By the Trademark Trial and Appeal Board:

On October 29, 2015, applicant filed a proposed amendment to its application Serial No. 86227701, with opposer's consent, and opposer's withdrawal of the opposition, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to amend the identification of goods from "Computer hardware and software for use in the storage, transmission, processing, and management of data over computer networks within the field of data storage" to "Computer hardware and software for use in the storage, transmission, processing, and management of data over computer networks within the field of data storage, excluding database application software."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, the amendment is approved and entered. *See* Trademark Rule 2.133(a).

Opposition No. 91220358

The contingency in opposer's withdrawal having now been met, the opposition is dismissed in accordance with the agreement between the parties.
