Opposition No. 91216476

Jaguar Land Rover Limited

v.

Pismo Labs Technology Ltd

Cheryl S. Goodman, Interlocutory Attorney:

On September 23, 2014, applicant filed a proposed amendment to its application Serial No. 86114833, with opposer's consent.

By the proposed amendment applicant seeks to amend the identification of goods in International Class 9 as follows:

from

"Broadband wireless equipment, namely, telecommunications base station equipment for cellular and fixed networking and communications applications; Communication software for providing access to the Internet; Communications software for connecting network devices; Computer software and hardware for managing and configuring network equipment; Computer software for accessing information directories that may be downloaded from the global computer network; Computer software for administration of computer local area networks; Computer software for managing and configuring network equipment that may be downloaded from a global computer network; Computers for network management; LAN (local area network) operating software; Network access server operating software; VPN (virtual private network) operating software; WAN (wide area network) operating software; Wireless controllers to monitor and control the functioning of other electronic devices"

to

"Broadband wireless equipment, namely, telecommunications base station equipment for cellular and fixed networking and communications applications; Communication software for providing access to the Internet; Communications software for connecting network devices; Computer software and hardware for managing and configuring network equipment; Computer software for accessing information directories that may be downloaded from the global computer network; Computer software for administration of computer local area networks; Computer software for managing and configuring network equipment that may be downloaded from a global computer network; Computers for network management; LAN (local area network) operating software; Network access server operating software; VPN (virtual private network) operating software; WAN (wide area network) operating software; Wireless controllers to monitor and control the functioning of other electronic devices, all of the foregoing excluding for use in connection with motor vehicles but including gateways, routers and computer control hardware in connection with managing wireless connectivity in motor vehicles."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, the amendment is approved and entered. *See* Trademark Rule 2.133(a).

If the amendment resolves this proceeding, opposer is allowed until thirty days from the mailing date of this order to file a withdrawal of the opposition, failing which the opposition will go forward on the application as amended. *See* Trademark Rule 2.106(c).

If no response is filed, proceedings will be resumed and dates reset, as appropriate. Proceedings herein are otherwise suspended.
