Opposition No. 91187001

Drexel University

v.

Easepal Enterprises Limited

On February 4, 2009, the parties filed applicant's proposed amendment to its application Serial No. 77267851, with opposer's written consent, and opposer's withdrawal of the opposition, contingent upon entry of the amendment.

By the proposed stipulated amendment applicant seeks to change the identification of goods in class 22 **from:**

"Unfitted vehicle covers; camouflage nets for visual and radar uses; tarpaulins; awnings; tents; awnings of synthetic materials, not of metal; car towing ropes; ropes; packaging bags of textile material,"

To:

"Unfitted vehicle covers; camouflage nets for vehicles for visual and radar uses; tarpaulins for vehicles; awnings of synthetic materials, not of metal for vehicles; vehicle towing ropes."

Inasmuch as the proposed amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer

consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed without prejudice inasmuch as no answer is of record.
