THE TRADEMARK TRIAL AND APPEAL BOARD

Application Serial No. 85/282081

Mark: TAGLINK

Published in the Official Gazette: August 9, 2011

TECHNOLOGY ADVANCEMENT
GROUP, INC.,

v.

Opp. No. _____

LMVH SWISS MANUFACTURES,
SA

NOTICE OF OPPOSITION

Technology Advancement Group, Inc. ("Opposer"), a Virginia corporation with its principal place of business at 22355 TAG Way, Dulles, Virginia 20166, believes it will be damaged if a registration is granted to the above-captioned application of LMVH Swiss Manufactures, SA, a Swiss company with its address of record at Rue Louis-Joseph Chevrolet 6A 2300, La Chaux-de-Fonds, Switzerland, and hereby opposes registration of said application on the following grounds:

1. Opposer is the owner of U.S. Registration No. 2,106,170 ("the '170 Registration") for the mark TAG for the following goods: *computers, computer peripherals and computer software for use in scientific and engineering applications, and for use in office and business management applications*. The '170 Registration has attained incontestable status.

2. Opposer is the owner of U.S. Registration No. 3,113,307 ("the '307 Registration"), for the mark TAG for the following goods: *computer system services, namely computer system consulting, computer software programming, testing and development, and computer system integration, development, and design*.

3. Opposer is the owner of U.S. Registration No. 3,113,308 ("the '308

Registration”) for the mark TAG for the following services: *providing multiple user access to a global computer information network and designing and implementing network web pages for others and hosting the web sites of others on a computer server for a global computer information network; and computer system services, namely computer system consulting, computer software programming, testing and development, and computer system integration, development and design.*

4. Opposer is the owner of U.S. Registration No. 3,286,202 (“the ‘202 Registration”) for the mark TAG and U.S. Registration No. 3,286,204 (“the ‘204 Registration”), for the mark TAG & Design, both for use in connection with the following goods and services: *computers, laptop computers; computer hardware; computer hardware for telecommunications; computer networking hardware; communications servers used as computer hardware; network access server hardware; computer software for application and database integration; computer network hubs, switches and routers; LAN (local area network) access points for connecting network computer users; computer storage devices, namely, hard drives, disc drives, flash drives, and RAIDS; flat panel displays; liquid crystal displays; computer monitors; computer keyboards; computer carrying cases; ruggedized computer carrying cases in International Class (“IC”) 09; news bulletins; printed reference guides relating to computer hardware and computer software in IC 16; managing telecommunications networks for others; operation and administration of telecommunication systems and networks for others in IC 35; repair or maintenance of computers; maintenance and repair of computer hardware; maintenance of computer and telecommunication networks for others in IC 37; training of specialists in the computer hardware and software industry; training in the field of customer service; training in the field of quality assurance; training in the field of knowledge management; training in the field of local area network and wide area network analysis, design and implementation; training the field of asset management; training the field of computer data backup recovery disaster; training the field of computer and telecommunication network configuration*

management; training in the field of computer facility and data center management in IC 41; technical support services, namely, troubleshooting of computer hardware and software problems; consulting services in the field of computer hardware and software; computer software design for others; consultation in the field of computer and information security; engineering; computer network engineering; telecommunications network engineering; communications engineering; mechanical engineering; electrical engineering; thermal engineering; technical support services, namely, troubleshooting of telecommunications hardware and software in IC 42; and consulting services in the field of maintaining the security and integrity of databases in IC 45.

5. Opposer is the owner of U.S. Trademark Registration No. 3,113,317 (“the ‘317 Registration”) for the mark TAG IS IT for the following services: *designing and implementing network web pages for others and hosting the web sites of others on a computer server for a global computer information network; and computer systems services, namely computer system consulting, computer software programming, testing and development, and computer system integration, development and design.*

6. Opposer is the owner of U.S. Trademark Registration No. 3,113,318 (“the ‘318 Registration”) for the mark TAG COMMERCE for the following services: *providing online commerce services, namely, designing and implementing network web pages for others and hosting the web sites of others on a computer server for a global computer information network and computer system consulting, computer software programming, testing and development, and computer system integration development and design.*

7. Opposer is the owner of U.S. Registration No. 3,888,425 (“the ‘425 Registration”) for the mark TAG for the following services: *web portal development for others; computer software development; architecture analysis; military operation analysis services in the area of cyber security, namely, computer security consulting.*

8. Opposer is the owner of pending Application No. 85266742 (“the ‘742 Application”), filed March 14, 2011 on an intent-to-use basis under Section 1(b) of the Trademark Act, to register the mark TAG COMMANDER for the following goods: *computer hardware; handheld personal computers.*

9. The marks set forth in the ‘170 Registration, ‘307 Registration, ‘308 Registration, ‘202 Registration, ‘204 Registration, ‘317 Registration, ‘318 Registration, ‘425 Registration and the ‘742 Application shall be referred to herein collectively as the “TAG Marks”, and the aforementioned registrations shall collectively be referred to herein as “the TAG Registrations.” As proof of title and status, attached hereto at Exhibit A, and incorporated by reference herein, are true and correct printouts of the PTO’s TARR and Assignment records for the TAG Registrations and the ‘742 application.

10. Opposer long has used the TAG Marks in commerce in connection with at least the goods and services set forth in the ‘170 registration, ‘307 registration, ‘308 registration, ‘202 registration, ‘204 registration, ‘317 registration, ‘318 registration, and ‘425 registration. As the result of Opposer’s longstanding use of and investment of resources in the TAG Marks, Opposer has developed significant goodwill in the TAG Marks.

11. On March 31, 2011, Applicant filed U.S. Application Serial No. 85/282081 (the “Opposed Application”) on an intent-to-use basis under Section 1(b) of the Trademark Act to register the mark TAGLINK for the following goods: *handheld mobile digital electronic devices for the sending and receiving of telephone calls, for use as a digital audio player, and for use as a camera; accessories for the foregoing, namely, fitted cases, protective covers, carrying holsters, headsets, headphones and earphones* (“Applicant’s Goods”).

12. Opposer’s use of the TAG Marks and/or the filing dates of the applications that matured into the TAG Registrations, and the filing date of the ‘742 Application, precede any rights of

Applicant to the mark set forth in the Opposed Application.

13. In view of the similarities between the TAG Marks and the TAGLINK mark that is the subject of the Opposed Application, and the relationship between the goods and services identified by the TAG Marks and Applicant's Goods, it is likely that members of the public will erroneously believe that Applicant's Goods originate with Opposer, or that Applicant's Goods are in some manner connected to, associated with or endorsed or sponsored by Opposer, all to the harm of Opposer's goodwill and reputation as symbolized by the TAG Marks.

14. Applicant's use and registration of the mark set forth in the Opposed Application will create a likelihood of confusion, mistake and/or deception among consumers, within the meaning of Trademark Act § 2(d), all to the detriment of Opposer.

15. If Applicant is granted registration of the subject mark, it would obtain a prima facie exclusive right to use of its mark that would cause damage and injury to Opposer.

WHEREFORE, Opposer respectfully requests that this opposition be sustained, and that Application No. **85/282081** be denied registration.

Respectfully submitted,

TECHNOLOGY ADVANCEMENT GROUP, INC.
