By the Trademark Trial and Appeal Board:

Applicant's "Request the Board to seal some of documents that disclosed personal and medical information" filed March 4, 2014 is noted.

Applicant is directed to TBMP 502.02. Confidential information filed without appropriate designation in accordance with the Board's standard protective order or one adopted by the parties as a substitute for the standard order is not regarded as confidential and will not be kept confidential by the Board and will be placed in the Board's public records available on the Internet. To be handled as confidential, and kept out of the public record, submissions to the Board must be filed under a separate cover or designated as confidential in ESTTA. Both the submission and its cover must be marked confidential and must identify the case number and the parties. A copy of the submission with the confidential portions redacted must also be submitted for public view.

When filing confidential documents electronically through the Board's ESTTA system, the party must use the "File Documents in a Board Proceeding" option, select "CONFIDENTIAL Opposition, Cancellation or Concurrent Use," enter the proceeding number and click "Start."

The documents filed in this manner will not be viewable in the publicly available electronic proceeding file. The party filing the confidential document electronically must also file a separate redacted version of the confidential filing.
