**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

HON HAI PRECISION INDUSTRY CO.,
LTD.,

Opposer,

v.

INTERNATIONAL COMMUNICATIONS
MANUFACTURING CORP.,

Applicant.

Opposition No. 91175106

Application Serial No. 76/659219

Mark: F-CONN

**REQUEST FOR NARROWING AMENDMENT OF GOODS
DESCRIPTION PURSUANT TO 37 CFR 2.133(a)**

Pursuant to Trademark Rule 2.133(a), Applicant International Communications Manufacturing Corp. ("Applicant") requests amendment of the description of goods of Application Serial No. 76/659,219. Opposer Hon Hai Precision Industry Co., Ltd. ("Opposer") consents to the requested amendment.

The present application currently recites the following goods in International Class 9:

Cable connectors for digital home theater, security/structure wiring and satellite connections.

Applicant wishes to amend the goods description by adding a limitation, in italics, as follows:

Cable connectors for digital home theater, security/structure wiring and satellite connections, *limited for RF, IEC, BNC and RCA connectors all used for field installation in homes and businesses.*

As can be seen, the description of goods allowed by the Examining Attorney is not changed. Rather, the proposed description is narrowed in scope by adding the statement:

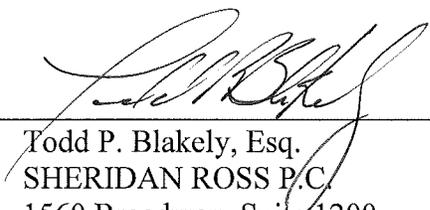

"limited for RF, IEC, BNC and RCA connectors all used for field installation in homes and businesses."

The parties have reached a settlement resolving Opposer's objections to the present application. The settlement requires amendment of the goods description to reflect the narrower goods referenced above or, if necessary, a variation of it provided the variation is mutually agreeable to both the Applicant and Opposer.

Because a narrowing limitation is being added to a previously allowed description of goods, Applicant does not believe the requested change materially alters the application. Accordingly, Applicant requests approval of this amendment.

Respectfully submitted,

Date: 20 March 2009
