Opposition No. 91196493

Syncron International AB

v.

Jay A. Evans, Jr. dba
Syncron Technologies

On June 27, 2011, the parties filed applicant's proposed amendment to application Serial No. 85001358, with opposer's consent, and opposer's withdrawal without prejudice of the opposition, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to amend the identification of services **from** "computer software installation, maintenance and repair" **to** "technical support services, namely, computer software installation, maintenance and repair."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed without prejudice.
