Consolidated Opposition
No.: _____

NOTICE OF OPPOSITION

Opposers Gathering Storm, LLC dba tmax Gear, a Delaware Corporation, having a principal place of business at 2701 Loker Ave. West, Suite 290, Carlsbad, CA 92010-6639, and Taylor Made Golf Company, Inc. dba TaylorMade-adidas Golf Company, a Delaware Corporation, having a principal place of business at 5545 Fermi Court, Carlsbad, CA 92008 (collectively "Opposers") believes they will be damaged by the issuance of a registration to Applicant Bridgestone Sports Co., based on the trademark application identified above for the mark TOUR GLOVE, for use on "golf equipment, namely golf gloves" and by and through its attorneys, hereby opposes same. As grounds for this opposition, Opposers alleges the following:

1. Opposers, together with its predecessors-in-interest, successors-in-interest, subsidiary entities, affiliated entities and authorized licensees (collectively "Opposers") have been selling golf gloves described as "tour gloves," well prior to the filing of the instant application.
2. Opposers have a real interest in the instant application because its registration would interfere with its right to lawfully describe their goods as "tour gloves."
3. Attached as Exhibit A are examples of Opposers' use of the descriptive term "tour glove:"
 - a) TaylorMade r7 Tour Glove
 - b) TaylorMade Targa Tour Glove
 - c) Maxfli Tour Glove

4. Numerous third parties also identify their goods as “tour gloves.”

Attached as Exhibit B are numerous examples of third party descriptive use of the term “tour glove” to describe their gloves.

- a) Outdoor Research Tour Glove
- b) Rapha Grand Tour Gloves
- c) Rock Creek Tour Gloves
- d) Etonic AC Tour Glove
- e) Nike Dri-fit Tour Glove
- f) Pearl Izumi Gel-Lite Tour Gloves
- g) Spenco Ironman Tour Glove
- h) Black Diamond GTX System Tour Glove
- i) Yamaha On Tour Glove
- j) Strixon Cabretta Leather Tour Glove
- k) Lopez Tour Glove
- l) Callaway Tour Series of Gloves

5. The applied-for mark, TOUR GLOVE is merely descriptive of the goods identified in the trademark application and is therefore not entitled to federal registration. The word “glove,” as evidenced by its disclaimer, immediately describes the goods themselves. The preceding word “tour” means a series of [golf] matches in several different places by sports players [golfers]. Gloves suitable for this purpose are described as “tour gloves.” The Examining Attorney was correct in its statement “The

obvious and apparent meaning of applicant's mark is that applicant's goods involve a glove that is for use in matches played by sports players."

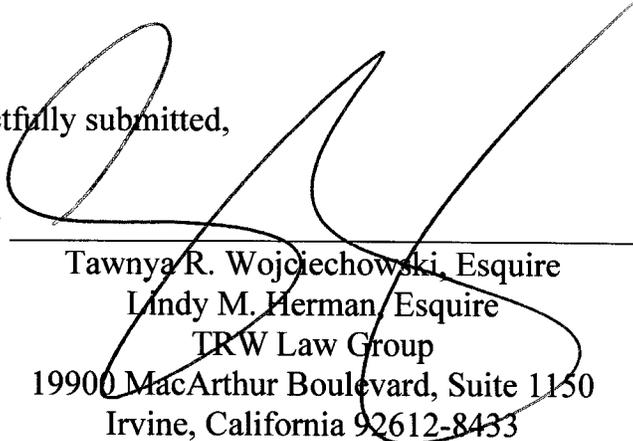

THEREFORE, Opposers request that registration of the above-referenced mark be refused under Trademark Act Section 2(e)(1), 15 U.S.C. §1052(e)(1); TMEP §§1209 *et seq.* and this Opposition be sustained.

This Notice of Opposition is being filed electronically, along with the filing fee required by 37 C.F.R. §2.6(a)(17). Any required fees not submitted with this Notice are authorized to be deducted from Deposit Account No. 503593.

model provides exceptional breathability and cooling comfort.

The Maxfli Tour, according to the company, is crafted of the highest quality, AAA grade Cabretta leather to provide players with optimum feel and control. In addition, Maxfli said the leather undergoes a special tanning process developed exclusively for Maxfli, which further enhances feel while also ensuring exceptional quality and durability.

Additional Tour features include U-Flex technology, which Maxfli said arches across the top of the hand and down the outside fingers, and double-stitched thumb construction that resists twisting for a more consistent grip. Lycra seams are positioned down the top of the ring finger and middle finger for increased comfort and cooling.

The Maxfli Tour glove carries a suggested retail price of \$19.99.

Maxfli said the Touch (SRP \$14.99) is made of fine, soft Cabretta leather to deliver exceptional feel on all types of shots.

The Tech (SRP \$12.99), according to Maxfli, combines an all-Cabretta palm for great feel with a synthetic leather top for long-wearing durability.

The company, a division of TaylorMade-adidas Golf, said each model features Maxfli's U-Flex technology, which incorporates the four-way stretch capacity of Lycra for a consistent, customized, comfortable fit, and which reduces stress on the leather. In addition, Maxfli said the Lycra weave employed by its U-Flex technology and incorporated along the fingers of each

ABOUT THE GRAND TOUR GLOVES

The Rapha Grand Tour glove has been developed for riders who want the ultimate road racing glove. Following the same pattern as the Criterium glove, Grand Tour gloves use 'African Hair Sheep' leather to produce the softest and most durable gloves on the market.

African hair sheep live on the arid savannah of Eastern Africa. To cope with the heat and dry conditions, the hair sheep have extremely thin but strong skin. The hair sheep leather is 'table cut' by skilled craftsmen and worked by hand lengthways and crossways to give the leather its beautiful texture and suppleness. The gloves are stitched by skilled machinists and pressed on a hand shaped iron. Every glove is tested rigorously before being packaged by Rapha.

Why go to all this trouble? A road rider using gloves made of hair sheep gets the confidence and feel of riding bare handed, but with the protection and comfort of the highest quality glove on the market. The gloves also offer high breathability, sweat absorption and water repellency. These properties led the RAF to use hair sheep in the gloves for their pilots. The Rapha Grand Tour gloves match this highest grade leather with quality construction and should last many seasons if looked after.

Carefully finished with double stitching in key wear points, the gloves have road-specific pads with extra reinforcement around the thumb and forefinger for those hours riding on the hoods. At 2mm, the pads are slim and comfortable. But they offer unrivalled cushioning through super high-density foam, used in the shooting gloves of army marksmen. The Grand Tour gloves are finished with durable stitching around all seams and edges. They are fastened at the cuff with a Velcro strap.

Leather gloves look and feel beautiful and they get better with age. Buy them slightly tight and they will stretch to the shape of your hands for a perfect fit.

The Grand Tour gloves come in two colours and five sizes.

- Cycling gloves designed for ventilated, cushioned comfort
- Gel padding at key pressure areas prevents numbness
- Lightweight stretch mesh between fingers allows airflow

Find gifts for everyone in our [Holiday Gift Shop](#).

[Gift Boxing Information](#)

Half-fingered cycling gloves that are especially comfortable on long rides. Gel padding at key pressure areas provides shock absorption to keep hands from going numb.

Perforated palm fabric is supple, durable and breathable. Lightweight stretch mesh between fingers provides cooling airflow. Contoured cuff hugs wrist for a comfortable fit; tab on inside of wrist makes glove easy to pull on. Microfleece wipe on thumb absorbs moisture and is soft on skin.

Palm polyurethane; back nylon/spandex; thumb wipe polyester. Machine wash, line dry. Imported.

CUSTOMER FEEDBACK from Belinda (12/09/07): Hi I'm just giving feedback on the service of my last purchase. Basically, no complaints. Something I find really annoying is when I go into a store and the people keep pestering me asking multiple times if I need help, after I've already said, "No thank you, I'll let you know if I do." so what I really appreciated is that I was able to just say "I'm fine, just looking for a backpack" get the response "Ok great, let me know if you need anything or if you want me to get anything down for you." and that was it. When I found my amazing backpack, the young woman was ready to ring me up...AND help me out with a lil' Operation so I could get 20% off. Don't worry, no cheating was involved, but she was really helpful and encouraging and made the whole thing fun. In short, it was a perfect experience for me. :-) Thank you! Description of Black Diamond GTX System Tour Glove :

Though the versatile GTX System Tour Gloves were previously available only in Europe, Black Diamond hooked us up with a limited-edition supply for dedicated backcountry skiers. These gloves provide weather protection with a waterproof breathable BDry shell, and the durable leather palms easily withstand the torture of sharp ski edges. The GTX System Tour Gloves' shell includes a thin tricot lining, which you can wear alone, and the removable Powerstretch fleece liners add insulation when the mercury tanks.

Excellent glove 03-28-07
RDW (1): ★★★★★

These gloves are very well made and provide excellent warmth and dexterity. It's also nice to have the inner/outer glove system, which makes the gloves more versatile and makes drying faster and

more complete. The only downside, which is very slight, is that you can't really put the inner and outer glove on at the same time -- you have to put the inner on first and then put the outer on over it; same with taking them off.

Georgian Bay in winter 02-20-07
INSight (1): ★★★★★

I picked up these gloves from BC after my first new pair were pinched by an AC baggage handler. Took them on a winter camping trip in Northern Ontario to use on day trips and when dexterity was key. My thought was that I'd use my surplus OPP cold weather mitts when the going really got cold. Well after several days at -22C and then some, I never had cause to pull out the mitts. These gloves met and surpassed my expectations! A+++. Can't wait to try them while skiing!

gloves 01-29-07
clodsbypc (2): ★★★★★

These gloves work great. The liner is not attached to the shell and I was kind of disapointed about this at first and still worry about losing a liner. But the fact that you can remove the shell without the liner makes for a warmer phone call on the lift. the shell is nice and flexable over all I'd recomed these for everyday use.

SRIXON Z-URS TOUR BALL (3 FOR £70) [Click to Show / Hide](#)

SRIXON Z-URS GOLF BALLS (DOZEN)

BUY 3 DOZEN FOR JUST £70

Incredible Urethane Performance just got better. The new and improved Srixon Z-URS features a brand new urethane cover which is the softest urethane cover Srixon has ever created. This new formulation provides the ultimate in control-shot shaping spin control, pinpoint distance control and stroke saving short game control. And the best part is that this exceptional control does not come at the expense of distance. That's because the large Energetic Gradient Growth core provides exceptional ball velocity combined with ideal high launch angle, low spin launch conditions for greater carry and distance. Finally, the high trajectory 330 dimple pattern provides a strong and penetrating trajectory in all wind conditions. Normally suited to better ball strikers and single figure golfers...

USER BENEFITS

Superb soft feel on all shots from tee to green
Superb approach iron and greenside spin control
Higher initial velocity for greater carry and distance
