Opposition No. 91208103

IdenTrust, Inc.

v.

MorphoTrust USA, Inc.

On February 13, 2014, the parties filed applicant's proposed amendment to its application Serial No. 85594287, with opposer's consent, and opposer's withdrawal of the opposition, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to amend the identification of services from "identification verification services, namely, the issuance and authentication of identification cards, driver's licenses, hunting and fishing licenses, and other identity documents" to "identification verification services, namely, the issuance and authentication of identification cards, driver's licenses, hunting and fishing licenses, and other identity documents, none of the foregoing includes services for public key infrastructure (PKI)-based digital certificates via certification authorities.

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed in accordance with the agreement between the parties.
