Opposition No. 91201089

TeleTracking Technologies,  
Inc.

v.

Companion Corporation

On March 15, 2012, the parties filed applicant's proposed amendment to its application Serial No. 85179382, with opposer's consent, and opposer's withdrawal without prejudice of the opposition, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to amend the identification of goods in International Class 9 from:

"providing on-line non-downloadable software for monitoring, analyzing and reporting facility entry and exit of individuals"

to

"providing on-line non-downloadable software for monitoring, analyzing and reporting facility entry and exit of individuals, excluding software for providing operational efficiencies for the monitoring within hospitals of (i) patient placement, (ii) patient transport, (iii) procedure status, and (iv) management of hospital professionals and staff."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed without prejudice.
