SB Phillips LLC

v.

Natalie Lee

By the Trademark Trial and Appeal Board:

On December 31, 2013, applicant filed the parties' stipulation to amend applicant's involved application Serial No. 85465171 and to withdraw the opposition without prejudice upon entry of the amendment.

By the proposed amendment, applicant seeks to change the recitation of services **from** "restaurant and catering services" **to** "deli, café, and catering services."

The amendment is limiting in nature, as required by Trademark Rule 2.71(a). Because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a). In view of such entry, the opposition is dismissed without prejudice.
