APPLICANT)	

Opposer filed with the United States Patent and Trademark Trademark Trial and Appeal Board a proper and complete Notice of Opposition.

Opposer then filed a Reply showing that, according the both rules and regulations of the United States Patent and Trademark Office and the laws of the United States, his Notice of Opposition was complete and met his burden of proof at that stage in the proceedings.

Opposer did file properly with the United States Patent and Trademark Office as well as mailing a copy of these and all other actions with Applicant according to procedure and law.

Applicant, in a last attempt to prevent the truth behind Opposer’s claims from being presented, now claims three months later that the Opposer not only did not mail the Notice of Opposition but that he never mailed *anything* to Applicant.

Opposer if aware of the severity of making a claim of Certificate of Service and has complied with his affirmations.

Opposer is shocked but not surprised at this response from the Applicant as he shows that the fourth claim in his Notice of Opposition states that Applicant has “misrepresented evidence

in a willful intent to deceive the USPTO in its prosecution of the applications for registration of the mark as applied for.”

The Notice of Opposition and all filings by Opposer are proper and he is prepared to substantiate all the claims, including previous misrepresentations of truth and fact by Applicant.

This, the 26th day of August, 2013.

Respectfully submitted,

/Chris Economides III/
