STIPULATION FOR ADMISSION OF THIRD PARTY DECLARATION

Opposers Briggs & Stratton Corporation (“Briggs”) and Kohler Co. (“Kohler”) (collectively, “Opposers”) and Applicant Honda Giken Kogyo Kabushiki Kaisha (“Honda”) (collectively, “Parties”), by and through their respective counsel of record, hereby stipulate and agree as follows:

1. Opposers wish to introduce evidence via certain third parties.
2. The Parties have agreed that in lieu of trial testimony, such evidence can be introduced in the form of affidavits signed by the third parties’ representatives.

WHEREAS Opposers seek to introduce the Affidavit of Brad Murphy, Executive Vice President of Robin America, Inc., d/b/a/ Subaru Industrial Power Products, attached hereto as Opposers' Trial **Exhibit HH**, as evidence to these proceedings;

WHEREAS Opposers seek to introduce the Affidavit of Larry Cotten, Chief Executive Officer of EquipSource, LLC, attached hereto as Opposers' Trial **Exhibit II**, as evidence to these proceedings;

WHEREAS Opposers seek to introduce the Affidavit of Denis Bedard, General Manager for All Power America, also known as Jiangdong North America Corp., attached hereto as Opposers' Trial **Exhibit JJ**, as evidence to these proceedings;

WHEREAS Opposers seek to introduce the Affidavit of Allen Gillette, Executive Vice President of Engineering for Generac Power Systems, Inc., attached hereto as Opposers' Trial **Exhibit KK**, as evidence to these proceedings;

WHEREAS Honda agrees not to object to Opposers' Trial Exhibits HH, II, JJ and KK on the grounds of hearsay or authenticity, but reserves its right to object to the relevance of the statements and information contained in Exhibits HH, II, JJ and KK.

BASED UPON THE FOREGOING, IT IS HEREBY STIPULATED that **OPPOSERS' TRIAL EXHIBITS HH, II, JJ and KK** attached hereto shall be introduced into evidence in these proceedings.

Peter F. Sewell

3. Subaru sells a series of engines under its EX brand. Subaru's EX Series of engines includes 7 models: Model Nos. EX13, EX17, EX21, EX27, EX30, EX35 and EX40.
4. All of the engine models in the EX Series, except the Model EX30, are single cylinder horizontal shaft general utility, engines with top mount air cleaners, and include a low-profile air cleaner factory option which is designed to fit within generator applications. The Subaru Model EX30 engine has only a low profile air cleaner and is designed to fit within generator applications.
5. Subaru has sold Model Nos. EX13, EX17, EX21 and EX27 in the United States since 2001.
6. Subaru has sold Model Nos. EX35 and EX40 in the United States since 2007.
7. Subaru also sells a series of engines under its SP brand. Subaru's SP Series of engines includes 2 models: Model Nos. SP170 and SP210.
8. Both of the engine models in the SP Series are single cylinder horizontal shaft general utility engines with top mount air cleaners, with low-profile air cleaner factory option.
9. Attached hereto as **Exhibit A** are true and correct copies of portions of Subaru marketing materials which include photographs of Subaru's EX and SP engine models with horizontal shaft engines with top-mounted air cleaners that are sold in the United States.
10. Attached hereto as **Exhibit B** is a true and correct copy of a list of Subaru's U.S. distributors for EX and SP Series horizontal shaft engines.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on July 28, 2015 at 1:15pm at Lake Zurich, IL.

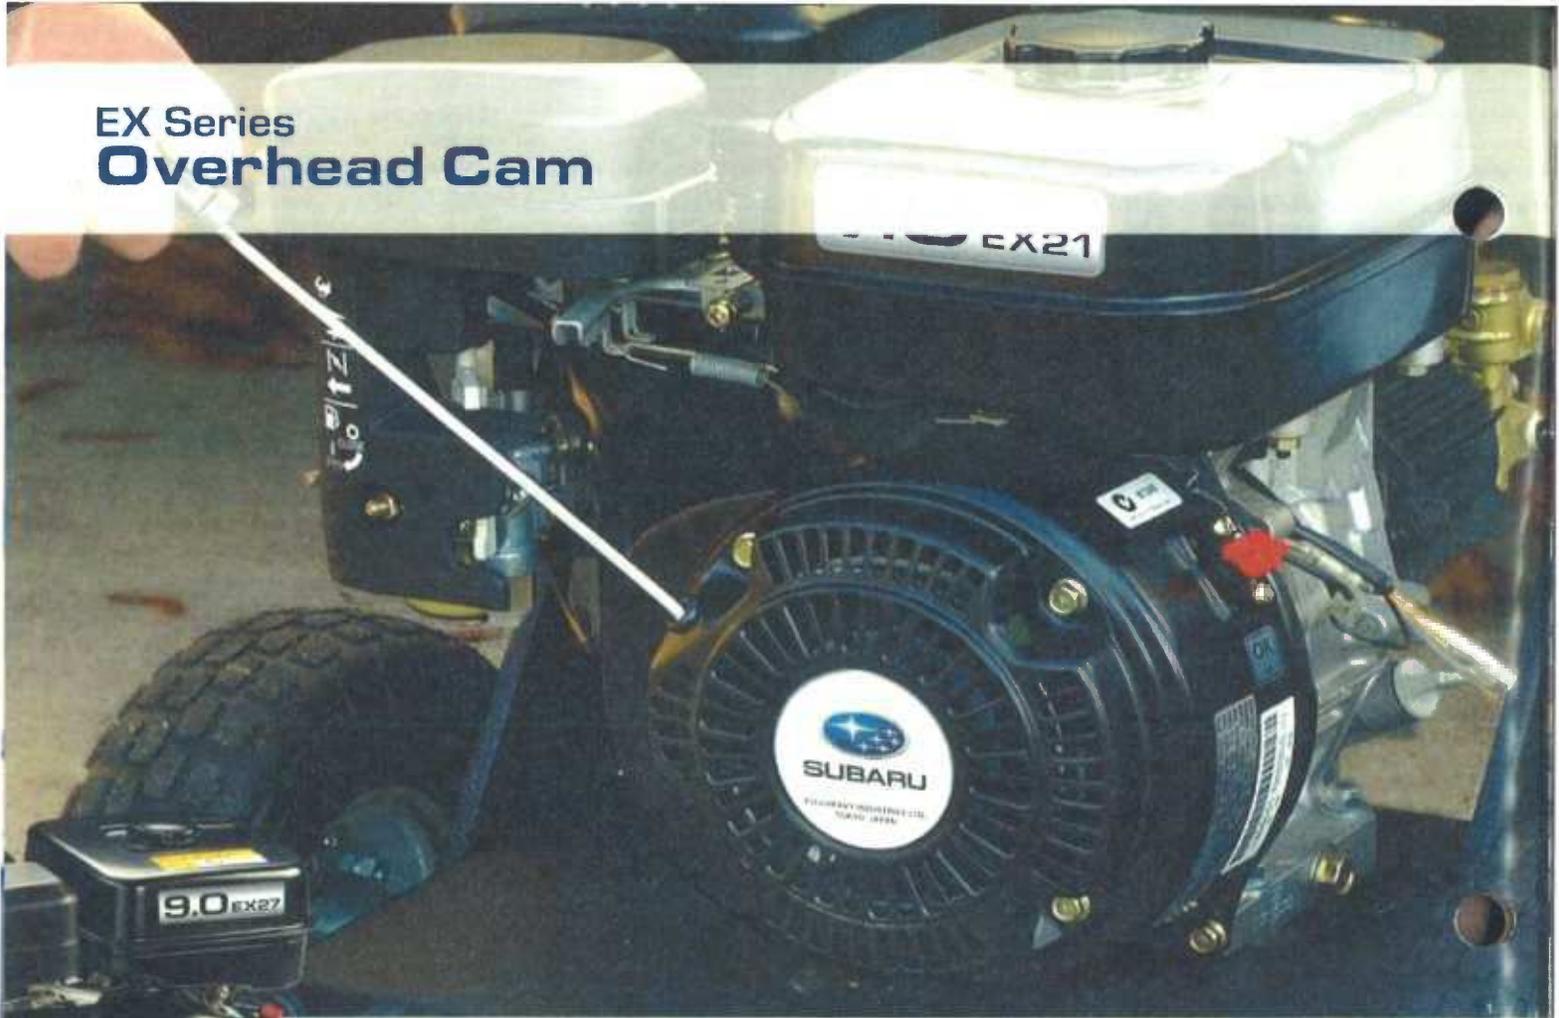

Brad Murphy

EXHIBIT A

Full Line
ENGINES

EX Series Overhead Cam

Advanced technology. Experienced craftsmanship. Subaru EX engines lead the industry. Featuring nine models from 4.3 to 14 horsepower, the EX engines offer superior performance and durability over same-class competitive models.

Factory Options

- Charging Systems up to 200 Watts*
- Electronic Low Oil Shut-Off System
- Key, Tapered or Threaded Shafts
- Manual and Cable Remote Throttle Control

- Solenoid-Actuated Idle Control**
- Manual** or Remote Control Choke
- Multiple Air Cleaner Options

Low-Profile Air Cleaner

Accommodates a compact design for generator applications.

Rotating Screen

Provides superior protection from unwanted debris.

*for 6 hp and above ** select models only

Electric Start*

For quick, convenient and easy starting.

Cyclone Pre-Cleaner

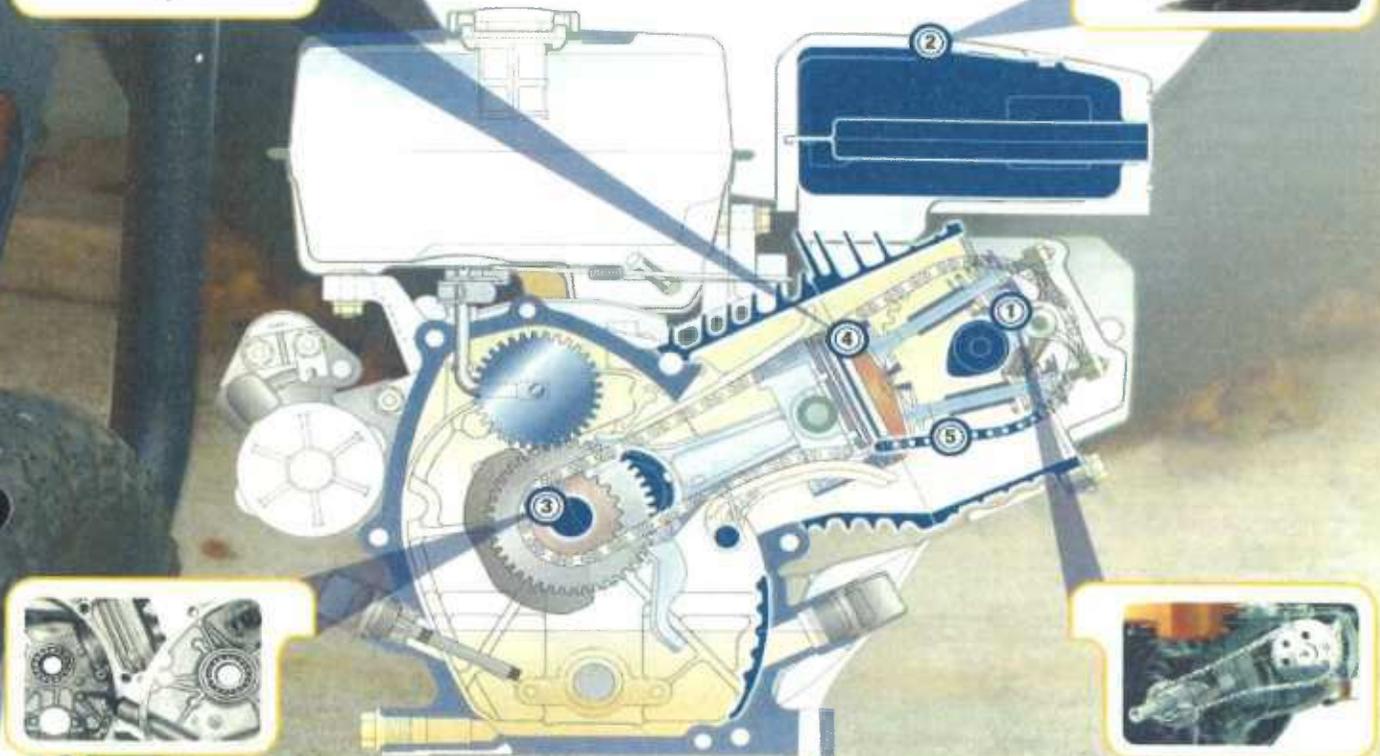

Ensures engine protection even in high dust environments.

Subaru engine models available in EPA Phase 3, CARB Tier 3, EU Stage II emission compliant and Canadian ICES regulation compliant configurations.

4.3-14.0 HP

EX13 | EX17 | EX21 | EX27 | EX30 | EX35 | EX40

Features & Benefits

- ① **Chain-Driven Overhead Cam**
Enables the engine to breathe better and run quieter. OHC technology, in combination with the hemispherical combustion chamber, elevates starting ease and eliminates kickback. Required pulling force is reduced by 30 to 40 percent with an automatic decompression system. Engines start instantly – even at temperatures as cold as -10°C – without any perceptible kickback.
- ② **Optimized Capacity Rigid Muffler**
Combined with 33 percent fewer moving parts, ensures noise levels a full 2 dbA below competitive models.
- ③ **Dual Ball-Bearing Crankshaft Support**
Ensures maximum stability and durability in the most demanding conditions.
- ④ **Hemispherical Combustion Chamber**
Provides optimum intake and exhaust valve placement allowing up to 9:1 compression ratio for superior performance and efficiency.
- ⑤ **Case-Hardened Steel Timing Chain**
Allows for precision timing and maximum durability.

SP Series Overhead Cam

Engineered with the exclusive Subaru OHC technology of our maximum durability engines, the SP Series engines offer maximum value for light commercial and premium residential equipment.

Factory Options

- Electric Start 15-Watt Charging System
- Key, Tapered Shafts
- Manual and Cable Remote Throttle Control
- Multiple Air Cleaner Options

Low-Profile Air Cleaner

Accommodates a compact design for generator applications.

Dual Element Cleaner

Ensures engine protection even in high dust environments.

Electric Start

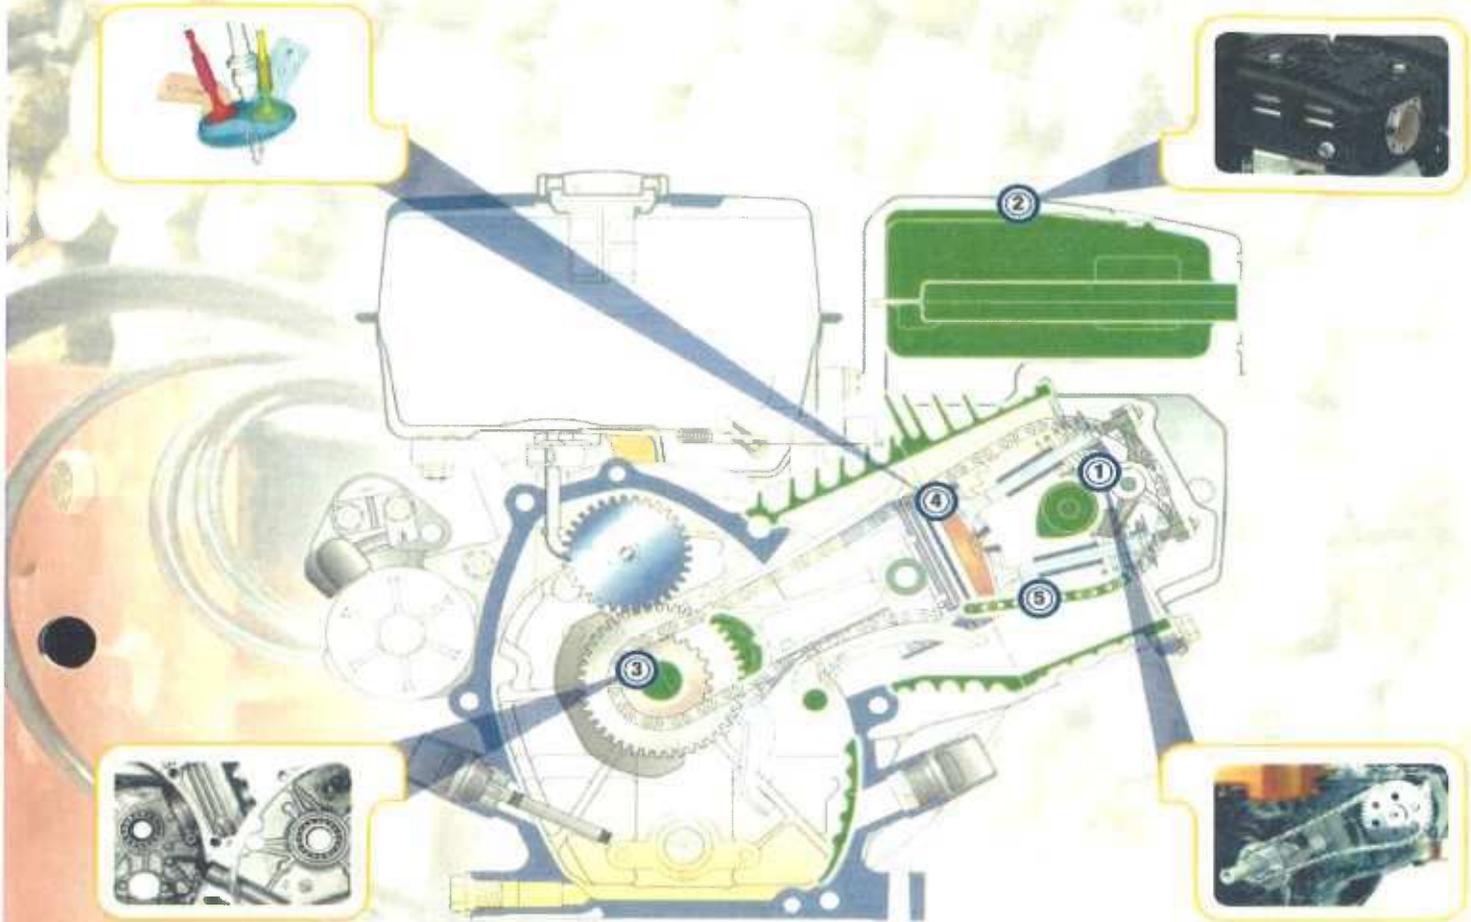

For quick, convenient and easy starting.

Subaru engine models available in EPA Phase 3, CARB Tier 3, EU Stage II emission compliant and Canadian ICES regulation compliant configurations.

5.7-7.0 HP

SP-170 | SP-210

Features & Benefits

- ① Chain-Driven Overhead Cam**
Provides easier starting, greater power and reduced emissions than same-class engines, when compared to older design technologies.
- ② Optimized Capacity Rigid Muffler**
Combined with 33 percent fewer moving parts, reduces noise levels a full 2 dbA below competitive models.
- ③ Dual Ball-Bearing Crankshaft Support**
Offers greater power delivery to the crankshaft, while ensuring maximum stability and durability under even the most demanding loads.
- ④ Hemispherical Combustion Chamber**
Allows the engine to utilize a higher compression ratio and, when combined with OHC technology, produces more power and torque.
- ⑤ Case-Hardened Steel Timing Chain**
Provides precision timing, while ensuring maximum durability.

Subaru Engines High Performance

High Power & Torque

Overhead cam (OHC) technology and the hemispherical combustion chamber allow the Subaru EX engines to use a higher compression ratio up to 9:1.

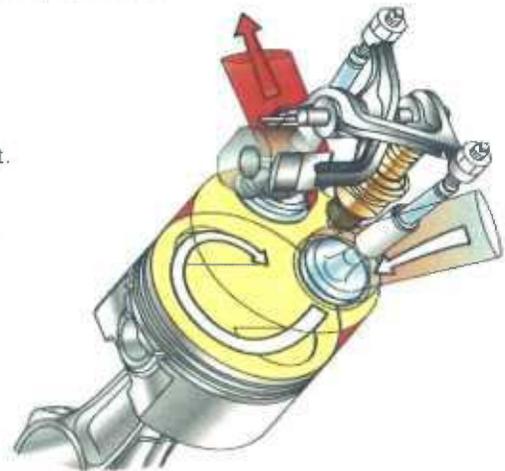

What is the significance of a higher combustion ratio?

More Power

A more powerful engine makes for more powerful and productive equipment.

Increased Efficiency

Lower fuel consumption and efficient performance reduce operating costs.

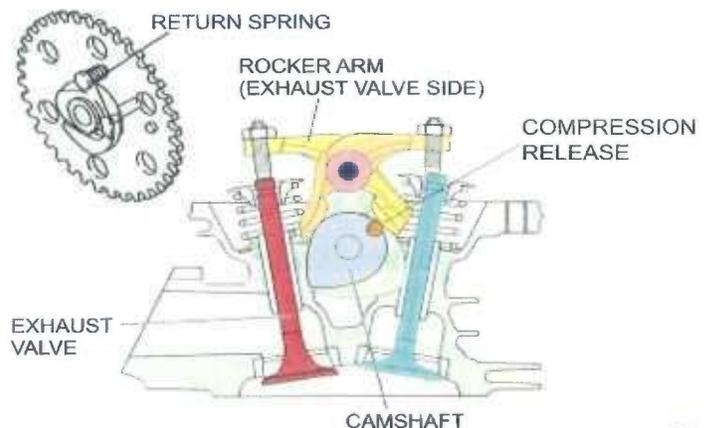

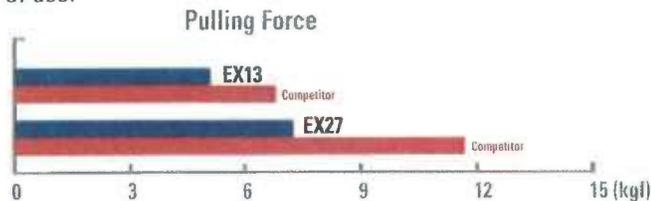

High Compression OHC Design

Easier to Start

What's the benefit of Subaru's advanced mechanical decompression system?

Easy Starting

With 30 to 40 percent less recoil pulling force than competitive models, Subaru engines provide smooth, easy starts. Sure, all engines start easily when they're brand new. Subaru OHC engines continue to start easily even after thousands of hours of use.

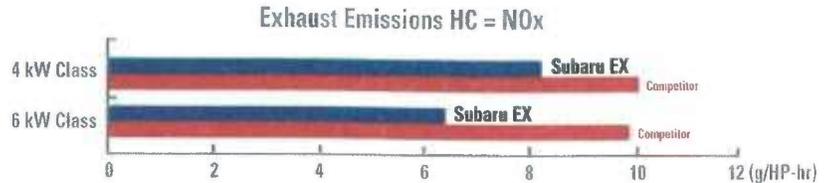

Compression Release

Lower Emissions

The higher efficiency of the overhead cam (OHC) technology translates to less unused fuel emitted by the engine.

- OHC – Improved combustion characteristics.
- Lower exhaust emissions.
- Reduced fuel consumption.
- Easily meets EPA Phase 3 and CARB Tier 3 emissions standards.

Quieter Operation

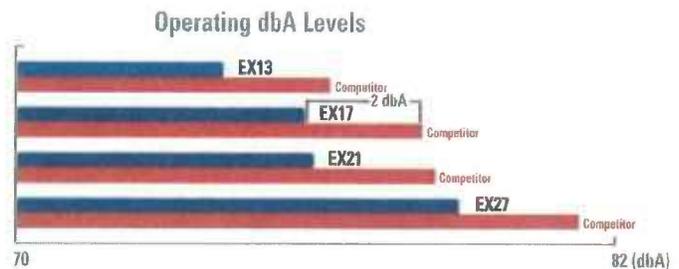

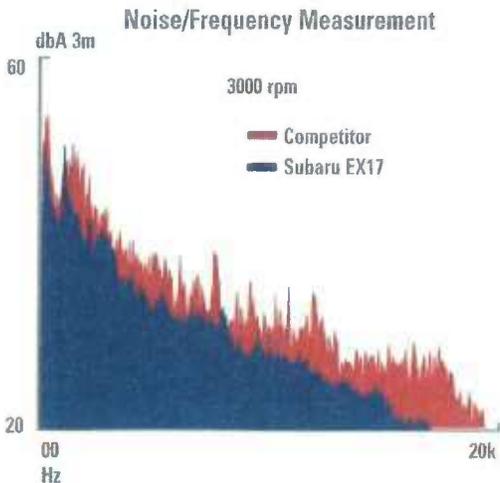

What's the benefit of 33 percent fewer moving parts?

Reduced Mechanical Noise

Subaru engines are a full 2 dbA quieter than competitive models. The noise reduction is most noticeable in the higher frequency range.

Fewer Parts

With fewer parts to wear and break, Subaru OHC engines outlast the competition.

Powered By Subaru Engines

Insist on the Subaru performance package:

- Less recoil pulling force, an electronic ignition system and automatic decompression means easy starting every time and at every temperature.
- High power and torque, extended running times and high compression ratio ensure maximum power and premium performance in the most demanding applications.
- Cast-iron cylinder liners, high carbon steel crankshaft, steel ball bearings and electronic low oil shut-off maximize engine life with minimum maintenance.
- More than 5,000 service dealers in North America, and the most coveted five-year warranty in the industry.

Reliability. Dependability. Serviceability. It all adds up to Subaru.

A superior product. Exceptional service and support.
A name you can trust. It all adds up to **Subaru**.

There may be a million reasons you need a pump, but there's only one reason you need a Subaru. Reliability. Whether you're protecting your home from a destructive storm, drying out the 18th green, moving water on the farm or prepping a site for construction work – Mother Nature doesn't wait – and neither should you.

Reliability starts with Subaru's cutting-edge engine technology. Every pump in our line, from the centrifugal to the diaphragm, is powered by an industry-leading Subaru engine. Superior, dependable power combined with rugged frames and durable, wear-resistant volutes, impellers and seals result in a pump that's ready to go when you are. On demand in the most demanding applications – that's real reliability. That's what you can count on with Subaru.

Powered By Subaru Engines

Experience the Subaru package of performance:

- Less recoil pulling force, an electronic ignition system and automatic decompression means easy starting, every time and at every temperature.
- High power and torque, extended running times and high compression ratio ensure maximum power and premium performance in the most demanding applications.
- Cast-iron cylinder liners, high carbon steel crankshaft, steel ball bearings and electronic low oil shut-off maximize engine life with minimum maintenance.
- 5,000 service dealers in North America, and the most coveted 5-year warranty in the industry.

Reliability. Dependability. Serviceability. It all comes down to Subaru.

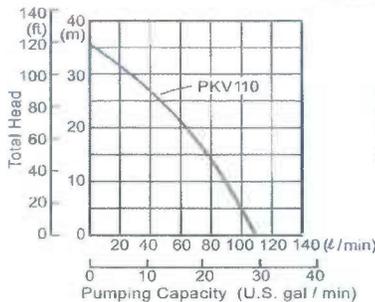

Pumps Centrifugal

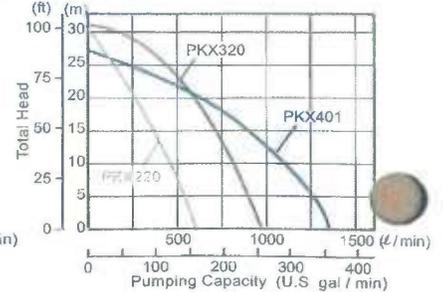

When there is water to be moved, projects to start and deadlines to meet – a reliable pump is a must. With a pump powered by Subaru’s industry-leading 4-cycle engines, reliability is a given. Equipped with a self-priming mechanism for easy operation, and a steel roll cage for protection, our pumps will withstand the rigors of any application.

Pump Performance

- PKV110** 1-inch suction/discharge ports | 28 gpm maximum discharge capacity
- PKX220** 2-inch suction/discharge ports | 172gpm maximum discharge capacity
- PKX320** 3-inch suction/discharge ports | 291 gpm maximum discharge capacity
- PKX401** 4-inch suction/discharge ports | 356 gpm maximum discharge capacity

Centrifugal Pumps

Pumps Semi-Trash

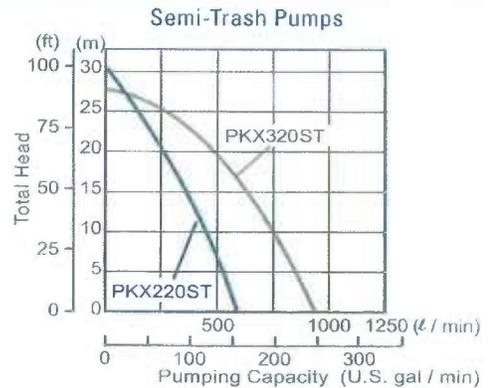

Designed to handle water with muck, silt and light debris, count on our semi-trash pumps for demanding water removal applications. Constructed with many of the same durable features as our trash pumps including a heavy-duty impeller and cast-iron volute, they're built rugged and reliable to withstand the wear of light abrasives.

Pump Performance

PKX220ST 2-inch suction/discharge ports | 153 gpm maximum discharge capacity

PKX320ST 3-inch suction/discharge ports | 246 gpm maximum discharge capacity

Pumps Trash

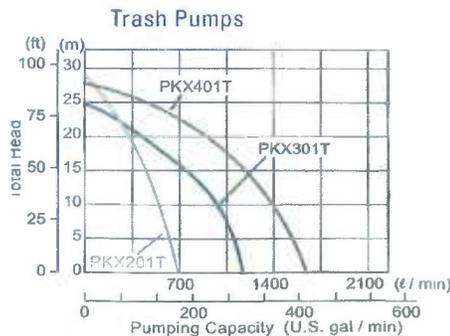

Premium performance, even in the most rigorous applications. That's what you can expect with Subaru's trash pumps. Oversized engines, robust seals, and quick clean out enable the efficient movement of large volumes of trash water. With pump capacities up to 449 gallons per minute, you won't find a more durable, reliable pump on the market.

Pump Performance

PKX201T 2-inch suction/discharge ports | 185 gpm maximum discharge capacity

PKX301T 3-inch suction/discharge ports | 314 gpm maximum discharge capacity

PKX401T 4-inch suction/discharge ports | 499 gpm maximum discharge capacity

PRODUCT OVERVIEW Model # LF173F-AHQ Internet # 203277120

LIFAN Power USA's 8 MHP (Maximum Horsepower) Industrial Grade OHV Engine is EPA Certified, extremely quiet and dependable, and is covered with our Warranty Policy. The 8 MHP (Maximum Horsepower) engine is offered with a 1 in. Horizontal Keyway Output Shaft. 8 MHP (Maximum Horsepower) Engines are also available with Electric Start, 18 Amp Charging System, 2:1 Clutch Reduction, and 6:1 Gear Reduction.

- Assembled dimension: 20 in. W x 20 in. D x 19 in. H
- 240 cc for reliable power
- 6:1 gear reduction for high-torque applications reducing engine rpm to 600 rpm
- 73 mm x 58 mm bore/stroke yields 85 ft.-lb. maximum torque
- Horizontal shaft design for heavy-duty and industrial applications
- 1 in. dia. x 3-31/64 in. L output shaft
- 8.2:1 compression ratio
- Ideal for cement mixers, roofing elevators, paint sprayers, aerators, agricultural equipment and construction equipment when rpm reduction to 600 rpm is required
- Easy-reach recoil starter system with auto-decompression for easy starting
- 1.7 gal. fuel tank capacity offers long run times
- Fuel-shutoff switch for easy transport and maintenance
- Adjustable throttle is easy to access
- Oversized muffler with safety heat shield for quiet operation

Product Description

Lifan offer industrial grade OHV engines that are quiet and provide dependable performance. All Lifan engines are built to meet and exceed industrial grade quality standards, true 1600 hours engines with cast iron sleeves, automotive grade rods, pistons, rings, crankshafts, cam shafts, and other internal parts. These replacement engines can be used for many applications including but not limited to pressure washers, air compressors, trenchers, concrete mixers, concrete saws, mortar mixers, go-karts and more. 1 of 1 people found the following review helpful

quit selling Lifan products.

By [Bruce Daniel](#) on October 7, 2014

after one year water pump stArted leaking badly. I contacted lifan 3 separate times to purchase a replacement pump. They took Mr credit card info and said part would shipped. After waiting for over a month, I again called Luclan. Brandon say they had no record of my call but he would handle and send another replacement part. Again I provided the credit car info. Over 2 months and still no replacement part. Help!

EXHIBIT B

REDACTED

of All Power horizontal shaft engines, and power equipment products containing All Power horizontal shaft engines.

4. All Power has sold horizontal shaft engine Model Nos. APE 7007 and 7009 since as early as 2011, and Model No. 7015 since as early as 2009, in the United States. All Power has sold pressure washer model numbers APW5117 and APW5118 in the United States since as early as 2011. All Power has supplied engines for Steele Products pressure washer model numbers SP-WG240N and SP-WG300 in the United States since as early as 2011 and 2010 respectively. Each of the foregoing referenced power products includes either Model Nos. APE 7007, 7009, or 7015 horizontal shaft engine with high mount air cleaner.

5. Attached hereto as **Exhibit B** is a chart showing All Power's approximate annual unit sales of the power products referenced in paragraph 4 above that include either Model No. APE 7007, 7009, or 7015 horizontal shaft engine with high mount air cleaner in the United States.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on the 28 day of JULY at 2015.

A handwritten signature in blue ink, appearing to read "D. Bedard", is written over a horizontal line.

AFFIDAVIT OF ALLEN GILLETTE

I, Allen Gillette, declare as follows:

- I am Executive Vice President of Engineering for Generac Power Systems, Inc. (“Generac”).
The matters set forth herein are based upon my personal knowledge, except where otherwise indicated, and if called as a witness I could and would testify competently thereto.
- I understand that Generac is providing this Affidavit in lieu of producing a witness for deposition in response to Kohler’s subpoena of July 9, 2015.

3. Generac produces and sells certain products which sometimes incorporate a single cylinder horizontal shaft engine under 15 HP, with such engine component sourced from a third party supplier.

4. Attached hereto as **Exhibit A** is a true and correct copy of a brochure showing photographs of a Generac product containing a horizontal shaft engine with top-mounted air cleaner sold in the United States.

5. Generac has sold the product described in paragraph 4 above, in the United States since 2011.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct. Executed on the 17TH day of JULY at WAUKESHA,
2015 WI

EXHIBIT A

residential

residential power washers

Generac residential power washers give you cleaning power, reliability and—above all—ease of use in an affordable, compact unit you can use to clean everything from patio furniture to driveways and decks. The user-friendly design makes it easy to assemble, connect hoses, move almost effortlessly regardless of terrain, and clean longer and more comfortably.

Quick-Click™ Nozzle tips
Up to five (depending upon model) for tackling any job

Integrated spray gun holder
Holds spray gun securely during transport and storage

Ergonomic spray gun
Cushion grip and easy-to-pull trigger reduce fatigue and improve comfort

High Pressure hose
Connects to the rear of the spray gun for maximum convenience

Easy maneuverability
Engine and pump are perfectly balanced over the axle for almost effortless maneuverability

User friendly controls
All in a single location, including on/off, choke, and fuel shutoff

Powerful Generac OHV horizontal-shaft engine
For maximum cleaning performance

Convenient on-board detergent tanks
3/4 gallon (2800PSI and 3100PSI unit only)

Unique foot rest
Stabilizes the unit during startup

Easy-access axial cam pump
No more kneeling on the ground to connect hoses

what's included

- Power washer
- Wand
- Hose
- Nozzle tips
- Engine oil supply
- Owner's manual
