In the matter of trademark application Serial No. 85/850,446  
For the mark RUSH  
Published in the Official Gazette on August 27, 2013

Rush University Medical Center,	
Opposer,	
v.	
Ability Dynamics, LLC,	
Applicant.	

**NOTICE OF OPPOSITION**

Rush University Medical Center is an Illinois Non-Profit Corporation, with its principal place of business at 1653 West Congress Parkway, Chicago, Illinois 60612 (“RUMC” or “Opposer”); and through its counsel, McDermott Will & Emery LLP; 227 West Monroe Street; Chicago, Illinois 60606, hereby states that it will be damaged by registration of the mark RUSH, covered by U.S. Application Serial Number 85/850,446, filed by Ability Dynamics, LLC (“Applicant”), and therefore files this Notice of Opposition to the application.

The grounds for this Opposition are as follows:

1. Ability Dynamics, LLC seeks to register RUSH as a trademark for prosthetic limbs, namely, prosthetic feet; artificial joints; artificial limbs; orthoses and artificial limbs in International Class 10.
2. RUMC encompasses a 664-bed hospital serving adults and children. In addition, Rush University is home to one of the first medical colleges in the Midwest and one of the nation’s top-ranked nursing colleges, as well as graduate programs in allied health, health systems management and biomedical research.

3. A unique combination of research and patient care has earned RUMC national rankings in 9 of 16 specialty areas (including #10 in orthopedics) in U.S. News & World Report’s 2013-14 America’s Best Hospitals issue, among other recognitions of its quality of care and accreditations. Ranked among the best orthopedic programs in the country by U.S. News & World Report, RUMC is home to nationally-respected orthopedic surgeons whose research, discoveries and leading-edge therapies are benefiting patients around the world.

4. RUMC has been part of the Chicago landscape longer than any other health care institution in the city. In fact, Rush Medical College received its charter on March 2, 1837, two days before the city of Chicago was incorporated. For over 175 years, RUMC and its predecessor entities have been using the RUSH word mark and trade name, and related service marks and logos in connection with its services.

5. Consistent with its emphasis on RUSH as the primary identifier for its services, RUMC owns many federal registrations for marks based on or including RUSH, all of which are listed in the following schedule (together, the “RUSH Marks”):

6. Opposer has expended substantial sums and resources to advertise and promote its goods and services under the RUSH Marks.

7. By reason of Opposer's widespread advertisement, promotion and sale of Opposer's services under the RUSH Marks for so many years, the RUSH Marks are famous throughout the United States, and Opposer has developed substantial goodwill in the RUSH Marks.

8. Notwithstanding Opposer's prior use of and rights in and to the RUSH Marks, on February 14, 2013, Applicant filed U.S. Application Serial No. 85/850,446, for registration of the mark RUSH for use in connection with prosthetic limbs, namely, prosthetic feet; artificial joints;

artificial limbs; orthoses and artificial limbs in International Class 10. That application was published in the Official Gazette (Trademarks) of the United States Patent and Trademark Office on August 27, 2013. Opposer obtained an extension of time to file this Notice of Opposition through October 26, 2013. Therefore, this Opposition is being timely filed.

9. Opposer's Marks are registered for hospital services and related goods and services. Among its registrations (noted above) are the following that include scientific and medical research: RUSH UNIVERSITY (Reg. No. 3,715,568) and RUSH UNIVERSITY MEDICAL CENTER (Reg. No. 3,204,337). Among the by-products of scientific and medical research in the orthopedic field are improved designs for prosthetic limbs, artificial joints and orthoses.

10. Applicant has stated in its application that it uses the RUSH mark for prosthetic limbs, namely, prosthetic feet; artificial joints; artificial limbs; orthoses and artificial limbs, all of which are goods related to the services offered in connection with Opposer's RUSH Marks. On information and belief, Applicant's goods are prescribed by physicians and delivered to patients through the same channels of trade as the services offered by Opposer under the RUSH Marks.

11. Applicant's RUSH mark is identical to Opposer's RUSH Marks.

12. Because Applicant's RUSH mark is identical to Opposer's RUSH Marks, purchasers, including physicians and patients, are likely to believe that Applicant's RUSH products are related to, affiliated with or extensions of the services offered under Opposer's RUSH Marks or endorsed or sponsored by Opposer.

14. Applicant further states that it has been using its RUSH mark in commerce since June 1, 2012. Opposer and its predecessors have been using its RUSH Marks for over 175 years.

15. Accordingly, Applicant's registration and use of the mark RUSH is likely to cause confusion in the minds of consumers or to cause mistake or to deceive, or otherwise injure,

diminish or detract from the prior rights firmly established by Opposer in and to the RUSH Marks, and will seriously damage Opposer and its goodwill and reputation.

16. Opposer's RUSH Marks are famous, and the registration of Applicant's RUSH mark is likely to injure Opposer's business reputation and tarnish and dilute the distinctive quality of Opposer's famous trade name and registered RUSH Marks.

WHEREFORE, Opposer believes that it will be damaged by registration of Applicant's mark and prays that it be denied.

Respectfully submitted,

Rush University Medical Center
