Introducing Bright Green™

Together we can make a difference.

Everyday we make choices that impact the health of our planet, and while no one person can do it alone, together our small individual acts can add up to a big difference. Working together, we can contribute to a cleaner and healthier community – and planet. We want to make it easy for you to 'choose green' when you shop. That's why we've developed Bright Green™ – an extensive line of home care products.

A partnership for the planet

We developed Bright Green™ in partnership with Scientific Certification Systems (SCS), a leading third-party provider of certification, auditing and testing services and standards in environmental protection and social responsibility. SCS reviewed each Bright Green™ product for naturally derived and biodegradable ingredients, post-consumer recycled content and energy efficiency.

A wide range of choices

Bright Green™ is unique in its breadth, convenience and affordability. We offer more than 20 choices to meet all of your household needs. And, they're available at a price that is comparable with leading national brands in these categories.

The Bright Green™ line of products features:

- Cleaning and laundry products made with naturally derived and biodegradable ingredients.
- Paper products whitened without the use of harmful elemental chlorine and made from 100% recycled fibers.
- High-efficiency light bulbs that save electricity while lasting 13x longer than ordinary bulbs.

Our promise to you

We understand that what is green today may not be green tomorrow. So we're committed to introduce easy, affordable ways we can all work together to make a difference.

So on your next shopping trip, consider Bright Green. It's a simple way to take care of

your home, community, and our planet.

Bright Green™

Frequently Asked Questions

Where are Bright Green products sold?

Bright Green is sold exclusively at Safeway and its family of companies. Shoppers will find Bright Green products in the household products aisles alongside other branded products. They will not be in a special section or area of the store.

Back to Top

Are these "natural" products?

We use naturally-derived and biodegradable ingredients whenever possible without compromising the efficacy or environmental impact of the product. If a natural option is not available we look for the best way to be environmentally preferred. Scientific Certification Systems, a leading third-party provider of certification, auditing and testing services and standards in environmental protection and social responsibility is working along side of us to evaluate our products.

Back to Top

Are all of these products certified as environmentally friendly?

There is no one certifying agency for green products. However, each product has been reviewed for naturally derived and biodegradable ingredients, post-consumer recycled content and energy efficiency. In addition, Bright Green is working to develop consistent environmentally preferable guidelines across the entire product line. Bright Green works with Scientific Certification Systems, a leading third-party provider of certification, auditing and testing services and standards in environmental protection and social responsibility, in our product development and evaluation process.

Back to Top

How do I know the products are 100% green?

There is no such thing as a 100% sustainable or green product. That's because we live in a world of limited resources. With that being said, Bright Green – in the breadth, convenience and affordability of its products – is committed to providing "greener" solutions than what is currently available. Each product has been reviewed for naturally derived and biodegradable ingredients, post-consumer recycled content and energy efficiency by a 3rd party consultant.

Back to Top

Is the packaging recyclable or biodegradable?

All our packaging is recyclable and made from post-consumer waste whenever possible. Most materials do not biodegrade in landfills, therefore we encourage that all packaging please be recycled properly so that it does not end up in a landfill.

Back to Top

How are Bright Green cleaners different from other green cleaners?

Bright Green – is unique in its breadth, convenience and affordability. Bright Green includes more than 20 products that range from household cleaning to kitchen to laundry to paper and lighting products. During the development of Bright Green, products were tested and performed as well as leading green products at a price that is comparable with leading national brands in these categories.

Back to Top

How are Bright Green paper products different from other paper products?

Our paper products are made with 100% recycled fiber and process chlorine free. In third-party testing they performed better than the leading Green paper towel in absorbency.

Back to Top

Are the products transported by better-for-the-environmental methods?

Bright Green products are transported by our fleet of more 1,000 trucks using cleaner-burning biodiesel fuel. Safeway Inc. is one of the first major retailers in the United States to convert its entire fleet to biodiesel, helping carbon dioxide emissions by 75 million pounds annually, the equivalent of taking nearly 7,500 passenger vehicles off the road each year.

LAMP CONTAINS MERCURY Manage in Accordance with Disposal Laws

BRIGHT GREEN™
Brighten Your World™
Every day we make choices that impact the health of our planet. With this in mind, we've developed Bright Green™— products for the home that are safe, effective, and gentle on the environment. We can make a difference every time we brew a pot of coffee, wash the laundry, or clean our homes. Together we can contribute to a cleaner, healthier planet.
To change the world, start by changing a light bulb. It's good for the environment— and good for your budget.
Bright Green™ 13W Twist Lamp Features
• Use 78% Less Energy than 60 Watt Incandescent Bulbs
• Last up to 10,000 Hours - 10 times longer than 60 Watt, 1,000 Hour Incandescent Bulb
• Contain lower levels of hazardous materials than RoHS standards allow (Restriction of Hazardous Substances)
• Earn an ENERGY STAR® for efficacy and low mercury levels
Less Energy
13 Watts = 60 Watts
Longer life
10,000 Hours = 1,000 Hours x10
Lighting Facts Per Bulb
Brightness 900 lumens
Estimated Yearly Energy Cost $1.57
Based on 3 hrs/day, 11¢/kWh
Cost depends on rates and use
Life Based on 3 hrs/day 9.1 years
Energy Used 13 watts
Light Appearance
Warm Cool
2700 K
Contains Mercury

Up to 70% less plastic than a typical 100-oz. 2x laundry bottle
BRIGHT GREEN™
Brighten Your World™
Every day we make choices that impact the health of our planet, including the products we use to clean our homes, light our rooms or wash our laundry. With this in mind, we've developed a line of highly effective home care products called Bright Green™. Together we can contribute to a cleaner and healthier planet.
Compatible with Standard and HE Washers
Directions for both traditional and high efficiency washing machines:
For best cleaning results: Follow garment care label or hang tag for washing instructions. Use dosing cup to measure. Fill cap to 1st line for medium loads. Fill cap to 2nd line for cold water usage. Use more for large or heavily soiled loads.
Add clothes to washer: Add clothes to washer AFTER adding detergent to water. If you use bleach, add it five minutes after the wash cycle begins. To conserve energy and minimize wrinkling, always rinse in cold water.
INGREDIENTS: Contains naturally derived cleaning agents (palm, coconut and/or tallow based surfactants), naturally derived enzymes, natural anti-redeposition agent, fragrance.
CAUTION: Do not get in eyes. Do not take internally. FIRST AID: EYES – Flush with water, 10-15 minutes. If irritation persists, call a physician. INTERNALLY – Give large amounts of water or milk. Call a physician.
KEEP OUT OF REACH OF CHILDREN. Do not reuse this container for storing beverages or other liquids.

BRIGHT GREEN™
Brighten Your World™
Every day we make choices that impact the health of our planet. With this in mind, we've developed Bright Green™—home care products that are safe, highly effective, and gentler on the environment. We can make a difference every time we clean our homes, change a light bulb, or wash the laundry. Together we can contribute to a cleaner, healthier planet.
Brighten Your Home
Our dishwasher gel is phosphate-free—which means that while it's tough on grease, it's gentler on aquatic life.
• Biodegradable
• No petroleum solvents
• Contains naturally derived ingredients/surfactants
• Phosphate-free
• Not tested on animals
• VOC free (volatile organic compounds)
Packaging made from 25% post-consumer waste. Please recycle this container.
Directions: Apply automatic dishwasher gel detergent directly into auto dish compartment.
CONTAINS: Naturally derived non-ionic surfactant, thickener derived from xanthan gum, sodium citrate derived from carbohydrates.
CAUTION: EYE IRRITANT. Avoid contact with eyes. Do not swallow. KEEP OUT OF REACH OF CHILDREN.
FIRST AID: In case of eye contact, flush eyes with water for at least 15 minutes. Seek medical attention if irritation persists. If swallowed, DO NOT INDUCE VOMITING. Drink water and immediately seek medical attention. Always follow manufacturer recommendations on how to use this product.

Brighten Your Home
Our streakless glass & surface cleaner is ammonia-free.
• Made from naturally derived ingredients/surfactants
• Biodegradable
• No petroleum solvents
• No ammonia
• Product not tested on animals
Packaging made from 25% post-consumer waste. Please recycle this container.
Cuts through filmy residue and is safe for multiple surfaces throughout the kitchen and bathroom including glass, mirrors, appliances, stainless steel and sealed granite. For any surfaces you are unsure about, test on a small inconspicuous area first. Not suitable on raw, waxed or polished wood, carpet, fabrics, leather.
Directions:
1. Turn nozzle to "Spray" for large surface areas. Or "Stream" for targeted cleaning.
2. Spray 8 inches from surface.
3. Wipe immediately with lint free cloth, change cleaning cloth frequently for best results.
4. After use, rinse cloth with water.
5. Turn nozzle "OFF" for safe storage.
CONTAINS: NONIONIC SURFACTANT (NATURALLY DERIVED), NATURAL CITRUS OIL.
KEEP OUT OF REACH OF CHILDREN.
Always follow manufacturer recommendations on how to use this product.

About Us

Welcome to Mrs. Green's Natural Market located at 780 White Plains Rd. in Scarsdale. We are your one stop for natural, organic food and supplements. We carry a huge selection of wheat free, dairy free, vegan , low carb, kosher products, etc. We carry only the freshest , certified organic produce. We believe that assisting our customers is our primary job. We have knowledgeable managers in every department to assist you. Our cashiers are well trained with efficiency and courtesy. We make every effort to make your shopping experience a pleasurable one, and we look forward to your next visit. If you need help in carrying your groceries to your car, one of our staff members will gladly assist you.
