Opposition No. 91211515

Insight Pharmaceuticals, LLC

v.

Despharma Kft.

George C. Pologeorgis,
Administrative Trademark Judge:

On January 21, 2016, Opposer filed a consented motion to re-suspend this proceeding for an additional 180 days to allow the parties to continue with their settlement negotiations.

The Board notes that since December 2013, the parties have effected numerous stipulations to suspend this proceeding to accommodate the parties' settlement negotiations, yet settlement has still not been reached. Accordingly, consideration of Opposer's January 21, 2016, consented motion to suspend for settlement is deferred until the parties submit a status report of their settlement activities thus far. Such report **must include** (1) a recitation of issues that have been resolved; (2) identification of the settlement activities which have occurred for **each month since December 2013**, including all dates on which the parties communicated, and the method of each communication (e.g. telephone, email, in person meeting), as

well as the general nature of each communication;¹ (3) the issues that remain to be resolved; and (4) a proposed timetable for resolution of the unresolved issues.

The Board will carefully scrutinize the status report to determine whether the parties have made significant progress towards settlement, particularly since the Board has already afforded the parties a period of two years to settle this matter. If the Board finds that significant progress toward settlement has not been made, the Board may deny Opposer's January 21, 2016, consented motion to suspend for settlement.

The parties are allowed until **February 12, 2016** in which to submit the status report mandated above, failing which the Board will give no further consideration to Opposer's January 21, 2016, consented motion to suspend for settlement.

Proceedings are otherwise suspended pending the parties' response to this order.

¹ If no settlement activity has occurred for any month since December 2013, the parties must explain why no settlement activity occurred.
