or beverage processing; Electrodeposition painting machines and apparatus comprising of an ion exchange membrane used for painting automobile body, construction materials and home electric appliances with an epoxy resin-based or acrylic resin-based painting; Electrodeposition painting machines and apparatus used for forming an epoxy resin-based or acrylic resin-based painting layer on automobile body or aluminum sash

International Class 9

Electrolysers; Electroplating apparatus; Electrodes comprising ion exchange membrane for use in electrodeposition painting; electrodes used for forming an epoxy resin based or acrylic resin based painting layer on automobile body or aluminum sash

This amendment to the identification of goods is made pursuant to 37 C.F.R. § 2.133(a).

The proposed amendment is permissible because it narrows the scope of identified goods and Opposer consents to the amendment.

SUSPENSION

While the proposed amendment is pending, the parties agree and hereby stipulate to a suspension of the proceedings pursuant to 37 C.F.R. § 117(c). This suspension request is made for good and sufficient cause because entry of the proposed amendment is a condition of the parties' agreement to settle and finally resolve this proceeding.

DISMISSAL WITH PREJUDICE

Finally, if and when the proposed amendment is entered by the Examining Attorney, the parties agree and stipulate that the opposition shall be dismissed with prejudice.

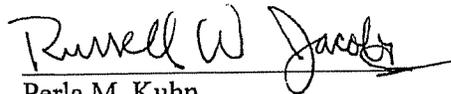

WHEREFORE, for the foregoing reasons, the parties respectfully request the entry of the amendment to the identification of goods; the suspension of these proceedings while the amendment is pending; and the dismissal of the opposition with prejudice upon the entry of the amendment.

Respectfully submitted,

ALSTOM
