coggins

Mailed: October 30, 2012

Opposition No. 91200436

CardioMEMS, Inc.

v.

Medinol Ltd.

Karl Kochersperger, Paralegal Specialist:

Applicant's consented motion to suspend (filed October 22, 2012) is granted. Briefing and consideration of the outstanding motion to amend are suspended pending settlement negotiations. Dates are reset in accordance with applicant's motion.

As a reminder, should the parties wish to continue the suspension period for briefing and consideration of the outstanding motion, they should attach their own motion in ESTTA clearly stating the length of suspension sought and the date on which a reply brief is due. Once a reply is in -or if no reply is filed by the deadline allowed therefor- the Board will take up the motion to amend.
