v.

Repsol-Gas Natural LNG, S.L.

By the Trademark Trial and Appeal Board:

On July 6, 2012, applicant filed a proposed amendment to its application Serial No. 79036767, pursuant to a settlement agreement between the parties. On July 12, 2012 opposer filed a withdrawal with prejudice of the opposition, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to change the identification of goods in Class 39 **from** "Distribution, transport and storage of energy, fuel compounds, gas and liquefied gas" **to** "Wholesale distribution, transport and storage of energy, fuel compounds, natural gas and liquefied gas." The identification of goods in Class 4 remains unchanged.

¹The original opposer, Stream Gas and Electric, Ltd., filed an assignment of all rights, title and interest in its pleaded Registration No. 3442457 to SGE IP Holdco, LLC on January 7, 2010. The assignment is recorded at Reel 4126/Frame 0558.

Opposition No. 91185164

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed with prejudice.
