Opposition No. 91211954

Clontech Laboratories, Inc.

v.

New England Biolabs, Inc.

**M. Catherine Faint,
Interlocutory Attorney:**

On April 9, 2014, applicant filed a proposed amendment to its application Serial No. 85787100, with opposer's consent.

By the proposed amendment applicant seeks to amend the identification of goods from

"Molecular biology reagents, namely, enzymes or enzyme buffers for use in the biotechnology field"

to

"Molecular biology reagents, namely, enzyme reagents or enzyme buffers for use in the biotechnology field, excluding enzyme reagents for the generation of cDNA from an RNA template".

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, the amendment is approved and entered. *See* Trademark Rule 2.133(a).

If the amendment resolves this proceeding, opposer is allowed until thirty days from the mailing date of this order to file a withdrawal of the opposition,

Opposition No. 91211954

failing which the opposition will go forward on the application as amended. *See* Trademark Rule 2.106(c).

If no response is filed, proceedings will be resumed and dates reset, as appropriate.

Proceedings are otherwise suspended.
