Opposition No. 91198126

Acer Incorporated

v.

Minntech Corporation

It has come to the Board's attention that this opposition was instituted based on an amended notice of opposition filed January 10, 2011. The opposer is informed that if it wished to amend its original notice of opposition, it should have filed the amended notice under the original opposition number, instead of filing a second notice of opposition electronically.

Accordingly, the Board's order dated March 11, 2011 is vacated and this opposition is dismissed as null and void.¹
