NOTICE OF OPPOSITION

Madam:

Intel Corporation, a Delaware corporation, having its principal place of business at 2200 Mission College Boulevard, Santa Clara, California 95052 (“Opposer”), believes that it will be damaged by the registration of the mark shown in Application Serial No. 78/859,906 filed by Intellagents LLC (“Applicant”), and Opposer hereby opposes this application under the provisions of 15 U.S.C. § 1063 (as amended).

Application Serial No. 78/859,906 was filed on April 12, 2006 for the mark INTELLAGENTS for “business research and consultation services, namely providing analysis of competitive pricing data for restaurants to aid their development of pricing strategy” in Class 35. The application was published for opposition on November 21, 2006.

As grounds for the opposition, it is alleged that:

1. Opposer manufactures and sells a wide variety of computer, communications and internet-related products and services including components used for marketing, consulting,

business research and management, financial services, and new technology development.

Opposer's products and services are ubiquitous and sold throughout the United States under its company name and house mark INTEL, as well as under numerous trademarks that incorporate INTEL as a prominent component of the mark.

2. Opposer has continuously offered and sold products and services since at least as early as 1969 under the company name and house mark INTEL, long prior to the filing date of the INTELLAGENTS trademark application.

3. Opposer is the owner of record of numerous trademark registrations in the United States Patent and Trademark Office covering its INTEL mark, either with INTEL standing alone or as part of a composite mark, for a variety of semiconductors, microprocessors, computer hardware and computer software products and services, and related goods including clothing, jewelry, toys and games, bags, mugs or other accessories.

Among these registrations are the following:

VV	INTEL NETSTRUCTURE	2,869,653	8/3/04	(Class 9)

Each of these registrations is currently valid and subsisting. Further, all of the above-referenced registrations, with the exception of the Registrations listed in Exhibits P-V and GG-VV, are now incontestable under the provisions of 15 U.S.C. § 1065. Copies of all of these registrations are appended to this Notice of Opposition as Exhibits A – VV.

4. Opposer has invested hundreds of millions of dollars in advertising and promotion of products sold under the INTEL name and mark, and has engaged in an extensive licensing program under which computer manufacturers have used Opposer's INTEL mark on their computers -- as part of the "Intel Inside & Swirl Logo" mark -- and in their advertising and promotional materials to indicate that their personal computers include certain INTEL microprocessors and components.

5. Opposer's extensive investment and efforts in promoting the name and house mark INTEL for Opposer's full range of products and services has made INTEL a famous mark. Indeed, from 1996 to present, Fortune Magazine has annually recognized Intel as one of the top ten "Most Admired Corporations in America." From 1993 to the present, INTEL has been regularly named one of the world's "most valuable brands" by Financial World Magazine and Interbrand Market Research Company. In one of Interbrand's most recent surveys of the world's

most valuable brands, it ranked the INTEL brand fifth in the world, with an estimated value of \$32.3 billion.

6. Applicant seeks registration of the mark INTELLAGENTS, for “business research and consultation services, namely providing analysis of competitive pricing data for restaurants to aid their development of pricing strategy”.

7. Applicant’s INTELLAGENTS mark reads and sounds like “Intel agents”. It incorporates Opposer’s famous and distinctive INTEL mark as its first and dominant component. The second component, “agents”, is merely descriptive of those performing Applicant’s services. Therefore, the only distinctive element of the Applicant’s mark is INTEL.

8. Moreover, like Applicant, Intel also offers services in the business research and consulting fields, and has done so long prior to Applicant’s alleged date of first use.

9. The INTELLAGENTS mark should not be registered because its use as a source identifier is likely to cause confusion with Opposer’s famous INTEL mark as to the source, sponsorship, or affiliation of Applicant’s services.

10. Contrary to the suggestion created by the use of the INTELLAGENTS mark, Opposer is neither affiliated with nor a sponsor of Applicant, and the services identified in the opposed application do not originate from Opposer.

11. On information and belief, Applicant’s actual use of the INTELLAGENTS mark is likely to cause dilution of the distinctive quality of Opposer’s famous INTEL marks.

12. The registration of Applicant’s INTELLAGENTS mark on the Principal Register would be inconsistent with Opposer’s rights under the aforementioned registrations and common law, and it would be damaging to Opposer.

WHEREFORE, Opposer requests that Application Serial No. 78/859,906 be rejected, and that no registration be issued in connection with this application, and that this opposition be sustained in favor of Opposer.

Respectfully submitted,

INTEL CORPORATION
