j2 Global, Inc.

v.

KeepSafe Software, Inc.

**By the Trademark Trial and Appeal Board:**

On December 9, 2014, applicant filed a proposed amendment to its application Serial No. 85906972, with opposer's consent, and opposer's withdrawal of the opposition without prejudice, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to amend the identification of goods in International Class 9:

**From** Computer application software for mobile phones, namely, software for importing, hiding and locking photo images, videos and sms messages

**To** Computer application software for mobile phones, namely, privacy software for importing, hiding and locking photo images, videos and SMS messages of individual users from view, the aforementioned goods not including computer programs for use in processing data in the fields of disaster recovery, data archival and data backup, database management software for use in the fields of disaster recovery, data archival, and data backup, and computer programs for providing remote data archival and backup

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, the amendment is approved and entered. *See* Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed without prejudice in accordance with the agreement between the parties.
