Opposition No. 91210075

InterCommunications, Inc.

v.

Intercom, Inc.

By the Trademark Trial and Appeal Board:

On September 2, 2014, applicant filed a revised proposed amendment to its application Serial No. 85580111, with opposer's consent, and opposer's withdrawal of the opposition, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to amend the identification of goods in International Class 9 as follows:

from

"Computer software platforms for use in customer relationship management (CRM); computer communications software used for customer relationship management"

to

"Computer software platforms for use in customer relationship management (CRM); computer communications software used for customer relationship management, all of the foregoing software goods for communicating directly with customers over the Internet and other communications networks."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, the amendment is approved and entered. *See* Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed in accordance with the agreement between the parties.
