v.

Jefferson Audio Video Systems, Inc.
Applicant.

Opposition No. 91208602

APPLICANT'S RESPONSE TO BOARD ORDER

In an order dated June 9, 2014, the Board ordered Applicant to submit a red-lined version of the proposed amendments to Serial Nos. 85/531,119 and 85/531,110. The Board allowed Applicant twenty days (through June 29, 2014) to submit the red-lined version of the proposed amendments. Applicant hereby timely responds by submitting the requested redlined version of the proposed amendments to both applications.

Applicant hereby submits the redline version of the proposed amendment to Serial No. 85/531,119 as follows, with goods to be deleted in strikethrough:

Class 9: Video wrist monitor connected to a video camera; assistive listening devices not for medical purposes, namely, headphones, microphones, transmitters and receivers; ~~computer servers~~; Internet Protocol video encoders; electrical cables; speaker distribution boxes to distribute audio input to multiple speakers.

The clean version of the proposed amendment to Serial No. 85/531,119 is as follows:

Class 9: Video wrist monitor connected to a video camera; assistive listening devices not for medical purposes, namely, headphones, microphones, transmitters and receivers; Internet Protocol video encoders; electrical cables; speaker distribution boxes to distribute audio input to multiple speakers.

Applicant hereby submits the redline version of the proposed amendment to Serial No. 85/531,110 as follows, with goods to be deleted in strikethrough and with additional limiting language shown in underlining:

Class 9: ~~Audio and video processors;~~ cameras; microphones; amplifiers; ~~touchscreen monitors;~~ digital audio/video recorders; ~~personal computers;~~ digital signage; electrical power strips; electrical power transformers; audio and video distribution amplifiers; electrical control boxes with system control buttons; transcription devices, namely, a foot pedal that controls computer software for the transcription of audio and video recordings; proprietary computer software for controlling the operation of audio and video devices specifically enabled to run and execute the proprietary software; proprietary computer software for publishing to other media audio recordings and video recordings to other media specifically created by the proprietary software; computer software for scheduling audio recording sessions and video recording sessions; proprietary computer software for searching and locating audio and video recordings stored in a database and specifically created by the proprietary software; proprietary computer software to

play back and/or view audio recordings and video recordings specifically created by the proprietary software; proprietary enterprise software for controlling and managing the storage and retrieval of audio and video recordings on a computer server and specifically created by the proprietary software; computer software for transcribing audio recordings and video recordings.

The clean version of the proposed amendment to Serial No. 85/531,110 is as follows:

Class 9: cameras; microphones; amplifiers; digital audio/video recorders; digital signage; electrical power strips; electrical power transformers; audio and video distribution amplifiers; electrical control boxes with system control buttons; transcription devices, namely, a foot pedal that controls computer software for the transcription of audio and video recordings; proprietary computer software for controlling the operation of audio and video devices specifically enabled to run and execute the proprietary software; proprietary computer software for publishing to other media audio recordings and video recordings specifically created by the proprietary software; computer software for scheduling audio recording sessions and video recording sessions; proprietary computer software for searching and locating audio and video recordings stored in a database and specifically created by the proprietary software; proprietary computer software to play back and/or view audio and video recordings specifically created by the proprietary software; proprietary enterprise software for controlling and managing

the storage and retrieval of audio and video recordings on a computer server and specifically created by the proprietary software; computer software for transcribing audio recordings and video recordings.

Applicant believes it has fully responded to the Board's order. Therefore, Applicant respectfully requests Board approval to the amendment of Application Serial No. 85/531,119 and Application Serial No. 85/531,110 without prejudice.

Date: June 13, 2014

Respectfully submitted,

/Monica L. Dias/
