Opposition No. **91212759**

Tytex A/S

v.

TyTek Industries Inc.

On January 2, 2014, opposer filed applicant's proposed amendment to its **application Serial No. 85223078**, with opposer's written consent, and opposer's withdrawal of the opposition, contingent upon entry of the amendment.

By the proposed amendment, applicant seeks to change the identification of goods in International Class 10 as follows (deletions in bold type):<sup>1</sup>

**From:** Medical devices, namely, resuscitators, intubation equipment, chest decompression kit comprised of needle and catheter, **compression bandages**, pharyngeal suction devices, stretchers; in International Class 10.

**To:** Medical devices, namely, resuscitators, intubation equipment, chest decompression kit comprised of needle and catheter, pharyngeal suction devices, stretchers; in International Class 10.

---

<sup>1</sup> The unopposed goods in International Class 5 remain unchanged.

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, it is **APPROVED** and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is **DISMISSED** in accordance with the agreement between the parties.
