Opposition No. 91195524

TeleTracking Technologies,
Inc.

v.

Qforma, Inc.

**M. Catherine Faint,
Interlocutory Attorney:**

On September 10, 2010, applicant filed a proposed amendment to its application Serial No. 77800048, with opposer's consent.

By the proposed amendment applicant seeks to change the identification of goods in International Class 9 **from** "computer software for collecting, analyzing and modeling sales and marketing information in the field of healthcare" **to** "computer software for collecting, analyzing and modeling sales and marketing information in the field of healthcare; said software not used for providing operational efficiencies in the areas of patient turn over, surgical procedure or medical testing status, management of healthcare professionals and staff or for use with real time location systems or radio frequency identification technology and systems used to

monitor, analyze and report location and status of healthcare professionals and staff, patients and equipment."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

If this resolves the dispute herein, opposer is allowed until thirty days from the mailing date of this order to file a withdrawal of the opposition, failing which the opposition will go forward on the application as amended. See Trademark Rule 2.106(c).
