v.

AnalysisIQ

On March 3, 2014, the parties filed applicant's proposed amendment to its application Serial No. 85461842, with opposer's consent, and opposer's withdrawal of the opposition, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to change the recitation of services,

from "Conducting after school tutoring programs; Education services, namely, providing tutoring in the field of Reading, Writing, Science, Math, Study Skills, Standardized Test Preparation and Homework Support "

to "Conducting after school tutoring programs; Education services, namely, providing tutoring in the field of reading, writing, science, math, study skills, standardized test preparation and homework support; all of the foregoing services marketed, sold, and rendered only to individuals and group lessons offered to unaffiliated individuals or students affiliated with a public or private school or school district, but specifically excluding groups associated due to an employment relationship."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed in accordance with the agreement between the parties.
