6. Applicant is without knowledge or information sufficient to form a belief as to the truth of allegations contained in Paragraph 6 of the Notice of Opposition and accordingly denies the allegations.

7. Applicant is without knowledge or information sufficient to form a belief as to the truth of allegations contained in Paragraph 7 of the Notice of Opposition and accordingly denies the allegations.

8. Applicant is without knowledge or information sufficient to form a belief as to the truth of allegations contained in Paragraph 8 of the Notice of Opposition and accordingly denies the allegations.

9. Applicant is without knowledge or information sufficient to form a belief as to the truth of allegations contained in Paragraph 9 of the Notice of Opposition and accordingly denies the allegations.

10. Applicant admits that it filed an intent-to-use application for registration of the mark PINGI for the goods listed in Paragraph 10 of the Notice of Opposition.

11. Applicant is without knowledge or information sufficient to form a belief as to the truth of allegations contained in Paragraph 11 of the Notice of Opposition and accordingly denies the allegations.

12. Applicant denies each and every allegation contained in Paragraph 12 of the Notice of Opposition.

13. Applicant denies each and every allegation contained in Paragraph 13 of the Notice of Opposition.

14. Applicant denies each and every allegation contained in Paragraph 14 of the Notice of Opposition.

15. Applicant denies each and every allegation contained in Paragraph 15 of the Notice of Opposition.

16. Applicant admits that it filed an intent-to-use application for registration of the mark PINGI. Applicant is without knowledge or information sufficient to form a belief as to the truth of all other allegations contained in Paragraph 16 of the Notice of Opposition and accordingly denies the allegations.

17. Applicant denies each and every allegation contained in Paragraph 17 of the Notice of Opposition.

18. Applicant denies each and every allegation contained in Paragraph 18 of the Notice of Opposition.

19. Applicant denies each and every allegation contained in Paragraph 19 of the Notice of Opposition.

20. Applicant denies each and every allegation contained in Paragraph 20 of the Notice of Opposition.

21. Applicant denies each and every allegation contained in Paragraph 21 of the Notice of Opposition.

FURTHERMORE, Applicant sets forth the following in support of its position:

22. Applicant affirmatively alleges that it has made continuous and substantial usage of its famous mark PINGI in commerce in many countries outside of the United States of America since the mark was adopted in 2006. The PINGI mark is a valuable asset of Applicant and carries considerable goodwill and consumer acceptance of its products sold under the mark, including chemicals used in dehumidification, dehumidifiers and related plastic containers for household use. Such goodwill and widespread usage has made the mark distinctive to the Applicant. The PINGI mark has been registered in thirty nine (39) countries, namely twenty seven (27) members of the European Union, Norway, Bosnia & Herzegovina, Turkey, Croatia, Switzerland, Brazil, Australia, New Zealand, Korea, Japan, Singapore, and Viet Nam. The registration certificates for these registrations are attached hereto as Exhibit A. In 2010, the Canadian Trademarks Office allowed the registration of the PINGI trademark. Opposer manufactures sporting equipment, namely golf clubs and apparel, and despite the usage of both marks internationally for six years, there is no evidence of confusion or dilution. To the extent that Opposer claims the use of the PINGI mark is confusingly similar or in dilution of the following marks, Applicant alleges abandonment: U.S. Registration Nos. 3599013, 3728814, 3617336, 3873555, 3228368, 3860326, 3171977, 3867803, 3795969 and 3873544.

23. Applicant further affirmatively alleges that there is no likelihood of confusion, mistake or deception because, inter alia, Applicant's mark and the pleaded mark of Opposer are not confusingly similar. Any similarity, if at all, between Applicant's mark and the pleaded mark of the Opposer is in the portion "PING" which, upon information and belief, has been used and

registered by numerous third parties for various goods and services. As a result, Opposer cannot base any similarity between its pleaded mark and the mark of Applicant of the "PING."

24. Applicant further affirmatively alleges that there is no likelihood of confusion, mistake or deception because, inter alia, Applicant's mark is used with the goods completely different from the goods the pleaded mark of Opposer is allegedly used with. Applicant filed the application for the mark PINGI for "chemicals used in desiccation and dehumidification, namely, moisture control chemicals in the form of granules that absorb and release moisture to control relative humidity" in International Class 001, "dehumidifiers, dryers, for removing moisture from air; evaporators; humidifiers" in International Class 011, and "plastic containers for household use" in International Class 021. None of the registrations of Opposer describe anything similar to the goods used with the Applicant's mark. Any trademark or service mark rights that Opposer may have are narrowly circumscribed to the goods or services indicated in its registrations and any other use would not lead to a likelihood of confusion. To the extent that applicant claims an extensive registration of its mark for goods or services unrelated to its core sporting equipment and clothing business, Applicant disputes that such marks are in use in commerce and alleges abandonment.

25. Applicant further affirmatively alleges that there is no likelihood of dilution because Opposer's and Applicant's marks are not sufficiently similar; there are, upon information and belief, numerous uses and registrations of third party marks with the "PING" formative; Applicant never intended any association with the Opposer's mark or its variation; and upon information and belief, ordinary prospective purchasers of Applicant's products do not associate Applicant's and Opposer's marks.

26. The Notice of Opposition fails to state any claim upon which relief can be granted.

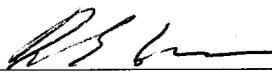

27. Opposer will not be damaged by the issuance to Applicant of the registration sought.

WHEREFORE, Applicant respectfully requests that the Notice of Opposition be dismissed with prejudice and the Applicant's proposed mark in Application Serial Number 85/275,374 be allowed for registration.
