Date: December 12, 2007

Pursuant to 15 U.S.C. §§ 1052, 1063, and 1125 of the Lanham Act and 37 C.F.R. §§ 2.101 and 2.104, and predicated upon the following grounds, Opposer alleges as follows:

1. Opposer, VeriSign, Inc., is a corporation duly organized and existing under the laws of Delaware, having its principal place of business at 487 E. Middlefield Road, M/S MV2-2-1, Mountain View, CA 94043.

2. Opposer is the owner of the marks VERISIGN, VERISIGN GRS, VERISIGN GLOBAL REGISTRY SERVICES, VERISIGN TRUST NETWORK, VERISIGN & V CHECKMARK DESIGN, VERISIGN TRUST NETWORK & CHECKMARK DESIGN, VERISIGN SECURED, and VERISIGN SECURED & CHECKMARK DESIGN (collectively, the "VERISIGN Marks").

3. Opposer offers, among other things, radio frequency identification ("RFID") products and services, security products and services, database management and communications products and services and naming and directory products and services under the VERISIGN Marks.

4. Opposer's RFID products and services include, but are not limited to, enabling data to be transmitted by a mobile device which is read and processed according to needs of a particular application. In addition, Opposer services are used in connection with inventory tracking and security, electronic payment and supply chain management. Opposer provides users with technology that has the ability to capture granular information, make use of such information and share it throughout its supply chain. Opposer develops, deploys and manages RFID technology and systems for third parties.

Opposer provides consulting services to assist suppliers to RFID-enable their physical supply chains to meet mandate requirements.

5. Opposer's security goods and services include, but are not limited to, providing computer software and services for the authentication of identity and issuance of digital certificates for authentication or encryption of digital communication. Opposer provides a single, integrated platform for provisioning and managing all types of two-factor authentication credentials. It also enables encryption, digital signing, and auditing. Its identity protection service is a very comprehensive suite of identity protection and authentication services designed to strengthen and protect consumers' digital identities. Its services help manage reputational risk for financial services, e-commerce companies, or enterprises that digitally interact with consumers' personal data. Eighty percent (80%) of online users recognize Opposer's VeriSign Secured Seal as the trusted mark for secure online transactions. Opposer provides authentication services to over 500,000 websites for over ninety-three percent (93%) of the Fortune 500, the world's 40 largest banks, and 47 of the 50 largest e-commerce sites.

6. Opposer's database management and communications goods and services include, but are not limited to, providing information technology consulting, connectivity, roaming and VoIP services. In addition, it provides intelligent database services, including, but not limited to, operating a calling name database and line information database. Opposer operates one of the largest independent Signaling System 7 (SS7) networks in the world, providing wireline, wireless, cable and VoIP providers with a reliable connection to the system of networks that makes up the Public Switched Telephone Network (PSTN). Its SS7 network enables cellular roaming, text messaging,

caller ID, and multimedia messaging throughout the world. It handles approximately fifty percent (50%) of roaming traffic in the United States, and delivers almost ten (10) million caller IDs daily. Its services are utilized by over 3,000 enterprises and 400,000 websites. In addition, it provides intelligent database services, including, but not limited to, operating a calling name database and line information database.

7. Opposer's naming and directory goods and services include, but are not limited to, domain name management, registration and brand monitoring services. Opposer is the authoritative registry of domain names in the .com and .net generic top-level domains.

8. Opposer began promoting its products and services under the VERISIGN Marks as early as 1995, and has continuously used the marks in interstate commerce for ten (10) years. On information and belief, Opposer's first use of the VERISIGN Marks pre-dates Applicant's first use of the VERITRACE mark.

9. Opposer is the owner of the following United States trademark registrations, that are valid and subsisting and in full force and effect:

<u>Mark</u>	<u>Reg. No.</u>	<u>Int'l Class</u>	<u>Registration Date</u>	<u>Dates of First Use</u>
VERISIGN	2,758,215	9, 16, 35, 36, 38, 40, 41, 42	September 2, 2003	April 1995
VERISIGN	2,302,350	9	December 21, 1999	September 5, 1995
VERISIGN	2,559,289	42	April 9, 2002	May 9, 1995
VERISIGN GRS	2,661,898	42	December 17, 2002	October 31, 2000
VERISIGN GLOBAL REGISTRY SERVICES	2,662,020	42	December 17, 2002	October 31, 2000
VERISIGN & V CHECKMARK DESIGN	2,758,214	9, 16, 35, 36, 38, 40, 41, 42	September 2, 2003	April 1995
VERISIGN TRUST	2,919,474	35, 36	January 18, 2005	June 2, 2002

NETWORK & CHECKMARK DESIGN				
VERISIGN TRUST NETWORK	2,919,475	35, 36	January 18, 2005	January 1998
VERISIGN SECURED	3,288,496	9, 35, 36, 41, 42	September 4, 2007	September 7, 2004
VERISIGN SECURED & CHECKMARK DESIGN	3, 307,773	9, 35, 36, 41, 42	October 9, 2007	September 7, 2004
VERISIGN SECURED & CHECKMARK DESIGN	3,307,778	9, 35, 36, 41, 42	October 9, 2007	October 9, 2004

Copies of these registrations are attached as Exhibit A.

10. Opposer is a NASDAQ-listed company (trading symbol "VRSN") that generates over a billion dollars in annual revenues. Opposer's branded products and services are used by virtually all of the Fortune 500 companies with an Internet presence. Moreover, Opposer and its VERISIGN Marks have been featured extensively in advertising and in the national press in the United States and abroad. Consequently, the general public recognizes the VERISIGN Marks and associates these marks with the products and services offered by Opposer.

11. Since its initial adoption and use of the VERISIGN Marks, Opposer has made a substantial investment in advertising and marketing its products and services under the VERISIGN Marks. Opposer has extensively used, advertised, promoted and offered for sale Opposer's products and services under the VERISIGN Marks through various channels of trade and commerce. As a result of Opposer's extensive use and

promotion of the VERISIGN Marks and the extensive sales of goods and services under the VERISIGN Marks, the VERISIGN Marks have become famous.

12. On information and belief, on May 12, 2006, Applicant filed Application Serial No. 78/882,482 for the mark VERITRACE pursuant to Lanham Act Section 1(a) for the following goods:

Hardware and software for the identification and logging of human remains, in International Class 9.

The application was published for opposition in the *Official Gazette* on August 14, 2007.

13. Applicant's mark so closely resembles the VERISIGN Marks that Applicant's mark, when used in connection with the goods set forth in Applicant's application, it is likely to cause confusion, or to cause mistake, or to deceive purchasers and potential purchasers of Applicant's services into erroneously believing that there is some relationship between Opposer and Applicant, or that Opposer has authorized, sponsored or licensed Applicant's use of the mark VERITRACE, in violation of 15 U.S.D. § 1052(d).

14. Applicant's mark, when used in association with the services identified in Applicant's application, is likely to cause dilution of Opposer's famous VERISIGN Marks in violation of 15 U.S.C. § 1125(c).

15. Registration of Applicant's mark will damage Opposer, as such registration will give color of exclusive statutory rights to the mark VERITRACE to Applicant in derogation and violation of the prior and superior rights of Opposer.

WHEREFORE, Opposer, VeriSign, Inc., believes that it will be damaged by registration of U.S. Application Serial No. 78/882,482, and therefore respectfully

requests that the Trademark Trial and Appeals Board sustain this opposition and refuse registration of Applicant's mark.

All correspondence should be addressed to Brian J. Winterfeldt, Esq., c/o Ballard Spahr Andrews & Ingersoll, LLP, 601 13th Street, NW, Suite 1000, Washington, DC 20005.

Respectfully submitted,

VERISIGN, INC.

G & S: Computer software in the field of cryptographic network security and data security functions; computer software for integration of information logic and data between computer networks; computer software for automating a process for authentication of identity using existing databases in connection with the issuance and management of digital certificates used for authentication or encryption of digital communications, or authentication of a digital signature in an electronic transaction or communication, over the Internet and other computer networks; computer software, namely encryption software to enable secure transmission of digital information, namely, confidential, financial and credit card information over the Internet as well as over other modes of communication between computing devices; computer software to integrate managed security services, namely public key infrastructure (PKI) services, digital certificate issuance, verification, and management, and enterprise software integration, with existing communications networks, software, and services, downloadable electronic publications in the nature of a newsletter in the field of information technology. FIRST USE: 19950400. FIRST USE IN COMMERCE: 19950400

IC 016. US 002 005 022 023 029 037 038 050. G & S: Printed matter, namely, newsletters, instructional materials and teaching materials in the field of information technology. FIRST USE: 20000609. FIRST USE IN COMMERCE: 20000609

IC 035. US 100 101 102. G & S: Commercial information and directory services; providing commercial information and on-line directory information services for

locating Internet and other computer network addresses and demographic information for entities, and providing a directory of organizations, individuals, addresses, and resources accessible through the use of the Internet and other computer networks; business management services, namely, providing outsource management services to others in the field of digital certificate authentication; auctioneering services for domain names on the Internet and other computer networks; on-line trading services in which seller posts products to be auctioned and bidding is done via the Internet and other computer networks; on-line retail services featuring a variety of general merchandise; referral services in the field of valuation, financing, purchase and sale of web-based businesses; and computer network address management services, namely, providing services enabling entities to access, add, modify or delete information relating to their computer network addresses. FIRST USE: 19950400. FIRST USE IN COMMERCE: 19950400

IC 036. US 100 101 102. G & S: Insurance services, namely, insurance brokerage services and administration and processing of claims, for insurance covering computer authentication, encryption and certification services for electronic transactions and communications that take place over the Internet and other computer networks; providing extended warranties for authentication, encryption and certification services used to provide security in electronic transactions and communications that take place over the Internet and other computer networks; administration and processing of claims under extended warranties of authentication, encryption and certification services used to provide security in electronic transactions and communications that take place over the Internet and other computer networks; financial services, namely providing financial transaction processing services by electronic means via the Internet and other computer networks in the field of electronic fund transfer and payment processing services; brokerage and escrow services relating to the purchase and sale of domain names, web sites and Internet based businesses; domain name valuation services; financial management services for electronic delivery, processing and transfer of funds, payments, financial transactions and financial information via the Internet and other computer networks. FIRST USE: 20000229. FIRST USE IN COMMERCE: 20000229

IC 038. US 100 101 104. G & S: personalized electronic mail services; e-mail forwarding and web site forwarding. FIRST USE: 20001200. FIRST USE IN COMMERCE: 20001200

IC 040. US 100 103 106. G & S: design and production of customized goods, namely, customized printing, silk screen printing and embroidery of company names and logos for promotional advertising purposes on the goods of others. FIRST USE: 20000609. FIRST USE IN COMMERCE: 20000609

IC 041. US 100 101 107. G & S: educational services, namely, providing instruction and demonstrations in the fields of use and management of computer networks, corporate local area networks, the Internet, computer network addresses, and Internet domain name issues; providing news in the nature of current event reporting in the field of domain name disputes; providing a non-downloadable on-line newsletter in the field of information technology. FIRST USE: 20000609. FIRST USE IN COMMERCE: 20000609

IC 042. US 100 101. G & S: providing authentication of identity; issuance and

management of digital certificates for authentication or encryption of a digital communication, or authentication of a digital signature in an electronic transaction or communication, over the Internet and other computer network and providing technical and customer support in connection therewith; development, design, implementation, testing, analysis, and consulting services in the field of security, access, authorization, authentication encryption, and identification systems for computers, computer hardware and computer networks; development, integration and operation of computer systems to support issuance and management of digital certificates; creation and implementation of procedures and practices for issuance and management of digital certificates; computer related services, namely, managed computer network and Internet security services, namely, public key infrastructure ("PKI") verification, authentication, distribution and management, digital certificate issuance, verification, and management, and enterprise software integration; computer services, namely, providing online information in the field of domain name disputes; computer services, namely, enabling users of the Internet to deliver information about themselves and, if applicable, their businesses, products or services, and to register their universal resource locators, with on-line catalogues, directories, search engines and web sites, via the Internet and other computer networks; registration and tracking of domain names for identification of users on a global computer network and other computer networks; providing information in the field of services relating to the ownership rights of domain names. domain name management services, namely, Domain Name System ("DNS") management and maintenance, domain name directory management and maintenance, Domain Name System ("DNS") infrastructure services, domain name and Domain Name System ("DNS") information propagation, and resolution of Domain Name System ("DNS") requests; data conversion of computer program data or information, namely, network, computer, database and directory services that convert an existing telephone number or assigned number sequence into an Internet Protocol ("IP") address or uniform resource locator ("URL") for the purpose of enabling access, selection and display of online content via a wireless network; computer services, namely, monitoring domain names for change in status and after-market availability; computer services, namely, web site designing, hosting and maintaining sites for others; providing templates for design of web sites via electronic communication networks; on-line technical support services, namely, troubleshooting of computer hardware and software problems; computer services, namely, providing search engines for obtaining data on a global computer network; computer consultation regarding computer networks and internal computer networks, security services for computer networks and internal computer networks, namely, designing fire walls for others; computer software consultation services for the development of software applications; designing and programming computer controlled communications systems. FIRST USE: 19950400. FIRST USE IN COMMERCE: 19950400
